1 INTRODUCTION

1.1 Overview

The Los Angeles County Metropolitan Transportation Authority (Metro) formally initiated the Draft Environmental Impact Statement/Environmental Impact Report (EIS/EIR) phase in summer 2017 with public scoping meetings held along the corridor. In March 2018, the Metro Board authorized further study of an additional four Northern Alignment Options in response to comments received during the scoping period and ongoing technical analysis. These new options were presented to the community for input during the Winter/Spring 2018 Community Update Meetings. On May 24, 2018, the Metro Board selected two Northern Alignment Options–Option E (Alameda Underground) and Option G (Downtown Transit Core)–to be carried into the Draft EIS/EIR for further study.

As a result of the new Northern Alignment Options, Updated Scoping Meetings were held in July 2018 as they are an important step in the preparation of a Draft EIS/EIR in accordance with federal/state requirements, as shown in Table 1.1. These meetings provided an opportunity for the public to be updated on the refinements to the northern alignments and allowed the project team to receive additional feedback.

2 OUTREACH ACTIVITIES LEADING UP TO AND DURING UPDATED SCOPING MEETINGS

Prior to the Updated Scoping Meeting series, and after the Winter/Spring 2018 Community Update Meetings, the outreach team conducted outreach at six community events throughout the corridor. The outreach provided communities with general project information and allowed for the collection of comments during the formal Scoping Comment Period. These activities (Table 2.1) were in conjunction with outreach activities for the West Santa Ana Branch (WSAB) Transit-Oriented Development Strategic Implementation Plan, and each event featured information on both projects. The project team also met with Corridor Community Agency staff leading up to the Updated Scoping Meetings; a list of those meetings is available in Table 2.2. Key stakeholders briefings and presentations are provided in Table 2.3, and a list of information booths at community events is provided in Table 2.4.

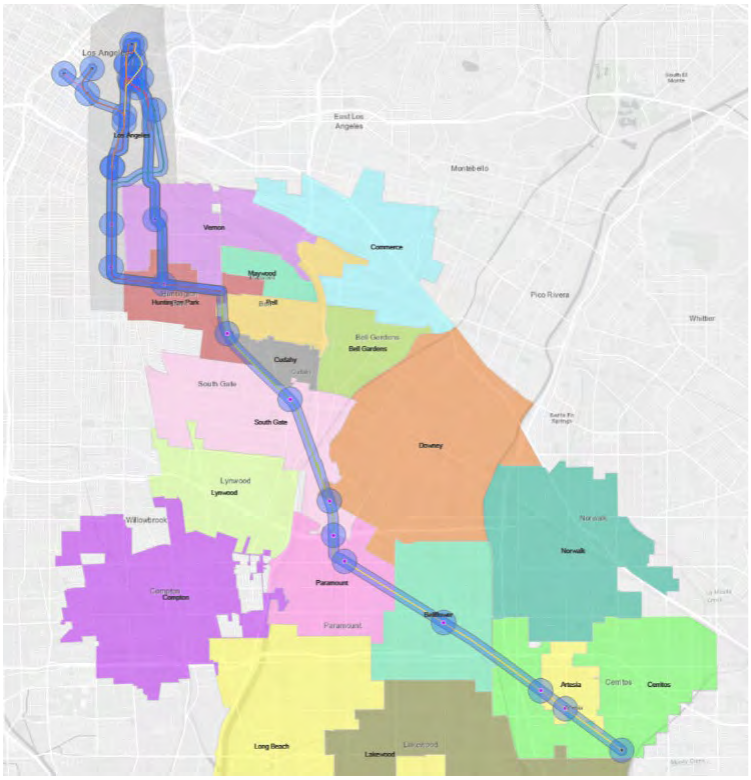
3 NOTIFICATION OF UPDATED SCOPING MEETINGS

To promote maximum public awareness, a variety of noticing methods was implemented in advance of the Updated Scoping Meetings. These included delivering meeting notices door-to-door along the entire project corridor and mailing notices, electronic distribution, display advertisements, media coverage, social media, stakeholder coordination, briefings, legal notices, and distribution of the updated Notice of Preparation (NOP). All forms of noticing provided meeting details (dates, times, locations, and language services), as well as contact information for accessing additional project details. Additionally, each notice included information on the recorded presentation.

3.1 Delivery of Tri-fold Meeting Notices

Full-color tri-fold notices (Appendix A) for the Updated Scoping Meetings were hand delivered door-to-door to approximately 27,000 occupants of properties located within 500 feet from the project alignment and a one-quarter-mile radius surrounding each proposed station location (Figure 3-1). The distribution of these notices started on July 11, 2018, and was completed by July 13, 2018.

Figure 3-1. Walking Man Notification Area



3.2 Mailed Notices

Figure 3-2.Tri-Fold Notices

Full-color tri-fold notices (Appendix A) for the Updated Scoping Meetings were mailed out to approximately 9,162 stakeholders listed in the Project's database. Additionally, notices were sent to property owners who own but do not reside at a property within 500 feet of the corridor and one-quarter of a mile from each station area.

3.3 Extended Outreach

Arellano Associates took the lead with extended outreach efforts (Appendix B) that included communication with key stakeholders to provide suggested methods of sharing the meeting series information. Arellano Associates prepared a Communications Toolkit that contained suggested copy-ready text for stakeholders to share with their constituents through various communication platforms, including websites, calendar events, social media posts (Facebook, Twitter, Nextdoor) and newsletters. Metro Government Relations handled correspondence with elected officials and their staff regarding the Project. The toolkit was approved by Metro and distributed by Arellano Associates staff along with promotion images for the meetings series. Key target contacts included chambers of commerce, school districts, environmental

justice groups, community groups, businesses and business associations, academic institutions, and other local interest groups involved in transportation, environmental sustainability, and social issues in the region. For a full list of the organizations that were sent an extended outreach toolkit, see Appendix H.

3.4 E-blast Notices

An electronic version of the meeting notice (Appendix C) was distributed via e-blast to 2,994 email contacts in the project database. The initial notice was sent on July 11, 2018, and reminders were sent on July 19, July 23, and July 30 in advance of the first, second, and third meetings (Table 3.1).

In addition, following the meetings an e-blast was sent following to 3,065 contacts to thank participants for their participation, as well as to provide access to the information shared at the Updated Scoping Meetings. This included a link to the video recording of the presentation. Additionally, the e-blast encouraged recipients to provide comments prior to the August 24, 2018 Scoping Comment Period deadline.

3.5 Display Advertisements

Display advertisements (Appendix D) were featured in several online and print publications to advertise the public scoping meetings to communities within the project area. The advertisements were featured in local newspapers, newspaper websites, and on Facebook (Table 3.2). Print advertisements are listed in Table 3.3.

3.6 Social Media Advertisements

An initial social media advertisement (Appendix D.3) was developed and distributed on Facebook between July 13 and July 31, 2018 (Table 3.4). An additional ad was distributed on Facebook following the meetings to encourage stakeholders to submit their comments before the Scoping Comment Period ended (Figure 3-3).

3.7 Earned Media

The extended outreach efforts generated a significant amount of interest amongst stakeholders. Community groups, agencies, and media outlets learned of the meetings and were instrumental in sharing meeting information through various communication platforms, including on websites and social media. Table 3.5 lists the Project's earned media (Appendix E) through the extended outreach efforts lasting through the scoping period.

3.8 Social Media

In addition to paid social media advertising, organic posts from the Project's Facebook and Twitter account were posted throughout the meeting series (Appendix F). From July 11 through August 24, 2018, the Metro WSAB Facebook page sent out 15 updates, including posts about the Updated Scoping Meetings and other project-related events. The Metro WSAB Twitter page sent out 16 Tweets regarding the Project (Table 3.6).

3.9 Legal Advertisements

Per National Environmental Policy Act and California Environmental Quality Act requirements, legal advertisements (Appendix D.3) were placed in local newspapers to inform the public about the Updated Scoping Meetings and comment period. A total of 5 community papers were identified and selected to run the legal advertisements. These community papers were selected based on their coverage areas. To address community language needs, legal advertisements were also published in Spanish and Japanese. Table 3.7 identifies the details for each publication that featured a legal advertisement.

3.10 Distribution of the Notice of Preparation

A revised NOP for WSAB was shared with agency staff on the first day of the Updated Scoping Comment Period (July 11, 2018) to provide an updated project description. After that initial distribution, additional revisions were made to the NOP that required a second distribution of the updated NOP before the end of the Scoping Comment Period. The purpose of the revised NOPs was to inform the public of the Metro Board decision to eliminate Alternatives A, B, C, and D, and Concepts F and H from further study, and carry forward Northern Alignment Concepts E and G into the Draft EIS/EIR process as the new Northern Alignment Alternatives. The revised NOP further explains the Project and the EIS/EIR.

4 UPDATED SCOPING MEETINGS

4.1 Meeting Format

The meetings consisted of open house segments before and after the presentation (Appendix G) and formal public comments at the Updated Scoping Meetings. The first 30 minutes of the meetings offered an open house format that allowed participants the opportunity to review project information, engage with project representatives, provide comments, and ask questions. The project team made a brief presentation and then opened into a formal oral public comment segment that was documented by a court reporter. The court reporter was also made available throughout each of the meetings for public participants that preferred to offer their oral comment on a one-on-one basis instead of presenting their oral comments in front of the entire audience.

The meetings featured collateral materials (Appendix H) in English, Spanish, and Japanese. Copies of the presentation and display boards were made available in English, Spanish, and Japanese to hand out when requested. Spanish and Japanese interpreters also support the meetings, along with additional Spanish-speaking outreach staff. A special request for a sign language interpreter was provided for the July 31 meeting in Bellflower.

4.2 Technical Advisory Committee Meeting

A TAC meeting was held prior to the start of the Updated Scoping Meetings that featured similar information as what was presented to the public. TAC meeting participation included key agency staff from local, county, state, and federal agencies that have a stake in the Project.

4.3 Program and Agenda

Table 4.1 through Table 4.2 detail for the TAC Meeting and the Updated Scoping Meeting series that were held in July 2018 (Appendix I). Each of the following provided the public agenda with the expanded internal schedule detailing the meeting set-up, staff arrival, start/end-times, and breakdown.

4.4 Information Stations

As part of the program for the Updated Scoping Meetings, the meetings featured information and resource stations with display boards (Appendix J), roll plots (Appendix K), and other exhibits. The information stations were placed around the room by topic and were

staffed throughout the entire open house portions of the meetings, including the time indicated on the agenda before and after the formal presentation. These stations provided a platform for participants to interact with the project team to have their questions answered and to provide information that is catered to their level of interest. Attendees visited each station at their leisure, including before and after the presentation. Questions were handled individually and informally, and attendees were encouraged to submit all comments and questions in writing via comment forms, court reporter, or the available project communication methods.

Table 4.5 provides an overview of the information stations that were presented at the meetings. Following the meetings, all of the materials were uploaded to Metro's project website (metro.net/wsab). The materials for the information stations were developed by WSP, the technical contractor on the Project, and reviewed and approved by Metro.

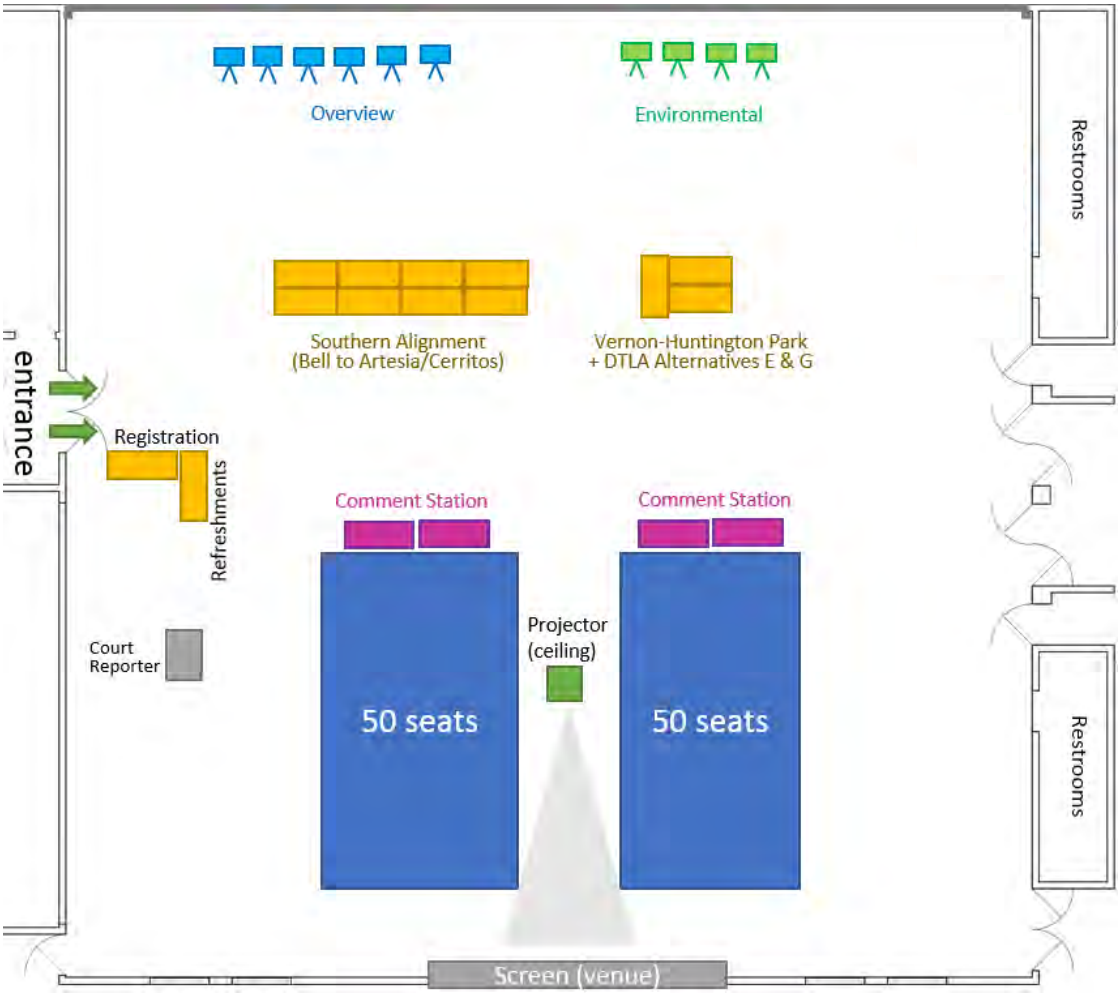
Figure 4-1 provides a sample layout from one of the meetings that highlights the information station layout at the meetings.

Figure 4-1. Sample Meting Floor Plan



4.6 Formal Presentation

The formal presentations (Appendix G) occurred half an hour after the publicized start time. A facilitated public comment period was held to ensure all participants had the opportunity to provide comments on the Project.

4.7 Public Comments

Capturing public comments was a central objective of the Updated Scoping Meetings Series. As such, participants were encouraged to submit their comments in a variety of methods, including the following:

1. Written comments at the meetings
2. Oral testimony during comment segment following the presentation at the Updated Scoping Meetings
3. One-on-one oral testimony with the court reporter for participants who did not want to provide their comment in front of the audience
4. Comment submittal via project email, website comment form, and mail (letters/comment form) before the end of the Scoping Comment Period (August 24, 2018)

4.8 Interpreters

Spanish interpreters were available at each of the Updated Scoping Meetings, and additional Spanish-speaking staff were available to provide additional support. A Japanese interpreter was present for the downtown Los Angeles meeting to accommodate stakeholders from the Little Tokyo community and an American Sign Language interpreter was provided for the July 31 meeting in Bellflower. An informational packet was also made available with all the materials (exhibit boards and PowerPoint presentation) translated to Spanish and Japanese. Meeting notices included Metro's standard 72-hour window for any language and other special accommodation requests.

4.9 Additional Features and Resources

4.9.1 Registration/Handouts

All participants were asked to sign-in and as part of the registration process received all available project handouts (Appendix H), including but not limited to, the following:

- Project Overview Fact Sheet (Summer 2018)
- "Modes" Fact Sheet (Summer 2018)
- Comment Sheet
- Speaker Card
- Scoping Meeting Notice (contains commenting instructions valid through August 24, 2018)
- FAQs (optional handout available upon request at registration; updated Summer 2018)

4.9.2 Public Comment Tables

Tables with Scoping Comment cards (Appendix L) and a submittal box were placed at convenient locations throughout the meeting rooms. The comment cards were also designed

to allow the participants the option to mail those same scoping cards before the end of the Scoping Comment Period (August 24, 2018). Written or electronic comments were encouraged of all meeting participants.

4.9.3 Media Packets

A packet with all the meeting handouts was available to any participating members of the media. Metro's Community Relations Manager for this Project was the media relations point of contact. Metro's media relations staff prepared and distributed a press release leading up to the Public Information Meetings, and outreach staff were available for assistance when necessary.

5 SUMMARY OF PUBLIC SCOPING PARTICIPATION PER MEETING

5.1 Meeting #1: Downtown Los Angeles – July 24, 2018

The July 24, 2018 Updated Scoping Meeting held at the Los Angeles Athletic Club, generated a turnout of approximately 80 participants (of these, approximately 67 attended the first presentation) (Appendix K.1). Table 5.1 highlights some of the representatives and stakeholder organizations at the meeting.

5.4 Video Recording of the Presentation

In addition to the public meetings, a video recording of Updated Scoping Meeting #3 in Bellflower (July 31, 2018) was produced and uploaded to the Metro Ustream channel for stakeholders who were unable to attend the meeting. A link to the recording was posted on the Metro WSAB Project website as well as the Project's Facebook and Twitter pages. A link to the video was also included in the thank you e-blast that was sent out the week after the

conclusion of the meetings series. As of October 1, 2018, the video recording had generated approximately 302 views.

6 SUMMARY OF UPDATED SCOPING COMMENTS

6.1 Summary of Scoping Comment Submittal Totals

Comments received through the updated public scoping process were documented, and Table 6.1 and Figure 6-1 provide a breakdown of the number of comments, submission method, and key themes identified. Comments were collected beginning July 11, 2018, and were collected through August 24, 2018. During this period, 258 comments were submitted via mailed letters, emails, website comment forms, oral testimony provided at meetings, and comment cards at the Updated Scoping Meetings. All comments are available to view in Appendix L.

6.3 Scoping Comment Totals by Environmental Categories

Table 6.3 and Figure 6-4 denote which environmental categories were addressed in each of the comments. The number totals in the table and graphic below do not represent a total number of comments, but the number of times each category was addressed overall. A large portion of comments submitted addressed multiple categories.

Table 6.3. Scoping Comment Totals by Environmental Category

Environmental Category	Description	#	%

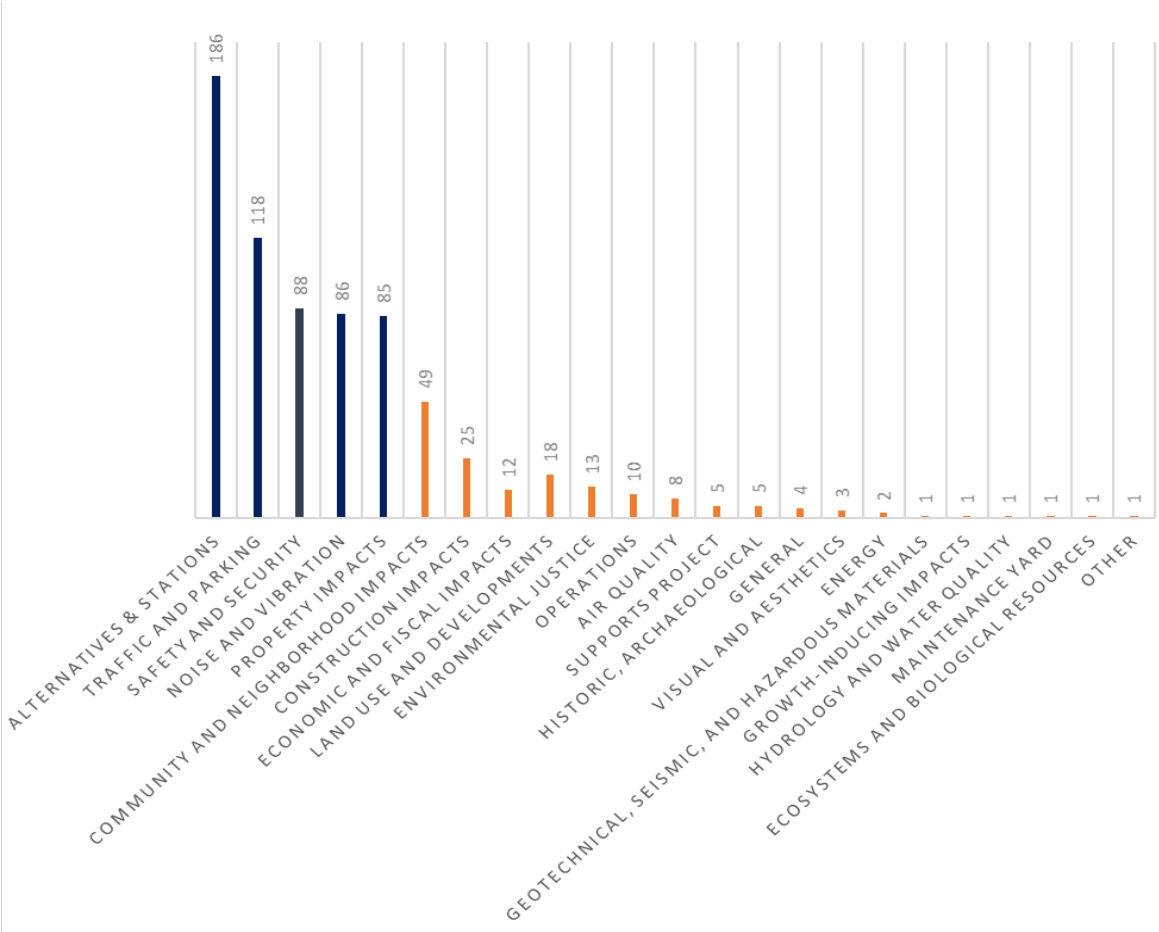
Figure 6-4. Scoping Comment Totals by Category (Graphic Summary)



6.4 Comment Totals by Support Level

Table 6.4 highlights the support level indicated by the submitted comments. Comments that did not indicate support or opposition are not included in the charts below, but represented approximately 23 percent of the comments received.

Table 6.4. Scoping Comment Totals by Support Level

Support/Opposition	Description	%
Opposed – Partial	Comments that were partially opposed to the Project	30%

Figure 6-5. and Figure 6-6 are graphic representations of support and opposition by stakeholders and corridor organizations. A large portion of comments received from Little Tokyo and the City of Cerritos were from comments that generally included the same standardized comment language. Figure 6-6 shows the support/opposition percentages without the data from the comment forms.

Figure 6-5. Scoping Comments by Support/Opposition

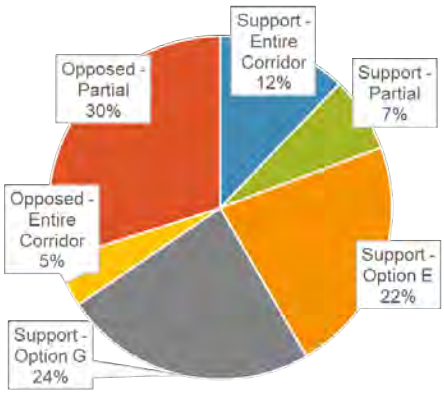

Figure 6-6. Scoping Comments by Support/ Opposition – Without Comment Form Data

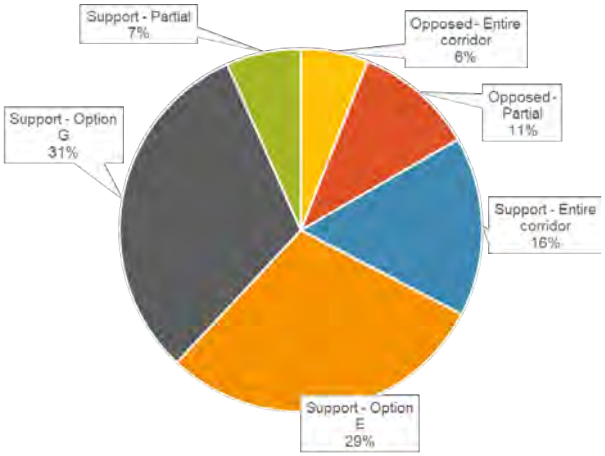

6.5 Community Comments Summaries

The following summaries were compiled from data from specific corridor cities. Breakout community summaries included in this report only highlight communities in which 10 or more comments came from residents of those communities or addressed specific concerns in that community. The summaries break down comments by submission source, environmental categories, and support/opposition of the Project. With the exception of Cerritos, most communities in the WSAB Corridor are more supportive of the Project and/or do not have a significant number of complaints or concerns with the Project.

