

Designing for Pedestrian Safety (2-day Workshop)

Metro & the Federal Highway Administration invite your participation

- Learn about ideas and solutions for improving pedestrian safety
- Metro Headquarter, One Gateway Plaza, Los Angeles, CA 90012
- Choose from one of the sessions below. Workshops are FREE!

The workshop is designed for:

Engineers, planners, traffic safety and enforcement professionals, public health and injury prevention professionals, and decision-makers who are seeking ideas and solutions for making changes to the physical environment that will improve safety for pedestrians.

Learn about:

- Effective solutions and best practices in design and operations for pedestrian safety. Topics covered include: sidewalk and walkway design; intersection geometry; signs, signals, and crosswalks; interchange design and alternatives; facilities at signalized intersections; roundabouts; connections to transit; and road diets and other traffic calming measures.
- Significance of land-use, street connectivity and site design to create a safer pedestrian environment.
- Common types of pedestrian crashes.

Choose from one of the following sessions:

- Monday, December 13 & Tuesday, December 14, 2010
- Wednesday, December 15 & Thursday, December 16, 2010
- Monday, January 10 & Tuesday, January 11, 2011
- Wednesday, January 12 & Thursday, January 13, 2011

Each session is 2 days long. All sessions will cover the same topics. Please choose the session that is most convenient for you. Workshop begins at 8:30am – 4:30pm (Sign-in starts at 7:30am).

Please register early since space is limited! To Register:
