FOR IMMEDIATE RELEASE

Closures for I-5 HOV Improvement Project (SR-118 to SR-170)

UPDATE: Northbound I-5 will be closed between Branford Street and Paxton Street Jan. 6-8, 2015, from 11:59 p.m. to 5 a.m., and on Jan. 10, 2015, from 1 a.m. to 6 a.m. These closures are necessary to allow crews to safely install new overhead signs. A signed detour will be provided.

ARLETA — The California Department of Transportation (Caltrans) plans to implement the closures listed below January 5-9, 2015, as part of a project that is constructing High Occupancy Vehicle (HOV or carpool) lanes and a direct HOV connector at the I-5/SR-170 interchange.

Residents may hear some construction noise, but it will not exceed levels permitted by state and federal regulations.

Resources for Motorists:

- More information about the project is [here](#).
- Closure information for this and other freeway projects is available on the [Caltrans website](#). *Closures are subject to change.*
- For real-time traffic information, visit quickmap.dot.ca.gov, go511.com, or call 5-1-1.

Northbound I-5

See the updated information about full closures of northbound I-5 in red, above.

Lanes

- Up to four lanes between Sheldon Street and SR-118: 9 p.m. to 6 a.m.
Note: The most restrictive closures (i.e., the most lanes closed) will occur between midnight and 4 a.m.

- MORE -

Southbound I-5

Lanes

- Up to five lanes between SR-118 and Sheldon Street: 9 p.m. to 6 a.m.

Note: The most restrictive closures (i.e., the most lanes closed) will occur between midnight and 4 a.m.

Long-Term On-Ramp Closure

- Branford Street to southbound I-5 (opens January 2015)

Northbound SR-170

Lanes

- Up to two lanes between Roscoe Boulevard and Sheldon Street/Arleta Street: 9 p.m. to 6 a.m.

Southbound SR-170

Lanes

- Up to two lanes between I-5 and Roscoe Boulevard: 9 p.m. to 5 a.m.

About the Project

Caltrans is constructing an HOV lane in each direction on I-5 between the Hollywood Freeway (SR-170) and SR-118, a distance of 6.8 miles (3.4 miles in each direction). The project is also widening four undercrossings, replacing sections of pavement, and building a direct HOV connector at the I-5/SR-170 interchange. A direct HOV connector allows for freeway-to-freeway transfers without exiting the carpool lane.

This project will alleviate congestion, encourage carpooling, improve air quality, and provide a smoother ride for motorists. The work is part of Caltrans' effort to provide motorists with a seamless carpool lane network in California. Work began in August 2010 and is on track for completion in early 2015. Funding administered by Metro.

For the safety of the construction crew and motorists, please be attentive to closures, slow for the cone zone, and move over one lane where possible.

Caltrans thanks motorists for their patience and understanding during construction. For more information, visit I-5info.com.