6.5.1 Scoping Comments Summary – Cerritos

Stakeholders in the City of Cerritos submitted the most comments during the Updated Scoping Comment Period. Many of the comments submitted (43 of 74, or 58 percent) were comment form letters with the same language (Appendix C). A majority of comments submitted by Cerritos residents addressed noise and vibration, safety and security, alternatives and stations, and traffic and parking. Full comments are available in Appendix C. Cerritos residents comprise the most sizeable and critical opposition to the Project, specifically the planned at-grade line through the city and the proposed Gridley/183rd station location (refer to Figure 6-7 through Figure 6-10).

6.5.2 Scoping Comments Summary – Los Angeles

Stakeholders in the City of Angeles, primarily in downtown neighborhoods, submitted a significant number of comments concerning the Project. Little Tokyo residents submitted most of the comments of these downtown neighborhoods, and most concerned the potential impacts of Alignment E to their neighborhood. The majority of comments submitted by Los Angeles residents came through email, website comment forms, and mailed letters. The majority of comments from LA stakeholders concerned the alternative alignment options and station locations/impacts (refer to Figure 6-11 through Figure 6-14).

6.5.3 Comments Summary – Bellflower

Stakeholders in the City of Bellflower submitted 19 comments during this round of meetings, compared to 83 from Bellflower stakeholders during the first scoping period in 2017. Most concerns from Bellflower stakeholders centered around the at-grade rail impacts to traffic circulation (refer to Figure 6-15 through Figure 6-17).

6.5.4 Comments Summary – Paramount

Stakeholders in Paramount did not provide a significant number of comments during this round of Updated Scoping Meetings, but most of the comments centered around concerns with safety and security, noise and vibration impacts, traffic and parking impacts, and property impacts. There was not a significant number of stakeholders who provided comments that referenced their support or opposition to the Project (refer to Figure 6-18 and Figure 6-19).

6.5.5 Comments Summary – Cudahy

Comments from Cudahy came exclusively at the Updated Scoping Meeting held in Cudahy on July 25, 2018. Comments only touched on a few issues, including the station locations and traffic and parking. A comment about a potential site for the maintenance yard was also submitted from Cudahy Vice Mayor Christian Hernandez (refer to Figure 6-20 through Figure 6-22).

6.6 Agency and Organization Comments

In addition to comments submitted by the general public and stakeholder organizations, comments were submitted by several public agencies and organizations. The comment summaries in Table 6.5 and Table 6.6 are not all inclusive of each comment. For full comments, please see Appendix C.

Table 6.5. Agency Comments

Agency	Date	
City of Cerritos	07/17/2018	▪ City does not support a station located in city limits because of potential impacts to regional commercial properties. ▪ City supports relocation of station to Studebaker Road location and that station "secondary" and not as intense as other stations. ▪ At-grade crossings would create adverse impacts to city's traffic flow. ▪ Opposes parking structures located in Cerritos for Artesia station. ▪ Expand environmental analysis to include re-alignment of Del Amo Blvd at the County line, inclusive of the Del Amo Bridge.
City of Downey	08/03/2018	▪ Supports one-seat ride option (Option E). ▪ City recently completed Biomedical Overlay study and zone amendment to encourage growth of that industry. ▪ Downey and County of LA are working on plan to develop area around proposed Gardendale Station. Study identified the potential to extend Flores St to Garfield Ave (Metro should include this crossing in the construction cost of the line).
Native American Commission	08/08/2018	▪ Consult with all California Native American tribes that are culturally affiliated with the geographic area of the Project to avoid inadvertent discoveries of Native American remains.
City of South Gate	08/14/2018	▪ City supports elevated crossings at Atlantic Ave, Firestone Blvd, Imperial Highway, and Garfield Ave. ▪ Requests retaining walls on both sides of Firestone/Atlantic Station. ▪ Requests thorough analysis of parking needs and capacity for stations close to residential areas (Hollydale and I-105 stations). ▪ Railroad right-of-way has homeless encampments, and proposed aerial stations and crossings could provide shelter for new homeless encampments. Evaluate mitigation measures.

Agency	Date	
Eco-Rapid Transit	08/20/2018	▪ Design should maximize neighborhood connectivity. ▪ Stations should accommodate various modes and the surrounding streets designed to encourage safe active transportation and bus routes. ▪ Elevated tracks that move from at-grade to elevated slows the speed and efficiency of the line. Create visual dividers in communities. ▪ Do not include catenary system on line. ▪ Consider preserving or re-creating existing community pathways. ▪ Advanced fiber data lines need to be installed. ▪ Define betterments needed for upgrades at station areas. Cities need to define construction mitigation for the Project. ▪ Analyze impacts of temporary and permanent street closures with construction and at station areas. ▪ Draft EIS/EIR needs to address "cross-jurisdictional development" and assess cumulative impact for cities. ▪ Ensure Draft EIS/EIR considers the potential for creativity, cost savings, and operational improvements for proposed P3 process. ▪ Consider impacts to land values (gentrification). ▪ Will at-grade crossings allow for train to maximize headways and be cost effective? ▪ Majority of alignment along PE/WSAB right-of-way traverses major arterial streets. ▪ When were traffic counts taken? Have qualitative interviews taken place with schools or police? ▪ Evaluate impacts to cities' downtowns and emergency responders. ▪ Evaluate vehicular traffic, cycling and pedestrian delays, accidents, etc. How does traffic impact truck deliveries? ▪ Consider impacts to oil and gas line facilities. ▪ Consider impacts to major utilities or crossing major utility easements. How will the Project impact Vernon power plant? ▪ Is there a Plan B if the railroads do not make their right-of-way available for the Project. ▪ Consider impact of parking spillover into residential neighborhoods. ▪ What is plan to improve transit system connectivity? ▪ What are impacts to ridership from Northern Alignment Alternatives? ▪ Consider inclusion of Hazard Operability Study.

Agency	Date	
		▪ Ensure impacts and proposed mitigations are examined on a multijurisdictional and city-by-city basis. ▪ Special consideration for Rosecrans/Paramount Station and Downey Ave crossing because of proximity to Paramount High School. ▪ Document needs to capture school traffic issue in Huntington Park. ▪ Does EIS/EIR accurately reflect future growth in the City of Bellflower? ▪ Concerned about grade crossings at Firestone and Atlantic. South Gate prefers grade separation. ▪ Include analysis of future development opportunities at Gardendale Station area. ▪ Vernon is concerned about potential conflicts between rail and truck traffic. ▪ Consideration of moving Salt Lake/Florence Station north to minimize impacts to important intersection. ▪ Consider future connectivity to Glendale/Hollywood Burbank Airport.
City of Bellflower	08/21/2018	▪ Grade separate alignment and stations throughout City of Bellflower. ▪ Provide public outreach to mitigate business interruption during construction. ▪ Address safety and security needs at stations and on line. ▪ Analyze joint development of the station areas. ▪ Analyze expansion of bike/pedestrian path and trail facilities. ▪ Preserve local amenities and landmarks. ▪ Location of Bellflower Station should be on north side of PE right-of-way. ▪ Provide flexibility in matching funds requirements.
City of Paramount	08/22/2018	▪ Prefers grade separation of the line at the intersection of Paramount ant Rosecrans. ▪ Concerned about traffic and parking impacts. ▪ Metro must have in-depth dialogue with residents who live near alignment. ▪ City opposes right-of-way acquisition of Paramount Park or Paramount High School. ▪ Seeks Metro's assistance with funding completion of updates to existing specific plans. ▪ Concerned about pedestrian safety near alignment. ▪ Opposes right-of-way design that does not incorporate planned bikeway.

Agency	Date	
		▪ Ensure biological resources, geological, archaeological, tribal resources, hydrology, and water quality issues are addressed.
City of Huntington Park	08/23/2018	▪ Neighborhoods need to be protected from impacts from line. ▪ Line needs to be constructed with safety in mind. ▪ Better connectivity to open spaces and other active transportation projects. ▪ Concerned about additional utility needs. ▪ Concerned about traffic flow impacts. ▪ Consider impact to proposed Rail to River Project. How will the two projects coincide? ▪ Consider underground stations. ▪ Designed in a manner that does not divide community.
City of Bell	08/23/2018	▪ Consider design that will result in development of modern, efficient, and environmentally-friendly transit line from Artesia to Union Station. ▪ Consider and mitigate increased demand for utilities, housing prices, parking demand, etc. ▪ Concerned about gentrification. ▪ Traffic flow impacts are major concern.
Gateway Cities COG	08/24/2018	▪ Concurs with the comment analysis sent by the Eco-Rapid Transit Joint Powers Authority.
LA County CEO's Office	08/24/2018	▪ More parking for future Metro riders. ▪ Metro station planning should include multi-layered safety and security. ▪ First and last mile improvements should be made. ▪ Incorporate proactive-led planning and funding initiatives for first and last mile improvements. ▪ Consider other Metro line and transit connectivity. ▪ Recommends grade separation at Imperial Highway and Garfield Ave. ▪ Encourages soundwalls and landscaping mitigation. ▪ Stations should accommodate three-car trains.

Table 6.6. Key Organization Comments

Organization	Date	
St. Francis Xavier Japanese Catholic Center	07/24/2018	▪ Supportive of Option E with a portal being in the station as opposed to on Alameda.
Taira Investment Company	07/24/2018	▪ Supportive of Option E. ▪ Locate the portal by the Regional Connector.
Mineta & Associates	08/07/2018	▪ Combine new WSAB Little Tokyo Station with Regional Connector Station. ▪ Include access to Japanese American National Museum from future station.
Rafu Bussan	08/22/2018	▪ Concerned about continued decline in business from construction. ▪ Supports Option G to keep construction out of Little Tokyo.
Western Land Use and Transit Information Center	08/22/2018	▪ Avoid expensive tunneling and grade separation. Extend the line to Orange County. ▪ Project should encourage transit-friendly development.
First 5 LA	08/23/2018	▪ Concerned about property impacts and detrimental impacts on land value. ▪ Opposed to Metro acquiring any part of the First 5 LA's property. ▪ Project description is too vague. ▪ Concerned about short-term parking impacts.
Los Angeles Wholesale Produce Market	08/23/2018	▪ Concerned about impacts to Market and ancillary businesses. ▪ Address and mitigate impacts to Produce Market and surrounding businesses. ▪ Identify the extent of closures and temporary easements for construction.
Central City East Association	08/23/2018	▪ Consider future growth of downtown Los Angeles by employment and population. ▪ Most effective route for Alignment G would include transfer at Pershing Square and a new station along the Regional Connector at 5th and Flower. ▪ At-grade rail causes delays. ▪ Design line in a way that facilitates future expansion, potentially through Silver Lake or Glendale and Burbank Airport.
Chinese Historical Society of Southern California	08/24/2018	▪ Requests full and thorough historic and archaeological investigations defining boundaries of historic resources. ▪ Present appropriate mitigation measures for public review.

Organization	Date	
Little Tokyo Business Association	08/24/2018	▪ Supports Alignment Option E ending at Union Station. ▪ Consider a Little Tokyo WSAB station at Regional Connector site along Alameda that would connect to the Regional Connector Station platform. ▪ Consider station portal on existing Little Tokyo/Arts District Gold Line station on Alameda Street north of First Street and Temple Streets on the east side of Alameda Street and a second portal on the west side of Alameda Street. ▪ Include escalators and elevators at stations. ▪ Review negative impacts to businesses during construction. ▪ Build stations on existing Metro properties.
Little Tokyo Service Center	08/24/2018	▪ Concerned about negative impacts of construction, similar to those from Regional Connector. ▪ Concerned about noise and other pollution. ▪ Does not support cut-and-cover construction. ▪ Metro should hire consultant to break down information in Draft EIS/EIR and Final EIS/EIR and other technical documents to improve public participation. ▪ Off business mitigations.
Little Tokyo Community Council	08/24/2018	▪ Absolutely no taking of private land for the Project. ▪ Absolutely no above-ground impacts in Little Tokyo, including utility relocation and other pre-construction work. ▪ Mangrove site is off limits – no easements or property takes allowed. ▪ Metro must fix the Commercial St/Alameda intersection that already gets ▪ backed up due to the Express Lane. ▪ Pedestrian access must remain open on both sides of a street at all times. ▪ Opposed to cut-and-cover construction through Little Tokyo. ▪ Would only accept stations that are subterranean. ▪ Supports Route G because it keeps construction out of Little Tokyo. ▪ Provide business interruption fund. ▪ Cooperate with overlapping agencies in the area.

Organization	Date	
Greenlight Transit	08/24/2018	▪ Connect to Orange County. ▪ Alternatives do not make sense. ▪ Allow public to decide if the corridor could be serviced by Metrolink instead. ▪ Concerned about station designs.

WEST SANTA ANA BRANCH (WSAB) TRANSIT CORRIDOR PROJECT

Please join us to learn the latest updates and provide your feedback on the West Santa Ana Branch (WSAB) Transit Corridor Project, a new 20-mile light rail transit line that would connect downtown Los Angeles to southeast LA County.

Metro formally initiated the environmental studies through the Public Scoping Meetings held for the WSAB Transit Corridor Project in Summer 2017. Based on the feedback received through the public scoping period and ongoing outreach efforts, the Metro Board considered and took action on the Northern Alignment options.

As a result, the Updated Scoping Meeting Series is being conducted to receive formal public comments on the proposed project alternatives. Scoping meetings are an important step in the preparation of a Draft Environmental Impact Statement/Environmental Impact Report (EIS/EIR) in accordance with federal/state requirements.

The formal public scoping comment period ends on **Friday, August 24, 2018**. Written comments may be submitted via:

PROYECTO DEL CORREDOR DE TRANSPORTE DE WEST SANTA ANA BRANCH (WSAB)

Por favor acompáñenos para enterarse de las últimas actualizaciones y proporcionar su opinión sobre el Proyecto del Corredor de Transporte de West Santa Ana Branch (WSAB, en inglés), una nueva línea de transporte de tren ligero de 20 millas que conectaría el centro de Los Angeles al sureste del Condado de Los Angeles.

Metro inició formalmente los estudios ambientales a través de las Reuniones de Alcance Público para el Proyecto WSAB llevadas a cabo en el verano de 2017. En base a los comentarios recibidos durante el periodo de alcance público y esfuerzos continuos, la Junta Directiva de Metro consideró y tomó acción sobre las opciones de Alineamiento del Norte.

Como resultado, una serie de reuniones de alcance actualizadas se está llevando a cabo para recibir comentarios formales del público sobre las alternativas propuestas del proyecto. Las reuniones de alcance público son un paso importante en la preparación del Borrador de la Declaración/Reporte de Impacto Ambiental (EIS/EIR, en inglés) de acuerdo con los requerimientos federales y estatales.

*El periodo formal para comentarios públicos sobre el proyecto concluye el **viernes, 24 de agosto de 2018.** Los comentarios por escrito pueden ser remitidos a:*

SUBJECT: Notice of Preparation of a Draft Joint Environmental Impact Statement/ Environmental Impact Report

PROJECT TITLE: West Santa Ana Branch Transit Corridor Project

Los Angeles County Metropolitan Transportation Authority (Metro) will be the Lead Agency and will prepare a Draft Joint Environmental Impact Statement/Environmental Impact Report (EIS/EIR) for the project identified below. Metro needs to know the views of your agency as to the scope and content of the environmental information which is germane to your agency's statutory responsibilities in connection with the proposed project. The Lead Agency and Responsible Agencies will need to use the environmental documentation prepared by Metro when considering permits or other approvals for the project.

The project description, location, and the potential environmental effects are contained in the attached materials.

Due to the time limits mandated by State law, your response must be sent at the earliest possible date, but not later than 30 days after receipt of this notice.

Please send your response to Fanny Pan, Project Manager, at the address shown above. Metro will need the name for a contact person in your agency.

NOTICE OF PREPARATION OF A DRAFT JOINT ENVIRONMENTAL IMPACT STATEMENT/ENVIRONMENTAL IMPACT REPORT

DATE: MAY 25, 2017

TO: AGENCIES, ORGANIZATIONS AND INTERESTED PARTIES

SUBJECT: NOTICE OF PREPARATION (NOP) OF A DRAFT JOINT ENVIRONMENTAL IMPACT STATEMENT/ENVIRONMENTAL IMPACT REPORT

PROJECT TITLE: WEST SANTA ANA BRANCH TRANSIT CORRIDOR PROJECT

FROM: LOS ANGELES COUNTY METROPOLITAN TRANSPORTATION AUTHORITY (METRO)

PROJECT LOCATION AND ENVIRONMENTAL SETTING: The West Santa Ana Branch (WSAB) Transit Corridor (Project) is a proposed light rail transit (LRT) line that would extend approximately 20 miles from Union Station in the north toward the Los Angeles/Orange County line on the south. The proposed LRT line would connect Downtown Los Angeles to southeast Los Angeles County, serving the cities and communities of Arts District, Little Tokyo, Los Angeles, unincorporated Florence-Graham community of Los Angeles County, Vernon, Huntington Park, Bell, Cudahy, South Gate, Downey, Paramount, Bellflower, Cerritos and Artesia (see Figure 1 and 2). The Study Area includes some of Los Angeles County's most densely-developed and low-income residential neighborhoods and encompasses major regional employment centers, including the industrial and manufacturing backbone of the County.

PROJECT INITIATION: The Los Angeles County Metropolitan Transportation Authority (Metro) has initiated a Draft Joint Environmental Impact Statement/Environmental Impact Report (EIS/EIR) for the WSAB Transit Corridor Project pursuant to the California Environmental Quality Act (CEQA). Metro is the lead agency for the Project. The Federal Transit Administration (FTA) is the lead agency for the EIS. The Draft Joint EIS/EIR will be prepared in accordance with Section 15170 of the CEQA Guidelines. The purpose of this NOP is to alert interested agencies and parties to the preparation of the Draft Joint EIS/EIR, invite public participation in the EIS/EIR scoping process, and announce the public scoping meetings.

PROJECT OBJECTIVES: The Project will provide reliable transit service to meet the future mobility needs of residents, employees, and visitors who travel within Downtown Los

Angeles, and portions of the Gateway Cities subregion. This new transit service will increase mobility and connectivity for historically underserved, transit-dependent communities; reduce travel times on local and regional transportation networks; and accommodate substantial future employment and population growth. Objectives of the Project are to:

- Establish a reliable transit service that will enhance the connectivity of the existing transit network and reduce transit travel times to local and regional destinations.
- Accommodate future travel demand, including the high number of transit trips made by Study Area residents.
- Improve access for the densely populated neighborhoods, major employment centers, and other key regional destinations where future growth is forecasted to occur within the Study Area.
- Address mobility and access constraints faced by transit-dependent communities, thereby improving transit equity.

Figure 1. Project Map - Overview

Metro

Figure 2. Northern Alignment Options Map

PROJECT DESCRIPTION: The Project is a proposed LRT line that would extend approximately 20 miles from Downtown Los Angeles through southeast Los Angeles County, traversing densely populated, low-income and heavily transit-dependent communities. The Project would provide reliable, fixed guideway transit service that would increase mobility and connectivity for historically underserved, transit-dependent communities; reduce travel times on local and regional transportation networks; and accommodate substantial future employment and population growth. The Project would provide reliable transit service to meet the future mobility needs of residents, employees, and visitors who travel within the Study Area. The Project will analyze multiple potential alignments, including four alignment options in the northern section — Pacific/Alameda, Pacific/Vignes, Alameda, and Alameda/Vignes; the San Pedro Branch located in the central section of the Study Area; and the Metro-Owned Right-of-Way located in the southern section of the Study Area (See Figure 1). Upon final determination of an alignment option in the northern section, the Project would develop up to 15 rail stations along the LRT line. In addition, in the event that the WSAB line was to be extended to Orange County in the future, the Project will evaluate an optional station at Bloomfield Avenue (just north of the Los Angeles County-Orange County boundary). The Project may be constructed in one or more phases.

The Project is one of the many transit projects funded by Measure R (approved in November 2008) and Measure M (approved in November 2016). The Project is identified in Metro's 2009 Long-Range Transportation Plan.

ENVIRONMENTAL EFFECTS: The purpose of the EIS/EIR is to disclose the impacts of the Project on the environment. Key CEQA environmental factors to be addressed include:

- Aesthetics;
- Air Quality;
- Biological Resources;
- Cultural Resources (Historic, Archeological, Paleontological, and Tribal Cultural Resources);
- Geology and Soils;
- Greenhouse Gas Emissions/Climate Change;
- Hazards and Hazardous Materials;
- Hydrology and Water Quality;
- Land Use and Planning;
- Noise and Vibration;
- Population and Housing;
- Public Services;
- Parks and Recreation;
- Transportation and Traffic; and
- Utilities and Services.

Project design features and mitigation measures to reduce potentially significant impacts during construction and operation will be identified in the EIS/EIR.

SCOPING MEETINGS: Public scoping meetings to accept comments on the scope of the Draft Joint EIS/EIR will be held on the following dates and times:

Scoping Meeting # 1 Thursday, June 15, 2017 6:00 - 8:00 pm T. Mayne Thompson Park 14001 S. Bellflower Blvd. Bellflower, CA 90706	**Scoping Meeting # 2** Tuesday, June 20, 2017 6:00 - 8:00 pm South Gate Girls Club House 4940 Southern Ave. South Gate, CA 90280
Scoping Meeting # 3 Wednesday, June 21, 2017 3:00 - 5:00 pm (Businesses) 6:00 - 8:00 pm (General Public) Nishi Hongwanji Buddhist Temple 815 E 1st St. Los Angeles, CA 90012	**Scoping Meeting # 4** Saturday, June 24, 2017 10:00 am – 12:00 pm Huntington Park Community Center 6925 Salt Lake Ave. Huntington Park, CA 90255

The scope of the Draft Joint EIS/EIR, including the goals and objectives, project area and description, and the environmental impacts to be evaluated will be presented at the public

scoping meetings. All Metro meetings are held in Americans with Disabilities Act (ADA) - compliant facilities. Spanish translation and Spanish-speaking staff will be provided at all Scoping Meetings. Japanese translation will be provided at Scoping Meeting #3. ADA accommodations and other translations are available by calling (323) 486-3876 or California Relay at 711 at least 72 hours in advance of the meeting.

Scoping Meeting #2 on Tuesday, June 20, 2017 will be broadcast via Live Webcast for those unable to attend the meeting in person. The broadcast will be accessible starting at 6:30 p.m. by visiting www.tinyurl.com/MetroWSAB. For more project information, please visit www.metro.net/wsab.

COMMENT DUE DATE: Written comments on the scope of the Draft Joint EIS/EIR, including the goals and objectives, project area and description, impacts to be evaluated, and methodologies to be used in the evaluation, will be accepted during the comment period beginning on June 6, 2017 through July 7, 2017. Written comments should be sent to Metro on or before July 7, 2017 at the postal address or e-mail address below.

ADDRESS: Written comments will be accepted at the public scoping meetings or they may be sent to Fanny Pan, Project Manager, Metro, One Gateway Plaza, Mail Stop: 99-22-4, Los Angeles, CA 90012, or via e-mail at WSAB@metro.net.

Project Description: *(please use a separate page if necessary)*

The Project is a proposed LRT line that would extend approximately 20 miles from Downtown Los Angeles through southeast Los Angeles County, traversing densely populated, low-income and heavily transit-dependent communities. The Project would provide reliable, fixed guideway transit service that would increase mobility and connectivity for historically underserved, transit-dependent communities; reduce travel times on transportation networks; and accommodate substantial future employment and population growth. The Project will analyze multiple potential alignments, including four alignment options in the northern section — Pacific/Alameda, Pacific/Vignes, Alameda, and Alameda/Vignes; the San Pedro Branch located in the central section of the Study Area; and the Metro-owned Right-of-Way located in the southern section of the Study Area.

Note: The State Clearinghouse will assign identification numbers for all new projects. If a SCH number already exists for a project (e.g. Notice of Preparation or previous draft document) please fill in.

Toolkit

Dear Stakeholder,

Metro formally initiated the environmental studies in summary 2017 for the West Santa Ana Branch (WSAB) Transit Corridor Project, a new 20-mile light rail line that would connect downtown Los Angeles to southeast LA County. As a follow-up to the Public Scoping Meetings from summer 2017 and ongoing outreach efforts, Metro is having a series of Updated Scoping Meetings on July 24, 25 and 31 to share the latest project updates and receive additional input on the Project. The formal public scoping comment period ends on **Friday, August 24, 2018**.

