TO: DISTRIBUTION

FROM: FRANK FLORES 
EXECUTIVE OFFICER, REGIONAL CAPITAL DEVELOPMENT

**SUBJECT: AMERICAN RECOVERY AND REINVESTMENT ACT (ARRA)
LOCAL AND STATE HIGHWAY FUNDS SAVINGS EXCHANGE
WITH SURFACE TRANSPORTATION PROGRAM LOCAL
FUNDS (STPL)**

As discussed in our November 18, 2009 correspondence, we successfully obligated some remaining ARRA-RSTP bid savings balances for some jurisdictions on the Interstate 5 North High Occupancy Vehicle Lane project, as shown in Attachment A. We are now reimbursing only those jurisdictions whose December 2009 requests to us were confirmed by Caltrans Headquarters. Some other December 2009 requests were not confirmed by Caltrans Headquarters in sufficient time to participate in the first round reimbursement program, as shown on Page 2 of Attachment A.

Those jurisdictions whose December 2009 ARRA-RSTP bid savings balances were not confirmed by Caltrans Headquarters as shown on Page 2 of Attachment A have not been de-obligated and so were not yet available to us to use for the Interstate 5 project. We are continuing to work with Caltrans Headquarters to de-obligate these bid savings and re-obligate them before the final award of the Interstate 5 project. If we are successful in confirming through Caltrans Headquarters that the bid savings can be re-obligated on Interstate 5, we will execute the exchange transactions as originally contemplated.

Other jurisdictions with bid savings discovered since December 10, 2009 also may now be able to participate in our bid savings exchange program, as described herein. All requirements of the original exchange program will apply.

ARRA/STPL EXCHANGE OPPORTUNITY – RESPONSE DUE MARCH 15

We are now offering an additional opportunity to exchange remaining ARRA bid savings with STPL funds for jurisdictions. We believe that this exchange may be possible because ARRA-RSTP savings could be added to the I-5 North HOV at the time of project award. If a jurisdiction wishes to participate in this exchange, they must submit their award package to local Caltrans District 7 offices and inform us that they would like to participate in the exchange by March 15, 2010. Failure to meet this deadline will make it impossible for us to re-obligate funds on the Interstate 5 project. This will be the final opportunity to participate in an exchange before the September 30, 2010 final ARRA Federal obligation deadline.

Please contact Patricia Chen at (213) 922-3041, or chenp@metro.net, or Avital Shavit at (213) 922-7518, or shavita@metro.net immediately, if you would like to participate in the exchange and/or you have any questions regarding this process.

Jurisdictions that have ARRA-RSTP savings, but choose not to participate in an exchange must pursue alternative options to re-obligate (receive an approved e-76) these funds before August 2010. The options include transferring the funds to an existing ARRA project must be approved by CALTRANS and the FHWA. We do not recommend that jurisdictions attempt to initiate a new project to absorb ARRA-RSTP savings due to the difficulties a jurisdiction will encounter when attempting to receive Federal planning/programming clearances on such a tight schedule. ARRA-RSTP funds that are not obligated on a project by Caltrans by September 30, 2010 will be rescinded and returned to the U.S. Treasury.

DISTRIBUTION:

TRANSPORTATION MANAGERS**

**CC: KIRK CESSNA, DISTRICT LOCAL ASSISTANCE ENGINEER,
CALTRANS**

FROM: FRANK FLORES, EXECUTIVE OFFICER 
REGIONAL CAPITAL DEVELOPMENT

**SUBJECT: REQUEST FOR SUBMITTAL OF AWARD PACKAGES TO
CALTRANS AND AMERICAN REINVESTMENT AND
RECOVERY ACT PROJECT SAVINGS**

The Federal Highway Administration (FHWA) and the California Department of Transportation (Caltrans) have emphasized recently the importance of reporting contract awards, starting work, and invoicing for American Reinvestment and Recovery Act (ARRA) Regional Surface Transportation Program (RSTP) funded projects. This will allow policy makers and the public to see ARRA funds being put to work to generate jobs and strengthen California's case for the need for additional funding, should there be future stimulus or other federal funding opportunities.

The Los Angeles County Metropolitan Transportation Authority (LACMTA) asks that project sponsors submit all Award Packages to Caltrans expeditiously. Please refer to Chapter 15.7 of the Caltrans Local Assistance Manual available online and complete all required checklists and forms. You may also contact Caltrans Local Assistance staff, should you have any questions.

As there may be project savings in cases where bids come in low, and there is not sufficient time for project sponsors to re-obligate the savings, we propose an exchange of ARRA-RSTP fund savings. Specifically, we would use the project sponsors' ARRA-RSTP savings for a regional project and return a commensurate amount of other available replacement funding to the affected project sponsors. We will require that the Award Packages back out all possible local matching funds to be eligible for the exchange. This request and proposed exchange are different from what you may have heard recently. Our new approach is in response to the new direction and emphasis that we have received recently from Caltrans and the FHWA.

For us to meet the Caltrans Local Assistance deadline for submitting our Request for Authorization for the target regional project, determine the amount of countywide project savings, and make the exchange, **project sponsors must submit their Award Packages to Caltrans District 7 by Thursday, December 10, 2009.** If the Award Packages are

Page 2

not received by December 10, 2009 at Caltrans District 7 Local Assistance, we will be unable to encumber the savings on a regional project and will be unable to provide the replacement funds at this time. We may consider making a similar arrangement available in January 2010, but as of this writing, we have no alternate project to make this possible.

Should you have questions about the proposed process, you may contact Avital Shavit at (213) 922-7518. Additionally, you may wish to attend the workshop on ARRA project savings that we will be hosting at 10:00 a.m. on Wednesday, December 2, 2009, in the Board Room at our Union Station Gateway Headquarters in downtown Los Angeles.
