Subcommittee #2 on Education Finance	32
Subcommittee #3 on Natural Resources and Transportation	67
Subcommittee #4 on State Administration.....	90
Subcommittee #5 on Public Safety	99

OVERVIEW

In 2012, the Assembly Budget Committee and its Subcommittees conducted 75 hearings over a period of 5 months to develop the 2012-13 Budget. This report provides an overview of the Legislature's Budget plan, detailed by Subcommittee. Both the Assembly and Senate made changes to the Governor's May Revision through the Subcommittee process, and this report combines the plans of both houses.

The Legislature's 2012-13 budget relies upon difficult ongoing cuts and temporary voter-approved revenues to create a responsible on-time budget that eliminates California's structural budget deficit. The budget plan protects essential funding for schools, which would continue grow in future years.

Overall, the Legislature's budget diverges from the Governor's plan by less than 1 percent of the total spending. The Legislature's plan provides concrete and achievable alternatives to solutions proposed by the Governor to create an overall budget plan that mirrors the Governor's overall budget architecture.

Preliminary scoring of the Legislative Budget plan indicates that it will provide \$16.3 billion in overall solutions to fully bridge the May Revision budget gap of \$15.7 billion, resulting in a reserve level of \$614.2 million. Like the May Revision, the Legislature's budget eliminates the structural deficit, resulting in balanced budget for each of the next three fiscal years.

The table below summarizes the differences between the two versions.

Preliminary Estimates			
Legislative Budget Plan Versus Governor's May Revision (\$ million)			
	Governor's May Revision	Legislature's Budget Plan	Difference
Starting Problem	(15,692.0)	(15,692.0)	-
<i>Expenditure Reductions</i>	8,303.5	7,853.8	(449.7)
<i>Revenues</i>	5,918.9	5,934.5	15.6
<i>Other</i>	2,517.9	2,517.9	-
Total Solutions	16,740.3	16,306.2	(434.1)
Reserve	1,048.3	614.2	(434.1)

Subcommittee No. 1

Health and Human Services

Holly J. Mitchell, Chair

HEALTH

Medi-Cal Major Issues:

- **Coordinated Care Initiative.** Reduces Medi-Cal expenditures by \$611.5 million GF in the budget year (and an estimated \$1 billion in out-years) by approving of a modified version of the Governor's proposal to integrate Medi-Cal and Medicare services for dual eligible beneficiaries and by integrating long-term care services, including In-Home Supportive Services and nursing home care, into managed care.
- **Managed Care Expansion.** Approves the Governor's proposal, with modified trailer bill language, to expand Medi-Cal managed care to the 28 remaining fee-for-service counties for \$2.7 million in GF savings in 2012-13.
- **Pediatric Managed Dental Care.** Approves trailer bill language developed by Senator Steinberg that addresses woefully inadequate care being provided to Sacramento county children in Medi-Cal through dental managed care companies. Requires Department of Health Care Services (DHCS) to establish performance measures and benchmarks for dental health plans and to post each plan's performance on the DHCS website. Requires dental health plans to provide performance data to DHCS. Requires DHCS to review and approve dental health plan marketing plans and member services procedures. Requires DHCS to use an independent External Quality Review Organization.
- **Copayments.** Approves of the Governor's proposal to implement copayments in Medi-Cal for \$20.2 million in GF savings, pending federal approval. Includes a copayment of \$15 for non-emergency visits to emergency rooms, and copayments of up to \$3.10 for preferred drugs and \$5 for non-preferred drugs, excluding mail-order prescriptions. Includes trailer bill to clarify the definition of non-emergency care.
- **California Children's Services (CCS) Medical Therapy Means Test.** Denies the Governor's proposal to institute an income-means test for physical and occupational therapy services, for \$9.1 million in GF savings and instead requires these services to be paid for with federal special education funds, specifically for school-aged children who have individualized education plans that designate these services as educationally necessary, for \$12.2 million in GF savings.
- **Skilled Nursing Facilities Sunset and Rates.** Extends the sunset for two years on the skilled nursing facility (SNF) quality assurance fee. For GF savings of approximately \$87.8 million in 2012-13, approves of the following: 1) Eliminates

any rate increase to SNFs in 2012-13; 2) Institutes an on-going payment deferral to SNF providers; 3) Suspends quality payments for 2012-13 and authorizes DHCS to look for alternative payment methodologies for quality payments; and, 4) Provides for a 3 percent rate increase in 2013-14 and 2014-15.

- **Value Based Purchasing.** Denies the Governor's proposal to extend authority to DHCS to bypass legislative and regulatory processes in making various types of changes to the Medi-Cal program, for \$75 million in GF savings. Instead, recognizes \$30 million in GF savings to be achieved by implementing the federally-required prohibition on coverage of preventable hospital admissions.
- **Clinical Laboratory Rates.** Achieves \$7.7 million in GF savings from establishing a reimbursement rate methodology for setting Medi-Cal rates of reimbursement for clinical lab services provided to Medi-Cal beneficiaries. The proposed methodology would develop rates that are based on the lowest amounts other payers are paying for similar clinical laboratory services. Until the implementation of the new methodology, payments for clinical laboratory services would be subject to an additional 10 percent provider payment reduction.
- **Reductions to Hospitals.** Reduces \$387.4 million in funding to hospitals by: 1) Changing the reimbursement methodology for Non-Designated Public Hospitals (NDPH) for \$94.5 million in General Fund savings in 2012-13. DHCS will use the same reimbursement methodology for NDPHs as is used for Designated Public Hospitals, thereby eliminating the 50 percent State General Fund match, which is to be replaced by federal funds through the use of certified public expenditures, and by increasing Safety Net Care Pool Uncompensated Care and Delivery System Reform Incentive Pool funding available to NDPHs; 2), Splitting federal rollover unspent Health Care Coverage Initiative funding between the State and Designated Public Hospitals to achieve \$100 million in General Fund savings in 2012-13; 3) Redirecting \$150 million in hospital fee revenue in 2012-13 (previously intended to fund increased rates to managed care plans for them to increase payments to hospitals) to offset GF expenditures for providing health coverage to children, for \$95 million in General Fund savings; and 4) Redirecting \$42.8 million in unpaid private and nondesignated public hospitals' stabilization funding for fiscal years 2005-06 through 2009-10 for \$42.9 million in General Fund savings. Includes trailer bill language to clarify accounting procedures related to CMS approval of hospital fee.
- **Gross Premiums Tax.** Extends the sunset for two years on the Gross Premiums Tax on Medi-Cal managed care companies for \$183 million in GF savings in 2012-13 and approximately \$275 million General Fund savings in 2013-14. This revenue supports health coverage for children.
- **Clinic Payment Reform.** Denies the Governor's proposal to reform the payment system for Federally Qualified Health Centers and Rural Health Centers, which was expected to achieve \$27.8 million in General Fund savings in 2012-13.