As a representative and entrusted leader of the community, we are reaching out to you to offer **optional methods** for sharing the Updated Scoping Meeting details with your community. These efforts are intended to complement all of the other public notification methods that Metro is already conducting to promote the meetings series. Below are some ***suggested options*** for sharing the meeting details:

1. **Distribute electronically via email:** Share the meeting notice with your e-mail contacts. You can download a copy of the meeting notice flyer at this **link**.
2. **Post to your website:** You can use any of the images of your choice provided in the email to post to your homepage. The image would then need to be linked to the following **link** for the electronic flyer notices.
3. **Feature the meeting dates and details on your events calendar:** Share the community update meeting dates on your online events calendar (if applicable), make announcements at your meetings, or other special events.
4. **Social media posting/sharing:**

   OPTION 1: Download our WSAB image at **link** and post it on your social media profiles (Facebook, Twitter, Instagram, Nextdoor, etc.) and share the following **link** on your post. Share posts from the WSAB Facebook and Twitter pages by visiting the project's social media pages at *facebook.com/MetroWSAB* and *twitter.com/MetroWSAB* and sharing or retweeting our posts.

   OPTION 2: Post meeting information to *NextDoor.com*.
5. **Newsletter Announcement:** Provide information regarding the project and upcoming community meetings via your organization's newsletter.

Please see the following pages for copy-and-paste-ready text and downloadable images you may use to share information to your community. If you have any questions on how to share this information with your community, please contact Edna Jimenez at WSAB@arellanoassociates.com or at 909-627-2974. We look forward to working with you!

ADDITIONAL INSTRUCTIONS

1. **Distribute electronically via email:**
   - **A.** You can use any of the images of your choice provided in the email to share meeting information with your contacts/membership. Link the image to the following **link**
   - **B.** Or copy and paste the following text into the body of an email:

The Los Angeles County Metropolitan Transportation Authority (Metro) formally initiated the environmental studies through the Public Scoping Meetings in summary 2017 for the West Santa Ana Branch (WSAB) Transit Corridor, a new 20-mile light rail transit line that would connect downtown Los Angeles to southeast LA County.

Based on the feedback received through the public scoping period and ongoing outreach efforts, the Metro Board considered and took action to carry forward on the Northern Alignment options. As a result, Metro is having a series of Updated Scoping Meetings to share the latest project details and receive additional input. Please join us to a meeting that is most convenient for you. Meeting information will be the same.

WEST SANTA ANA BRANCH (WSAB) TRANSIT CORRIDOR PROJECT

Please join us for the Updated Scoping Meetings on July 24, 25 and 31.

En español 日本語で

Please join us to learn the latest updates and provide your feedback on the West Santa Ana Branch (WSAB) Transit Corridor Project, a new 20-mile light rail transit line that would connect downtown Los Angeles to southeast LA County.

Metro formally initiated the environmental studies through the Public Scoping Meetings held for the WSAB Transit Corridor Project in Summer 2017. Based on the feedback received through the public scoping period and ongoing outreach efforts, the Metro Board considered and took action on the Northern Alignment options.

As a result, the Updated Scoping Meeting Series is being conducted to receive formal public comments on the proposed project alternatives. Scoping meetings are an important step in the preparation of a Draft Environmental Impact Statement/Environmental Impact Report (EIS/EIR) in accordance with federal/state requirements.

WEST SANTA ANA BRANCH (WSAB) TRANSIT CORRIDOR PROJECT

Por favor acompáñenos a las reuniones de alcance actualizadas.

Por favor acompáñenos para enterarse de las últimas actualizaciones y proporcionar su opinión sobre el Proyecto del Corredor de Transporte de West Santa Ana Branch (WSAB, en inglés), una nueva línea de transporte de tren ligero de 20 millas que conectaría el centro de Los Angeles al sureste del Condado de Los Angeles.

Metro inició formalmente los estudios ambientales a través de las Reuniones de Alcance Público para el Proyecto WSAB llevadas a cabo en el verano de 2017. En base a los comentarios recibidos durante el periodo de alcance público y esfuerzos continuos, la Junta Directiva de Metro consideró y tomó acción sobre las opciones de Alineamiento del Norte.

Como resultado, una serie de reuniones de alcance actualizadas se está llevando a cabo para recibir comentarios formales del público sobre las alternativas propuestas del proyecto. Las reuniones de alcance público son un paso importante en la preparación del Borrador de la Declaración/Reporte de Impacto Ambiental (EIS/EIR, en inglés) de acuerdo con los requerimientos federales y estatales.

➡ MAYFAIR, 8

estate scene for more than a decade. The company opened the Pacific Electric Lofts at 610 S. Main St. in 2005, before selling it to Essex Property Trust in 2012. It also opened the Mercantile Lofts at 620 S. Main St., and owns the Broadway Lofts at 430 S. Broadway.

The Mayfair arrives as the number of hotel options for Downtown visitors is expanding. In addition to the new NoMad, the InterContinental in the Wilshire Grand Center and the Hotel Indigo at the Metropolis project have opened. In the Financial District, the Freehand Hotel targets more budget-conscious travelers.

Bruce Baltin, managing director with CBRE Hotels Advisory and an expert on the Downtown hotel market, said that the Mayfair can tap into the growing demand for business and leisure travel to Downtown. He said the off-the-beaten-track location and the lower rates can help it compete for certain travelers.

"That's smart marketing. It develops a business," Baltin said. "A hotel like that, in a secondary location, will want to get people to try them first, build loyalty, and then raise prices eventually down the line."

While that portion of City West is light on hotels, the area is seeing a certain amount of development. Nightlife and music venues such as the Teragram Ballroom and the Monty bar on Seventh Street lure people to the neighborhood. City West has also seen some major residential projects, most recently Holland Partner Group's huge Sofia Los Angeles on Wilshire Boulevard.

A highlight of the project is the food and beverage programming. The centerpiece is Eve American Bistro, a New American restaurant on the ground floor from chef Scott Commings, who won a season of the cooking competition show "Hell's Kitchen." There's also a cafe on the eastern corner of the hotel, plus a private dining space on the mezzanine.

Moradi said that as with the hotel rates, the restaurant's prices are meant to be affordable.

"You don't have to come here as a hotel guest and pay $300 a night and a meal won't cost $100 a person," he said. "But you'll get the same experience."

The lobby sports two bars, the main M Bar beneath the skylights, and the Library Bar behind it. The latter can be cordoned off for private events. Kolla said that the hotel staff anticipates that the bars will draw crowds after shows at the Teragram Ballroom.

There is also a unique element: the Mayfair's "podcast studio." The ground-floor spot is covered in classic vinyl records. The small space is still being set up, but Kolla said that hotel guests will be able to use it to record and edit their own podcasts.

The developers have also invested in the art program. They hired Kelly "Risk" Graval, known for his work in graffiti and street art, to curate the works, with each floor showcasing pieces from a different artist. Those will be rotated on a regular basis. Currently Graval's paintings hang on the 15th floor, and the lobby sports a stenciled "Haight Street Rat" from street artist Banksy, which is on display through July 27.

Kolla said the hotel also will hold live music in the lobby and throughout the building. He said the current plan is to have bands and DJs once a month, but additional shows could be added depending on what is happening in Downtown at the time.

ICO is still completing a few amenities on the third floor, including a ballroom. A pool will open in a former parking lot. Those are expected to come online by the end of the year.

America's Number One Imported Italian Wine Stella Rosa Turns 15

Riboli Family Wines 'Stellabrates' Momentous Occasion With Donation to Make-A-Wish Foundation

After 15 years of success as America's number one imported Italian wine, Riboli Family Wines of Los Angeles' San Antonio Winery, is celebrating by giving back. The family behind L.A.'s 101-year-old winery has chosen to donate to the Make-A-Wish Foundation, which grants life-changing wishes for children with critical illnesses. They will be collaborating with the local Los Angeles chapter through the Adopt-A-Wish program, granting a local child's one true wish.

"We are honored to be partnering with such a reputable organization, which does so much good for thousands of children across this country," said Steve Riboli, vice president of Riboli Family Wines. "Our family has always been dedicated to giving back to the community that supports us, so to be able to help put a smile on a child's face, is very special for us."

"We are so grateful to Riboli Family Wines for their generous gift," said Marc Sawyer, Development Director, Make-A-Wish Greater Los Angeles. "Their commitment to our mission will help us fuel recovery for even more children with critical illnesses in LA County."

Riboli Family Wines will also be giving back to its longtime dedicated customers by gifting a special birthday lip balm to the first 10,000 people who sign up on their website. And those who have the same birthday as Stella Rosa, July 18, could win a special Taste the Magic birthday box. There will also be a special package of six specially selected Stella Rosa wines to purchase online July 11-July 18.

The Stella Rosa wines will be flowing at both the original L.A. location and the Ontario location, where customers could enjoy four tastings of Stella Rosa for $5.

Stella Rosa was created by the Riboli family to meet

a growing demand by its customers who visited their original location of San Antonio Winery in Los Angeles. After enjoying the family's Il Conte Moscato D'Asti, the customers were seeking a similar sweeter wine with the health benefits of a red wine. Enter Stella Rosa Rosso, L'Originale, first in the Stella Rosa collection.

After 15 years, Stella Rosa has grown to become the leading imported wine Hot Brand by volume, reaching more than 1.7 million cases last year, according to Shanken News Daily, and has received the Shanken Impact Hot Brand Award for five consecutive years now. Never resting on its laurels, Riboli Family Wines continues to expand the Stella Rosa collection to offer its customers new and exciting wines, with 14 wines in its Originale semi-sweet, semi-sparkling collection and seven in its fully sparkling Imperiale wine. "We never imagined the success Stella Rosa would have when we first bottled Rosso," said Riboli. "We are eternally grateful to our dedicated customers for supporting our wines throughout all these years and continuously inspiring us to create new ones."

Niños migrantes por todo el Sur de CA

Congresistas visitan centros donde se encuentran albergados pequeños separados de sus familias

Redacción de La Opinión

Hasta el momento se han identificado al menos cuatro localidades en el sur de California que albergan a niños inmigrantes separados de sus familias. Esta semana, la congresista Lucille Roybal-Allard (CA-40) visitó una instalación, que está ubicada al este de Los Ángeles.

Nuevo Amanecer Latino Children's Services, financiada por la Oficina de Restablecimiento de Refugiados (ORR), sirve a algunos de los niños inmigrantes que han sido separados de sus familias como parte de la política de la administración Trump en la frontera.

La congresista Roybal-Allard, miembro del subcomité de asignaciones de Labor-HHS-Education —que supervisa los fondos ORR— y miembro de mayor rango del subcomité de asignaciones de Seguridad Nacional, se unió a la visita del lunes junto a las congresistas Judy Chu (CA-27) y Grace Napolitano (CA-32).

Roybal-Allard aseguró en un comunicado que la instalación era "impactante" y el personal está haciendo todo lo posible para apoyar a los niños. No obstante no dejó de desaprobar "la crueldad" de la decisión del presidente Trump al separar a las familias migrantes.

"Continuaré luchando contra las políticas de Trump... Al mismo tiempo, seguiré trabajando para asegurar que estos niños estén bien cuidados, seguiré abogando por su rápida reunión con sus padres y continuaré hablando en favor de un sistema de inmigración humano que ponga fin a la detención familiar", aseguró la congresista.

"He estado visitando instalaciones financiadas por ORR en todo el país para asegurar que traten a los niños de manera adecuada y que tengan los recursos necesarios", añadió.

(De izq. a der.) Las congresistas Grace F. Napolitano, Lucille Roybal-Allard y Judy Chu afuera del centro Nuevo Amanecer Latino en el este de L.A. / FOTO: SUMINISTRADA.

Por otra parte el canal de televisión *NBC4* logró captar imágenes de afuera de otra localidad, David and Margaret Youth and Family Services, en la ciudad de La Verne al noreste del condado angelino.

En las imágenes las caras de los niños aparecen difuminadas puesto que en el centro los niños migrantes se mezclan con los niños de crianza que allí se encuentran.

La organización de 17 acres tiene un contrato con el gobierno para albergar hasta 59 niños migrantes, de entre 5 y 17 años, aunque los funcionarios no dieron información sobre el número exacto que hay en este momento.

Los menores, migrantes junto a los niños de crianza, viven en casas de campo con no más de 10 niños por casa. Por lo general, permanecen cerca de 30 días hasta que se encuentren familias patrocinadoras. Van a la escuela y tienen acceso a servicios de salud mental.

Durante el fin de semana, los inspectores del Departamento de Servicios Sociales visitaron la ubicación en La Verne, junto con otros 16 lugares que los albergan. Hablaron con ellos, con el personal y con padres de crianza y -según indicaron- no encontraron preocupaciones inmediatas de salud o seguridad.

"Al igual que en el resto del país, nos preocupa lo que ha ocurrido en nuestras fronteras. No establecemos políticas públicas y no podemos distraernos del trabajo que hacemos. Nos enfocamos en cuidar a los jóvenes. Nos comprometemos a brindar un servicio seguro, mejorando el ambiente para todos los niños a quienes servimos", dijo la directora Maggie Bohlman a *NBC4*. ●

Descuido de un arma causa la muerte de niño de 2 años

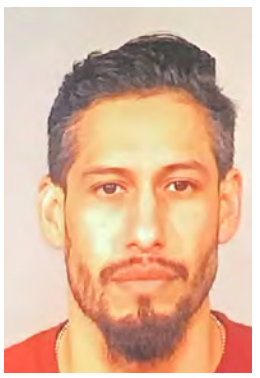
Redacción de La Opinión

La policía de Fresno, en el Valle de San Joaquín, arrestó esta semana al dueño del arma con la que un niño, de tan solo 2 años de edad, se disparó el sábado. La herida fue letal.

El día de la tragedia, el padre del pequeño tenía que ir a trabajar, por lo que dejó al niño a cargo de su prometida Jena Moya y de su compañero de apartamento, Óscar Ramos, según informó el jefe de policía Jerry Dyer.

Agregó que la pistola, de marca Sig Sauer, es propiedad de Ramos, de 35 años, y que a pesar de que él contaba con una caja fuerte, el padre del menor —Jonathan Alexander— había encontrado el arma alrededor de la casa en al menos una ocasión.

Y al verla, fuera del estuche de seguridad, se la habría dado a Ramos, diciéndole que no la dejara al alcance de sus hijos.



El dueño del arma, Óscar Ramos, fue arrestado y enfrenta hasta tres años de cárcel. / TWITTER@ANGELICALEILANI.

Después de oír un disparo, Ramos y Moya corrieron a la recámara donde estaba el pequeño Jace Alexander. Cuando llegaron al cuarto, encontraron al menor "en el suelo, en un charco de sangre junto a una pistola".

Las autoridades arrestaron a Ramos bajo cargos de poner en peligro a un menor y de almacenaje criminal de un arma de fuego.

Jace, señaló la cadena *ABC7*, es al menos el tercer niño en morir a causa de un disparo accidental en la ciudad de Fresno desde 2011.

La ley de California requiere que las armas de fuego se mantengan fuera del alcance de los niños, en una caja fuerte u otro dispositivo. Quien sea declarado culpable de no cumplir con esta obligación enfrenta hasta tres años de prisión. ●

Garden your way to better health

By Melinda Myers

Break out the tools and garden your way to a healthier mind, body and spirit. Gardeners have always know it, but now research proves that gardening is a great form of exercise.

You'll work out all your major muscle groups when raking, digging and planting for an hour. Include gardening as a major component of your workout schedule. You'll stretch and strengthen muscles while promoting cardiovascular health and maintaining bone mass. A University of Arkansas study found that yard work as well as weight training more significantly maintained bone density than aerobics, dancing or bicycling in women over 50.

And for those of us trying to lose weight, add 30 minutes of gardening to your daily or weekly routine to help shed some extra pounds. A half hour of raking burns 162 calories, weeding 182, and turning the compost pile a whopping 250 calories. Gardening several times a week will help keep you and your landscape looking its best. Anytime I can receive double or triple the benefit from my time and energy, the more likely I am to complete the task.

Protect your joints and muscles while gardening. Warm up, just as you would for any workout, with a few simple stretches. Protect your knees by using a stool, kneeling pad or one legged kneel (keeping your other foot flat on the ground and back straight) instead of squatting.

And no matter what shape you are in, drink lots of fluids to stay hydrated during and after you finish gardening. This is especially important with the extreme temperatures we are experiencing this summer. Try gardening early in the morning or evening when temperatures are a bit cooler. And time your work in garden beds when they're blanketed in shade.

Protect both your eyes and skin from the sun's intense rays by always wearing sunscreen, a hat and sunglasses. And consider regular checkups with a dermatologist to monitor for skin cancer.

Pace yourself so you can enjoy the process and smell the roses, heliotrope, daphne and alyssum along the way. Gardeners have been into aromatherapy long before its recent rise in popularity. A few strategically placed fragrant flowers can create a delightful welcome home, soothing scent in your secret garden or aromatherapy as you weed and tend your landscape.

Include some edible flowers and fruit for you, the birds and the butterflies. Nothing beats the flavor or nutritional value of fresh-from-the-garden fruits and vegetables. Plus, watching the butterflies and hummingbirds sip on nectar from a fuchsia, coral honeysuckle, verbena or salvia as the finches feed on coneflower seeds will provide added beauty while the squirrels' acrobatic antics on giant sunflowers are sure to entertain.

If the task is too big or your time is limited, ask for help. Gardening can also be a great team sport. Or make it a round robin as you take turns gardening in each other's gardens. You'll all enjoy a day filled with gardening, conversation and laughter. What was once an overwhelming task suddenly becomes a chance to spend time with friends, enjoy the garden and create new memories. Sharing your knowledge, plant divisions or other talents like cooking or pet sitting may be the perfect trade for your friends' time and energy.

And as a wise person once said "Planting a garden is a way of showing you believe in tomorrow."

「Ryuichi Sakamoto : CODA」

坂本龍一のドキュメンタリー映画

ＬＡで上映、音楽と思索の旅捉える

音楽家の坂本龍一の音楽と思索の旅を捉えた初のドキュメンタリー映画「Ryuichi Sakamoto : CODA」がロサンゼルス各地の劇場で13日から上映される。本作が映画初監督となるスティーブン・ノムラ・シブルが、作曲家であり演奏家、プロデューサー、そして環境活動家などさまざまな顔を持つ坂本に2012年から5年にわたって密着取材し、プライベート映像のほか、坂本自身が語る貴重な過去のエピソードなどを収めた。

坂本は幅広いジャンルで活動を続けていたが、90年代後半になると社会問題や環境問題に意識を向けるようになった。そしてその変化は彼自身の音楽にも現れていく。

そんな坂本の東日本大震災以降の音楽表現の変化に興味を抱き密着取材を始めたのがシブル監督だった。シブル監督はソフィア・コッポラ監督の「ロスト・イン・トランスレーション」でプロデューサーを務めたことでも知られる。

映画の中の1シーン。森の中の廃墟の前でたたずむ坂本龍一

ピアノの音を確認する坂本龍一

坂本は震災以降、被災地を訪ね歩いてきた。そして12年、宮城県名取市で被災した1台のピアノと出会う。津波という自然の脅威によって水に溺れたピアノの音を聞き、「ピアノの死体のような感じを受けた」と坂本は語る。しかしこの思いが後に大きく変わることとなる。

震災から3年が経った14年3月11日、坂本は自ら防護服を着用し福島第一原発を囲む帰還困難区域に足を踏み入れ、無人の地と化した集落の残像の音に触れた。「見て見ぬふりをするのは僕にはできないこと」。首相官邸前で行われた原発再稼働反対デモにも参加しスピーチした。

多方面において精力的に活動していた坂本だったが、14年7月に中咽頭ガンを公表。1年近くにおよぶ闘病生活を経て、音楽活動を再開。坂本の新たな構想は、外界の音を音楽としてとりこみ、混然一体となった「自然の音」を聞くことだった。「持続する音への憧れ、ある種の永遠性への憧れかもしれない」と坂本は語る。

そしてあの被災したピアノにも立ち返る。「今はあの壊れたピアノの音色がとても心地よく感じる」と話す。調律が著しく狂っていると感じた音だったが、それは人間が勝手に決めた「調律」に過ぎない。津波に流され「自然の調律」を受けたピアノの音はやがてサンプリングを通して坂本の作曲プロセスの一部になり、新たな表現へと生まれ変わっていく。

人間の生物学的なルーツを追い求め、アフリカや北極圏など世界各地を旅し、さまざまな「音」を自ら録音しながら音楽の原点を探し始める坂本の姿を追ったドキュメンタリー。ロサンゼルス上映の日時など詳細は劇場ホームページで―

木曜随想

野本さんスゴイです！

鈴木 敦子

六月二十七日付、「『寄稿』病床で考えたこと 野本一平」を読まれた方々は、皆さん、同じことを思ったでしょうね。

野本さんが、二〇一六年四月に、ストロークを発症され、リハビリに専念しているという、「夕日の見えるミュージアム」をお書きになられた。左手で書く稽古をしていられると聞いたから、左手でお書きになったと思う、いつもよりも、ずっと短い文章だったが、復帰されたことが嬉しく、わたくしはこれを切り抜いてファイルした。

間違っていたらお詫びするが、その後、木曜随想の第一週目は、空欄だったり、何方かの寄稿で埋められていた。今回のも『寄稿』であり、ごく短いことに変わりはないが、野本さんの執念と努力にあらためて胸を打たれた。

「現在、三種類のセラピーに励んでいる」とある、辛いものもあるようだが「我慢している」「そして、最後には決まって女房と『母さんの歌』を歌う」

これこそ素晴らしいリハビリでしょうね。夫人が寄り添われて歌う、この叙情歌のほのぼのとしたぬくもり、『母さんが夜なべをして手袋編んでくれた』『母さんのあかぎれ痛い 生味噌を擦り込む』日本の農家がずーっと貧しくて、モンペやジャケットを縫っている。

手作りの味わい、古くなっても手放せるものではない。

最後に、最近読んだ、ベストセラー『終わった人』（内館牧子著）の主人公の言葉を記してこの稿を終わらせる。

「俺は穏やかで楽しい余生が楽しめないタチなのだ。何よりも『余生』という言葉がおかしい。人に『余りの生』などあるわけがない。八十であろうが、九十であろうが、患っていようが、生きている限りは『生』であり、余りの生ではない。世間ではすぐに『人は生きているのではなく、生かされている』とか言いたがるくせに『余生』などと平気で言う」

そう、昔は、祖母か母親が編んでくれたものだった。今のようにオシャレなものがぽんぽん買える時代ではなかった。わたくしも戦時中、雪深い金沢に家族で疎開していたが、祖母がミトンという四本指と、親指のや、五本指に分かれたものを編んでくれたころ（この歌の背景はなぜか、東北地方が思い浮かぶ）母さんのあかぎれには生みそをすりこんだ、なんだか痛そう、今ならオロナイン軟膏かなんかで簡単に治してしまうだろうが―― 母親が編んでくれた手袋が田舎から届いたとき、その後ろに、祖母からと、今も手元にあって愛でていられたらどんなにいいか。

「断捨離」という概念が、ある人の著書ですっかりブームになり、物を整理し暮らしや人生を快適に整えていくことらしいが、わたくしはこの言葉が嫌い、字面（じづら）もよくないし、音も汚い。

自分の持ち物を大切にしていけないことはあるまい。先日、歌手の加藤登紀子が、テレビのインタビュー番組に出演して、母親から「物を捨ててはいけません」と言われて育った。

「私は縫物が出来るんで、このジャケットも、古いロングスカートと組み合わせて作ったのよ」と言っていた。

いいなぁ、この話、わたくしも藍木綿や絣を合わせたりして、モンペやジャケットを縫っている。

手作りの味わい、古くなっても手放せるものではない。

話がすっかりそれるが、ほんと、今も手元にあって愛でていられたらどんなにいいか。

「楽しくなる脳習慣」

18日、セミナー 加藤氏を講師に迎え

SBMS

ロサンゼルス、サウスベイエリアを中心に活動する勉強会「サウスベイマネジメントセミナー」（SBMS）は18日（水）午後6時から8時半までニューガーデナホテル（1641 W. Redondo Beach Blvd.）で、脳内科医の加藤俊徳氏を講師に迎え「人生100年時代、人生の後半が楽しくなる脳習慣」と題したセミナーを催す。

「脳は年をとると衰える」が長い間の常識だった。しかし、脳は二十歳を過ぎても成長を止めず、一生成長を続けることが分かってきた。脳には番地があり、脳番地ごとに、経験し、成長していく。

もし脳の中に病気の脳番地があったとしても、病気以外の脳番地は健常な脳番地であり、元気な脳番地を使い続けることで、生涯、脳の形が個性的に成長していく。人生前半の失敗と成功にとらわれることなく、人生100年時代の後半がもっと楽しくなる生き方、日々、脳が健康になる脳習慣について分かりやすく講演する。

参加費は15ドル。参加申し込みの締め切りは16日（月）午後5時。

吉見愛子さんが講演

17日「源氏物語」第2弾

日本文化セミナーが17日（火）午後6時から8時までトーレンスの吉笑庵（2142 W. 233rd St.）で催される。6時から講演。吉見愛子さんが「源氏物語」を語る。

6時半から講演。吉見愛子さんが「源氏物語」を語る。桐壺帝の寵愛を受けて何をしても許される立場だった光源氏。その帝が亡くなり、政敵に足を引っ張られて冠位を剥奪された光は、最悪の状況をどう乗り切るのか？ どんな状況であれ、女性関係はますます盛んな20代！

「源氏物語」1回目に参加できなかった人にも、ざっとあらすじを解説。親子4代にわたる長い話は、少しずつかじっていかないとなかなか全容がつかめないということで、吉笑会主宰の吉見愛子さんは言う「登場人物500人といわれるが、準主役級まではしっかりキャラクターをつかもう。古文だと思うからとっつきにくい感があるが、内容はまことに面白いので、婆の昔語りを聴きにくるつもりで参加ください」。

Long Beach hosts hip-hop, soul acts

LONG BEACH — Some of Los Angeles' most notable hip-hop and soul musical acts took the stage to perform their classics at the second annual Summertime in the LBC, presented by Goldenvoice July 7 at the Queen Mary.

