First Advisory Group Meeting for Section 1 of the Purple Line Extension

First Advisory Group Meeting for Section 1 of the Purple Line Extension

On June 6, 2013, we hosted the first meeting of the Advisory Group for Section 1 of the Purple Line Extension. The group will meet approximately quarterly throughout construction of the project and is comprised of representatives from key organizations in the area of the planned stations at La Brea, Fairfax and La Cienega including homeowner groups, neighborhood councils, businesses and business associations, property owners and institutions. At this first meeting, we provided an overview of the project, how it will be built, and how we plan to work with the community during construction. Over 100 people attended the meeting including Advisory Group members. Representatives were in attendance from the offices of State Assemblymember Richard Bloom, Los Angeles City Council Member Paul Koretz and Los Angeles City Council Member Tom LaBonge. Fox 11 TV and the Larchmont Chronicle covered the meeting.
