

SUPERVISORS TO HEAR PLAN FOR MONORAIL

Sixten Holmquist, president of the Wegematic Corp., confirmed Monday arrangements to meet with the Board of Supervisors Feb. 28 at 2 p.m. to outline his monorail plans for Los Angeles.

The Wegematic Corp. holds exclusive rights to the Alweg monorail systems, in the United States. Alweg units are operating at Disneyland and in Seattle.

Holmquist will explain his offer to privately finance a rapid transit system out of fare-box revenues and turn it over to the Metropolitan Transit Authority for operation.