Despite the 100-degree weather, a sea of people filled the festival, celebrating the hip-hop and soul culture.

Among the performers were Snoop Dogg, Ice Cube, The Game, Westside Connection, Ja Rule, Ashanti, Warren G, E-40, DJ Quik, Suga Free, Method Man, Redman, Tha' Dogg Pound, Mack 10, the Isley Brothers, Harold Melvin and the Blue Notes, the Manhattans, the Dramatics, the Dove Shack, Amanda Perez, Midnight Star and Evidence.

In between sets, festival-goers rushed to see their favorite artists. There were two paths, an underground tunnel filled from top to bottom with graffiti art and local taggers, or you could take the stairs.

There also was a VIP section, food vendors, pop-up shops, cool down stations and interactive experiences presented by Swisher Sweets.

The crowd was full of energy, responsive, loud and singing every line of every song.

At the end of the evening, the crowd had a choice: the 40-ounce stage featuring Snoop Dogg, or the Kickback Stage featuring the Isley Brothers.

In the words of Ice Cube, "Today was a good day."

Prepare to Prosper

Part 3:
Starting your own business

If you've always wanted to be your own boss, now may be the time to start. You have the skills to turn that side job into a full-time business and build it from the ground up. You have the determination to make your own rules and your own hours. And we have the tools that may help you prepare to prosper. Here are things to consider before starting your own business.

1 Start with a business plan

Creating a solid business plan is an important first step for anyone starting a business. Be sure to include a company overview, a market analysis, your financial data, and an executive summary. Visit the Wells Fargo Works Business Plan Center for free business planning resources.

2 Determine your hiring needs

When you first start out, you may be the only employee. If you intend to hire full- or part-time employees right away, make sure you're comfortable with and can afford the costs associated with hiring staff.

3 Understand your financial picture

Most businesses are initially financed by personal savings and credit, but you may need additional financing. Our Wells Fargo bankers can discuss your initial financing needs and options, and help strategize ways to build your credit profile.

4 Build a strong network

Having a strong support system in place is important when starting a business. So build your network with your banker, a lawyer, a certified public accountant and any other professionals pertinent to your industry.

There are a lot of important decisions to make as you venture out on your own to start a business. But upfront planning goes a long way in preparing your business for long-term financial success. Be sure to visit wellsfargoworks.com for resources and guidance that may help you start, maintain and grow your business. The Prepare to Prosper financial series will soon return with a focus on building better credit. We'll discuss more tips and solutions for achieving your goals and building your personal wealth.

LOS ANGELES COUNTY METROPOLITAN TRANSPORTATION AUTHORITY (METRO) REVISED AND RECIRCULATED NOTICE OF PREPARATION (NOP) OF A DRAFT ENVIRONMENTAL IMPACT STATEMENT/ENVIRONMENTAL IMPACT REPORT

TO: AGENCIES, ORGANIZATIONS & INTERESTED PARTIES

PROJECT TITLE: WEST SANTA ANA BRANCH TRANSIT CORRIDOR PROJECT

PROJECT LOCATION AND ENVIRONMENTAL SETTING: The West Santa Ana Branch (WSAB) Transit Corridor (Project) is a proposed light rail transit (LRT) line that would extend approximately 20 miles from downtown Los Angeles in the north toward the Los Angeles/Orange County line on the south, in or near the City of Cerritos. The proposed LRT line would connect downtown Los Angeles to southeast Los Angeles County, serving the cities and communities of Arts District, Little Tokyo, Los Angeles, unincorporated Florence-Graham community of Los Angeles County, Vernon, Huntington Park, Bell, Cudahy, South Gate, Downey, Paramount, , Cerritos and Artesia. The Study Area includes some of Los Angeles County's most densely-developed and low-income residential neighborhoods and encompasses major regional employment centers, including industrial and manufacturing clusters in the County. The Study Area is primarily urbanized, with a wide-range of existing and planned land uses.

PROJECT INITIATION: The Los Angeles County Metropolitan Transportation Authority (Metro) has initiated a Draft Environmental Impact Statement/Environmental Impact Report (EIS/EIR) for the WSAB Transit Corridor Project pursuant to the California Environmental Quality Act (CEQA). Metro is the lead agency for the Project. The Draft EIS/EIR will be prepared in accordance with Section 15170 of the CEQA Guidelines. The Federal Transit Administration (FTA) is the lead agency for the EIS.

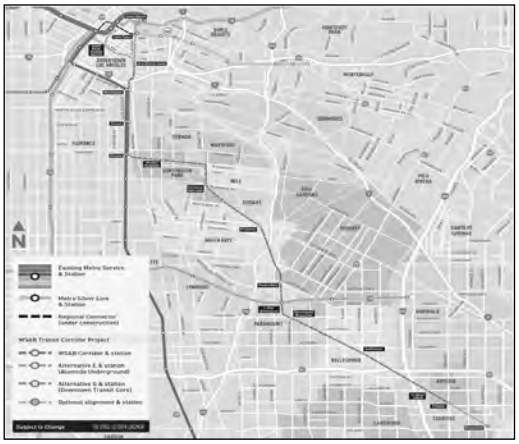
The purpose of this revised NOP is to notify interested agencies and parties, local jurisdictions, community organizations, and interested residents (collectively, interested parties) to the preparation of the Draft EIS/EIR for the Project. This revised NOP is to solicit comments as to the scope and content of the Draft EIS/EIR and potential environmental from the Project; invite public participation in the Draft EIS/EIR scoping process; and announce the public scoping meetings.

At the April 2017 Board meeting, four northern alignment options were carried into the environmental analysis. On May 25, 2017, a NOP was publicly released, informing interested parties of Metro's plans to prepare a Draft EIS/EIR and request input about the Project. A revised NOP was released on June 14, 2017 informing the public of the extension to the comment period end date from July 7, 2017 to August 4, 2017.

In response to scoping comments and other input received during and after the NOP comment period, and further technical study of the Project, four (4) additional northern alignment concepts were conceived for screening: Concepts E through H. On May 24, 2018, the Metro Board determined to eliminate the four (4) original northern alignment Alternatives A through D, and Concepts F and H from further consideration and analysis in the environmental process. The Metro Board decided to carry Concepts E and G forward into the EIS/EIR process as the new northern alignment alternatives; additional description of the Project is provided below. The Board's reasoning for doing so is described in the Board's May 24, 2018 agenda report and public hearing, available online or via the address provided in this NOP (https://metro-pdf-merger.datamade.us/document/ocd-bill-f9a0b9a6-0aca-402a-8963-15a6b3595a0f and http://metro.granicus.com/MediaPlayer.php?view_id=2&clip_id=868).

PROJECT PURPOSE, NEED AND DESCRIPTION: The Project is a proposed LRT line that would extend approximately 20 miles from downtown Los Angeles, through southeast Los Angeles County, to a terminus within or near the City of Cerritos, traversing densely populated, low-income and heavily transit-dependent communities. The Project would provide reliable, guideway transit service that would increase mobility and connectivity for historically underserved, transit-dependent communities; improve travel times on local and regional transportation networks relative to not making this investment; and accommodate substantial future employment and population growth. The Project would provide reliable transit service to meet the future mobility needs of residents, employees, and visitors who travel within the Study Area.

The Project includes two (2) possible alignment alternatives in the north: Alternatives E and G; utilizes the San Pedro Branch Right-of-Way in the central section; and the Metro-Owned Right-of-Way in the southern section of the Study Area. The Project proposes to develop approximately 15 rail stations along the LRT line and identify transit oriented community land use concepts and last mile pedestrian/bicycle connectivity opportunities associated with the proposed stations. The Project will also consider the development of ancillary facilities such as a maintenance and operations facility/job training center, traction power substations, and grade separation structures, as well as transit patron parking areas at selected locations along the Project alignment. Additional, potential Project primary and ancillary features are described below.



ENVIRONMENTAL EFFECTS: The purpose of the Draft EIS/EIR is to disclose the impacts of the Project on the environment. Key CEQA environmental factors to be addressed include: Aesthetics and Visual Quality; Air Quality; Biological Resources; Cultural Resources (Historic, Archeological, Paleontological, and Tribal Cultural Resources); Geology and Soils; Greenhouse Gas Emissions/Climate Change; Hazards and Hazardous Materials; Hydrology and Water Quality; Land Use and Planning; Noise and Vibration; Population and Housing; Public Services; Parks and Recreation; Transportation and T

Project design features and mitigation measures to reduce potentially impacts during construction and operation will

SCOPING MEETINGS: Public scoping meetings to accept both written and oral comments on the scope of the Draft EIS/EIR will be held on the following dates and times:

- Tuesday, July 24, 2018, 4pm to 7pm, The Los Angeles Athletic Club, 431 W. 7th St., Los Angeles, CA 90014 (Paid parking is also available)
- Wednesday, July 25, 2018, 6pm to 8pm, Clara Park–Turner Hall, 4835 Clara St., Cudahy, CA 90201
- Tuesday, July 31, 2018, 6pm to 8pm, The Mayne Events Center, , CA 90706

The scope of the Draft EIS/EIR, including the goals and objectives, project area, project description, and the environmental impacts to be evaluated will be presented at the public scoping meetings. All Metro meetings are held in Americans with Disabilities Act (ADA) - compliant facilities. Spanish translation and Spanish-speaking will be provided at all scoping meetings. Japanese translation will be provided at Scoping Meeting #1. ADA accommodations and other translations are available by calling (323) 466-3876 or California Relay at 711 at least 72 hours in advance of the meeting. For those unable to attend the meetings, a video recording of the formal presentation will be made available on the project website within one week of the conclusion of the meeting series. For more project information, please visit www.metro.net/wsab.

COMMENT DUE DATE: In addition to oral comments accepted at the scoping meetings, written comments on the scope of the Draft EIS/EIR, including the goals and objectives, project area and description, environmental impacts to be evaluated, and methodologies to be used in the evaluation, will be accepted Wednesday, July 11, 2018 through Friday, August 24, 2018. Metro does not anticipate extending the scoping comment period. Therefore, written comments should be sent to Metro on or before Friday, August 24, 2018 at the postal address or e-mail address below.

ADDRESS: Written and oral comments will be accepted at the public scoping meetings or they may be sent to Teresa Wong, Project Manager, Metro, One Gateway Plaza, Mail Stop: 99-22-4, Los Angeles, CA 90012, or via e-mail at WSAB@metro.net.

プロジェクト・タイトル：西サンタ・アナ支線交通ルート・プロジェクト

プロジェクト位置と周囲環境：西サンタ・アナ支線（WSAB）交通ルート（プロジェクト）は提案された軽レール交通（LRT）ラインであり、北のロサンゼルス都心部から南のロサンゼルス・オレンジ郡ラインまで凡そ２０マイル伸ばしています。提案された軽レール交通ラインはロサンゼルス都心部を南東ロサンゼルス郡と連結し、都市、芸術地区コミュニティー、小東京、ロサンゼルス、ロサンゼルス郡に位置し、法人化されていないフローレンス・フラスコ・コミュニティー、ヴァーノン、ハンティントン・パーク、ベル、カダヒー、南ゲート、ダウニー、パラマウント、ホタルブクロ、セリトスとアルテシアのために役目を果たしています（図表１をご参照）。当該研究地域はロサンゼルス郡の最も人口の密集し且つ発達した低収入近隣住区、主要地域雇用センター、重要な郡内の工業と製造業の群れを包含しています。当該研究地域はそもそも都市化されており、広範囲の既存と計画済みの土地利用があります。

プロジェクト開始：西サンタ・アナ支線交通ルート・プロジェクトのために、ロサンゼルス郡都市圏交通局（メトロ）は既に「カリフォルニア環境質法」(CEQA)に準じて環境影響声明書・環境影響報告書(EIS/EIR)の起草を開始しました。メトロは当該プロジェクトのリーダ機構です。当該EIS/EIRの草案はCEQA指針の１５１７０条項に従って準備される予定です。アメリカ合衆国運輸省(FTA)はEISのリーダ機構です。

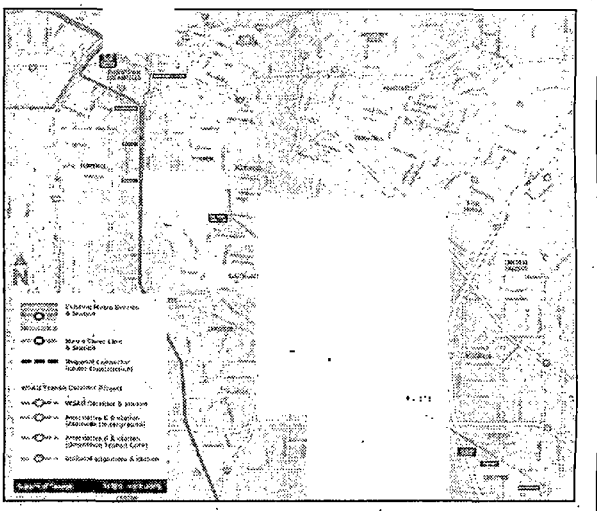
当該NOP改訂版の目的は当該プロジェクトのためのEIS/EIR草案準備の件について、利害関係者と機構、地元管轄区域、コミュニティー組織と利害関係住民(利害関係者と総称する)に知らせるのです。当該修正されたNOPはEIS/EIR草案に関する範囲と内容と当該プロジェクトから発生しうる潜在的環境影響についてのコメントを懇請し、EIS/EIR草案範囲確定プロセスへの社会参加を招請し、及び範囲確定の意見交換会を公表する予定です。

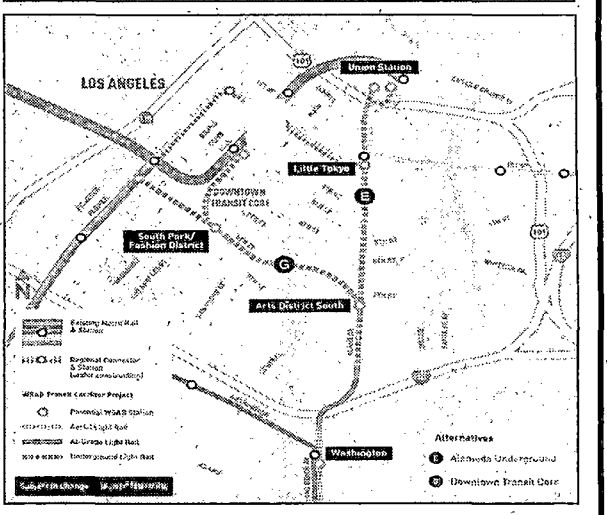
２０１７年４月の役員会議にて、四つの北向きアラインメント代替案を環境分析に入れました。２０１７年５月２５日、NOPを公表され、メトロのEIS/EIR草案準備計画と当該プロジェクトに関するアドバイス提供要請を利害関係者に知らせました。２０１７年６月１４日、訂正されたNOPを発表され、コメント期間を２０１７年７月７日から２０１７年８月４日へと延長するのを公衆に通知されました。

範囲確定コメントとその他のNOPコメント期間中とその後に入手されたアドバイスと当該プロジェクトの更なる技術研究に応えて、審査のために追加された北向きアラインメントのコンセプトを四つ（図表３にてE から Hまでのコンセプトをご参照）思い付かれました。２０１８年５月２４日、メトロ役員会議は環境プロセスにおける更なる考察と分析から四つの元来の北向きアラインメント代替案（A から Dまで）及びコンセプトF とHを排除することを決定しました。メトロ役員会議は新しいアラインメント代替案として、コンセプトE と G（図表４をご参照）をEIS/EIRプロセスに取り入れました。当該プロジェクトの追加説明は下記になります。役員会議の理由は２０１８年５月２４日付の役員会議の議題報告書と公聴会にて記述されています。ウエブ・サイトにて又はNOPに提供されたアドレスにて入手できます。(https://metro-pdf-merger.datamade.us/document/ocd-bill-f9a0b9a6-0aca-402a-8963-15a6b3595a0とhttp://metro.granicus.com/MediaPlayer.php?view_id=2&clip_id=868).

プロジェクト目的、必要性と説明：当該プロジェクトは提案された軽レール交通（LRT）ラインであり、ロサンゼルス都心部から南東ロサンゼルスを通って、セリトス市内又はその近くの終着駅まで、凡そ２０マイル伸ばし、人口密集地、低収入者集中地、公共交通機関を大いに利用しているコミュニティーを貫通しています。当該プロジェクトは、信頼でき且つ固定されたガイド・レール付き公共交通機関を提供することによって、歴史上十分なサービスを受けていなくて公共交通機関を頼りにしているコミュニティーの移動性と接続性を増やし、当該投資がないのに相対する地元と地域運輸ネット・ワークにおける旅行時間を改善し、将来の大量雇用と人口増加に順応しています。当該プロジェクトは信頼できる公共交通機関を提供し、研究地域内の住民、従業員と観光客の将来の移動性に需要を満たします。

当該プロジェクトはEと　Gという二つの可能な北向きアラインメント代替案を含んでいます。つまり、中央区域におけるサン・ペドロ支線公道用地、研究地域の南区域におけるメトロに所有される公道用地を使用されます。当該プロジェクトはLRTラインに沿った凡そ1.5のレールス・テーションを開発し、公共交通指向型コミュニティーの土地利用コンセプト及び提案された駅と関連したファースト・ラスト・マイル歩行者・自動車の接続性機会を明確します。当該プロジェクトはメンテナンスと操作施設・職業訓練センター、牽引パワー・サブ・ステーション、立体交差構造、それからプロジェクト・アラインメントに沿った選ばれた位置での公共交通機関利用者駐車場等のような付帯施設をも考えています。そして、潜在プロジェクトの主要と付属的な特色は下記にて記述されています。





環境影響：EIS/EIR草案の目的は当該プロジェクトの環境への影響を披露することです。演説される重要なCEQA環境因子は美学とビジュアル品質、大気質、生物資源、文化資源(歴史的、考古学的、古生物学的と部族文化的な資源)、地質と土壌、温室効果ガス排出量/気候変動危険および有害物質;水文学と水質;土地利用と計画;騒音と振動;人口と住宅;公共サービス;公園とレクリエーション;運輸と交通;公益事業体とサービスを包括しています。

当該プロジェクトの設計特色と建設中と運営中における潜在的重要な影響を軽減するための緩和対策はEIS/EIR草案にて明確されています。

範囲確定意見交換会：EIS/EIR草案の範囲確定に関する書式と口頭コメントとも引き受けられる意見交換会は下記の日付と時間にて行われる予定です。

- 火曜日、２０１８年７月２４日、午後四時から七時まで。場所：Los Angeles Athletic Club, 431 W. 7th St., Los Angeles, CA 90014　（有料駐車可能）
- 水曜日、２０１８年７月２５日、午後六時から八時まで。場所：Clara Park–Turner Hall, 4835 Clara St., Cudahy, CA 90201
- 火曜日、２０１８年７月３１日、午後六時から八時まで。場所：Mayne Events Center, 16408 Bellflower Blvd., Bellflower, CA 90706

EIS/EIR草案の範囲は達成目標、プロジェクト地域、プロジェクト説明、評価される環境影響を含み、意見交換会にて紹介される予定です。すべてのメトロ意見交換会はアメリカ障害者法(ADA)に合致している施設で行われるのです。スペイン語通訳とスペイン語で意志疎通できるスタッフはすべての範囲確定意見交換会で提供されます。日本語通訳は範囲確定意見交換会#1で提供されます。（３２３）４６６－３８７６、或いは少なくとも意見交換会開始前に７２時間前もって７１１にてカリフォルニア中継電話をかけることによって、ADA便宜手配とその他の通訳サービスが入手できます。当該会議にご参加できない方々は、意見交換会シリーズ完了後一週間以内に当該プロジェクトのウエブ・サイトにて公式紹介の記録映像が入手できます。プロジェクト情報をもっと知りたければ、www.metro.net/wsabにてご訪問ください。

コメント締切日：範囲確定意見交換会にて引き受けられる口頭コメント以外に、達成目標、プロジェクト地域と説明、評価される環境影響、評価に用いられる方法論を含む書式コメントは、２０１８年７月１１日の水曜日から２０１８年８月２４日の金曜日までに引き受けられます。メトロは範囲確定コメント期間を延長したくありません。そこで、書式コメントは２０１８年８月２４日の金曜日前までに下記の郵便宛て先又はe-mailアドレスにてお届けください。

住所：書式と口頭コメントは、範囲確定意見交換会にて引き受けられ、又はTeresa Wong, Project Manager, Metro, One Gateway Plaza, Mail Stop: 99-22-4, Los Angeles, CA 90012までお届け、又はWSAB@metro.netにてe-mailしてください。

LOS ANGELES COUNTY METROPOLITAN TRANSPORTATION AUTHORITY (METRO) REVISED AND RECIRCULATED NOTICE OF PREPARATION (NOP) OF A DRAFT ENVIRONMENTAL IMPACT STATEMENT/ENVIRONMENTAL IMPACT REPORT

TO: AGENCIES, ORGANIZATIONS & INTERESTED PARTIES

PROJECT TITLE: WEST SANTA ANA BRANCH TRANSIT CORRIDOR PROJECT

PROJECT LOCATION AND ENVIRONMENTAL SETTING: The West Santa Ana Branch (WSAB) Transit Corridor (Project) is a proposed light rail transit (LRT) line that would extend approximately 20 miles from downtown Los Angeles in the north toward the Los Angeles/Orange County line on the south, in or near the City of Cerritos. The proposed LRT line would connect downtown Los Angeles to southeast Los Angeles County, serving the cities and communities of Arts District, Little Tokyo, Los Angeles, unincorporated Florence-Graham community of Los Angeles County, Vernon, Huntington Park, Bell, Cudahy, South Gate, Downey, Paramount, , Cerritos and Artesia. The Study Area includes some of Los Angeles County's most densely-developed and low-income residential neighborhoods and encompasses major regional employment centers, including industrial and manufacturing clusters in the County. The Study Area is primarily urbanized, with a wide-range of existing and planned land uses.

PROJECT INITIATION: The Los Angeles County Metropolitan Transportation Authority (Metro) has initiated a Draft Environmental Impact Statement/Environmental Impact Report (EIS/EIR) for the WSAB Transit Corridor Project pursuant to the California Environmental Quality Act (CEQA). Metro is the lead agency for the Project. The Draft EIS/EIR will be prepared in accordance with Section 15170 of the CEQA Guidelines. The Federal Transit Administration (FTA) is the lead agency for the EIS.

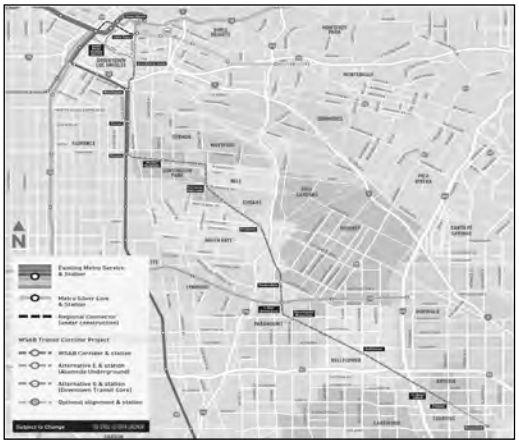
The purpose of this revised NOP is to notify interested agencies and parties, local jurisdictions, community organizations, and interested residents (collectively, interested parties) to the preparation of the Draft EIS/EIR for the Project. This revised NOP is to solicit comments as to the scope and content of the Draft EIS/EIR and potential environmental from the Project; invite public participation in the Draft EIS/EIR scoping process; and announce the public scoping meetings.

At the April 2017 Board meeting, four northern alignment options were carried into the environmental analysis. On May 25, 2017, a NOP was publicly released, informing interested parties of Metro's plans to prepare a Draft EIS/EIR and request input about the Project. A revised NOP was released on June 14, 2017 informing the public of the extension to the comment period end date from July 7, 2017 to August 4, 2017.