Healthy Families Major Issues:

- **Healthy Families Program Elimination.** Denies the Governor's proposals to reduce provider rates in the Healthy Families Program to Medi-Cal rates and to transfer all children in the program to Medi-Cal, for \$48.6 million in GF savings. Instead, approves of transitioning children in the Healthy Families Program, whose family income is below 133 percent of the federal poverty level, to Medi-Cal, as required by the Federal Affordable Care Act, for \$7.3 million in GF savings in 2012-13. Requires DHCS to submit an implementation plan to the Legislature prior to transitioning children in phases 2 and 3 of the transition; children in phase 1 will stay in the same managed care plan. Requires that children moving into Medi-Cal receive dental services through fee-for-service dental care, except in Sacramento County where they will receive dental care through managed care, and in Los Angeles where they will have the option of managed care or fee-for-service.

Mental Health Major Issues:

- **New Department of State Hospitals.** Approves of the Governor's proposal to eliminate the Department of Mental Health and create a new Department of State Hospitals. This reorganization is expected to achieve significant improvements to the oversight of mental health care in California by integrating out-patient mental and physical health care within one department (DHCS), and by creating a department that will have a singular focus on managing and operating the state's system of mental hospitals.
- **State Hospitals Cost Savings.** Adopts savings in the State Hospitals budget of approximately \$120 million in 2011-12 and \$184 million in 2012-13 by reducing psychology, therapy, housekeeping, health care physicians and other hospital staff, modifying treatment models, streamlining documentation, increasing use of generic pharmaceuticals, increasing the county bed rate, and making other changes to reduce costs in State Hospitals. Requires an audit of the State Hospitals budget and requires the Department to report detailed expenditures to the Legislature.
- **State Hospitals Safety.** Establishes the Legislature's intent that staff-patient ratios shall vary to reflect safety and patient acuity, and that adult education in the state hospitals will not be eliminated. Approves of \$22.76 million in GF for Personal Duress Alarms at the State Hospitals.
- **Community Mental Health Programs.** Approves of the Governor's proposal to shift community mental health programs from the soon-to-be eliminated Department of Mental Health to other departments, primarily the Department of Health Care Services. Licensing functions will move to the Department of Social Services. The Workforce Education and Training Program, under the Mental Health Services Act, will move to the Office of Statewide Health Planning and Development.

- **Mental Health Services Act Administration (MHSA).** Approves of moving MHSA programs to other departments, conforming to the elimination of the Department of Mental Health, and implements changes to MHSA administration adopted in 2011 budget trailer bill. Specifically, shifts approval of the MHSA innovation programs from the Mental Health Services Oversight and Accountability Commission (MHSOAC) to the county board of supervisors; removes MHSOAC's authority to issue guidelines for MHSA innovation programs; and eliminates performance contracts between the state and counties.
- **Realignment.** Implements 2011 county realignment of Medi-Cal mental health programs – Early Periodic Screening Treatment and Diagnosis (EPSDT) and Mental Health Managed Care. Among other provisions, the mental health realignment trailer bill deletes obsolete statutes; updates language in current law; and establishes new requirements related to state-county contracts and processes for counties that refuse to contract with the state.
- **Caregiver Resource Centers.** Denies the Governor's proposal to eliminate GF support of \$2.9 million for Caregiver Resource Centers, which provide critical support to individuals caring for family members with brain injuries and illnesses. Moves this program to DHCS due to the elimination of the Department of Mental Health.
- **Community Treatment Facilities.** Denies the Governor's proposal to eliminate \$750,000 in GF for supplemental payments to community treatment facilities that provide residential care to severely emotionally disturbed minors, and instead reduces funding by \$250,000 GF.

Public Health Major Issues:

- **Chronic Disease Prevention.** Approves of \$1.6 million in 2011-12 and \$1.9 million in 2012-13 in federal funds resulting from the federal Affordable Care Act to create a State Chronic Disease Prevention and Health Promotion Plan to address the five leading causes of death and disability from chronic disease: heart disease, cancer, stroke, diabetes, and arthritis.
- **Office of Health Equity.** Approves of the Governor's proposal to create an Office of Health Equity within the Department of Public Health to focus on health disparities of all types and the interactions and overlapping dynamics between them. The Office of Health Equity will house functions and responsibilities of several existing programs within the Department of Public Health as well as those of the Office of Multicultural Services, currently within the Department of Mental Health, and the Office of Women's Health, currently within DHCS.

- **Direct Services.** Approves of the Governor's proposal to move the Every Woman Counts Program, Prostate Cancer Screening Program, and the Family Planning Access Care and Treatment (FPACT) program from the Department of Public Health to DHCS in order to consolidate direct services within one department.
- **AIDS Drug Assistance Program (ADAP).** Denies the Governor's proposal to increase cost sharing for ADAP clients, for \$10.7 million in GF savings, and improves the transition of ADAP clients to Low Income Health Programs by creating a stakeholder process and designating a staff person at the DHCS to manage the transition.
- **Public Health Laboratory Directors.** Denies the Governor's proposal to eliminate all \$2.2 million in GF for the Public Health Laboratory Training Program and instead cuts \$1.7 million, leaving \$500,000 in the program. This program helps students attain the stringent state and federally required academic credentials to qualify to serve as laboratory directors.

HUMAN SERVICES

CalWORKs Major Issues:

- **Single Allocation Reduction.** Cuts the CalWORKs Single Allocation block grant, which funds CalWORKs employment services, Stage 1 child care, and administration, by \$327 million General Fund on an on-going basis. As part of this action, maintains the exemptions for parents with young children that have been given in the past in association with a single allocation reduction. The 2012-13 fiscal year is the fourth continuous year of this reduction to program services in the CalWORKs program. This reduction adds to a year-over-year reduction of \$48 million that was taken from the Single Allocation in the Governor's January 10 budget due to a change in the calculation in the child care cost per case.
- **Cal-Learn Phase-In.** Reduces the Cal-Learn appropriation by \$5 million General Fund in 2012-13, allowing counties to ramp-up to full re-instatement of the program for pregnant and parenting teens by April 1, 2013. Cal-Learn state funding was eliminated in the 2011-12 Budget and the program was suspended for one year.
- **Rejects Governor's Proposal.** Rejects the Governor's proposal, which would have resulted in a loss of adjusted net \$879.9 million in General Fund from the program, largely achieved through policies that limit access to welfare to work services, reduce time on aid for formerly eligible families, and by enacting an unprecedented reduction in grants for cases with and without an aided parent, decreasing basic aid for hundreds of thousands of families with children to 24 percent of the federal poverty level.
- **SAWS Reduction.** Continues a \$5 million General Fund unallocated reduction to the Statewide Automated Welfare System (SAWS).

In-Home Supportive Services (IHSS) Major Issues:

- **Governor's Proposals.** Rejects the Governor's proposals to limit Domestic and Related Services for recipients in shared living arrangements and to reduce authorized IHSS hours by 7 percent across the board, which would have decreased funding in the program by a net \$225 million General Fund.

- **Continuation of the 3.6 Percent Across the Board (ATB) Reduction in Hours.** Continues the 3.6 percent ATB reduction in authorized hours on an on-going basis, producing \$58.9 million General Fund savings in 2012-13. This cut originally went into effect in February 2011 and was set to expire on June 30, 2012.
- **Additional Savings.** Recognizes approximately \$31 million General Fund savings from other reductions and/or policy changes, which may include, but is not limited to, additional federal funds, savings resulting from veterans accessing greater federal benefits, and reduced administration costs that were included in the Governor's budget related to IHSS proposals.
- **Other Issues.** Adopts the Administration's proposal to repeal the Medication Dispensing Machine (MDM) Pilot Program and the associated across-the-board reduction in hours that was linked to the MDM Pilot's outcomes.

Developmental Services Major Issues:

- **2012-13 Trigger Reduction.** Adopts the Administration's proposals and trailer bill language to achieve the \$200 million General Fund reduction. This savings package includes maximizing federal funds, implementing provisions of Senate Bill 946, multiple changes to redesign services for individuals with challenging needs, redesigning supported living assessments, reducing the rate reduction to 1.25 and extending it for an additional fiscal year through 2012-13, and additional, smaller cost savings and efficiencies. In the area of changing services for individuals with challenging needs, the changes include limiting short-term acute crisis placements in developmental centers to six months, with the possibility of one six-month extension, and ensuring that the comprehensive assessments and reports for consumers residing in developmental centers on July 1, 2012 shall include input from the regional center, the consumer, and the consumer's family, legal guardian, or conservator, when appropriate, and identify the types of community based services and supports available to the consumer. Also part of this package is approval of the assumption of \$40 million for Early Start Services from the California First 5 Commission (Proposition 10).
- **November Trigger.** Approves a \$50 million trigger cut for 2012-13 contingent on the passage of the November revenue initiative, and mirrors language that had been included in the 2011-12 trigger cut that provides the Department of Developmental Services (DDS) with methods and options for devising the savings, should they become necessary.

Multipurpose Senior Services Program:

- **MSSP.** Maintains the MSSP program, at its \$20.2 million General Fund funding level, while proposing a plan toward its inclusion ultimately as part of the Long-Term Supportive Services integration into managed care under the Coordinated Care Initiative. MSSP will remain its own discrete state program for a near two-year period before it begins a transition process toward integration, conforming to action taken in the Health more largely on the Coordinated Care Initiative.

Child Support Services Major Issues:

- **County Share.** Approves the Governor's proposal to suspend the county share of child support collections in 2012-13, for General Fund savings of \$31 million. This funding has been historically used in the CalWORKs program, so the loss of this funding at the county level is considered part of the resources taken from the CalWORKs program.
- **Reversion Savings.** Approves savings of \$5.49 million General Fund associated with reversion of reappropriated funds originally allocated for the California Child Support Automation System (CCSAS). The reversion amount reflects the anticipated unencumbered balance at the end of the 2011-12 fiscal year.
- **Additional Reductions.** Approves a \$1 million General Fund decrease for the CCSAS and a \$5 million General Fund decrease to the Local Child Support Agencies, with Budget Bill Language to state that to the extent practicable, the cut shall not result in a reduction to caseworker staffing levels or collections.

Child Welfare Services (CWS) Major Issues:

- **CWS Programmatic Realignment.** Adopts trailer bill language to implement CWS programmatic realignment, pursuant to 2011 Realignment statute. The language allows the Department to license THP-Plus-Foster Care placements, consistent with the licensure of other foster care placement types and leaves in place statutory provisions intended to enable foster youth to access federal Supplemental Security Income (SSI) benefits. The language also guides how the California Child & Family Services Reviews will work for state oversight purposes under realignment, creates outcome and fiscal reporting requirements for the Department of Social Services (DSS), and includes requirements for a transparent and accessible local public process that must be used before a county significantly changes its expenditures on optional programs.

- **CWS Fiscal Superstructure Issues.** Toward the interest of ensuring that counties do not disinvest from their existing CWS programs with the resources provided under realignment, make changes to the Fiscal Superstructure to provide counties with incentives to expend their full allocations and to assure that underperforming counties are required to make larger contributions toward any assessed penalties.
- **DSS Positions.** Approves in large part the Administration's May Revision reduction in a net 42 positions for the Child and Family Services Division at DSS, retaining 11.5 positions and repurposing two of these to focus on fiscal and outcome-related oversight stemming from CWS programmatic realignment and policy and program development related to the continuum of care and assessment of children's needs.
- **Group Home Moratorium.** Continues the moratorium on group homes and limits exceptions for any program with a rate classification level (RCL) below 10 to exceptions associated with a program change.

Alcohol and Drug Programs Major Issues

- **Proposed Department Elimination.** Rejects the Administration's proposal to eliminate the Department of Alcohol and Drug Programs, which was proposed with neither savings nor costs, and transfer its various functions to three separate departments. Instead, approves a reorganization of the Department of Alcohol and Drug Programs, effective July 1, 2013, contingent on a process to be undertaken and a plan to be submitted by the administration, with legislative deliberation in 2013. The Administration is required to construct an analysis, with stakeholder consultation, detailing the costs and benefits of any proposed reorganization, and to provide this to the Legislature and public for review and to inform decision-making.
- **Drug Medi-Cal (DMC) Transfer.** Adopts trailer bill language to implement the DMC Transfer, requiring continuing quarterly updates to the Legislature and key stakeholders as the DMC fully transitions to the DHCS. Additionally requires quarterly stakeholder meetings commencing no later than October 1, 2012.
- **ADP Programmatic Realignment.** Adopts trailer bill language to implement Substance Use Services realignment pursuant to 2011 Realignment statute. The language includes a requirement for ADP to annually provide a summary of outcome and fiscal data that allows for user-friendly tracking of changing Substance Abuse Services programs over time. The language additionally seeks to retain guiding, historical statute on substance use disorder services, while removing parts of current law that inappropriately reference state funds given the 2011 Realignment.

- **Women and Children's Residential Treatment Services (WCRTS) Program.** Creates a special account within the Behavioral Health Subaccount under the Realignment Fiscal Superstructure legislation for WCRTS funding for those counties in which a program site is in operation, assuring that the realigned funding of \$5.1 million is applied to the eight sites in six counties that currently operate this program. Trailer bill language also defines the program in statute and permits additional funds to be provided for this program and similar services at the discretion of the counties.

Automation Major Issues

- **CalHEERS.** Approves the May Revision proposals for 16 full-time positions and \$2.543 million in reimbursement authority for the Office of Systems Integration, Budget Bill Language, and Trailer Bill Language related to the development of the California California Healthcare Eligibility, Enrollment, and Retention System (CalHEERS), toward California's implementation of the federal Affordable Care Act.
- **CMIPS II.** Extends position authority for the Case Management, Information, and Payrolling System (CMIPS) II, the main automation system serving the IHSS program, Development, Design, and Implementation phase, adjusting timelines and costs due to delays in development of the project. Adopts Supplemental Reporting Language to seek clarification and accountability around the cause or causes of such delays.
- **LEADER Replacement.** Requires, in trailer bill language, the Administration to have a qualified third party conduct a cost reasonableness assessment of the costs proposed by the vendor to migrate the Consortium-IV counties to the newly-developed Los Angeles Eligibility, Automated Determination, Evaluation and Reporting (LEADER) Replacement System.
- **CWS/CMS.** Requires DSS to use funding included in the Budget related to the replacement of the Child Welfare Services Case Management System (CWS/CMS) for the next steps necessary to move forward with the recommendation of the Child Welfare Automation Study Team to proceed toward procuring a new system, with results to be reported to the Legislature by March 1, 2013.

Rehabilitation Appeals Board (RAB)

- **Repeal of RAB.** Approves the elimination of the RAB and replacement of this process with the use of impartial hearing officers, setting requirements in trailer bill to assure appellants' due process rights.

Subcommittee No. 2

Education Finance

Susan A. Bonilla, Chair

K-12 EDUCATION

Proposition 98 Package:

- **Overall 2012-13 Funding Level.** Provides a Proposition 98 minimum guarantee of approximately \$53.6 billion for 2012-13. This is roughly \$1 billion above the amount provided under the Governor's January proposal. Although revenues are down in 2012-13, the year-to-year change in revenues has increased and this results in a higher maintenance factor payment. This funding level also assumes passage of the Governor's tax initiative.
- **Maintains 2011-12 Spending Level.** Maintains the Governor's proposed current year level of spending for schools (\$47.8 billion). This provides schools with \$900 million above the revised minimum guarantee for 2011-12, which has fallen mostly due to a decline in anticipated state revenue. The budget repurposes this overappropriation to schools by designating \$450 million as a prepayment of 2012-13 QEIA settlement obligations and approximately \$230 million as prepayment for 2013-14 QEIA settlement obligations. Swaps the remaining ongoing General Fund dollars with one-time funds. These adjustments do not change funding levels for K-14 education in the current year but instead reclassify the funds.
- **New Trigger Cuts if Governor's Tax Initiative Fails.** Proposes a trigger reduction of approximately \$5.5 billion for K-14 education in the event the Governor's initiative does not pass. This reduction comes in part from a reduction in the Proposition 98 minimum guarantee due to lower state revenues (\$2.9 billion). The remaining would result from a shift of General Obligation Bond Debt Service and the Early Start program (currently funded under the Department of Developmental Services) into Proposition 98 requiring programmatic savings to accommodate the shift.

To accommodate the \$5.5 billion reduction, the budget adopts the Governor's approach to rescind deferral buy-downs (\$2.3 billion). The remaining reduction would be achieved through programmatic cuts to K-14 education. In order to achieve savings, the budget includes trailer bill language to authorize K-12 schools to reduce the school year by a total of 15 days in 2012-13 and 2013-14. This would be in addition to the current flexibility districts have to reduce the school year by five days.

Other Major K-12 actions:

- Provides \$2.3 billion to reduce inter-year budgetary deferrals for K-14 education beginning in 2012-13. This increase will provide roughly \$2 billion for K-12 schools and nearly \$300 million for community colleges.
- Modifies the Governor's May Revise mandate block grant proposal to (1) establish a block grant for the majority of K-14 mandates; (2) suspend in 2012-13 those K-14 mandates that were suspended in 2011-12; and, (3) continue the claiming process but require school districts, county offices of education, charter schools, or community college districts to choose annually to either claim or utilize the block grant. Provides \$200 million, split between K-12 and community colleges based on the amount of historical claims for each over the past five years, resulting in a per pupil/student funding amount as follows: (1) K-12 districts, \$28 per pupil; (2) Community college districts, \$28 per student; (3) Charter schools, \$14 per pupil; and, (4) County offices of education, \$28 + \$1 "extra" per pupil.
- Maintains the Governor's proposal to restore \$496 million in funding for the Home-to-School Transportation funding in 2012-13 but does not make these funds flexible.
- Rejects the Governor's proposal to eliminate funding for the Transitional Kindergarten program – created pursuant to Chapter 705, Statutes of 2010.
- Does not initiate the Governor's weighted pupil formula proposal and maintains categorical and general purpose funding allocations per existing law.
- Restores funding for the Advancement Via Individual Determination (AVID), the Indian Education Centers, the non-98 portion of the state special schools.
- Restores \$15 million in ongoing Proposition 98 funding for the Early Mental Health Initiative (EHMI) and shifts the program to the California Department of Education to administer the program.
- Approves trailer bill language for several charter school issues including expanding options for external borrowing.

CHILD CARE & DEVELOPMENT PROGRAMS

Realignment of Child Care Services

- **County realignment "ramp up" costs.** Denies the Governor's January proposal to provide \$26 million to counties for administrative "ramp up" costs attributed to the proposal to realign the administration of child care and development services from the Department of Education to the Department of Social Services. This rejection of an expansion provides General Fund savings of \$26 million. This action also denies the Governor's January proposal to consolidate the child care programs into a separate child care block grant funding.
- **Funding shift of state operations for child care transition from the Department of Education to the Department of Social Services.** Denies the Governor's May Revise proposal to allow the Director of Finance to shift up to 30 percent of the funds from the Department of Education to the Department of Social Services. This proposal would have required that county welfare departments put together plans on how they would implement child care for a mid-year transfer of services, without any recognition of the massive disruption such a poorly crafted proposal would have on the child care infrastructure.
- **Require county welfare departments to contract with Title 5 centers as a condition of receiving child care block grant funds.** Denies the Governor's May Revise proposal to require county welfare departments to contract with Title 5 centers for three years for the same number of slots that will be funded under the General Child Care program in 2012-13. This action also denies the Governor's January and May Revise proposal to realign and make changes to the federally funded Quality Improvement expenditure plan.
- **Consolidation of CalWORKs Stage 2 and 3 with the Alternative Provider Program.** Denies the Governor's January proposal that consolidates the CalWORKs Stage 2 and 3 programs into the Alternative Provider Program.

Programmatic Reductions & Restorations

- **Standard Reimbursement Rate reduction of 10 percent.** Denies the Governor's January proposal to reduce the Standard Reimbursement Rate by 10 percent to both the General Child Care Program and the California State Preschool Program. This action would reinstate the rates at the current year levels.

- **Reimbursement Market Rate reduction to 40th percentile of the 2005 RMR survey.** Denies the Governor's May Revise proposal to reduce the Reimbursement Market Rate to the 40th percentile of the 2005 RMR survey, which would be equal to about a 35 percent cut to the value of the child care voucher system. This action would reinstate the rates at the current year levels.
- **Allow families engaged in education to receive child care services for a total of 2 years.** Denies the Governor's May Revise proposal to place a cap of two years on families who are receiving child care services while attending an educational program.
- **Reduce the State Median Income eligibility from 70 percent to 62 percent.** Denies the Governor's January proposal to reduce the State Median Income eligibility.
- **Preschool & General Child Care Interactions.** Streamlines the part-day/part-year programs by recognizing this component of the program into the California State Preschool Program, which is funded with Proposition 98 General Fund monies. Aligns the preschool eligibility with the new Kindergarten start date. This proposal generates \$165 million non-Proposition 98 General Fund savings.
- **Across the Board Reductions.** Approves an across the board reduction to the General Fund supported child care programs: General Child Care, Migrant Day Care, Alternative Payment Program, CalWORKs Stage 3, and Allowance for Handicapped. This reduction will generate \$50 million in non-Proposition 98 General Fund savings.
- **Caseload and Technical Adjustments.** Approves the baseline caseload and technical adjustments made to the CalWORKs Stage 2 and Stage 3 programs.
- **Quality Programs.** Approves reinstating budget bill language on the allocation of the federally funded Quality Improvement Programs based on the 2011-12 fiscal year expenditure plan.
- **Child Nutrition.** Denies the Governor's elimination of \$10.4 million non-Proposition 98 General Fund support that provides 0.15 cent per meal reimbursement to private, non-LEA child care centers, schools, and family daycare homes. This proposal would have affected about 17,500 sites and about 312,000 children.

HIGHER EDUCATION

California State Library

- **Meeting Federal Matching and Maintenance of Effort Requirements.** Approves \$4.7 million in restoration funding to the California State Library, in order to continue to be able to draw down \$15 million in federal funding for library support programs.

University of California

- **Elimination of Programs Earmarked in UC's Base Budget.** Denies the Governor's January proposal to eliminate state prioritized programs and reinstates budget bill language with current year funding levels.
- **Elimination of Enrollment Targets.** Denies the Governor's January proposal to eliminate the budget bill language that sets the university's enrollment target for the budget year.
- **Long-Term Funding Flexibility Proposals.** Denies the Governor's January proposals to provide the university with extensive flexibility to: 1) create a new "Funding Agreement," and, 2) change the General Obligation bond payment and Lease Revenue Bond structure that would have made the budget year the last year in which the university received funding adjustments. Approve budget bill language expressing intent to approve future adjustments.
- **Funding Augmentation for the University's Retirement Plan.** Approves \$51.5 million in General Fund support to the university and budget bill language specifically to earmark contributions to the University of California Retirement Plan (UCRP) for state General Fund and tuition-funded employees, with the recognition that this funding does not constitute a state obligation to providing funding in future years and that any future funding, if any, will be determined by the Legislature.
- **Trigger Reductions.** Approves the Governor's May Revise proposal to increase the University of California's trigger reduction to \$250 million, in the event that the November tax initiative fails passage by voters.

Hastings College of the Law

- **Long-Term Funding Flexibility Proposals.** Denies the Governor's January proposals to provide the university with extensive flexibility to: 1) create a new "Funding Agreement," and, 2) change the General Obligation bond payment structure, that would have made the budget year the last year in which the university received funding adjustments. Approve budget bill language expressing intent to approve future adjustments.
- **Funding Augmentation for the University's Retirement Plan.** Approves \$500,000 in General Fund support to the university and budget bill language specifically to earmark contributions to the University of California Retirement Plan (UCRP) for state General Fund and tuition-funded employees, with the recognition that this funding does not constitute a state obligation to providing funding in future years and that any future funding, if any, will be determined by the Legislature.

California State University

- **Elimination of Programs Earmarked in CSU's Base Budget.** Denies the Governor's January proposal to eliminate state prioritized programs and reinstates budget bill language with current year funding levels.
- **Elimination of Enrollment Targets.** Denies the Governor's January proposal to eliminate the budget bill language that sets the university's enrollment target for the budget year.
- **Long-Term Funding Flexibility Proposals.** Denies the Governor's January proposals to provide the university with extensive flexibility to: 1) create a new "Funding Agreement," and, 2) change the General Obligation bond and Lease Revenue bond payment structure that would have made the budget year the last year in which the university received funding adjustments. Approve budget bill language expressing intent to approve future adjustments.
- **Changes to the CalPERs funding structure, and provide funds only for unfunded liability costs.** Denies the Governor's January proposal and deletes the related Budget Bill language.
- **Trigger Reductions.** Approves the Governor's May Revise proposal to increase the California State University's trigger reduction to \$250 million, in the event that the November tax initiative fails passage by voters.

California Community Colleges

- **Repayment of Deferrals.** Approves the Governor's May Revise proposal to pay back \$313 million in deferral payments. This funding is contingent on the passage of the November tax initiative by voters.
- **K-14 Mandates Reform and Block Grant Funding.** Approves to: 1) establish a block grant for the majority of the K-14 mandates; 2) continue the suspension in 2012-13 those K-14 mandates that were suspended in 2011-12; and, 3) continue the claiming process but a school district, county office of education, charter school, or community college district has to choose each year to either claim or utilize the block grant. Community colleges will receive \$33 million for mandate costs, resulting in a \$28 per student funding amount.
- **Categorical Reform and Block Grant Funding.** Denies the Governor's proposal to consolidate \$411 million from 21 categorical programs into one block grant funding structure. Restores budget bill language to earmark all 21 categoricals based on current year funding levels.
- **Apportionment Funding Methodology and Enrollment Changes.** Denies the Governor's January proposal to provide the college system with greater flexibility by: 1) eliminating the apportionment funding and enrollment methodology; and, 2) creating a new "Funding Agreement" based on yet to be determined performance measures.
- **Neighboring State Student Enrollment Fee.** Approve trailer bill language to increase the neighboring state student enrollment fee by using a multiple of 2 beginning in the academic Summer of 2012 and a multiple of 3 beginning in the academic Summer of 2013.
- **Swap of General Fund support for Local Property Tax from the dissolution of Redevelopment Agencies.** Approves the Governor's General Fund swap to reflect an increase in estimated local property tax revenues. Approves the Administration's trailer bill language to authorize the Director of Finance provide an amount of funding, not to exceed \$200.9 million, to backfill a shortfall in the local property tax revenues from the recovery of liquid assets held by redevelopment agencies.
- **Trigger Reductions.** If the November tax initiative fails passage by voters, the California Community Colleges will be reduced by: 1) rescinding the deferral repayment of \$313 million; and, 2) a reduction of \$286.5 million in programmatic reductions due to bringing General Obligation bond costs of \$257.9 million into Proposition 98.

