PROJECT OVERVIEW

The Metro Gold Line Eastside Extension Project is a six-mile, dual track light rail system with eight new stations and one station modification. The system originates at Union Station in downtown Los Angeles, where it connects with the Pasadena Gold Line, traveling generally east to Pomona and Atlantic Boulevards. The system will bridge State Route 101 Freeway and traverse the existing 1st Street Bridge over the Los Angeles River. The system will travel south on Alameda Street and then east on 1st Street with two stations at Alameda and Utah Streets. East of the Los Angeles River and 1st and Utah Streets, the alignment transitions to tunnel for approximately 1.7 miles, and continues beneath 1st Street to underground stations at 1st Street and Boyle Avenue and 1st Street and Soto Street. The alignment returns to the surface near the intersection of 1st Street and Lorena Streets, then jogs to the south, transitioning to follow 3rd Street with stations at Indiana Street, Ford Boulevard, Mednik Avenue and Pomona and Atlantic Boulevards.

As of the end of this reporting period, the contractor submitted the Soto Station schematic design. The Boyle Heights/Mariachi Plaza Station and Soto Station 85% designs; schematic designs for East LA Civic Center and Atlantic Stations; the Segment–3 initial civil design; and the I-710 Freeway Overcrossing interim structural design are in progress. The 65% designs for traction power, overhead contact, train control and communications systems are also in progress.

All grade crossing applications have been submitted to the California Public Utilities Commission (CPUC) for review. Of the 41 grade crossings, 36 have been approved. The remaining five applications are grade separated grade crossings.

Following the completion of Boyle Station soldier pile installation in late February 2005, deck beams and temporary street decking are being installed during weekends when full street closures are available. Boyle Station excavation is underway.

Permeation grouting at the I-5 Freeway underpass, and utility relocations at Soto Station, and West and West Portals are continuing. Retaining walls at Pecan Park and US-101 Freeway underpass (south side) are complete.

During this reporting period, major equipment for tunneling work was delivered and installed at the Boyle staging area. The two Earth Pressure Balance Machines (EPBMs) are being manufactured for delivery this summer.

The Caltrans contractor for Contract C0802 – 101 Freeway Bridge Overcrossing continues with traffic controls and placed Cast-In-Drilled Hole (CIDH) piles for three bents this month on the south side of the freeway. The contractor will mobilize next month pile-drilling equipment to the north side of the freeway to begin CIDH pile installation.

PROJECT SCOPE

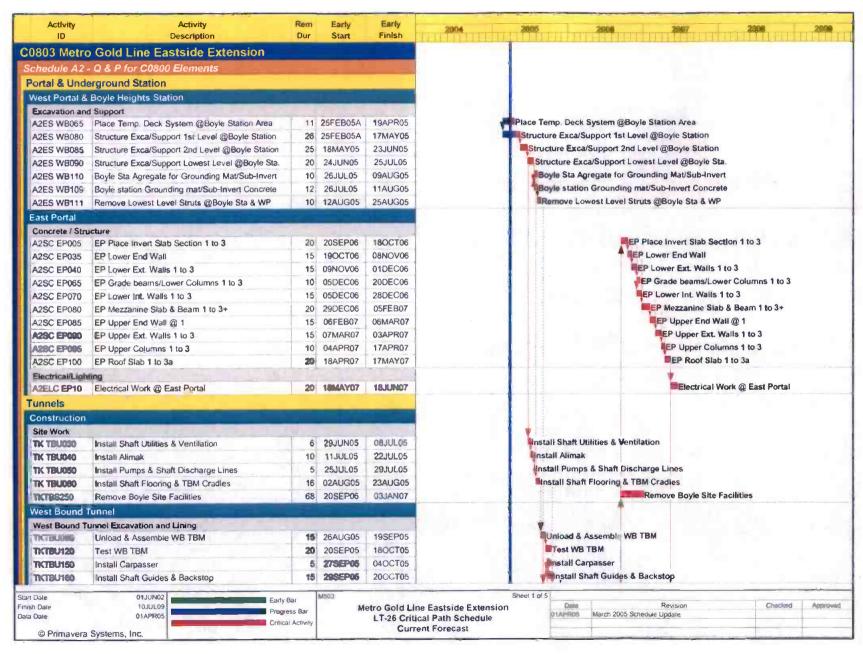

Contract C0803 - Stations, Trackwork, and Systems (Design/Build): Construction of the two underground stations includes structural walls, station platforms, mezzanines, station entrances, and plazas, architectural finishes and all related mechanical and electrical work.

Construction of the six-mile alignment includes six at-grade stations, trackwork installation and testing for the entire alignment.

Systems installation and testing is inclusive of power systems, automatic train control, fire and emergency management, TRACS and communications systems. The contractor will be responsible for systems integration testing for the entire line segment prior to pre-revenue operations.

PROJECT MASTER SCHEDULE CRITICAL PATH (3 of 5)

PROJECT MASTER SCHEDULE CRITICAL PATH (4 of 5)

PROJECT MASTER SCHEDULE CRITICAL PATH (5 of 5)

CRITICAL PATH NARRATIVE

Current Critical Path Analysis

The manufacturing and delivery of two Earth Pressure Balance Machines (EPBMs) and tunnel liners are on the critical path. Concurrent with these procurements, the project has proceeded with critical tasks such as submittals preparation and review, traffic control, utility relocations, ground treatments, solider pile installation and station box excavation.

After the completion of Boyle Station soldier pile installation in February, the project proceeded with station box excavation, temporary decking system installation, dewatering, and noise barrier walls around the site parameter. The Boyle Station box excavation is scheduled to complete prior to the EPBMs delivery.

The critical path continues with EPBM assemblies, excavation of both tunnels, excavation of crosspassages and tunnel invert construction. The critical path then follows Boyle and Soto Stations construction and the installations of trackwork and overhead contact system for the underground section. The system equipment installation such as overhead contact system, train control, traction power, and local facilities testing are the last stage of the critical path prior to entering the final test stage, where systems integration testing and pre-revenue operations are conducted.

Design

During this reporting period, the Soto Station schematic design was submitted for MTA's review. Six facility design and four system design packages are also in progress:

- Facility Design Packages:
 - 1. Boyle Station 85% design,
 - 2. Soto Station 85% design,
 - 3. Atlantic Station schematic design,
 - 4. East LA Civic Center Station schematic design,
 - 5. Initial civil design Segment-3 and
 - 6. I-710 Freeway Overcrossing interim structural design.
- System Design Packages:
 - 1. Traction power 65% design,
 - 2. Overhead contact system 65% design,
 - 3. Train control system 65% design, and
 - 4. Communication system 65% design.

CRITICAL PATH NARRATIVE

Construction

Following the completion of Boyle Station solider pile installation in late February, deck beams and temporary street decking were installed during weekends when full street closures were available. The temporary decking system installation will continue thru mid-April. The utility support, struts/walers installation, and tie-back installation will be performed concurrently with the station box excavation in the next few months.

After the completion of East Portal Phase-1 soldier pile installation, DWP Power began the overhead power line relocation, from the north side of 1st Street to the south side. The power line relocation is anticipated to complete in mid-June to allow the commencements of street widening and construction of the retaining wall at the intersection of 1st Street and Lorena Street, as well as the East Portal Phase-2 soldier pile installation. Retaining walls at Pecan Park and the US-101 Freeway underpass (south side) were completed in March 2005.

Permeation grouting at I-5 Freeway underpass, and utility relocations at Soto Station, West and East Portals are underway. Soto Station soldier pile installation is anticipated to begin in mid-April 2005.

During this reporting period, major equipment for tunneling work was delivered and installed at the Boyle staging area.

PROJECT COST ANALYSIS

Original Budget

The Full Funding Grant Agreement (FFGA) was adopted June 1, 2004 in the amount of \$898.8 million. The Original Budget reflects the adopted FFGA.

Current Budget and Current Forecast

The total Current Budget and Forecast remains the same at \$898.8 million.

Commitments

The Commitments increased by \$0.1 million this period primarily due to executed modifications. The \$774.5 million in Commitments to date represents 86.2% of the Original Budget.

Expenditures

Expenditures are cumulative through February 2005. The Expenditures increased by \$7.2 million this period primarily due to construction costs associated to Contract C0803 – Tunnel, Stations, Trackwork, and Systems. The \$242.1 million in Expenditures to date represents 26.9% of the Original Budget.