In response to scoping comments and other input received during and after the NOP comment period, and further technical study of the Project, four (4) additional northern alignment concepts were conceived for screening: Concepts E through H. On May 24, 2018, the Metro Board determined to eliminate the four (4) original northern alignment Alternatives A through D, and Concepts F and H from further consideration and analysis in the environmental process. The Metro Board decided to carry Concepts E and G forward into the EIS/EIR process as the new northern alignment alternatives; additional description of the Project is provided below. The Board's reasoning for doing so is described in the Board's May 24, 2018 agenda report and public hearing, available online or via the address provided in this NOP (https://metro-pdf-merger.datamade.us/document/ocd-bill-f9a0b9a6-0aca-402a-8963-15a6b3595a0f and http://metro.granicus.com/MediaPlayer.php?view_id=2&clip_id=868).

PROJECT PURPOSE, NEED AND DESCRIPTION: The Project is a proposed LRT line that would extend approximately 20 miles from downtown Los Angeles, through southeast Los Angeles County, to a terminus within or near the City of Cerritos, traversing densely populated, low-income and heavily transit-dependent communities. The Project would provide reliable, guideway transit service that would increase mobility and connectivity for historically underserved, transit-dependent communities; improve travel times on local and regional transportation networks relative to not making this investment; and accommodate substantial future employment and population growth. The Project would provide reliable transit service to meet the future mobility needs of residents, employees, and visitors who travel within the Study Area.

The Project includes two (2) possible alignment alternatives in the north: Alternatives E and G; utilizes the San Pedro Branch Right-of-Way in the central section; and the Metro-Owned Right-of-Way in the southern section of the Study Area. The Project proposes to develop approximately 15 rail stations along the LRT line and identify transit oriented community land use concepts and last mile pedestrian/bicycle connectivity opportunities associated with the proposed stations. The Project will also consider the development of ancillary facilities such as a maintenance and operations facility/job training center, traction power substations, and grade separation structures, as well as transit patron parking areas at selected locations along the Project alignment. Additional, potential Project primary and ancillary features are described below.



ENVIRONMENTAL EFFECTS: The purpose of the Draft EIS/EIR is to disclose the impacts of the Project on the environment. Key CEQA environmental factors to be addressed include: Aesthetics and Visual Quality; Air Quality; Biological Resources; Cultural Resources (Historic, Archeological, Paleontological, and Tribal Cultural Resources); Geology and Soils; Greenhouse Gas Emissions/Climate Change; Hazards and Hazardous Materials; Hydrology and Water Quality; Land Use and Planning; Noise and Vibration; Population and Housing; Public Services; Parks and Recreation; Transportation and T

Project design features and mitigation measures to reduce potentially impacts during construction and operation will

SCOPING MEETINGS: Public scoping meetings to accept both written and oral comments on the scope of the Draft EIS/EIR will be held on the following dates and times:

- Tuesday, July 24, 2018, 4pm to 7pm, The Los Angeles Athletic Club, 431 W. 7th St., Los Angeles, CA 90014 (Paid parking is also available)
- Wednesday, July 25, 2018, 6pm to 8pm, Clara Park–Turner Hall, 4835 Clara St., Cudahy, CA 90201
- Tuesday, July 31, 2018, 6pm to 8pm, The Mayne Events Center, , CA 90706

The scope of the Draft EIS/EIR, including the goals and objectives, project area, project description, and the environmental impacts to be evaluated will be presented at the public scoping meetings. All Metro meetings are held in Americans with Disabilities Act (ADA) - compliant facilities. Spanish translation and Spanish-speaking will be provided at all scoping meetings. Japanese translation will be provided at Scoping Meeting #1. ADA accommodations and other translations are available by calling (323) 466-3876 or California Relay at 711 at least 72 hours in advance of the meeting. For those unable to attend the meetings, a video recording of the formal presentation will be made available on the project website within one week of the conclusion of the meeting series. For more project information, please visit www.metro.net/wsab.

COMMENT DUE DATE: In addition to oral comments accepted at the scoping meetings, written comments on the scope of the Draft EIS/EIR, including the goals and objectives, project area and description, environmental impacts to be evaluated, and methodologies to be used in the evaluation, will be accepted Wednesday, July 11, 2018 through Friday, August 24, 2018. Metro does not anticipate extending the scoping comment period. Therefore, written comments should be sent to Metro on or before Friday, August 24, 2018 at the postal address or e-mail address below.

ADDRESS: Written and oral comments will be accepted at the public scoping meetings or they may be sent to Teresa Wong, Project Manager, Metro, One Gateway Plaza, Mail Stop: 99-22-4, Los Angeles, CA 90012, or via e-mail at WSAB@metro.net.

AUTORIDAD DE TRANSPORTE METROPOLITANO DEL CONDADO DE LOS ANGELES (METRO)
AVISO REVISADO Y REDISTRIBUIDO DE PREPARACIÓN (NOP) DEL BORRADOR DE LA DECLARACIÓN/REPORTE DEL IMPACTO AMBIENTAL

PARA: AGENCIAS, ORGANIZACIONES Y PARTES INTERESADAS

TITULO DEL PROYECTO: PROYECTO DEL CORREDOR DE TRANSPORTE DE WEST SANTA ANA BRANCH **UBICACIÓN DEL PROYECTO Y EL ENTORNO AMBIENTAL:** El Corredor de Transporte (Proyecto) de West Santa Ana Branch (WSAB, por sus siglas en inglés) es la propuesta de una línea de transporte público del tren ligero (LRT, por sus siglas en inglés) que tendría una extensión de aproximadamente 20 millas empezando en el norte desde el centro de Los Angeles, hasta terminar en el sur, en el límite entre el condado de Los Angeles y Orange, en la ciudad de Cerritos o cerca de ella. La línea de tren ligero propuesta (LRT) conectaría el centro de Los Angeles con el sureste del Condado de Los Angeles, prestando servicio a las ciudades y comunidades del Arts District (Distrito Artístico), Little Tokyo, Los Angeles, la comunidad no integrada del Condado de Los Angeles denominada Florence-Graham, Vernon, Huntington Park, Bell, Cudahy, South Gate, Downey, Paramount, Bellflower, Cerritos y Artesia (ilustración 1). El área de estudio incluye algunas de las comunidades de bajos ingresos más densamente poblados, que abarca grandes regiones de centros de empleo e importantes zonas industriales y manufactureras del Condado. El área de estudio está en su mayor parte urbanizada y posee una amplia gama existente y planificada de utilización de los terrenos.

INICIACION DEL PROYECTO: La Autoridad de Transporte Metropolitano del Condado de los Angeles (Metro) ha desarrollado un Borrador de la Declaración de Impacto Ambiental/Informe de Impacto Ambiental (EIS/EIR, por sus siglas en inglés) para el Proyecto del Corredor de Transporte de WSAB, de conformidad con la Ley de Calidad Ambiental de California (CEQA, por sus siglas en inglés). Metro es la agencia que dirige el proyecto. El Borrador del EIS/EIR será elaborado de conformidad a los lineamientos de la sección 15170 de la ley CEQA. La Administración Federal de Transporte Público (FTA, por sus siglas en inglés) es la agencia que dirige la EIS.

El propósito del Aviso Revisado (NOP) es el de comunicar a las partes y agencias interesadas, a las jurisdicciones locales, organizaciones comunitarias y a los residentes interesados (llamadas colectivamente: partes interesadas) sobre la preparación del Borrador del EIS/EIR del Proyecto. Este Aviso Revisado (NOP) es para solicitar los comentarios en cuanto al alcance y contenido del Borrador del EIS/EIR y los posibles efectos ambientales del Proyecto. Otro objetivo es el de convocar a la participación pública en el proceso de alcance del Borrador del EIS/EIR y anunciar las reuniones de alcance público.

En la reunión de la Junta Directiva llevada a cabo en abril de 2017, fueron llevadas a un análisis ambiental cuatro opciones para la alineación del norte (ilustración 2). El 25 de mayo de 2017, se publicó un Aviso (NOP) informando a las partes interesadas de los planes de Metro para preparar un Borrador del EIS/EIS y solicitar aportes acerca del Proyecto. Un aviso revisado (NOP) fue publicado el 14 de junio de 2017, informando al público la extensión del periodo de comentarios, desde el 7 de julio de 2017 hasta el 4 de agosto de 2017.

En consideración a los comentarios y otros aportes recibidos durante y luego del periodo establecido por el NOP, y de acuerdo a estudios técnicos posteriores del Proyecto, se establecieron adicionalmente cuatro (4) conceptos para la alineación del norte: Conceptos E hasta H (ilustración 3). El 24 de mayo de 2018, la Junta Directiva de Metro determinó eliminar las cuatro (4) alineaciones originales del norte, alternativas A hasta D, y los conceptos F y H y de esta manera no llevarlos a una mayor consideración y análisis en el proceso medioambiental. La Junta Directiva de Metro decidió continuar con los conceptos E y G (ilustración 4) para seguir con el proceso del EIS/EIR como las nuevas alternativas para la alineación del norte; una descripción adicional del proyecto se proporciona más adelante. El razonamiento para dicha selección se describe en el informe de la agenda de la reunión y la audiencia pública de la Junta Directiva de fecha 24 de mayo de 2018, el cual está disponible por internet o en la dirección proporcionada en este Aviso de Preparación (NOP) (https://metro-pdf-merger.datamade.us/document/ocd-bill-f9a0b9a6-0aca-402a-8963-15a6b3595a0f y http://metro.granicus.com/MediaPlayer.php?view_id=2&clip_id=868).

PROPOSITO, NECESIDAD Y DESCRIPCIÓN DEL PROYECTO: El Proyecto es la propuesta de una línea LRT que tendría una extensión de aproximadamente 20 millas desde el centro de Los Angeles, continuando por el sureste del Condado de Los Angeles y terminando dentro o cerca de la ciudad de Cerritos, atravesando comunidades de bajos ingresos densamente pobladas y dependientes en gran manera del transporte público. El proyecto proporcionaría un servicio confiable de transporte público mediante rieles fijas, que incrementaría la movilidad y conexión de comunidades que a lo largo de su historia no fueron suficientemente provistas de servicios de transporte público del cual dependen; mejoraría el tiempo de viaje actual en las redes de transporte local y regional si es que se hace esta inversión; y posibilitaría en el futuro un crecimiento sustancial de la población y los empleos. El proyecto proporcionaría un servicio de transporte público confiable que pudiera satisfacer las necesidades futuras de transporte de los residentes, empleados y visitantes dentro del área del estudio.

El proyecto incluye dos (2) alternativas posibles de alineación en el norte: las alternativas E y G; utiliza el Derecho Preferente de Paso de San Pedro Branch, en la sección central; y el Derecho Preferente de Paso de propiedad de Metro en la sección sur del área de estudio. El proyecto propone desarrollar aproximadamente 15 estaciones para la línea de LRT, e identifica los conceptos del uso de terrenos comunitarios orientados al transporte público y las posibilidades de conexión peatonal/de bicicletas dentro de la primera y última milla asociadas a las estaciones propuestas. El proyecto también considerará el desarrollo de instalaciones auxiliares como las de mantenimiento y operaciones/centros de formación de personal,

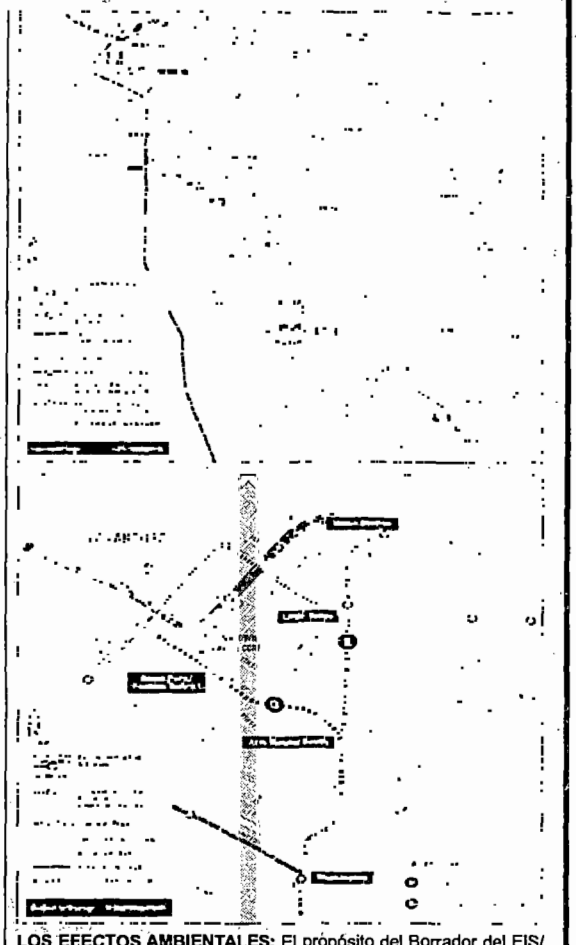
Otro objetivo es el de convocar a la participación pública en el proceso de alcance del Borrador del EIS/EIR y anunciar las reuniones de alcance público.

En la reunión de la Junta Directiva llevada a cabo en abril de 2017, fueron llevadas a un análisis ambiental cuatro opciones para la alineación del norte (ilustración 2). El 25 de mayo de 2017, se publicó un Aviso (NOP) informando a las partes interesadas de los planes de Metro para preparar un Borrador del EIS/EIS y solicitar aportes acerca del Proyecto. Un aviso revisado (NOP) fue publicado el 14 de junio de 2017, informando al público la extensión del periodo de comentarios, desde el 7 de julio de 2017 hasta el 4 de agosto de 2017.

En consideración a los comentarios y otros aportes recibidos durante y luego del periodo establecido por el NOP, y de acuerdo a estudios técnicos posteriores del Proyecto, se establecieron adicionalmente cuatro (4) conceptos para la alineación del norte: Conceptos E hasta H (ilustración 3). El 24 de mayo de 2018, la Junta Directiva de Metro determinó eliminar las cuatro (4) alineaciones originales del norte, alternativas A hasta D, y los conceptos F y H y de esta manera no llevarlos a una mayor consideración y análisis en el proceso medioambiental. La Junta Directiva de Metro decidió continuar con los conceptos E y G (ilustración 4) para seguir con el proceso del EIS/EIR como las nuevas alternativas para la alineación del norte; una descripción adicional del proyecto se proporciona más adelante. El razonamiento para dicha selección se describe en el informe de la agenda de la reunión y la audiencia pública de la Junta Directiva de fecha 24 de mayo de 2018, el cual está disponible por internet o en la dirección proporcionada en este Aviso de Preparación (NOP) (https://metro-pdf-merger.datamade.us/document/ocd-bill-f9a0b9a6-0aca-402a-8963-15a6b3595a0f y http://metro.granicus.com/MediaPlayer.php?view_id=2&clip_id=868).

PROPOSITO, NECESIDAD Y DESCRIPCIÓN DEL PROYECTO: El Proyecto es la propuesta de una línea LRT que tendría una extensión de aproximadamente 20 millas desde el centro de Los Angeles, continuando por el sureste del Condado de Los Angeles y terminando dentro o cerca de la ciudad de Cerritos, atravesando comunidades de bajos ingresos densamente pobladas y dependientes en gran manera del transporte público. El proyecto proporcionaría un servicio confiable de transporte público mediante rieles fijas, que incrementaría la movilidad y conexión de comunidades que a lo largo de su historia no fueron suficientemente provistas de servicios de transporte público del cual dependen; mejoraría el tiempo de viaje actual en las redes de transporte local y regional si es que se hace esta inversión; y posibilitaría en el futuro un crecimiento sustancial de la población y los empleos. El proyecto proporcionaría un servicio de transporte público confiable que pudiera satisfacer las necesidades futuras de transporte de los residentes, empleados y visitantes dentro del área del estudio.

El proyecto incluye dos (2) alternativas posibles de alineación en el norte: las alternativas E y G; utiliza el Derecho Preferente de Paso de San Pedro Branch, en la sección central; y el Derecho Preferente de Paso de propiedad de Metro en la sección sur del área de estudio. El proyecto propone desarrollar aproximadamente 15 estaciones para la línea de LRT, e identifica los conceptos del uso de terrenos comunitarios orientados al transporte público y las posibilidades de conexión peatonal/de bicicletas dentro de la primera y última milla asociadas a las estaciones propuestas. El proyecto también considerará el desarrollo de instalaciones auxiliares como las de mantenimiento y operaciones/centros de formación de personal, subestaciones potencia de tracción y de estructuras de separación de grados, así como áreas de estacionamiento para los usuarios



LOS EFECTOS AMBIENTALES: El propósito del Borrador del EIS/EIR es difundir los impactos del proyecto en el medioambiente. Los factores ambientales claves contemplados por la CEQA que se tomarán en cuenta incluyen: Calidad visual y estética; calidad de aire; recursos biológicos; recursos culturales (históricos, arqueológicos, paleontológicos, y recursos culturales tribales); geología y suelos; cambio climático/emisiones de gases efecto invernadero; peligros y materiales peligrosos; hidrología y calidad del agua; uso y planificación de tierras; ruido y vibración; población y vivienda; servicios públicos; parques y recreaciones; transporte y tráfico; y servicios básicos.

Se identificarán en el Borrador del EIS/EIR las características del diseño del Proyecto y las medidas de mitigación para reducir los posibles impactos de magnitud durante la construcción y operación.

REUNIONES DE ALCANCE PÚBLICO: Las reuniones de alcance público para aceptar los comentarios escritos y orales sobre el alcance del Borrador del EIS/EIR se llevarán a cabo en las siguientes fechas y horarios:

- Martes 24 de julio de 2018, de 4pm a 7pm; en The Los Angeles Athletic Club, 431 W. 7th St., Los Angeles, CA 90014 (Un estacionamiento pagado también está disponible)
- Miércoles 25 de julio de 2018, de 6pm a 8pm, en Clara Park–Turner Hall, 4835 Clara St., Cudahy, CA 90201
- Martes 31 de julio de 2018, de 6pm a 8pm, en The Mayne Events Center, 16408 Bellflower Blvd., Bellflower, CA 90706

En las reuniones de alcance público se presentará el alcance del Borrador del EIS/EIR, incluyendo las metas y objetivos, el área del proyecto, su descripción y los impactos medioambientales a ser evaluados. Todas las reuniones de Metro se llevan a cabo en instalaciones que cumplen con lo establecido en la Ley de los Estadounidenses con Discapacidades (ADA, por sus siglas en inglés). Se proporcionará traducción al español y personal hispanoparlante en las reuniones de alcance público. Se proporcionará traducción en japonés en la reunión de alcance público Nº 1. Las adaptaciones conforme a la ley ADA y otras traducciones están disponibles llamando al (323)466-3876 o al Sistema de Retransmisión de California (California Relay) al 711, al menos con 72 horas de anticipación a la reunión. Para aquellos que no puedan asistir a las reuniones, se grabará un video de la presentación formal y se publicará en el sitio web del proyecto en el transcurso de la semana siguiente a la conclusión de la serie de reuniones. Para obtener más información sobre el proyecto, por favor visite www.metro.net/wsab

FECHA LÍMITE PARA LOS COMENTARIOS: Además de los comentarios orales recibidos en las reuniones de alcance público, también se aceptarán, entre el miércoles 11 de julio y el viernes 24 de agosto de 2018, los comentarios por escrito sobre el alcance del Borrador del EIS/EIR, incluyendo las metas y objetivos, el área y descripción del proyecto, los impactos medioambientales a ser evaluados y la metodología que se utilizará en dicha evaluación. Metro no planea extender el periodo de comentarios del alcance público. Por tanto, los comentarios escritos deberán ser enviados a Metro hasta el viernes 24 de agosto de 2018, a la dirección postal o el correo electrónico señalados a continuación.

DIRECCIÓN: Se aceptarán comentarios por escrito y orales en las reuniones de alcance público o también pueden ser enviados

AUTORIDAD DE TRANSPORTE METROPOLITANO DEL CONDADO DE LOS ANGELES (METRO)
AVISO REVISADO Y REDISTRIBUIDO DE PREPARACIÓN (NOP) DEL BORRADOR DE LA DECLARACIÓN/REPORTE DEL IMPACTO AMBIENTAL

PARA: AGENCIAS, ORGANIZACIONES Y PARTES INTERESADAS

TITULO DEL PROYECTO: PROYECTO DEL CORREDOR DE TRANSPORTE DE WEST SANTA ANA BRANCH **UBICACIÓN DEL PROYECTO Y EL ENTORNO AMBIENTAL:** El Corredor de Transporte (Proyecto) de West Santa Ana Branch (WSAB, por sus siglas en inglés) es la propuesta de una línea de transporte público del tren ligero (LRT, por sus siglas en inglés) que tendría una extensión de aproximadamente 20 millas empezando en el norte desde el centro de Los Angeles, hasta terminar en el sur, en el límite entre el condado de Los Angeles y Orange, en la ciudad de Cerritos o cerca de ella. La línea de tren ligero propuesta (LRT) conectaría el centro de Los Angeles con el sureste del Condado de Los Angeles, prestando servicio a las ciudades y comunidades del Arts District (Distrito Artístico), Little Tokyo, Los Angeles, la comunidad no integrada del Condado de Los Angeles denominada Florence-Graham, Vernon, Huntington Park, Bell, Cudahy, South Gate, Downey, Paramount, Bellflower, Cerritos y Artesia (ilustración 1). El área de estudio incluye algunas de las comunidades de bajos ingresos más densamente poblados, que abarca grandes regiones de centros de empleo e importantes zonas industriales y manufactureras del Condado. El área de estudio está en su mayor parte urbanizada y posee una amplia gama existente y planificada de utilización de los terrenos.

INICIACION DEL PROYECTO: La Autoridad de Transporte Metropolitano del Condado de los Angeles (Metro) ha desarrollado un Borrador de la Declaración de Impacto Ambiental/Informe de Impacto Ambiental (EIS/EIR, por sus siglas en inglés) para el Proyecto del Corredor de Transporte de WSAB, de conformidad con la Ley de Calidad Ambiental de California (CEQA, por sus siglas en inglés). Metro es la agencia que dirige el proyecto. El Borrador del EIS/EIR será elaborado de conformidad a los lineamientos de la sección 15170 de la ley CEQA. La Administración Federal de Transporte Público (FTA, por sus siglas en inglés) es la agencia que dirige la EIS.

El propósito del Aviso Revisado (NOP) es el de comunicar a las partes y agencias interesadas, a las jurisdicciones locales, organizaciones comunitarias y a los residentes interesados (llamadas colectivamente: partes interesadas) sobre la preparación del Borrador del EIS/EIR del Proyecto. Este Aviso Revisado (NOP) es para solicitar los comentarios en cuanto al alcance y contenido del Borrador del EIS/EIR y los posibles efectos ambientales del Proyecto. Otro objetivo es el de convocar a la participación pública en el proceso de alcance del Borrador del EIS/EIR y anunciar las reuniones de alcance público.

En la reunión de la Junta Directiva llevada a cabo en abril de 2017, fueron llevadas a un análisis ambiental cuatro opciones para la alineación del norte (ilustración 2). El 25 de mayo de 2017, se publicó un Aviso (NOP) informando a las partes interesadas de los planes de Metro para preparar un Borrador del EIS/EIS y solicitar aportes acerca del Proyecto. Un aviso revisado (NOP) fue publicado el 14 de junio de 2017, informando al público la extensión del periodo de comentarios, desde el 7 de julio de 2017 hasta el 4 de agosto de 2017.

En consideración a los comentarios y otros aportes recibidos durante y luego del periodo establecido por el NOP, y de acuerdo a estudios técnicos posteriores del Proyecto, se establecieron adicionalmente cuatro (4) conceptos para la alineación del norte: Conceptos E hasta H (ilustración 3). El 24 de mayo de 2018, la Junta Directiva de Metro determinó eliminar las cuatro (4) alineaciones originales del norte, alternativas A hasta D, y los conceptos F y H y de esta manera no llevarlos a una mayor consideración y análisis en el proceso medioambiental. La Junta Directiva de Metro decidió continuar con los conceptos E y G (ilustración 4) para seguir con el proceso del EIS/EIR como las nuevas alternativas para la alineación del norte; una descripción adicional del proyecto se proporciona más adelante. El razonamiento para dicha selección se describe en el informe de la agenda de la reunión y la audiencia pública de la Junta Directiva de fecha 24 de mayo de 2018, el cual está disponible por internet o en la dirección proporcionada en este Aviso de Preparación (NOP) (https://metro-pdf-merger.datamade.us/document/ocd-bill-f9a0b9a6-0aca-402a-8963-15a6b3595a0f y http://metro.granicus.com/MediaPlayer.php?view_id=2&clip_id=868).

PROPOSITO, NECESIDAD Y DESCRIPCIÓN DEL PROYECTO: El Proyecto es la propuesta de una línea LRT que tendría una extensión de aproximadamente 20 millas desde el centro de Los Angeles, continuando por el sureste del Condado de Los Angeles y terminando dentro o cerca de la ciudad de Cerritos, atravesando comunidades de bajos ingresos densamente pobladas y dependientes en gran manera del transporte público. Se describen a continuación las posibles características principales y auxiliares del proyecto.

