

## SR 710 STUDY ALL COMMUNITIES CONVENING OPEN HOUSES

The State Route 710 (SR 710) Study Team is nearing completion of the Alternatives Analysis phase of the SR 710 environmental studies. During our *All Communities Convening* Open Houses, we will be sharing information about the five Alternatives that will be carried into the draft environmental impact report/Statement for in depth environmental analysis. The five alternatives include:

- No Build
- Transportation System/Transportation Demand Management (TSM/TDM)
- Bus Rapid Transit (BRT 6X) with refinements – Los Angeles to Pasadena
- Light Rail Transit (LRT 4X) with refinements – East Los Angeles to Pasadena
- Freeway Tunnel (F-7X) with refinements – Connecting the north and south termini of the existing SR-710

In advance of our upcoming *All Communities Convening* Open Houses, we encourage you to view the recent documents that have been posted online (the environmental study process; Fact Sheets about each of the Alternatives; Frequently Asked Questions; and Screening Criteria and Selection Process) to become better informed about the SR 710 Study. The Open Houses will take place at the following locations:
