The Honorable Sander Levin, Ranking Member  
House Committee on Ways and Means  
1139 E Longworth House Office Building  
Washington, DC 20515

Dear Senators and Representatives:

As leaders of Chambers of Commerce from across the country, we recognize that our nation faces many difficult economic and financial challenges. Maintaining a strong infrastructure, creating jobs and controlling government spending are three of those challenges.

Maintaining a strong transportation infrastructure, creating jobs and balancing the budget are not mutually exclusive -- they can, and should, go hand in hand.

That is why we are writing in support of a robust and innovative transportation reauthorization bill that will address the transportation needs of our nation.

We applaud the fact that both the Senate and the House have advanced proposals for consideration this year because we see transportation infrastructure as a top priority for our cities, states and nation. We specifically encourage you to consider

innovative proposals that use local and private sector dollars to move projects forward as soon as possible.

One such innovation is “America Fast Forward” the expansion of the existing TIFIA program (Transportation Infrastructure and Innovation Act) to give state and local agencies the ability to accelerate the financing and construction of local highway & transit projects. TIFIA provides credit assistance for surface transportation projects of national and regional significance at very little cost to the federal government. The result is new jobs, traffic relief, economic development and an improved environment for everyone.

The signers of this letter understand the significant demand for federal dollars. With so many in the construction industry out of work and the cost of projects at a historic low, now is the time to pass a robust transportation reauthorization bill and innovative solutions like America Fast Forward.

Thank you for your leadership.

Sincerely,