LOS EFECTOS AMBIENTALES: El propósito del Borrador del EIS/EIR es difundir los impactos del proyecto en el medioambiente. Los factores ambientales claves contemplados por la CEQA que se tomarán en cuenta incluyen: Calidad visual y estética; calidad de aire; recursos biológicos; recursos culturales (históricos, arqueológicos, paleontológicos, y recursos culturales tribales); geología y suelos; cambio climático/emisiones de gases efecto invernadero; peligros y materiales peligrosos; hidrología y calidad del agua; uso y planificación de tierras; ruido y vibración; población y vivienda; servicios públicos; parques y recreaciones; transporte y tráfico; y servicios básicos.

- Martes 31 de julio de 2018, de 6pm a 8pm, en The Mayne Events Center, 16408 Bellflower Blvd., Bellflower, CA 90706

En las reuniones de alcance público se presentará el alcance del Borrador del EIS/EIR, incluyendo las metas y objetivos, el área del proyecto, su descripción y los impactos medioambientales a ser evaluados. Todas las reuniones de Metro se llevan a cabo en instalaciones que cumplen con lo establecido en la Ley de los Estadounidenses con Discapacidades (ADA, por sus siglas en inglés). Se proporcionará traducción al español y personal hispanoparlante en las reuniones de alcance público. Se proporcionará traducción en japonés en la reunión de alcance público Nº 1. LOS ANGELES COUNTY METROPOLITAN TRANSPORTATION AUTHORITY (METRO) REVISED AND RECIRCULATED NOTICE OF PREPARATION (NOP) OF A DRAFT ENVIRONMENTAL IMPACT STATEMENT/ENVIRONMENTAL IMPACT REPORT

TO: AGENCIES, ORGANIZATIONS & INTERESTED PARTIES

PROJECT TITLE: WEST SANTA ANA BRANCH TRANSIT CORRIDOR PROJECT

PROJECT LOCATION AND ENVIRONMENTAL SETTING: The West Santa Ana Branch (WSAB) Transit Corridor (Project) is a proposed light rail transit (LRT) line that would extend approximately 20 miles from downtown Los Angeles in the north toward the Los Angeles/Orange County line on the south, in or near the City of Cerritos. The proposed LRT line would connect downtown Los Angeles to southeast Los Angeles County, serving the cities and communities of Arts District, Little Tokyo, Los Angeles, unincorporated Florence-Graham community of Los Angeles County, Vernon, Huntington Park, Bell, Cudahy, South Gate, Downey, Paramount, Bellflower, Cerritos and Artesia (Figure 1). The Study Area includes some of Los Angeles County's most densely-developed and low-income residential neighborhoods and encompasses major regional employment centers, including significant industrial and manufacturing clusters in the County. The Study Area is primarily urbanized, with a wide-range of existing and planned land uses.

PROJECT INITIATION: The Los Angeles County Metropolitan Transportation Authority (Metro) has initiated a Draft Environmental Impact Statement/Environmental Impact Report (EIS/EIR) for the WSAB Transit Corridor Project pursuant to the California Environmental Quality Act (CEQA). Metro is the lead agency for the Project. The Draft EIS/EIR will be prepared in accordance with Section 15170 of the CEQA Guidelines. The Federal Transit Administration (FTA) is the lead agency for the EIS.

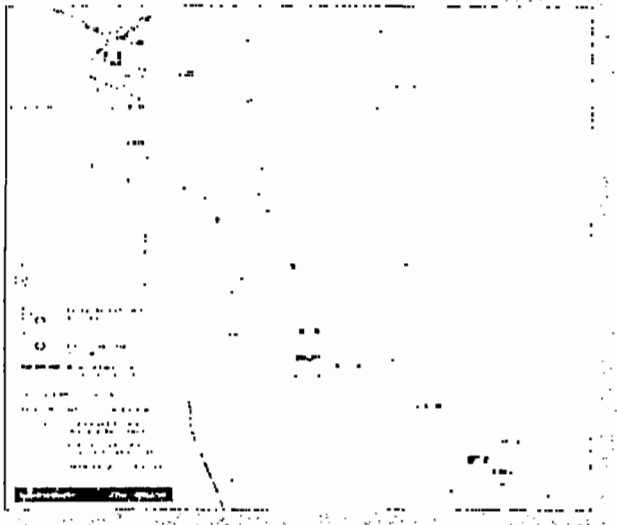
The purpose of this revised NOP is to notify interested agencies and parties, local jurisdictions, community organizations, and interested residents (collectively, interested parties) to the preparation of the Draft EIS/EIR for the Project. This revised NOP is to solicit comments as to the scope and content of the Draft EIS/EIR and potential environmental effects from the Project; invite public participation in the Draft EIS/EIR scoping process; and announce the public scoping meetings.

At the April 2017 Board meeting, four northern alignment options (Figure 2) were carried into the environmental analysis. On May 25, 2017, a NOP was publicly released, informing interested parties of Metro's plans to prepare a Draft EIS/EIR and request input about the Project. A revised NOP was released on June 14, 2017 informing the public of the extension to the comment period end date from July 7, 2017 to August 4, 2017.

In response to scoping comments and other input received during and after the NOP comment period, and further technical study of the Project, four (4) additional northern alignment concepts were conceived for screening: Concepts E through H (Figure 3). On May 24, 2018, the Metro Board determined to eliminate the four (4) original northern alignment Alternatives A through D, and Concepts F and H from further consideration and analysis in the environmental process. The Metro Board decided to carry Concepts E and G (Figure 4) forward into the EIS/EIR process as the new northern alignment alternatives; additional description of the Project is provided below. The Board's reasoning for doing so is described in the Board's May 24, 2018 agenda report and public hearing, available online or via the address provided in this NOP (https://metro-pdf-merger.datamade.us/document/ocd-bill-f9a0b9a6-0aca-402a-8963-15a6b3595a0f and http://metro.granicus.com/MediaPlayer.php?view_id=2&clip_id=868).

PROJECT PURPOSE, NEED AND DESCRIPTION: The Project is a proposed LRT line that would extend approximately 20 miles from downtown Los Angeles, through southeast Los Angeles County, to a terminus within or near the City of Cerritos, traversing densely populated, low-income and heavily transit-dependent communities. The Project would provide reliable, fixed guideway transit service that would increase mobility and connectivity for historically underserved, transit-dependent communities; improve travel times on local and regional transportation networks relative to not making this investment; and accommodate substantial future employment and population growth. The Project would provide reliable transit service to meet the future mobility needs of residents, employees, and visitors who travel within the Study Area.

The Project includes two (2) possible alignment alternatives in the



ENVIRONMENTAL EFFECTS: The purpose of the Draft EIS/EIR is to disclose the impacts of the Project on the environment. Key CEQA environmental factors to be addressed include: Aesthetics and Visual Quality; Air Quality; Biological Resources; Cultural Resources (Historic, Archeological, Paleontological, and Tribal Cultural Resources); Geology and Soils; Greenhouse Gas Emissions/Climate Change; Hazards and Hazardous Materials; Hydrology and Water Quality; Land Use and Planning; Noise and Vibration; Population and Housing; Public Services; Parks and Recreation; Transportation and Traffic; and Utilities and Services.

Project design features and mitigation measures to reduce potentially significant impacts during construction and operation will be identified in the Draft EIS/EIR.

SCOPING MEETINGS: Public scoping meetings to accept both written and oral comments on the scope of the Draft EIS/EIR will be held on the following dates and times:

- Tuesday, July 24, 2018, 4pm to 7pm, The Los Angeles Athletic Club, 431 W. 7th St., Los Angeles, CA 90014 (Paid parking is also available)
- Wednesday, July 25, 2018, 6pm to 8pm, Clara Park–Turner Hall, 4835 Clara St., Cudahy, CA 90201
- Tuesday, July 31, 2018, 6pm to 8pm, The Mayne Events Center, 16408 Bellflower Blvd., Bellflower, CA 90706

The scope of the Draft EIS/EIR, including the goals and objectives, project area, project description, and the environmental impacts to be evaluated will be presented at the public scoping meetings. All Metro meetings are held in Americans with Disabilities Act (ADA) - compliant facilities. Spanish translation and Spanish-speaking staff will be provided at all scoping meetings. Japanese translation will be provided at Scoping Meeting #1. ADA accommodations and other translations are available by calling (323) 466-3876 or California Relay at 711 at least 72 hours in advance of the meeting. For those unable to attend the meetings, a video recording of the formal presentation will be made available on the project website within one week of the conclusion of the meeting series. For more project information, please visit www.metro.net/wsab.

COMMENT DUE DATE: In addition to oral comments accepted at the scoping meetings, written comments on the scope of the

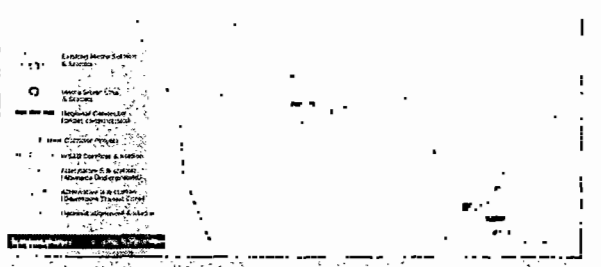
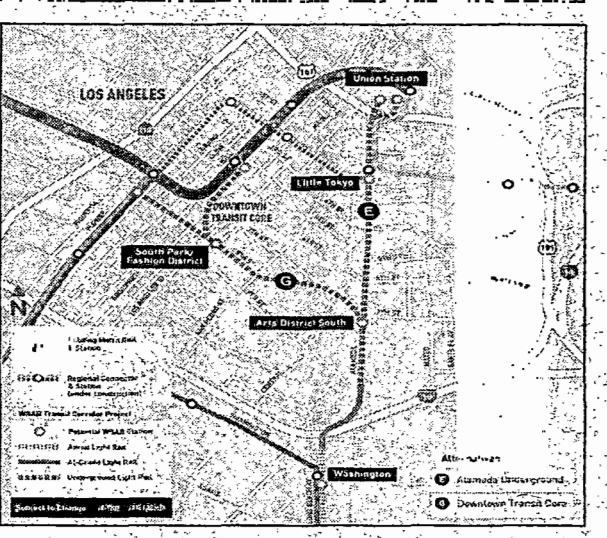
PROJECT PURPOSE, NEED AND DESCRIPTION: The Project is a proposed LRT line that would extend approximately 20 miles from downtown Los Angeles, through southeast Los Angeles County, to a terminus within or near the City of Cerritos, traversing densely populated, low-income and heavily transit-dependent communities. The Project would provide reliable, fixed guideway transit service that would increase mobility and connectivity for historically underserved, transit-dependent communities; improve travel times on local and regional transportation networks relative to not making this investment; and accommodate substantial future employment and population growth. The Project would provide reliable transit service to meet the future mobility needs of residents, employees, and visitors who travel within the Study Area.

The Project includes two (2) possible alignment alternatives in the north: Alternatives E and G; utilizes the San Pedro Branch Right-of-Way in the central section; and the Metro-Owned Right-of-Way in the southern section of the Study Area. The Project proposes to develop approximately 15 rail stations along the LRT line and identify transit oriented community land use concepts and first/last mile pedestrian/bicycle connectivity opportunities associated with the proposed stations. The Project will also consider the development of ancillary facilities such as a maintenance and operations facility/job training center, traction power substations, and grade separation structures, as well as transit patron parking areas at selected locations along the Project alignment. Additional, potential Project primary and ancillary features are described below.





ENVIRONMENTAL EFFECTS: The purpose of the Draft EIS/EIR is to disclose the impacts of the Project on the environment. Key CEQA environmental factors to be addressed include: Aesthetics and Visual Quality; Air Quality; Biological Resources; Cultural Resources (Historic, Archeological, Paleontological, and Tribal Cultural Resources); Geology and Soils; Greenhouse Gas Emissions/Climate Change; Hazards and Hazardous Materials; Hydrology and Water Quality; Land Use and Planning; Noise and Vibration; Population and Housing; Public Services; Parks and Recreation; Transportation and Traffic; and Utilities and Services.

- Wednesday, July 25, 2018, 6pm to 8pm, Clara Park–Turner Hall, 4835 Clara St., Cudahy, CA 90201
- Tuesday, July 31, 2018, 6pm to 8pm, The Mayne Events Center, 16408 Bellflower Blvd., Bellflower, CA 90706

The scope of the Draft EIS/EIR, including the goals and objectives, project area, project description, and the environmental impacts to be evaluated will be presented at the public scoping meetings. All Metro meetings are held in Americans with Disabilities Act (ADA) - compliant facilities. Spanish translation and Spanish-speaking staff will be provided at all scoping meetings. Japanese translation will be provided at Scoping Meeting #1. ADA accommodations and other translations are available by calling (323) 466-3876 or California Relay at 711 at least 72 hours in advance of the meeting. For those unable to attend the meetings, a video recording of the formal presentation will be made available on the project website within one week of the conclusion of the meeting series. For more project information, please visit www.metro.net/wsab.

COMMENT DUE DATE: In addition to oral comments accepted at the scoping meetings, written comments on the scope of the Draft EIS/EIR, including the goals and objectives, project area and description, environmental impacts to be evaluated, and methodologies to be used in the evaluation, will be accepted Wednesday, July 11, 2018 through Friday, August 24, 2018. Metro does not anticipate extending the scoping comment period. Therefore, written comments should be sent to Metro on or before Friday, August 24, 2018 at the postal address or e-mail address below.

ADDRESS: Written and oral comments will be accepted at the public scoping meetings or they may be sent to Teresa Wong, Project Manager, Metro, One Gateway Plaza, Mail Stop: 99-22-4, Los Angeles, CA 90012, or via e-mail at WSAB@metro.net.

Updated Scoping Meets for Artesia to DTLA light rail project begin July 24

BY STEVE HYMON , JULY 11, 2018

Metro's project to build a light rail line between Artesia and downtown Los Angeles — formally known as the West Santa Ana Branch Transit Corridor (//www.metro.net/projects/west-santa-ana/) — is in the planning stages. **Updated Scoping Meetings** will begin later this month.

The meetings are a chance for the public to learn more about the project, including the two northern route options (//wp.me/p26tDN-t42) the Metro Board selected in May for further study. The public can also comment on anything related to the project verbally or in writing.

Dates and times of the meetings are:

- **Tuesday, July 24, from 4 p.m. to 7 p.m. with presentations at 4:30 p.m. and repeating at 6 p.m.** at the Los Angeles Athletic Club, 431 W. 7th St., Los Angeles, CA 90014.
- **Wednesday, July 25 from 6 p.m. to 8 p.m.** at Clara Park — Turner Hall, 4835 Clara St., Cudahy, CA 90201.
- **Tuesday, July 31 from 6 p.m. to 8 p.m.** at The Mayne Events Center — 16408 Bellflower Blvd., Bellflower, CA 90706.

Metro Debates Two Station Options for New Downtown Rail Line

By Nicholas Slayton 8 hrs ago (1)

Metro's $4.6 billion West Santa Ana Branch Transit Corridor will connect Downtown with cities in Southeast Los Angeles County. The agency is still determining whether it should have a terminus of Union Station or in the Financial District.

image courtesy the Metropolitan Transportation Authority

DTLA - The Metropolitan Transportation Authority is planning a rail line that would connect Southeast Los Angeles cities with Downtown. Although construction will not begin for four years, already it is generating a question: Will it end at Union Station or in the Financial District?

[Get DTLA stories in our daily email newsletter.]

Local stakeholders weighed in on the topic last week, part of a public comment period for the $4.6 billion West Santa Ana Branch Transit Corridor. People who live and work in Little Tokyo were particularly outspoken during a meeting at the Los Angeles Athletic Club on Tuesday, July 24, with charges that the neighborhood had been hit hard over the last two decades by construction for Metro's Gold Line and the current Regional Connector project. Area denizens expressed concern that additional construction could cause longstanding businesses to close and kill the spirit of the neighborhood.

Chris Komai, a board member of the Little Tokyo Community Council, said Metro needs to be communicative as the process moves forward.

"Metro needs to come to the table before it becomes set in stone. Talk to us early, don't talk to us after the fact," Komai said. "Don't come and say, here's this station, what color do you want? You have to get into what will benefit the communities you say you serve."

The 20-mile light-rail line, being funded through the Measure M sales tax approved by county voters, would run from Artesia to Downtown Los Angeles, with 15 stops along the way. While most of the route has been selected, the path in Downtown is still up for debate. In recent months Metro put forward possible alignments, and in May the agency announced that the line would end either at Union Station or in the Downtown core, according to Project Manager Teresa Wong.

Metro is still determining the latter option, and is considering a terminus in the vicinity of Eighth and Flower streets, or at Fifth and Hill streets near Pershing Square, according to Brian Lam, a senior transportation planner with Metro. Both routes would run underground, traveling along Alameda Street.

The Union Station plan, known as Option E, would pass through Little Tokyo. The other path, Option G, would cut across the Industrial and Fashion districts toward South Park.

Some Little Tokyo stakeholders said they welcome more transit in the area, but want to limit or avoid an impact on local businesses. David Ikegami, a property owner in the neighborhood, suggested putting the portal to the station on the same block as the coming Regional Connector.

Alan Kumamoto, representing the St. Francis Xavier Japanese Catholic Center on Hewitt Street, said he supports Option E, but thinks the portal to the rail line should be in Union Station, rather than off Alameda Street.

Estela Lopez, executive director of the Industrial District Business Improvement District, said the Union Station path would benefit workers on the eastern edge of Downtown, who currently have limited public transportation options and instead have to commute by car.

“Stations along this route would serve our Industrial District, serve Little Tokyo, it would serve the Arts District,” Lopez said. “It would also help a disadvantaged community that doesn’t always get to talk at these meetings: the thousands of people who live in Skid Row.”

Metro is accepting comments through Aug. 24. A route and a Downtown terminus are expected to be chosen by 2020 when a draft environmental impact report is released.

The West Santa Ana Branch Transit Corridor is scheduled to break ground in 2022 and be finished by 2028.

Meet with Metro at Streetfest to Discuss Transit Project

Please join us to learn the latest updates and provide your feedback on the West Santa Ana Branch (WSAB) Transit Corridor Project, a new 20-mile light rail transit line that would connect downtown Los Angeles to southeast LA County.

Metro formally initiated the environmental studies through the Public Scoping Meetings held for the WSAB Transit Corridor Project in Summer 2017. Based on the feedback received through the public scoping period and ongoing outreach efforts, the Metro Board considered and took action on the Northern Alignment options.

As a result, the Updated Scoping Meeting Series is being conducted to receive formal public comments on the proposed project alternatives. Scoping meetings are an important step in the preparation of a Draft Environmental Impact Statement/Environmental Impact Report (EIS/EIR) in accordance with federal/state requirements.

Metro will be holding another round of community meetings to share the latest project updates and receive your feedback on the proposed alignment options.

Learn About, and Give Input On, the Transit Line Coming Through Paramount

The Los Angeles County Metropolitan Transportation Authority (Metro) formally initiated the environmental studies through the Public Scoping Meetings in 2017 for the West Santa Ana Branch (WSAB) Transit Corridor, a new 20-mile light rail transit line that would connect downtown Los Angeles to southeast L.A. County and go through Paramount where there are two stations scheduled to be built.

Based on the feedback received through the public scoping period and ongoing outreach efforts, the Metro Board considered and took action to carry forward on the Northern Alignment options. As a result, Metro is having a series of Updated Scoping Meetings to share the latest project details and receive additional input. Those meetings closest to Paramount are:

Cudahy - Wednesday, July 25, 6-8 p.m., Clara Park - Turner Hall, 4835 Clara St.
Bellflower - Tuesday, July 31, 6-8 p.m., The Mayne Events Center. 16408 Bellflower Blvd.

Formal comments will be accepted until Friday, August 24. For more project information, please visit metro.net/WSAB or follow facebook.com/MetroWSAB and twitter.com/MetroWSAB.

Top Issues Raised During 2017 Scoping

- Northern Alignments
- Connectivity to Union Station & Other Transit Lines
- Environmental Impacts (noise, traffic, visual impediments)
- Grade Separations
- Community Engagement
- Safety and Security
- Station Locations

Northern Alignment Alternatives

> In May 2018, the Metro Board selected two new northern alignments, **Alternatives E and G**, to move forward into the DEIS/EIR

Southern Alignment

> **San Pedro Branch**
North of Rosecrans, owned by Ports of LA and Long Beach, 6 miles

> **Pacific Electric Right-of-Way**
South of Rosecrans, owned by Metro, 7.3 miles

> **Optional station** at Bloomfield Ave to be evaluated in the event the project is extended to Orange County

Purpose of Scoping

- **What is Scoping?**
  - Identify the purpose of the project
  - Define the alternatives under consideration
  - Determine major issues for environmental analysis
  - Identify project goals and evaluation criteria
  - Obtain public input

Metro

Purpose of the Draft Environmental Impact Statement/Report (EIS/EIR)

- Study potential effects of construction and operation, and evaluate measures to avoid, minimize and mitigate adverse impacts of the project.
- Examples of topics to be studied:
  - Air quality
  - Climate change
  - Community and neighborhood impacts
  - Economic and fiscal impacts
  - Ecosystems and biological resources
  - Energy
  - Environmental justice
  - Geotechnical, seismic, and hazardous materials
  - Growth-inducing impacts
  - Historic, archaeological, and paleontological impacts
  - Hydrology and water quality
  - Land use and developments
  - Noise and vibration
  - Construction Impacts
  - Parklands
  - Safety and security
  - Traffic and parking
  - Visual and aesthetics

Programa

- Bienvenida e introducciones
- Visión general del proyecto y objetivos
- Cómo llegamos aquí
- Propósito de la determinación de alcance
- Cronograma y proceso
- Enfoque ambiental y metodología
- Reuniones de alcance al público actualizadas y comentarios

Metro

Objetivos del proyecto

- Proporcionar mejoras en la movilidad
- Apoyar los planes y políticas locales y regionales del uso del terreno
- Minimizar los impactos ambientales
- Garantizar la rentabilidad y la viabilidad financiera
- Promover la igualdad

Metro

Visión general del proyecto

- 98 millas cuadradas
- 20 millas de longitud
- 15 estaciones nuevas
- 20 ciudades individuales
- 1.4 millones de personas residen actualmente en el área de estudio, y se espera que habrá 1.6 millones de habitantes para el año 2042
- 619,000 empleos se encuentran en el área de estudio actualmente; se espera que habrá 747,000 empleos para el año 2042
- Las densidades de población y empleo son cinco veces más altas que las del Condado de Los Angeles

Comentarios de determinación de alcance de 2017

- Comentarios totales recibidos: 1,122
- Comentarios presentados en las reuniones de alcance público: 80
- Comentarios presentados fuera de las reuniones de alcance público: 1,042
- Muchos de los comentarios fueron sobre la alineación norte

Asuntos principales planteados durante el periodo de alcance de 2017

- Alineaciones del Norte
- Conectividad a Union Station y otras líneas de transporte público
- Impactos ambientales (ruido, tráfico, impedimentos visuales, gentrificación)
- Pasos a desnivel
- Participación de la comunidad
- Seguridad y protección
- Ubicación de las estaciones

Alternativas originales de la Alineación del Norte

> En mayo de 2018, la Junta Directiva de Metro seleccionó dos nuevas alineaciones del norte, las **Alternativas E y G**, para continuar con el DEIS/EIR.

Alineación del Sur

> **San Pedro Branch**
Al Norte de Rosecrans, propiedad de los puertos de Los Ángeles y Long Beach, 6 millas

> **Derecho de vía de Pacific Electric** Al sur de Rosecrans, propiedad de Metro, 7.3 millas

> **Estación opcional** en Bloomfield Ave que será evaluada en caso de que el proyecto se extienda al Condado de Orange

Propósito de la determinación de alcance

- **¿Qué es la determinación de alcance?**
  - Identificar el propósito del proyecto
  - Definir las alternativas que se están considerando
  - Determinar las cuestiones principales para el análisis ambiental
  - Identificar las metas del proyecto y los criterios de evaluación
  - Obtener comentarios del público

Metro

Propósito del Borrador de la Declaración/ Reporte de Impacto Ambiental (EIS/EIR)

- Estudiar los posibles efectos del proyecto durante su construcción y operación, y evaluar medidas para evitar, minimizar y mitigar los impactos adversos del proyecto.