California Student Aid Commission

- **Align Cal Grant Awards Methodology with Federal Pell Grant Methodology.** Denies the Governor's May Revise proposal to align the Cal Grant awards' methodology with the Federal Pell Grant Methodology.
- **Increase the G.P.A. Eligibility Requirements.** Denies the Governor's January proposal to eliminate students based on increased G.P.A. eligibility requirements.
- **Student Loan Operating Fund.** Approve an augmentation of \$54.6 million in Student Loan Operating Fund, and generate a General Fund offset.
- **Phase out of the Student Loan Assumption Programs.** Denies the Governor's January proposal to phase out the Student Loan Assumption Programs.
- **California Community College Transfer Entitlement Award.** Approve trailer bill language to require transfer students to be enrolled in a community college in the year prior to transfer as modified to provide one additional year of eligibility for students awarded a CCC transfer entitlement award in 2011-12.
- **New Restrictions for Institutional Eligibility.** Approve the Governor's proposal as modified with placeholder trailer bill language to: 1) set the Cohort Default Rate at 15.5 percent; 2) provide five years for institutions with a Cohort Default Rate less than 10 percent and graduation rates above 20 percent to increase their six year graduation rates to the 30 percent threshold; and, 3) require additional notification and disclosure to students.
- **Changes to Award Levels for students attending private institutions.** Delays implementation of the Governor's proposal to reduce awards for students attending private and independent institutions effective beginning with the 2013-14 award year. New student recipients attending a private, non-profit institution in 2013-14 would receive a reduced Cal Grant award of \$5,472. New student recipients attending a private, for-profit institution in 2013-14 would receive a reduced Cal Grant award of \$4,000.
- **Other Significant Adjustments to the Cal Grant Program.** Approve the Governor's May Revise proposal to account for costs associated with the November CSU Board of Trustees' decision to raise student fees by 9 percent in the Fall of 2012. Approve the trailer bill language and funding adjustment to permit co-eligible Cal Grant recipients to switch from Cal Grant B to Cal Grant A awards.

Sub 2 on Education Finance					
Org	Department	Issue	Date	Subcommittee Action	Committee Recommendation
6110	Department of Education	Proposition 98 Funding Package	6-Mar, 21-May	Held Open	Approve Assembly Proposition 98 Package
6110	Department of Education	Restore Home to School Transportation and make program funding flexible	13-Mar, 21-May	Held Open	Approve dollars, maintain as separate categorical program (funding not flexible)(conforms to P98 package)
6110	Department of Education	Weighted Student Formula TBL and \$90 million Proposition 98 funding for hold harmless	13-Mar	Refer issue to policy committee	Consistent with the Subcommittee action on 3/13 to move the issue to policy committee, deny \$90 million for hold harmless, reject TBL and associated categorical flexibility proposals (conforms to P98 package)
6110	Department of Education	Eliminate Transitional Kindergarten	13-Mar	Reject Governor's Proposal (conforms to P98 package)	Accept Subcommittee Action
6110	Department of Education	K-14 Mandate Block Grant	08-May	Held Open	Provide \$200 million for K-14 mandates block grant. Modify Governor's TBL to include all mandates not currently suspended in the block grant and allow districts to choose funding through the block grant or through traditional claiming. Adjust allocation methodology per LAO/DOF. (conforms to P98 package)
6110	Department of Education	Elimination of the Early Mental Health Initiative Program	13-Mar	Held Open	Deny Governor's Proposal (conforms to P98 package)
6110	Department of Education	Special Education: Mental Health Related Services (\$98.6 million)	24-Apr	Held Open	AAB (conforms to P98 package)
6110	Department of Education	Special Education: Federal Special Education Mental Health Funds (\$69 million)	24-Apr	Held Open	Provide 75% per current year allocation method based on CASEMIS, 24% based on ADA. Transition to full ADA in 13-14.

6110	Department of Education	Special Education: April Letter: \$1.226 million Federal IDEA to support 5 existing positions and 3 new limited term positions to monitor residential placements made by LEAs in out-of-state facilities	24-Apr	Held Open	AAB

Subcommittee No. 3

Natural Resources and Transportation

Richard S. Gordon, Chair

RESOURCES AND ENVIRONMENTAL PROTECTION**Department of Forestry and Fire Protection**

- **Trigger Cuts.** Establishes trigger cuts to reduce by \$30 million (General Fund), the Department's firefighting capabilities, including emergency air response program reductions and fire stations closures if the Governor's tax proposal is not approved by voters in November.
- **State Responsibility Area Fire Prevention Fee.** Increases by \$9.3 million (General Fund) in 2012-13 and ongoing funding of \$6.1 million, and 29 positions for the Board of Equalization to implement AB 29 X1 (Blumenfield), Chapter 8, Statutes of 2011-12 First Extraordinary Session. This legislation authorizes a fee to be assessed on structures located within State Responsibility Areas (SRA) in order to pay for fire prevention activities in the SRA that specifically benefit owners of structures within the SRA.

Department of Parks and Recreation

- **Assembly/Senate On-going Sustainable Funding Proposal for State Parks.** Increases by \$4.3 million (State Parks and Recreation Fund) and shifts \$11 million from its base budget to a continuous appropriation to provide the Department additional flexibility to implement new projects and/or new programs that generate additional revenues and help keep parks open to the public. A key feature of the proposal is to give the Department as many tools as possible to increase revenue generation, such as installing credit card machines, moving kiosks, and installing iron rangers. Specifically, the proposal: shifts \$10 million from bond funds to pay for capital costs; appropriates \$10 million annually (for five years) as long-term loans from the Clean Water Revolving Loan Fund to replace the State Parks and Recreation Funding for water quality and septic system repairs; authorizes \$10 million be made available from the Off Highway Vehicle Trust Fund balance for high priority law-enforcement related local assistance grants; and transfers \$10 million from AB 118 (Air Quality Improvement Fund) funds.
- **Trigger Cuts.** Establishes trigger cuts to reduce 20 percent of park rangers and eliminate all seasonal lifeguards (General Fund) if the Governor's tax proposal is not approved in November.

Department of Conservation

- **Underground Injection Control Program Compliance and Fracking Regulations.** Increases by 18 positions and baseline appropriation of \$2.5 million (Special Fund) to enhance onshore and offshore regulatory programs at the Division of Oil, Gas, and Geothermal Resources and adopts trailer bill language regarding hydraulic fracturing regulations.

Department of Resources Recycling and Recovery

- **Beverage Container Recycling Fund Redemption Payments.** Requires beverage container distributors to submit beverage container redemption payments to CalRecycle by the last day of the first month following sale, rather than the last day of the second or third month following sale. This proposal will better align the state's cash flows with container recyclers and processors.

Department of Fish and Game

- **Trigger Cuts.** Establishes trigger cuts to reduce 20 percent of game wardens (General Fund) if the Governor's tax proposal is not approved in November.

Timber Harvest Plan Reform Package

- Establishes a new lumber assessment to retail sales of certain wood products sold in California. The assessment will be used to support the regulatory activities of the Departments of Forestry and Fire Protection, Fish and Game, Conservation, and State Water Resources Control Board related to Timber Harvest Plan (THP) review.
- Extends the current timeframe that THPs are effective from three to five years.
- Limits the scope of damages for fire cases and prohibits double damages.

State Lands Commission

- **Royalty Recovery and Lease Compliance.** Increases by \$1 million (General Fund) and 9 positions for the Commission to increase financial audit activities related to management of oil, gas, and other mineral resources owned by the state, as well as to ensure compliance and prompt payment of rentals from surface leasing. These additional audits are expected to annually generate \$6.6 million in General Fund revenues.

