Metro Security Cell Phone App Launches
Metro Security Cell Phone App Launches

Today, I joined Metro Board Chair Michael D. Antonovich, Transit Services Bureau Commander Ronene Anda and Deputy CEO Paul Taylor to announce the introduction of a new app for iPhone and Android smartphones to help make the Metro system safer and more secure. The press conference was held in the East Portal of Union Station. The app can be downloaded at no cost and includes methods of contacting Sheriff deputies via telephone and email. Media covering the event included KNBC Channel 4, Univision Channel 34, TV Azteca, TV 18 in Japanese and Chinese, Channel 62, Channel 22, Korea Times and China Press. Stories will run throughout today.