- Ejemplos de los temas a ser estudiados:
  - Calidad del aire
  - Cambio climático
  - Impactos en la comunidad y los vecindarios
  - Impactos económicos y fiscales
  - Ecosistemas y recursos biológicos
  - Energía
  - Justicia ambiental
  - Materiales geotécnicos, sísmicos y peligrosos
  - Impactos inductores del crecimiento
  - Impactos históricos, arqueológicos y paleontológicos
  - Hidrología y calidad del agua
  - Uso del terreno y desarrollos
  - Ruido y vibración
  - Impactos de construcción
  - Parques
  - Seguridad y protección
  - Tráfico y estacionamiento
  - Impactos visuales y estéticos

WEST SANTA ANA BRANCH TRANSIT CORRIDOR

Overview Fact Sheet

SUMMER 2018

Metro®

Project Overview

Metro is evaluating a new light rail transit line that would connect downtown Los Angeles to southeast LA County, serving the cities and communities of downtown Los Angeles, unincorporated Florence-Graham community of LA County, Vernon, Huntington Park, Bell, Cudahy, South Gate, Downey, Paramount, Bellflower, Cerritos and Artesia. The West Santa Ana Branch (WSAB) Transit Corridor Project is a 20-mile corridor undergoing an Environmental Impact Statement (EIS)/ Environmental Impact Report (EIR) process to prepare the corridor for light rail. The project's name originates from the southern portion of the route south of the Metro Green Line that follows the old Pacific Electric street car alignment known as the West Santa Ana Branch Corridor.

The project area is home to 1.2 million residents and a job center to approximately 584,000 employees. Projections show the resident population increasing to 1.5 million and jobs increasing to 670,000 by 2040. Population and employment densities are five times higher than the LA County average. This rail corridor is anticipated to serve commuters in a high travel demand corridor by providing relief to the constrained transportation systems currently available to these communities. In addition, the project is expected to provide a direct connection to the Metro Green Line, Metro Blue Line and the LA County regional transit network. Per the Measure M Expenditure Plan, the project is anticipated to break ground in 2022.

Background

Studies were initially conducted to analyze opportunities to connect Los Angeles and Orange Counties along a 34-mile corridor from Union Station in LA County to the City of Santa Ana in Orange County. In February 2013, Southern California Association of Governments (SCAG) approved the Alternatives Analysis (AA) Study of the corridor and recommended the Light Rail Transit (LRT) alignment as the preferred transit mode and two northern alignment alternatives (West Bank 3 and East Bank) for further consideration.

In 2015, Metro conducted a Technical Refinement Study (TRS) building upon the analysis and recommendations from the SCAG AA with a focus on the LA County segment of the Pacific Electric Right-of-Way (ROW)/WSAB corridor. In September 2015, based upon the West Bank 3 alternative, four new northern alignment options (Pacific/Alameda, Pacific/Vignes, Alameda and Alameda/Vignes) were identified as part of the TRS. The TRS provided updated capital cost and ridership forecasts, as well as analyzed specific challenges identified in the SCAG AA for the LA County segment. In April 2017, Metro released the Northern Alignment Options Screening Report, which analyzed the six alignment options for the northern portion of the project. Upon review, the Metro Board of Directors approved carrying forward the four Northern Alignment Options identified in the TRS for environmental study and initiating the scoping process for this project.

Metro formally initiated the Draft EIS/EIR phase in Summer 2017 with public scoping meetings held along the corridor. In March 2018, the Metro Board authorized further study of an additional four Northern Alignment options in response to comments received during the scoping period and ongoing technical analysis. These new options were presented to the community for input during the March and April Community Update Meetings. On May 24, 2018, the Metro Board selected two Northern Alignment options–Alternative E (Alameda Underground) and Alternative G (Downtown Transit Core)–to be carried into the Draft EIS/EIR for further study.

Project Goals

The main goals of the WSAB project are to:

1. Provide Mobility Improvements
2. Support Local and Regional Land Use Plans and Policies
3. Minimize Environmental Impacts
4. Ensure Cost Effectiveness and Financial Feasibility
5. Promote Equity

Environmental Process

The WSAB Transit Corridor Project's development process is well defined by federal requirements stipulated in the National Environmental Policy Act (NEPA) and state environmental requirements stipulated in the California Environmental Quality Act (CEQA). The flow chart below highlights the major milestones in the process from beginning to end. The project is currently in the Draft EIS/EIR study phase.

The issues identified through the environmental process will be further analyzed, mitigation measures identified, and community input gathered, incorporated and used to select a Locally Preferred Alternative (LPA). During the environmental process, public scoping meetings and hearings will take place along the corridor to engage the community, solicit input and address questions.

PROJECT CORRIDOR MAP

Study Corridor Area At-A-Glance

- > 98 square miles
- > 20 individual cities, plus unincorporated LA County
- > 1.2 million people currently reside in the study area, with 1.5 million residents projected in 2040
- > 584,000 jobs are currently located in the study area, with 670,000 jobs projected in 2040
- > Population and employment densities are five times higher than LA County
- > Estimated weekday boardings range from 78,500 to 81,500

Project Alternatives

There is only one project alternative being considered between the southern terminus at the proposed Pioneer Station in the City of Artesia and the proposed Washington Station in the City of Los Angeles.

The Northern Alignment Alternatives to proceed into the Draft EIS/EIR are:

> Alternative E (Alameda Underground)

> Alternative G (Downtown Transit Core)

In addition, the project will evaluate an optional station at Bloomfield Av (just north of the LA County–Orange County boundary) in the event that the WSAB Line was to be extended to Orange County in the future.

Project Involvement

Metro is committed to a comprehensive outreach program that provides project stakeholders with the necessary tools and resources to be educated and informed, and provide valuable input at key milestones. The Draft EIS/EIR is anticipated to be circulated in 2020 and will include public hearings and an official comment period.

Próxima parada: nuevo servicio de tren al sureste del Condado de Los Angeles.

CORREDOR DE TRANSPORTE DE WEST SANTA ANA BRANCH

Hoja Informativa

VERANO DE 2018

Metro®

Información general del proyecto

Metro está evaluando una nueva línea de transporte de tren ligero que conectaría el centro de Los Angeles con el sureste del Condado de Los Angeles, brindando servicio a las ciudades y comunidades del centro de Los Angeles, la comunidad no incorporada Florence-Graham del Condado de Los Angeles, Vernon, Huntington Park, Bell, Cudahy, South Gate, Downey, Paramount, Bellflower, Cerritos y Artesia. El Proyecto del Corredor de Transporte de West Santa Ana Branch (WSAB) es un corredor de 20 millas que se encuentra en proceso de Declaración de Impacto Ambiental (EIS, en inglés)/Reporte de Impacto Ambiental (EIR, en inglés) para preparar el corredor para el servicio de tren ligero. El nombre del proyecto se origina de la porción sur de la ruta sur de Metro Green Line que sigue el antiguo alineamiento de tranvía de Pacific Electric, conocido como el Corredor de West Santa Ana Branch.

El área del proyecto es hogar para 1.2 millones de residentes y un centro de trabajo para aproximadamente 584,000 empleados. Las proyecciones muestran que para el año 2040 la población se incrementará a 1.5 millones y los trabajos subirán a 670,000. La densidad de la población y el empleo es cinco veces mayor al promedio del Condado de Los Angeles. Se anticipa que este corredor ferroviario brinde servicio a los pasajeros en un corredor con alta demanda, proporcionando alivio a los sistemas de transporte concurridos que están disponibles actualmente para estas comunidades. Además, se espera que el proyecto proporcione una conexión directa a Metro Green Line y Blue Line y la red de transporte regional del Condado de Los Angeles. Según el Plan de Gastos de la Medida M, se prevé que el proyecto se comience a construir en 2022.

Antecedentes

Inicialmente, se realizaron estudios para analizar las oportunidades de conectar a los condados de Los Angeles y Orange a lo largo de un corredor de 34 millas desde Union Station en el condado de Los Angeles hasta la ciudad de Santa Ana en el condado de Orange. En febrero de 2013, la Asociación de Gobiernos del Sur de California (SCAG, en inglés) aprobó el Estudio de Análisis de Alternativas (AA, en inglés) del corredor y recomendó la alineación de Transporte de Tren Ligero (LRT, en inglés) como el modo de transportación preferido, y dos alternativas para la Alineación del Norte (West Bank 3 y East Bank) para una mayor consideración.

En 2015, Metro realizó un Estudio de Refinamiento Técnico (TRS, en inglés) basándose en el análisis y las recomendaciones del AA de SCAG con un enfoque en el segmento del Condado de Los Angeles del corredor del Vía de Derecho (ROW, en inglés) de Pacific Electric/Corredor WSAB. En septiembre de 2015, tomando como base la alternativa West Bank 3, se identificaron como parte del TRS, cuatro nuevas opciones de alineamiento (Pacific/Alameda, Pacific/Vignes, Alameda y Alameda/Vignes). El TRS proporcionó los pronósticos actualizados de costo de capital y pasajeros, así como los desafíos específicos identificados en el SCAG AA para el segmento del Condado de Los Angeles. En abril de 2017, Metro publicó el Informe de Evaluación de las Opciones para la Alineación del Norte, que analizó las seis opciones de alineación para la parte norte del proyecto. Después de la revisión, la Junta Directiva de Metro aprobó continuar con las cuatro Opciones de la Alineación del Norte identificadas en el TRS para el estudio ambiental, e iniciar el proceso de definición del alcance para este proyecto.

En el verano de 2017, Metro inició formalmente la fase del Borrador del EIS/EIR, con reuniones de alcance público llevadas a cabo a lo largo del corredor. En marzo de 2018, la Junta Directiva de Metro autorizó un estudio de cuatro opciones adicionales del alineamiento norte, en respuesta a los comentarios recibidos durante el periodo de alcance público y el análisis técnico en curso. Estas opciones nuevas fueron presentadas a la comunidad para recibir comentarios durante las Reuniones Comunitarias de actualización de marzo y abril. El 24 de mayo de 2018, la Junta Directiva seleccionó dos opciones de alineamiento norte (Alternativa E–Subterráneo en Alameda y Alternativa G–Central de Transporte Público en el centro de la ciudad) para que se realicen los respectivos Borradores del EIS/EIR y de esta manera se haga un estudio más profundo.

Objetivos del proyecto

Los objetivos principales del proyecto WSAB son:
1. Proporcionar mejoras en la movilidad
2. Apoyar los planes y políticas locales y regionales del uso del terreno
3. Minimizar los impactos ambientales
4. Asegurar la efectividad en los costos y la factibilidad financiera
5. Promover la equidad

Proceso ambiental

El proceso de desarrollo del Proyecto de Transporte del Corredor de WSAB está bien definido por los requisitos federales estipulados en la Ley Nacional de Política Ambiental (NEPA, en inglés), y los requisitos ambientales estatales estipulados en la Ley de Calidad Ambiental de California (CEQA, en inglés). El diagrama de flujo a continuación destaca los acontecimientos importantes en el proceso, de principio a fin. El proyecto se encuentra actualmente en la fase preliminar del estudio del EIS/EIR.

Los problemas que fueron identificados durante el proceso ambiental serán analizados más a fondo, las medidas de mitigación serán identificadas, y los aportes de la comunidad serán reunidos, incorporados y utilizados para seleccionar una Alternativa Preferida Localmente (LPA, en inglés). Durante el proceso ambiental, se llevarán a cabo reuniones públicas y audiencias a lo largo del corredor para involucrar a la comunidad, solicitar comentarios y responder preguntas.

OPCIONES DEL ALINEAMIENTO DEL NORTE

Área de estudio del corredor

> 98 millas cuadradas

> 20 ciudades individuales, más el Condado de Los Angeles no incorporado

> 1.2 millones de personas que residen actualmente en el área de estudio, con una proyección de 1.5 millones de residentes para el año 2040

> 584,000 trabajos ubicados actualmente en el área de estudio, con una proyección de 670,000 trabajos para el año 2040

> La densidad en población y empleo es cinco veces mayor que en el resto del Condado de Los Angeles

> Los abordajes semanales estimados oscilan entre 78,500 y 81,500

Alternativas del proyecto

Existe solamente una alternativa en la terminación sur del proyecto que está siendo considerada entre la estación propuesta Pioneer en la ciudad de Artesia, y la estación propuesta Washington en la ciudad de Los Angeles.

Las alternativas de alineamiento en el Norte que han sido sometidas a la preparación del Borrador del EIS/EIR, son:

> Alternativa E
(subterráneo Alameda)

> Alternativa G
(central de transporte público en el centro de la ciudad)

Además, el proyecto evaluará una estación opcional en Bloomfield Av (justo al norte del límite entre el Condado de Los Angeles y el Condado de Orange).

Participación en el proyecto

Metro está comprometido a un programa de alcance integral que brinda a los interesados del proyecto las herramientas y los recursos necesarios para recibir educación e información y proporcionar aportes valiosos en los logros más importantes del proyecto. Se prevé que el Borrador del EIS/EIR se distribuirá en 2020, e incluirá audiencias públicas y un periodo oficial de comentarios.

次の停車駅: ロサンゼルス郡南東部への新設レール

ウェスト・サンタ・アナ(WEST SANTA ANA)支線交通コリドー

概要 ファクトシート

2018年夏

Metro®

プロジェクト概要

Metroでは現在、ロサンゼルス中心部とロサンゼルス郡南東部を結ぶ新たなライトレール輸送路線を評価しています。この路線は、ロサンゼルス中心部の都市とコミュニティ、ロサンゼルス郡の非法人のフローレンス-グラハム コミュニティ、そしてバーノン、ハンティントン・パーク、ベル、クダヒー、サウスゲート、ダウニー、パラマウント、ベルフラワー、セリトス、アルテジアの各市を対象にサービスを行う予定です。ウェスト・サンタ・アナ(West Santa Ana)支線交通コリドー プロジェクトは20マイルのコリドーであり、コリドーのライトレールによる使用の準備段階として、現在、環境影響声明(EIS)/環境影響報告(EIR)のプロセスを経ています。本プロジェクトの名称は、ウェスト・サンタアナ・ブランチ・コリドーとして知られるパシフィック電鉄の旧路面電車計画路線に続くMetroグリーンラインの南にあるルートの南側部分に由来しています。

本プロジェクトの地域は120万人が居住し、また、約58万4千人の勤労者の仕事の場でもあります。2040年までに、住民の人口は150万人、雇用件数は67万件に増加する見込みです。人口密度および雇用密度はロサンゼルス郡の平均の5倍です。このレールコリドーは、交通需要の多いコリドーのコミュニティにおいて現在利用可能な交通システムの制約を軽減することにより、これらのコミュニティにとって恩恵となることが期待されます。さらに、本プロジェクトはMetroグリーンライン、Metroブルーライン、そしてロサンゼルス郡の地域の交通網へ直接接続されることが予想されます。非常に支出の大きい計画であるため、本プロジェクトは2022年に着工の予定です。

背景

当初の調査は、ロサンゼルス郡とオレンジ郡とを、ロサンゼルス郡のユニオンステーションからオレンジ郡のサンタアナ市までの34マイルの長さのコリドーに沿って結ぶ計画を分析するために行われました。2013年2月、南カリフォルニア自治体政府協会(SCAG)は、本コリドーの代替案分析(AA)調査を承認し、ライトレールトランジット(LRT)計画路線を望ましい交通手段として、また、2つの北側計画路線代替案(ウェスト・バンク$_3$ およびイースト・バンク)をさらなる考慮の対象として推奨しました。

2015年、Metroは、SCAG AAによる分析および推奨を踏まえて、パシフィック・エレクトリック・ライトオフウェイ(Pacific Electric Right-of-Way: ROW)/WSABコリドーのロサンゼルス郡の部分に焦点を当て、技術的改善に関する研究(Technical Refinement Study: TRS)を行いました。2015年9月には、ウェスト・バンク$_3$ の代替案に基づき、4つの新たな北側計画路線の選択肢(パシフィック(Pacific)/アラメダ(Alameda)、パシフィック(Pacific)/ヴィーニュ(Vignes)、アラメダ(Alameda)、およびアラメダ(Alameda)/ヴィーニュ(Vignes))がTRSの一部として特定されました。TRSは資本コストと利用者数の予測を更新するとともに、ロサンゼルス郡の部分についてのSCAG AAにより指摘された特定の問題について分析を行いました。2017年4月、Metroは、プロジェクトの北側部分の計画路線の 6つの選択肢を分析した北側計画路線選択肢選考報告書(Northern Alignment Options Screening Report)を公表しました。これを検討した結果、Metro取締役会は、TRSにより特定された北側計画路線の 4つの選択肢の環境調査を行うこと、および本プロジェクトの調査プロセスを開始することを承認しました。

Metroは2017年夏、コリドーに沿った地域で公の調査ミーティングを開催しつつ、EIS/EIRの草案段階を開始しました。2018年3月、Metro委員会は、調査期間および継続的な技術分析の間に寄せられたコメントを受けて、北側計画路線の 4つの追加選択肢のさらなる調査を許可しました。これらの新たな選択肢は、3月と4月のコミュニティ進捗 ミーティングにおいて、意見を求めるためにコミュニティに提示されました。2018年5月24日、Metro委員会は、北側計画路線の 2つの選択肢、すなわち選択肢E(アラメダ(Alameda)地下鉄)と選択肢G(ダウンタウン・トランジット・コア(Downtown Transit Core))を、さらなる調査のためにEIS/EIR草案に含めるよう選択しました。

プロジェクトの目標

WSABプロジェクトの主な目標は以下のとおりです。

1. 移動しやすさの改善
2. 地域の土地利用計画およびポリシーの支援
3. 環境への影響の最小化
4. 費用対効果と資金的実現可能性の保証
5. 公平性の推進

環境対策プロセス

WSAB交通コリドー プロジェクトの開発プロセスは、国家環境政策法(National Environmental Policy Act: NEPA)に規定された国の要件、およびカリフォルニア環境質法(California Environmental Quality Act: CEQA)に規定された州の環境要件により、十分に定義されています。以下のフローチャートでは、プロセスの開始から修了までの主な節目に焦点を当てています。本プロジェクトは現在、EIS/EIR草案の調査の段階にあります。

環境対策プロセスを通じて特定された問題点がさらに分析され、緩和策が特定され、コミュニティからの意見が収集され、これらすべてが組み合わされて、地域にとって望ましい代替案(Locally Preferred Alternative: LPA)の選択に使用されます。環境対策プロセスの間、コミュニティの参加と意見を促し、質問に答えるために、コリドーに沿った地域で公の調査ミーティングおよび公聴会が行われます。

北側計画路線の選択肢

調査対象のコリドー領域概要

> 98平方マイル

> 20の市、およびロサンゼルス郡内の非法人(市町村外)地域

> 調査地域内には現在120万人が在住し 2040年には150万人に達する見込み

> 調査地域内の雇用件数は現在58万4千件であり、2040年には67万件に達する見込み

> 人口密度および雇用密度はロサンゼルス郡の5倍

> 平日の乗客数は78,500〜81,500人の見込み

プロジェクトの代替案

本プロジェクトの唯一の代替案が、アルテジア市のパイオニア(Pioneer)駅(案)の南側終点と、ロサンゼルス市のワシントン(Washington)駅(案)との間で検討されています。

EIS/EIR草案の段階へ進む北側計画路線の選択肢は以下のとおりです

> 選択肢E
(アラメダ(Alameda)地下鉄)

> 選択肢G
(ダウンタウン・トランジット・コア(Downtown Transit Core))

さらに、WSAB線が将来オレンジ郡まで延長される場合は、本プロジェクトではブルームフィールド・アベニュー(Bloomfield Avenue))ロサンゼルス郡とオレンジ郡の境界の北側)に駅を設置する可能性を検討します。

プロジェクトへの参加

Metroでは、本プロジェクトについてお知りになり、重要な節目において貴重なご意見を投稿していただくために必要な手段とリソースを関係者の方々に提供する総合的な広報計画にコミットしています。EIS/EIR草案は2020年に回覧の予定で、公聴会と公衆意見聴取の期間が考慮されます。

English Rail Modes Fact Sheet

Next stop: more rail.

RAIL TRANSIT MODES

Fact Sheet

Metro

A train isn't just a train – there are many types.

Metro continues to expand its rail network with new projects being planned or under construction. Part of this planning involves evaluating different types of rail that each have different features and operating characteristics. The types of rail are referred to as "modes" of transit.

Overview of Rail Transit Modes

During the planning and environmental evaluation process for a new rail line, many factors will be considered to determine the mode.

Some of these factors include cost, available funding, carrying capacity, speed, travel demand, urban fit, if the project being studied is an extension of an existing line, or availability of a rail maintenance and storage facility. *Please see our other fact sheets for more information on environmental evaluation, and other topics.*

Modes of Transit Currently Operating in LA County

Light Rail

Metro currently operates light rail transit on the Blue, Green, Gold and Expo Lines. There are currently five rail maintenance and storage facilities to serve these lines. Two projects under construction, Crenshaw/LAX and Regional Connector, will add to this network. Metro is also building the new Southwest Rail Maintenance yard to serve the Crenshaw/LAX Line and support expanded Green Line service.

Characteristics of light rail include:

> Powered by overhead catenary wires
> Typical station spacing: one mile
> Operates above, below or at street level
> Passenger capacity: 135/car
> At peak times, Metro trains:
  • Can be up to three cars long
  • Carry up to 405 passengers/train
  • Operate every five to six minutes
> Top speed 55-65 mph
> Average speed 24-35 mph

Heavy Rail

Metro currently operates heavy rail transit on the Red and Purple Lines. A nine-mile extension of the Purple Line is currently under construction. A rail maintenance and storage facility currently serves these lines. It will be expanded to support the Purple Line Extension.

Characteristics of heavy rail include:

> Powered by third rail
> Typical station spacing: one to two miles
> Only operates above or below ground
> Passenger capacity: 135/car
> At peak times, Metro trains:
  • Can be up to six cars long
  • Carry up to 810 passengers/train
  • Operate every five minutes
> Top speed 70 mph
> Average speed 32 mph

Light Rail – Metro Gold Line

Heavy Rail – Metro Red Line

Commuter (or Passenger) Rail

Metrolink operates commuter rail connecting from Los Angeles Union Station to the San Fernando Valley, North County, San Gabriel Valley, Southeast LA County and adjacent Ventura, Orange, San Bernardino and Riverside Counties. Amtrak operates intercity passenger rail service across the United States. In Southern California, their Pacific Surfliner connects between San Luis Obispo and San Diego, with many stations shared with Metrolink.

Characteristics of commuter rail include:

> Locomotive-powered
> Typical station spacing: five miles
> Generally operates at ground level
> May share track with freight rail
> May operate above or below ground at selected crossings and via tunnels through mountains
> Fares based on distance traveled
> Specifically scheduled timetables, which can include:
  • At peak times, 15- to 30-minute frequencies
  • Less frequent service outside of peak times
> Metrolink:
  • Passenger seating capacity: 140/car
  • Can be up to four to six cars long
  • Top speed 79 mph
  • Average speed 36 mph
> Amtrak Pacific Surfliner:
  • Passenger seating capacity: 70/car
  • Can be up to six cars long
  • Top speed 79 mph
  • Average speed 43 mph
> On-board amenities can include:
  • Restrooms
  • Water fountains
  • Tables for eating, reading or getting work completed
  • Power outlets for electronic devices
  • Storage space for luggage, bicycles and belongings
  • Wi-fi and café car (Amtrak only)

Commuter Rail – Metrolink

Other Modes Operating Elsewhere

High Speed Rail

(there are two types of high speed rail train systems)

Conventional-wheeled:

> Powered by electric, electric-fuel or fueled systems
> Track is built or specially upgraded for high-speed travel
> Typical station spacing: varies but tends to connect city centers along the route
> Can operate above, below or at street level in its own dedicated right-of-way
> Can be up to 12 cars long; average is seven to nine cars long
> Passenger seating capacity: varies; 65-75/car
> Specifically scheduled timetables
> Top speed 350 mph; average speed 150-200 mph
> Selected examples currently in operation: Asia, Europe

MagLev:

> Powered by magnetic levitation, vehicles travel along a guideway provided with magnets to control in-flight stability, and create propulsion and lift, eliminating mechanical constraints of dry friction
> Track is built specifically for MagLev
> Typical station spacing: varies but tends to connect city centers along the route
> Can operate above or below ground
> Passenger seating capacity: 65-70/car
> Specifically scheduled timetables
> Top speed 375 mph; average speed varies
> Selected examples currently in operation: Japan

For more information about Rail Transit Modes, visit *metro.net/railmodes.*

Other Modes Operating Elsewhere (continued)

Monorail

> Powered by third rail or wires
> Typically elevated
> Typical station spacing: one-half mile to one mile
> Passenger capacity: about 60 passengers/car
> Trains up to six cars long
> Top speed 40-50 mph
> Average speed 18-30 mph
> Selected examples currently in operation: Disneyland, Las Vegas, Air Train JFK, Seattle, Detroit People Mover, Japan, Germany

Trams/Streetcars/Trolley

(terms are used interchangeably)

> Powered by overhead catenary wires
> Generally run at street level with other vehicle traffic but can operate in dedicated guideways
> Passenger capacity: varies
> Average speed 32 mph
> Typical station spacing: every quarter-mile
> Selected examples currently in operation: San Francisco; Portland (OR); Dallas; Washington, D.C.