Department of Water Resources

- **Delta Habitat Conservation & Conveyance Program.** Increases position authority (off-budget) by 75 positions (37 permanent and 38, limited term) for preliminary engineering work to support the Delta Habitat Conservation and Conveyance Program's plan to promote the recovery of endangered, threatened, and sensitive fish and wildlife and their habitats in the Sacramento-San Joaquin Delta in a manner that will also ensure water supply reliability.
- **Davis-Dolwig Act.** Proposes a \$10 million continuous appropriation (Harbors and Watercraft Revolving Fund) to fund the state's obligations under the Davis-Dolwig Act, which requires the State to pay for recreational, fish and wildlife benefits at State Water Project facilities. This proposal will resolve a long-standing problem and will provide a reliable source of funding for the Department and state water contractors as they continue to manage and improve the state's water delivery system.
- **Trigger Cuts.** Establishes trigger cuts to reduce \$6.6 million to the Departments flood control programs (General Fund) if the Governor's tax proposal is not approved in November.

Energy Commission

- **Electricity Program Investment Charge Program (EPIC).** Increases by \$1 million (Special Funds) and 4 positions for the creation of an EPIC fund for the sole purpose of creating an investment plan for proceeds of the EPIC proceeding at the California Public Utilities Commission. No funding from this item is proposed or allowed to be used for any existing or new policies in the California Energy Commission.

Air Resources Board

- **Cap and Trade Program.** Proposes auctioning greenhouse gas (GHG) emission allowances, through the Cap and Trade program, as a market-based compliance mechanism authorized by AB 32 (The California Global Warming Solutions Act of 2006). The auctions will generate substantial funds to support existing and new efforts to address the causes of GHG emissions. Fee proceeds from the Cap and Trade auctions are expected to be \$1 billion in the first year of the program. In the coming years, the auctions will generate substantially more in fees as the program phases in other major GHG emitters.

The Budget authorizes at least \$500 million be used to offset existing General Fund costs of GHG mitigation activities. It also specifies that any additional expenditures related to GHG emissions reductions be made pursuant to future legislation. The Budget also includes budget bill language and trailer bill language to provide ongoing legislative oversight over the Cap and Trade Program and Cost of Implementation Fee. Further, it stipulates Investor Owned Utilities auction revenues be rebated to every customer and allows up to 25 percent to be used for clean energy projects.

Department of Toxic Substance Control

- **Funding Reductions and Shifts.** Decreases by \$9.1 million (Special Funds), and 24 positions in 2012-13 and \$12.6 million (Special Funds) and 59.8 positions ongoing to align expenditure authority with projected revenues. The Department is also shifting \$6.2 million and 52.3 positions to federal funds, reimbursements, and other state funds. These actions will bring the account into structural balance while redirecting resources to implement high-priority activities under the Safer Consumer Products Program.
- **Green Chemistry.** Redirects 39 positions and \$6.2 million in funding for the Department to implement the Green Chemistry Program, which requires DTSC to adopt regulations to identify and prioritize chemicals of concern in consumer products, to evaluate alternatives, and to specify regulatory responses to reduce exposure to chemicals of concern in products. The Trailer Bill contains language authorizing the imposition a fee for the reasonable costs to the Department in reviewing the submitted alternatives analysis and formulating and imposing a regulatory response. The language specifies that the Department would be allowed to reduce the amount of the fee based upon the size and market share of the fee payer.

California Public Utilities Commission

- **Global Safety and Enforcement.** Increases by \$3.4 million and 19 positions (Various Special Funds) in the gas and rail safety program to strengthen safety oversight and enforcement over gas and rail public utilities. The requested positions would conduct safety field work and enhance risk assessment and enforcement functions.

Department of Food and Agriculture

- **General Fund Reduction.** Establishes a permanent, unallocated reduction of \$2.5 million (General Fund). This builds on the \$31 million General Fund reduction already adopted. The Department will work with its stakeholders to prioritize its resources in determining which programs will be reduced to achieve the savings.

TRANSPORTATION

Caltrans

- **Gas Tax Swap.** Transfers funding from the Motor Vehicle Fuel Account to the General Fund, resulting in a General Fund savings of \$312.2 million in 2012-13 and \$128.8 million in savings in ongoing fiscal years. This provision sunsets after three years and at that time these funds will be transferred to the Highway Users Tax Account.
- **Weight Fee Revenue Transfer.** Transfers additional weight fee revenues to the General Funds, resulting in a \$385.2 million in General Savings in 2012-13 and \$47.5 million in General Fund savings 2013-14. Current law permanently directs truck weight fee revenue to the General Fund for eligible debt service in a given fiscal year. However, since annual truck weight fee revenue currently exceeds eligible debt service, excess truck weight fee revenue has been transferred to the General Fund in 2010-11 and 2011-12 as a pre-funding of out-year bond debt. Both types of transfers to the General Fund – either for current-year or for out-year GO bond debt - provide a General Fund budget benefit in the year the transfer is made. This provision provides the authority in 2012-13 and ongoing to pre-fund out-year debt, to realize additional savings.
- **Project Initiation Documents (PIDs).** Restores State Highway Account funding for PIDs staffing, in lieu of using a local reimbursement funds.
- **Public-Private Partnerships.** Rejects Administration proposal to allow Caltrans to seek additional reimbursement if additional Public-Private Partnership move forward in the budget year.
- **Special Fund Loan Repayment Delays.** Adopts the Governor's May Revision proposal to delay certain special fund loan repayments, resulting in \$307.1 million in one-time savings.
- **Cool Pavement.** Includes reporting language for Caltrans to update the Legislature on existing sustainable pavement efforts.
- **Caltrans Project Advertising.** Allows the Caltrans to post advertising for projects on the Department's website in lieu of trade publications and newspapers.

Department of Motor Vehicles

- **Motor Vehicle Account Loan.** Adopts Governor's May Revision proposal for a \$300 loan to the General Fund from the Motor Vehicle Account, resulting in a budget solution of that amount. The language specifies that the loan be repaid by June 30, 2016.

High Speed Rail Authority

- **High Speed Rail Initial Operating Segment Construction.** Appropriates \$5.8 billion to begin the construction of the Initial Operating Section of the High Speed Rail system, as proposed by the Governor. Of the \$5.8 billion, \$3.2 billion is Federal Funds and \$2.6 billion is Proposition 1A funding.
- **Funding for "Bookend" Projects.** Includes a \$1.1 billion appropriate for High Speed Rail construction proposed in the High Speed Rail Authority Business Plan. These funds will provide \$600 million for the electrification of the Caltrain corridor and \$500 million for projects in the Los Angeles basin to improve existing rail corridors as part of the blended approach to constructing the system.
- **"Connectivity" Funds.** Appropriates \$819 million funding for Proposition 1A Connectivity activities, as proposed by the Governor.
- **Reporting Requirements.** Includes language to specify certain oversight and reporting requirements including a programmatic update of the progress of the High Speed Rail Authority and a management plan.
- **Two-Track Approach for Blended Segment.** Includes both budget bill and trailer bill provisions that stipulate that construction along the "blended" segment of the High Speed Rail corridor will be using a two-track alignment, as proposed in the High Speed Rail Authority Business Plan.