PROJECT COST ANALYSIS

On March 24, 2005, the MTA Board approved \$18 million of federal, state and local Proposition C 10% bond funds for eligible deferred elements of the Metro Gold Line Eastside Extension. These elements include: additional traction power substations; additional ticket vending machines; possible parking structure at Pomona and Atlantic Boulevards and urban design enhancements including, but not limited to, pedestrian safety, landscaping and multimodal interface elements next to each station, portals catenary, station and power substations.

(1) Based on AUJUSI 03 Adopted Short Range Transportation Plan (includes interest cost) NOTE: EXPENDITURES ARE CUMULATIVE THROUGH FEBRUARY 2005.

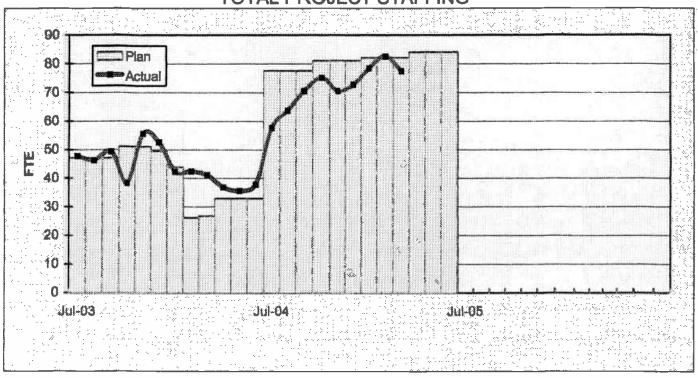

STATUS OF FUNDS ANTICIPATED

FEDERAL SECTION 5309: MTA submitted a grant amendment application CA-03-0508-04 for \$3,934,330 on April 18, 2003. Funds were available for draw down as of June 2003. On June 1, 2004, the FTA approved the Full Funding Grant Agreement for \$490.7 million of New Starts Funds. MTA received an appropriation of \$59.5 million for FY05. A grant application has been submitted to FTA and is awaiting approval.

STATE TCRP: On April 3, 2003 the California Transportation Commission approved MTA's request to amend the STIP to convert \$191 million of unallocated TCRP funds to STIP funds. On August 25, 2003, MTA submitted a request for AB1335 Letter of No Prejudice (LONP) authority for Phase 4 construction activities. On March 2005, MTA has resubmitted a request for approval of a LONP for \$189.2M for Phase 4 (Construction) to CTC for consideration at the May 2005 CTC Meeting.

REAL ESTATE STATUS

- For C0803, the tunnel portion of the alignment, 40 parcels are required for acquisition (11 full takes, 4 partial takes, 20 sub-surface easements/temporary construction easements, 3 sub-surface easements/building protection, and 2 building protections).
- For C0803, the at-grade portion of the alignment, 27 parcels are required for acquisition (17 full takes, 9 partial takes and 1 surface easement). Nine parcels have been identified for the proposed Ramona High School site reconfiguration.
- For C0802, 2 parcels are required (1 surface easement and 1 full take parcel).
- Sixty-nine parcels have been certified, 40 for C0803-Tunnel, 27 for C0803-At-Grade and 2 for C0802. Offers have been made to 66 property owners. A total of 51 parcels have been acquired (33 under C0803-Tunnel, 16 under C0803-At-Grade, and 2 under C0802). Real Estate is in negotiations with the other property owners.
- Third Party Administration has obtained two Encroachment Permits from Caltrans for C0803-Tunnel. All three (3) street closures have been obtained from the City of LA.

ENVIRONMENTAL STATUS

- Completed demolition and abatement activities at 3rd and Atlantic and Sunol parcels.
- Removed soil stockpile at Soto Station.
- Preparing the Quarterly Mitigation Monitoring Report.

COMMUNITY RELATIONS STATUS

- Participated in Partnering Session with Contractor and Third Party Agencies.
- Provided construction update to the Quadrant 2 Boyle Heights Neighborhood Council, Review Advisory Committee, Puente Learning Center, and Dolores Mission IMPACTO group.
- Conducted briefing on soldier piling operation at 1st and Soto.
- Conducted alignment tour for Congressional Staff Delegation.

QUALITY ASSURANCE STATUS

- Signet Test Lab continued with verification testing of concrete, soil compaction and nondestructive examination of deck beam splices.
- Continued to support a pace of Welder Qualification Test Records to support ongoing decking operations at 1st and Boyle Streets.
- Conducted an audit of the contractor's testing laboratory, Seville Group.
- Conduct periodic surveillances of C0801 demolition operations.

SAFETY STATUS

- Participated in weekly progress meetings with construction management and ELRTC personnel to discuss safety related issues and construction schedule.
- Participated in readiness review, contractor submittal review and Tool Box Safety meetings.
- Conducted All Hands Safety Meeting with CM, ELRTC safety staff and Los Angeles police representative.
- Monitored construction activities on a daily basis to ensure safety compliance.
- Participated in Third Party Utility Meeting to discuss safety related issues and construction schedule.
- Participated in hearing with Cal/OSHA.

THIRD PARTY AGREEMENT STATUS

			VEEMEN	
Third Party	Type of Agreement	Forecast Execution Date	Required Need Date	Status/ Comments
City of Los Angeles	Amendment	Completed	N/A	Executed December 2002.
Los Angeles County	Master	Completed	N/A	Executed April 2003.
Caltrans (All Projects)	Master	Completed	N/A	Executed July 2003.
Caltrans (101)	Design	Completed	N/A	Executed July 2003.
Caltrans (101)	Construction	Completed	N/A	Executed September 2003.
Caltrans (101)	Maintenance	5/05	Project Completion	The initial negotiation meeting was held on 1/9/03. MTA received a draft from Caltrans on 1/22/04. MTA reviewed and submitted the agreement to Caltrans on 2/10/04. Caltrans has yet to respond.
LADWP (Water)	Amendment	4/05	*6/04	MTA Management, County Counsel, and MTA Board staff have participated in meetings with DWP to complete negotiations, since the "Deadline and Delay" clause is not acceptable to LADWP. Meeting with City Attorney's Office and County Supervisor's Office failed to reach agreement.
LADWP (Power)	Amendment	4/05	*6/04	MTA Management, County Counsel, and MTA Board staff have participated in meetings with DWP to complete negotiations, since the "Deadline and Delay" clause is not acceptable to LADWP. Meeting with City Attorney's Office and County Supervisor's Office failed to reach agreement.
So. Cal. Edison Co.	Amendment	4/05	*6/04	MTA is waiting for SCE to submit a re-draft of the proposed amendment. The last call placed with SCE Executive Legal Branch was on 2/25/05. SCE Stated they have no intention of signing agreement.
The Gas Company	Amendment	4/05	*6/04	MTA Management, County Counsel and the Gas Co. have accepted all revisions within the amendment. The Gas Co. executed the amendment on December 3, 2004. MTA Board action scheduled for April 2005.
SBC	Amendment	4/05	*6/04	SBC executed the agreement in January 2005. MTA Board action scheduled for April 2005.
Adeiphia Cable Company	Amendment	4/05	*6/04	MTA received a draft from Adelphia for review. MTA Management and County Counsel reviewed the amendment and returned the document to Adelphia with comments. Adelphia's Legal Department is reviewing the document.
California Water Service Company	Master	4/05	*6/04	MTA Management, County Counsel and Cal Water reviewed and agreed on recommended revisions to the agreement. Cal Water executed the agreement on 12/6/04. MTA Board action scheduled for April 2005.

THIRD PARTY AGREEMENT STATUS (Continued)