Personal Rapid Transit (RPT)

> Powered by electricity
> Stations: typically close together but located on side track to allow other cars to pass
> Depending on size, cars/pods carry one to 20 people
> Typically operates in smaller, closed systems
> Selected examples currently in operation: Morgantown (WV), Masdar City (United Arab Emirates), Suncheon (South Korea)

Próxima parada: más trenes.

TIPOS DE TRANSPORTE FERROVIARIO

Hoja informativa

Metro®

Un tren no es sólo un tren, hay muchos tipos.

Metro continúa expandiendo su red ferroviaria con nuevos proyectos que están en la fase de planificación o construcción. Parte de esta planificación incluye la evaluación de tipos diferentes de trenes que tienen características diferentes de operación y funcionamiento. Los tipos de trenes se conocen como "modos" de transporte.

Descripción general de los modos de transporte ferroviario

Durante el proceso de planificación y evaluación ambiental de una nueva línea ferroviaria, se toman en cuenta muchos factores para determinar el modo.

Algunos de los factores que se toman en cuenta incluyen el costo, el financiamiento disponible, la capacidad de pasajeros, la velocidad, la demanda de viaje, el ambiente urbano, si el proyecto que se estudia es una extensión de una línea existente, o la disponibilidad de una instalación de mantenimiento y almacenamiento ferroviario. *Consulte nuestras otras hojas informativas para obtener más información sobre la evaluación ambiental y otros temas.*

Modos de transporte actualmente en funcionamiento en el Condado de Los Angeles

Tren ligero

Actualmente, Metro opera un servicio ferroviario de tren ligero en Metro Blue, Green, Gold y Expo. Actualmente hay cinco instalaciones de mantenimiento y almacenamiento ferroviario para servir estas líneas. Dos proyectos en construcción, Crenshaw/LAX y el Regional Connector, se agregarán a esta red. Metro también está construyendo la nueva instalación de mantenimiento ferroviario del suroeste para servir a la línea Crenshaw/LAX y brindar apoyo al servicio ampliado de Metro Green Line.

Las características de los trenes ligeros incluyen:

> Funcionan con cables catenarios aéreos
> Espaciado típico entre estaciones: una milla
> Opera por encima, por debajo o al nivel de la calle
> Capacidad de pasajeros: 135/pasajeros por vagón
> Durante las horas pico, los trenes de Metro:
  - Puede tener hasta tres vagones de longitud
  - Pueden tener una capacidad de hasta 405 pasajeros en todo el tren
  - Operan cada cinco a seis minutos
> Velocidad máxima de 55 a 65 mph
> Velocidad promedio de 24 a 35 mph

Tren subterráneo

Actualmente, Metro opera un servicio ferroviario subterráneo en Metro Purple y Red Lines. Una extensión de nueve millas de Metro Purple Line se encuentra actualmente en construcción. Una instalación de mantenimiento y almacenamiento ferroviario brinda servicio a estas líneas actualmente. La instalación se ampliará para brindar servicio a la Extensión de Metro Purple Line.

Las características del tren subterráneo incluyen:

> Funciona con un tercer riel
> Espaciado típico entre estaciones: una a dos millas
> Sólo opera por encima o por debajo de la superficie
> Capacidad de pasajeros: 135/pasajeros por vagón
> Durante las horas pico, los trenes de Metro:
  - Puede tener hasta seis vagones de longitud
  - Pueden tener una capacidad de hasta 810 pasajeros en todo el tren
  - Operan cada cinco minutos
> Velocidad máxima de 70 mph
> Velocidad promedio de 32 mph

Tren ligero – Metro Gold Line

Tren subterráneo – Metro Red Line

Tren suburbano

Metrolink opera un servicio de tren suburbano que conecta a Union Station en Los Angeles con el Valle de San Fernando, el Norte del Condado de Los Angeles, el Valle de San Gabriel, el Sureste del Condado de Los Angeles y los condados adyacentes de Ventura, Orange, San Bernardino y Riverside. Amtrak opera un servicio ferroviario de pasajeros interurbano en todos los Estados Unidos. En el sur de California, el Pacific Surfliner conecta San Luis Obispo y San Diego con muchas estaciones compartidas con Metrolink.

Las características de los trenes suburbanos incluyen:

> Funciona con una locomotora
> Espaciado típico entre estaciones: cinco millas
> Generalmente opera al nivel de la superficie
> Pueden compartir las vías con los trenes de carga
> Pueden operar por encima o por debajo de la superficie en cruces selectos y por túneles a través de montañas
> Las tarifas se basan en la distancia recorrida
> Horarios específicamente programados, que pueden incluir:
  • Frecuencias de entre 15 a 30 minutos durante las horas pico
  • Servicio menos frecuente durante las horas no pico
> Metrolink:
  • Capacidad de asientos de pasajeros: 140/vagón
  • Puede tener de cuatro a seis vagones de longitud
  • Velocidad máxima de 79 mph
  • Velocidad promedio de 36 mph
> Amtrak Pacific Surfliner:
  • Capacidad de asientos de pasajeros: 70/vagón
  • Puede tener hasta seis vagones de longitud
  • Velocidad máxima de 79 mph
  • Velocidad promedio de 43 mph
> Los servicios a bordo pueden incluir:
  • Baños
  • Fuentes de agua
  • Mesas para comer, leer o trabajar
  • Enchufes para dispositivos eléctricos
  • Espacio de almacenamiento para equipaje, bicicletas y pertenencias
  • Wi-fi y vagón con cafetería (sólo Amtrak)

Tren suburbano – Metrolink

Otros tipos de trenes que operan en otros lugares

Tren de alta velocidad

(hay dos tipos de sistemas ferroviarios de alta velocidad)

Ruedas convencionales:

> Funcionan con sistemas eléctricos o de combustible
> La vía es especialmente construida o actualizada para viajar a alta velocidad
> Espaciado típico entre estaciones: varía, pero tiende a conectar los centros de las ciudades a lo largo de la ruta
> Puede operar por encima, por debajo o al nivel de la calle en su propio derecho de vía exclusivo
> Puede tener hasta 12 vagones de longitud; la longitud promedio es de siete a nueve vagones.
> Capacidad de asientos de pasajeros: varía; 67-75 pasajeros/vagón
> Horarios específicamente programados
> Velocidad máxima de 350 mph; velocidad promedio de 150-200 mph
> Ejemplos seleccionados actualmente en operación: Asía, Europa

MagLev:

> Con tecnología de levitación magnética, los vehículos viajan por una vía con imanes para controlar la estabilidad y crear propulsión y elevación, eliminando las limitaciones mecánicas de la fricción seca
> La vía es construida específicamente para el MagLev
> Espaciado típico entre estaciones: varía, pero tiende a conectar los centros de las ciudades a lo largo de la ruta
> Puede operar por encima o por debajo de la superficie
> Capacidad de asientos de pasajeros: 65-70/pasajeros por vagón
> Horarios específicamente programados
> Velocidad máxima de 375 mph; la velocidad promedio varía
> Ejemplos seleccionados actualmente en operación: Japón

Para obtener más información acerca de los modos de transporte ferroviario, visite *metro.net/railmodes.*

Otros tipos de trenes que operan en otros lugares (continuación)

Monorriel

> Funciona con un tercer riel o cables
> Típicamente elevado
> Espaciado típico entre estaciones: media milla a una milla
> Capacidad de pasajeros: alrededor de 60 pasajeros/vagón
> Los trenes pueden tener hasta seis vagones de longitud
> Velocidad máxima de 40-50 mph
> Velocidad promedio de 18-30 mph
> Ejemplos seleccionados actualmente en operación: Disneyland, Las Vegas, Air Train JFK, Seattle, Detroit People Mover, Japón, Alemania

Tranvías/Trolebús

(los términos se usan indistintamente)

> Funcionan con cables catenarios aéreos
> Generalmente operan al nivel de la calle con el tráfico vehicular, pero pueden operar en vías exclusivas
> Capacidad de pasajeros: varía
> Velocidad promedio de 32 mph
> Espaciado típico entre estaciones: cada cuarto de milla
> Ejemplos seleccionados actualmente en operación: San Francisco; Portland (OR); Dallas; Washington, D.C.

Tránsito Rápido Personal (PRT)

> Funciona con electricidad
> Estaciones: generalmente muy cercanas, pero ubicadas en un carril lateral para permitir que otros vehículos pasen
> Dependiendo del tamaño, los coches/cápsulas pueden transportar de una a 20 personas
> Generalmente opera en sistemas cerrados y pequeños
> Ejemplos seleccionados actualmente en operación: Morgantown (WV), Masdar (Emiratos Árabes Unidos), Suncheón (Corea del Sur)

レイルトランジットモード
ファクトシート

Metro®

電車はただの電車ではありません-多種のタイプがあります。

Metro は現在工事中または計画中の新しいプロジェクトを含めて鉄道のネットワークを拡大し続けています。この計画は各タイプの鉄道がどのような特徴と操業上の特質をもっているかを査定評価することも含まれています。鉄道のタイプはトランジットの” モード “として表現されます。

鉄道トランジットモードの概要

新しい鉄道ラインの計画と環境調査のプロセスの期間には多くの要因が考慮されモードを決定します。

これらの要因とはコスト、利用可能な予算、運搬能力、スピード、乗車需要、あるいはもし調査中のプロジェクトが既存のラインの延長である場合にはアーバンフィット（都市にマッチするか）またラインのメンテナンスや倉庫施設の有無を含みます。環境調査の詳細やその他のトピックについては私共の別のファクトシートをごらんください。

ライトレイル

Metro は現在ライトレイルはBlue、Gold及びExpo ラインを操業しています。現在5か所のrレイルメンテナンスと倉庫用施設がこれらのラインのために使用されています。現在建設中のCrenshaw/LAX 及び Regional Connectorの2本のプロジェクトがこのネットワークに追加されます。MetroはCrenshaw/LAX ライン及び延長される Green ラインのサービスを行うための新しい Southwest レイルメンテナンスヤードを建設中です。

ライトレイルの特性は以下を含みます：

> 頭上のカテナリーワイヤーによって起動します。
> 典型的なステーション間の距離：1マイル
> 頭上（高架）、地下、また路上を走行できます。
> 乗客定員：135人/1車両
> ピーク時間帯にはMetroの車両は
  • 3両編成まで接続可能
  • 1車両に最高405人まで運搬できます。
  • 5分から6分おきに運転できます。
> 最高速度時速55-65マイル

ヘビーレイル

Metro は現在ヘビーレイルはRedとPurpleラインを操業しています。Purple ラインの9マイルの延長が現在工事中です。一か所のレイルのメンテナンスと倉庫施設が現在サービスを行っています。そこは拡張されPurpleラインの延長部分のサポートを行います。ヘビーレイルの特性

は以下を含みます。:

> 3番目のレイルによって起動されます。
> 典型的なステーション間の距離: 1から2マイル
> 頭上（高架）または地下のみを走行します。
> 乗客定員: 135人/1車両
> ピーク時間帯にはMetroの車両は
  • 6両編成まで接続可能
  • 1本の電車に最高810人まで運搬できます。
  • 5分おきに運転できます。
> 最高速度時速70マイル
> 平均速度時速32マイル

コミューター（または乗客）レイル

Metrolink はコミューターレイルを Los Angeles Union Stationから San Fernando Valley、North County、San Gabriel Valley、Southeast LA County 及び近辺の Ventura、Orange、Bernardino およびRiverside カウンティまでを接続し操業しています。Amtrak はシティ間の乗客レイルサービスをアメリカ合衆国全域で操業しています。Southern Californiaでは Pacific Surflinerが San Luis Obispo と San Diego間をMetrolinkと多数のステーションをシェアしながら操業しています。

コミューターレイルの特性は以下を含みます:

> 機関車が起動させます。
> 典型的なステーション間の距離: 5マイル
> 一般的には地上レベルを走行します。
> 貨物列車と線路を共有が可能の場合もあります。
> 特別な交差点や山岳地帯のトンネルを通じて頭上や地下を走行する場合もあります。
> 運賃は走行距離を基にし定められます。
> 特別にスケジュールされた時刻表で以下を含みます。:
  • ピーク時間帯には 15-30分おきの間隔です
  • ピーク時間帯以外にはそれほど頻繁ではありません。
> Metrolink:
  • 乗客の座席定員: 140席/1車両
  • 4両から6両編成までが可能
  • 最高速度時速 79 マイル
  • 平均速度時速 36 マイル
> Amtrak Pacific Surfliner:
  • 乗客の座席定員: 70席/1車両
  • 6両編成までが可能
  • 最高速度時速 79 マイル
  • 平均速度時速 43 マイル
> 車両搭載のアメニティは以下を含みます:
  • 化粧室
  • 飲料水用ファウンテン
  • 食事、読書、仕事用のテーブル
  • エレクトロニクスの充電用コンセント
  • 荷物、自転車、手荷物用の収納スペース
  • Wi-fi 及びcafé car（食堂車）(Amtrak のみ)

WEST SANTA ANA BRANCH (WSAB) TRANSIT CORRIDOR

Transit-Oriented Development (TOD) Strategic Implementation Plan – Fact Sheet

Summer 2018

Overview

In collaboration with Eco-Rapid Transit and the 14 communities along the WSAB Transit Corridor, Metro is preparing a TOD Strategic Implementation Plan (SIP) for the planned WSAB Transit Corridor.

Metro

Project Overview

The WSAB project is a proposed 20-mile light rail transit line that will connect downtown Los Angeles with southeast LA County. In conjunction with the WSAB Light Rail Project, the TOD SIP will provide a unified land use and economic development strategy for these communities based on a shared vision for the WSAB Corridor.

The cities and communities within the TOD Plan area, located within one-half mile of each station, include: the Arts District, Little Tokyo, Los Angeles, unincorporated Florence-Graham community of LA County, Vernon, Huntington Park, Bell, Cudahy, South Gate, Downey, Paramount, Bellflower, Cerritos and Artesia. Of the 14 communities in the TOD Plan area, nine are directly served by the alternatives currently being evaluated under the separate WSAB Environmental Study, while the remaining cities are expected to benefit from the future WSAB Transit Corridor investment.

Most of the corridor jurisdictions have completed or are in the process of developing their own individual station area plans. Building on the visions and strengths of the 14 communities, the corridor-wide TOD strategy will further leverage the investment of a future transit corridor as a catalyst for corridor-wide economic development. As such, the TOD Plan will be developed to serve as a planning toolkit with implementation strategies for the community areas located within one-half mile of each station.

These efforts are funded by the Federal Transit Administration's Pilot Program for TOD Planning. The TOD Plan is an effort that is distinct from the environmental process that currently is underway for the WSAB project to define the transit corridor alignment and station locations.

Project Goals

The goal of the plan is to prepare a land use and economic development strategy that builds on a shared vision of the corridor by:

> Supporting community-led TOD planning efforts

> Providing resources and support to cities for TOD implementation

> Facilitating a shared vision for the corridor that recognizes the character of distinct communities

> Building on the community assets in the corridor

> Maximizing the potential benefits from the investment in transit infrastructure

> Developing implementation strategies that reflect the unique strengths and needs of each community

> Ensuring transportation investments produce equitable outcomes that serve and benefit local, disadvantaged and underrepresented communities

CORREDOR DE TRANSPORTE DE WEST SANTA ANA BRANCH (WSAB)

Plan de Implementación Estratégica de Desarrollo Orientado al Transporte Público (TOD) – Hoja informativa

Verano de 2018

Visión general

En colaboración con Eco-Rapid Transit y las 14 comunidades a lo largo del Proyecto del Corredor de Transporte de WSAB, Metro está preparando un Plan de Implementación Estratégica (SIP en inglés) de Desarrollo Orientado al Transporte Público (TOD) para el Corredor de Transporte planificado de WSAB.

Metro

Información general del proyecto

El Proyecto de WSAB es una línea de transporte propuesta de tren ligero de 20 millas que conectará el Centro de Los Angeles con el sureste del Condado de Los Angeles. En conjunto con el Proyecto del Tren Ligero de WSAB, el Plan de Implementación Estratégica de Desarrollo Orientado al Transporte Público (TOD en inglés) proporcionará una estrategia unificada de uso del terreno y desarrollo económico para estas comunidades, basada en una visión compartida para el Corredor de WSAB.

Las ciudades y comunidades dentro del área del Plan TOD, ubicadas dentro de una media milla de distancia de cada estación, incluyen: la zona de Arts District, Little Tokyo, Los Angeles, la comunidad no incorporada de Florence-Graham del Condado de Los Angeles, Vernon, Huntington Park, Bell, Cudahy, South Gate, Downey, Paramount, Bellflower, Cerritos y Artesia. De las 14 comunidades en el área del Plan TOD, nueve están siendo servidas directamente por las alternativas que se evalúan actualmente en el Estudio Ambiental de WSAB por separado, y se espera que las ciudades restantes se beneficien de la futura inversión del Corredor de Transporte de WSAB.

La mayoría de las jurisdicciones del corredor han completado o están en proceso de desarrollar sus propios planes de área de estación individuales. Basándose en las visiones y las fortalezas de las 14 comunidades, la estrategia TOD de todo el corredor aprovechará aún más la inversión de un futuro corredor de transporte como un catalizador para el desarrollo económico de todo el corredor. Como tal, el Plan TOD se desarrollará para servir como un juego de herramientas de planificación con estrategias de implementación para las áreas de la comunidad ubicadas a menos de media milla de distancia de cada estación.

Estos esfuerzos son financiados por el Programa Piloto de la Administración Federal de Tránsito para la Planificación del TOD. El Plan TOD es un esfuerzo que es distinto al proceso ambiental que se está llevando a cabo actualmente para que el proyecto WSAB defina la alineación del corredor de transporte y las ubicaciones de las estaciones.

Objetivos del proyecto

El objetivo del plan es preparar una estrategia de uso del terreno y de desarrollo económico que se base en una visión compartida del corredor a través de:

> Apoyar los esfuerzos liderados por la comunidad para la planificación del TOD
> Proporcionar recursos y apoyo a las ciudades para la implementación del TOD
> Facilitar una visión compartida para el corredor que reconozca el carácter de las distintas comunidades
> Desarrollar los activos de la comunidad en el corredor
> Maximizar los posibles beneficios de la inversión en la infraestructura del transporte público
> Desarrollar estrategias de implementación que reflejen las fortalezas y necesidades únicas de cada comunidad
> Garantizar que las inversiones en el transporte produzcan resultados equitativos que sirvan y beneficien a las comunidades locales, desfavorecidas y con poca representación

Property Acquisition Fact Sheet

metro.net/pa

Next stop: LA, transformed.

PROPERTY ACQUISITION

Fact Sheet

Metro

Who is Metro?

Metro (Los Angeles County Metropolitan Transportation Authority) is the transportation planner, coordinator, designer, builder and regional transit operator for LA County. Metro works in partnership with the County of Los Angeles, local cities, the California Department of Transportation (Caltrans) and others when planning new transportation projects.

What is property acquisition?

New projects need to acquire property for their construction or operations. The property acquisition process is governed by state and federal law, and is basically the same regardless of whether acquisition efforts are led by Metro or another public agency. This fact sheet explains the Metro acquisition process in more detail.

Why do new transportation projects need to acquire real property?

New transportation projects often need to acquire property. This can be for a variety of purposes.

Permanent Property Needs

Highway, rail, bus and other projects often require the acquisition of property to expand capacity and increase service to the public. This could be for new or wider travel lanes, rail or bus right-of-ways, interchanges, ramps, bridges, stations or maintenance yards. The property acquired becomes a permanent part of the project and the region's transportation infrastructure.

Temporary Construction Staging

In order to build a project, property is sometimes necessary for a period of time for construction staging. Staging space includes areas for active construction, equipment and material storage, field offices, parking and other construction-related activities. Staging locations are ideally located off-street and immediately adjacent to where the project is to be constructed.

Below Ground Easements

Some projects need property below ground for tunnels, stations or other facilities. In the majority of these cases, there will be little or no impact to the property on the surface.

How is the need for property acquisition determined?

Whether or not property is needed for a project is determined through the environmental planning process. This occurs in accordance with the California Environmental Quality Act (CEQA) and often results in the preparation of an Environmental Impact Report (EIR). Some projects also need federal review under the National Environmental Policy Act (NEPA), which can result in the preparation of an Environmental Impact Statement (EIS). During this process, various project alternatives are evaluated and property is identified that might possibly be needed for the project. The final list of properties is not determined until the very end of the process when the study being conducted is adopted. Public involvement is always an important part of these studies.

For additional information, please see our Environmental Review fact sheet.

Will Metro buy the property, lease it or something else?

This depends. The most straightforward method is for Metro to purchase a "fee interest" and become the owner of the property. Sometimes, other arrangements are developed, such as leases, right of entries, temporary construction easements or permanent easements.

If the project needs property below ground, Metro will purchase a subsurface easement from the property owner. This is accomplished through a one-time payment and an easement deed is recorded. This is identical to underground easements that a utility or cable company obtains for fiber optic cables, water lines, gas lines, etc.

Staging for the Hollywood/Highland Station during construction of the Metro Red Line.

Hollywood & Vine: Metro Red Line station in Hollywood

How will I know if my property is needed for a project? When will I be contacted?

In some cases, property owners may be notified that their properties are under consideration for a project while the studies are ongoing. However, the exact list of properties is not deemed to be final until the studies are adopted. Once those are done and funding is available to begin construction, property owners will be contacted by a representative of the agency building the project (i.e., Metro, Caltrans, etc.).

How will I be compensated?

Metro is required to provide just compensation to property owners for the purchase or use of their property. The first step in this process is for Metro to obtain an appraisal of the property. The appraisal will consider a variety of factors, including location, size, the highest and best use of the property, and the recent sale of similar properties in the area.

Once the value is established and approved, an offer will be made to the property owner. Time will be allowed for the owner to obtain their own appraisal if desired, and to have a full discussion with Metro regarding their opinion of the value of the property. Metro will seek to reach a negotiated agreement with a property owner whenever possible. If a negotiated agreement cannot be accomplished, Metro may exercise its power of eminent domain to acquire the property. Initiating eminent domain procedures requires specific approval by the Metro Board of Directors.

Disposition of Property after Construction

Following the completion of project construction, Metro will return leased properties to the property owner, who may then develop the property in accordance with local zoning regulations. In cases where Metro has obtained fee title, any portions of the property owned by Metro that are no longer needed for public purposes after construction may be sold or made available for joint development subject to local land use regulations and approval processes. If a joint development project is feasible, Metro will typically issue a Request for Proposals (RFP) seeking development proposals for the particular property.

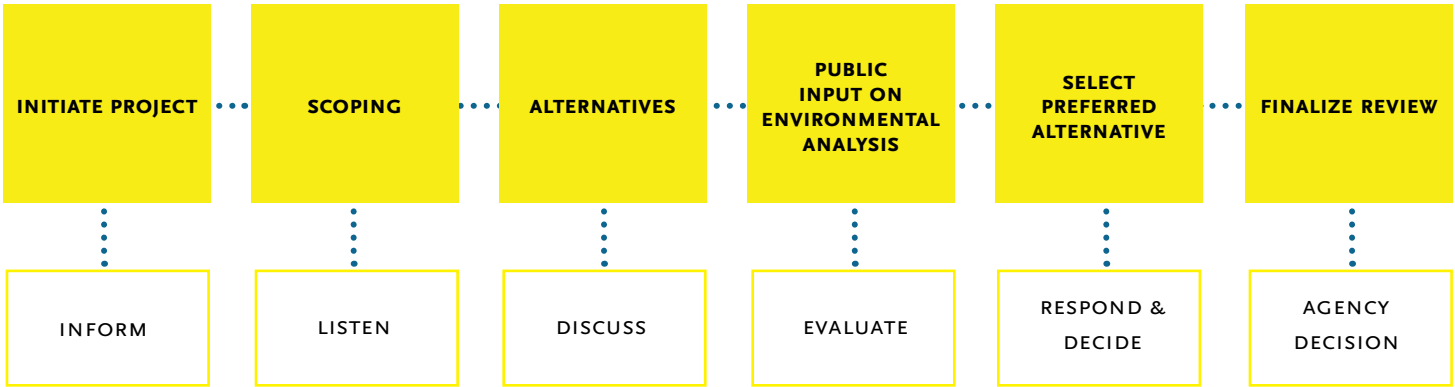
ENVIRONMENTAL PLANNING PROCESS



For more information, visit *metro.net/pa*.

Will I receive relocation benefits if I am required to move from the property?

If you are an owner-occupant or tenant occupying a property that is acquired for a public project, you may be entitled to relocation benefits. Federal and state regulations provide for payments to assist in the relocation of your business or residence. Your relocation benefits will be explained in detail by Metro staff or a consultant hired by Metro. No one will be required to relocate from their property until they have been given at least a 90-day written notice to move.

How to Stay Involved and Give Input

Metro invites you to stay involved during the planning and construction of projects. You can keep up with developments on *metro.net*, where you can find information about ongoing studies, projects under construction, leave comments and provide your contact information so we can keep you informed of upcoming meetings and other milestones.