Sub 3 on Natural Resources, Environmental Protection and Transportation

Subcommittee No. 4

State Administration

Joan Buchanan, Chair

STATE ADMINISTRATION

Employment Development Department

- **Unemployment Insurance Federal Interest Loan Payment.** Approves the transfer of \$312.6 million from the Unemployment Compensation Disability Fund to the General Fund to make interest payments on a federal loan.
- **Unemployment Insurance Appeals Board.** Reforms the board by reducing its size, implementing new qualification requirements for board members and achieves \$600,000 in savings in 2012-13 and \$1.2 million in 2013-14 and beyond.

State Operational Savings

- **Rate Reductions and Efficiencies.** Reduces rates charged by the California Technology Agency for data center services and reduces the Department of General Services' budget by \$59 million, reflecting increased efficiencies in several offices within DGS.

Position, Budget Adjustments

- **Eliminate Positions and Improve Budget Transparency.** Eliminates more than 11,000 historically vacant positions and makes other changes to more accurately display departments' spending patterns, improving state government transparency and accountability.

Employee Compensation

- **Reduce Employee Costs by 5 Percent.** Reduces compensation for state employees by an average of 5 percent, for a total savings of \$839.1 million, (\$401.7 million General Fund).

Retirement Costs

- **Full Payment of Employee Retirement Costs.** Adopts the Governor's May Revise proposal to pay the full cost of employee retirement, which rose due to lower-than-expected investment rate of returns and higher-than-expected retirement rates.

Department of Veterans Affairs

- **Open Veterans Homes.** Appropriates \$10.6 million to begin the process in 2012-13 to open new Veterans Homes in Fresno and Redding.
- **Improve Efforts to Aid Veterans in Obtaining Federal Benefits.** Directs the Department of Veterans Affairs to provide incentives encouraging County Veterans Service Offices to increase efforts to aid veterans in obtaining federal compensation and pension benefits and directs the Department to produce a best-practices manual for County Veterans Service Offices.

Mortgage Settlement Proceeds

- **Use Proceeds for Housing-Related Programs.** Uses \$292.2 million from the National Mortgage Settlement to fund housing-related programs, including paying debt-service on bond-funded homeowner programs, Department of Justice programs that include mortgage fraud investigations, and work by the Department of Fair Employment and Housing to investigate and prosecute housing discrimination.

Fair Employment and Housing Commission

- **Eliminate the Commission.** Eliminates the Fair Employment and Housing Commission and requires mandatory dispute resolution on employment and housing discrimination cases before they reach court. The solution improves efficiencies in the state's efforts to uphold the Fair Employment and Housing Act and achieves \$391,000 in General Fund savings.

Secretary of State

- **California Business Connect.** Continues funding for this vital information technology project, which will automate the filing and retrieving of business documents and create a centralized database for all business records. The project will allow new businesses to open their doors more quickly and improve other services to businesses throughout the state.

Commission on the Status of Women

- **Reform the Commission.** Continues funding for the Commission and adopts reforms, such as changing the name to the Commission on the Status of Women and Girls and focusing its studies and advocacy on issues such as gender equity in education and business and women veterans and their families.

Department of Insurance Settlement Proceeds

- **AIG Settlement Proceeds.** Uses \$15.6 million from a settlement between the California Department of Insurance and American International Group, Inc. for General Fund relief. AIG agreed to pay the penalty to settle allegations that its insurance companies underreported workers' compensation premiums.

Local Government Finance

- **Mono County.** Adopts Governor's Proposal to provide funding to Mono County to make the county whole for a shortfall associated with the tax swap provided as part of the "Triple Flip" that provided funding for 2004 Economic Recover Bonds.

Mandates

- **Mandate Suspensions.** Suspends, in lieu of repealing, 56 mandates, resulting in a savings of \$828 million in the budget year.

Redevelopment

- **Redevelopment Trailer Bill.** Includes trailer bill language to provide protections to successor agencies while also providing additional authority for the State to capture tax increment funding for schools. The trailer bill will provide for repayment of certain loans made to redevelopment agencies in certain circumstances, allow the use of unspent bond funds, and provide for the transition of certain assets to successor agencies, including housing assets. The bill would also provide for a meet-and-confer process for successors agencies and the state to resolve disputes. Schools will receive an additional \$1.74 billion in property tax increment that was once part of redevelopment, including distributed pass-through funds under current law. This amount will offset General Fund costs.

FI\$Cal

- **FI\$Cal Project Implementation.** Begins the implementation of the FI\$Cal project in the budget year.

California Technology Agency

- **Alternative Procurement.** Extends authority to the California Technology Agency to conduct alternative procurements of information technology and telecommunications goods and services, as currently authorized in Public Contract Code Section 6611.
- **Expands Project Management.** Designates that the California Technology Agency (CTA) as the lead in providing project oversight of information technology projects and requires other departments to get CTA approval to contract for such oversight.

Cash Management

- **Additional Cash Management Provisions.** Adopts additional cash management provisions to improve the State's cash position.

State Treasurer's Office

- **Scholarshare.** Reverts \$63.1 million of Scholarshare funds to the General Fund. Currently \$85 million of unused funds from scholarship grants provided to high school students for performance on standardized tests in 2000 through 2002 remain in accounts managed by the Treasurer. This proposal will result in \$20 million remaining in the reserve to assure funding for participants

Franchise Tax Board

- **Tax Compliance Measures.** Adopts two Governor's May Revision proposals to improve tax enforcement and language to remove California from interstate compacts.

Board of Equalization

- **Centralized Revenue Opportunity System (CROS).** Begins implementation of the CROS, with an alternative implementation plan that has less cost in the Budget Year than the May Revision proposal.

Subcommittee No. 5

Public Safety

Gilbert Cedillo, Chair

PUBLIC SAFETY

Courts Major Issues:

- **Judicial Branch Funding.** Decrease of \$544 million General Fund for the Judicial Branch. This reduction will be implemented in a manner that minimizes the impact on court operations as follows: 1) Decrease of \$304 million General Fund (one-time) allocated to the Administrative Office of the Courts, state courts, and trial courts; and, 2) Decrease \$240 million General Fund (one-time) by redirecting the same amount from court construction funds to support trial court operations. This redirection will result in the delay of numerous court construction projects.
- **Court Case Management System.** Development, implementation, and deployment of the Court Case Management System has been terminated.

Correction's Major Issues:

- **The Future of California Corrections.** A comprehensive plan for the future of the California Department of Corrections and Rehabilitation, which includes: 1) Reclassification of inmate housing and supervision conditions based on an updated set of criteria; 2) Return of out-of-state inmates as appropriate in-state beds become available; and, 3) Implementation of a new prison staffing model based on the design of each correctional facility.
- **Division of Juvenile Justice (DJJ).** The proposal to eliminate the DJJ has been withdrawn, and the following changes have been made: 1) A Base Fee of \$24,000 per year is being charged to counties for each offender committed by a juvenile court to the DJJ; 2) Discharge of all remaining Juvenile Parolees on January 1, 2013 instead of July 1, 2014; and; 3) Reduction of the DJJ's age of jurisdiction from 25 to 23.