				<u> </u>
Third Party	Type of Agreement	Forecast Execution Date	Required Need Date	Status/ Comments
L.A. County Sanitation Districts	N/A	N/A .	3/04	In a letter dated 3/26/03, the Sanitation District stated that there is not a need for an agreement since there are no relocations related to their facilities. The Sanitation District will review submittals related to encasement of their facilities on Indiana Street.
MCI Worldcom	Amendment	4/05	*6/04	An amendment to the previous agreement with MCI was prepared. MTA Management, County Counsel and MCI agreed to the recommended revisions. MCI executed the agreement on 7/20/04. MTA Board action scheduled for April 2005.
Metropolitan Water District	Amendment	· N/A	3/04	MTA Management, County Counsel and MWD agreed to use the existing agreement. A letter of concurrence was signed by MTA and MWD in May 2003.
Verizon Wireless	Amendment	4/05	*6/04	The revised draft amendment was hand delivered to Verizon on 11/19/03 and an electronic copy was sent to them 2/19/04. Verizon did respond with partial comments. MTA has made efforts to resume discussions but with limited response from Verizon.
AT&T Local Services	Amendment	4/05	*6/04	MTA County Counsel reviewed the existing agreement and recommended revisions. A revised amendment was sent to AT&T. The last follow-up call to AT&T was on 3/2/05 and Legal is reviewing.

CONTRACT P2550 STATUS

Description: 2550 Rail Vehicle Program

Contractor: Ansaldobreda, Italy

Contract No. P2550

Status as of: March 31, 2005

Progress/Work Completed:

- 1. The IPT conducts on-going weekly conference calls with project staff in Los Angeles, New York, Pistoia, and Naples Italy. The teleconferences discuss the status of Contract submittals, reviews and approvals, specific design issues and planned activities for the week.
- The IPT has completed the First Article Inspections, and travel to support these program management efforts.

Areas of Concern:

- Documentation submittals are close to complete. However, several submittals continue lagging behind the contract schedule. Ansaldobreda continues to make an effort to "catch-up" through the efforts of their documentation consultant.
- Milestone 5A Approval of all design dwgs, Milestone 6A Approval
 of Cab Mock-up, Milestone 7A and Milestone 8A Appr.of Traction
 Motors Perf. Tests, are not yet considered as complete nor officially
 approved.

Major Activities (In Progress):

Contractor is in process of completing the Milestone 5A, 6A, 7A, & 8A work. 98% of this work is completed. However, these milestones are not being considered as complete.

Ansaldobreda has invoiced for 6A work. No other invoices were received during March 2005

Major Activities Next Period:

- Ansaldobreda Executive Management meeting took place during March in Italy and MTA received Ansaldobreda's corporate commitment to a schedule mitigation path forward.
- 2. Ansaldobreda has completed the scale model and its receipt is expected in Los Angeles during April 2005.
- 3. Activities will progress toward the delivery and receipt in Los Angeles the first two vehicles.
- 4. During this period the IPT will continue closely monitoring and expediting where necessary for all scheduled activities involved in constructing and supporting the 2550 rail vehicle.
- 5. Weekly teleconference meetings have reconvened to monitor technical design completion for the 2550 rail vehicles.

CONSTRUCTION PHOTOGRAPHS

Deck beams and temporary street decking at Boyle Station.

APPENDIX COST AND BUDGET TERMINOLOGY

ESTIMATED PROJECT COSTS: Estimated project costs are based upon the current project cost estimates that are produced during the engineering design phase.

COMMITMENTS: The total of actual contract awards, executed change orders or amendments, approved work orders of Master Cooperative Agreements, offers accepted for purchase of real estate, and other LACMTA actions that will result in specific expenditures at a future time.

INCURRED COST: The total value of work performed to date of services received, and acquired materials or properties.

EXPENDITURES: The total dollar amount of checks written by LACMTA's Accounting department for contractor or consultant invoices, third party invoices, staff salaries, and closing payments for escrow accounts that is reported in LACMTA's Financial Information System (FIS).

CONSTRUCTION: Includes guideways, yards and shops, systems equipment, stations, and vehicles.

PROFESSIONAL SERVICES: Includes general engineering, construction management services, consultant design support services during construction, legal counsel, and agency (MTA staff) costs.

RIGHT-OF-WAY: Includes real estate appraisals, purchase cost of parcels, easements, right-of-entry permits, escrow fees, and tenant relocation.

UTILITY/AGENCY FORCE ACCOUNT: Includes work by outside agencies and utilities in design coordination and review.

CONTINGENCY: A fund established at the beginning of a project to provide for anticipated but unknown additional costs that may arise during the course of the project.

SPECIAL CONDITIONS: Includes utilities relocation, environmental compliance and mitigation, master cooperative agreements, insurance program, artwork, systems integration testing and pre-revenue operations.
