NATIONAL COOPERATIVE HIGHWAY RESEARCH PROGRAM

NOTICE TO READERS

On December 31, 1988, a Special Edition of the *Summary of Progress* was published compiling information on all projects initiated under the NCHRP from its inception in 1962 through 1988. Subsequent editions through 1995 updated the *Summary of Progress* series, including only those projects that were active, or for which some kind of activity remained, after January 1, 1989. Beginning in 1996, information about project status was posted on the NCHRP website.

http://www.trb.org/nchrp

Detailed project write-ups are now available only on the NCHRP website. To obtain a copy of the *Summary of Progress Through 1988*, refer to the end of this document for ordering information.

2004

Summary of Progress

Research Sponsored by the American Association of State Highway and Transportation Officials in Cooperation with the Federal Highway Administration

TRANSPORTATION RESEARCH BOARD

WASHINGTON, D.C. 2004 http://www.TRB.org

NATIONAL COOPERATIVE HIGHWAY RESEARCH PROGRAM

Systematic, well-designed research provides the most effective approach to the solution of many problems facing highway administrators and engineers. Often, highway problems are of local interest and can best be studied by highway departments individually or in cooperation with their state universities and others. More predominantly, however, the need for more efficient, economical, and safer highway transportation and the importance of meshing with other modes and other societal concerns lead to national problems of increasing complexity. A coordinated program of high-quality cooperative research provides a highly effective approach to such problems.

In recognition of these needs, the highway administrators of the American Association of State Highway and Transportation Officials (AASHTO) initiated in 1962 an objective national highway research program employing modern scientific techniques. AASHTO's program is supported on a continuing basis by funds from participating member states of the Association and receives the full cooperation and support of the Federal Highway Administration, United States Department of Transportation.

The Transportation Research Board of the National Research Council was requested by the Association to administer AASHTO's research program because of the Board's recognized objectivity and understanding of modern research practices. The Board is uniquely suited for this purpose: it maintains an extensive committee structure from which authorities on any highway transportation subject may be drawn; it possesses avenues of communications and cooperation with federal, state, and local governmental agencies, universities, and industry; its relationship to its parent organization, the National Academies, a private, nonprofit institution, is an insurance of objectivity; and it maintains a full-time research correlation staff of specialists in highway transportation matters to bring the findings of research directly to those who are in a position to use them.

Research programs are developed annually by AASHTO on the basis of research needs identified by chief administrators of the highway and transportation departments, by committees of AASHTO, and by the Federal Highway Administrator. The programs are then referred for administration through the Transportation Research Board, and research projects addressing the specific needs are defined by the Board on the basis of the AASHTO problem statements. The projects are advertised widely for proposals, and qualified agencies are selected on the basis of research plans offering the greatest probabilities of success. The research is carried out under contract, and administration and surveillance are responsibilities of a Board-appointed staff. The needs for highway research are many, and the National Cooperative Highway Research Program is an efficient mechanism for providing timely solutions to problems of mutual concern to many responsible groups. The Program, however, is intended to complement rather than to substitute for or duplicate other highway research programs.

THE NATIONAL ACADEMIES

Advisers to the Nation on Science, Engineering, and Medicine

The National Academy of Sciences is a private, nonprofit, self-perpetuating society of distinguished scholars engaged in scientific and engineering research, dedicated to the furtherance of science and technology and to their use for the general welfare. On the authority of the charter granted to it by the Congress in 1863, the Academy has a mandate that requires it to advise the federal government on scientific and technical matters. Dr. Bruce M. Alherts is president of the National Academy of Sciences.

The National Academy of Engineering was established in 1964, under the charter of the National Academy of Sciences, as a parallel organization of outstanding engineers. It is autonomous in its administration and in the selection of its members, sharing with the National Academy of Sciences the responsibility for advising the federal government. The National Academy of Engineering also sponsors engineering programs aimed at meeting national needs, encourages education and research, and recognizes the superior achievements of engineers. Dr. William A. Wulf is president of the National Academy of Engineering.

The **Institute of Medicine** was established in 1970 by the National Academy of Sciences to secure the services of eminent members of appropriate professions in the examination of policy matters pertaining to the health of the public. The Institute acts under the responsibility given to the National Academy of Sciences by its congressional charter to be an adviser to the federal government and, on its own initiative, to identify issues of medical care, research, and education. Dr. Harvey V. Fineberg is president of the Institute of Medicine.

The National Research Council was organized by the National Academy of Sciences in 1916 to associate the broad community of science and technology with the Academy's purposes of furthering knowledge and advising the federal government. Functioning in accordance with general policies determined by the Academy, the Council has become the principal operating agency of both the National Academy of Sciences and the National Academy of Engineering in providing services to the government, the public, and the scientific and engineering communities. The Council is administered jointly by both the Academies and the Institute of Medicine. Dr. Bruce M. Alberts and Dr. William A. Wulf are chair and vice chair, respectively, of the National Research Council.

The **Transportation Research Board** is a division of the National Research Council, which serves the National Academy of Sciences and the National Academy of Engineering. The Board's mission is to promote innovation and progress in transportation through research. In an objective and interdisciplinary setting, the Board facilitates the sharing of information on transportation practice and policy by researchers and practitioners; stimulates research and offers research management services that promote technical excellence; provides expert advice on transportation policy and programs; and disseminates research results broadly and encourages their implementation. The Board's varied activities annually engage more than 5,000 engineers, scientists, and other transportation researchers and practitioners from the public and private sectors and academia, all of whom contribute their expertise in the public interest. The program is supported by state transportation, and other organizations and individuals interested in the development of transportation. **www.TRB.org**

NATIONAL COOPERATIVE HIGHWAY RESEARCH PROGRAM

DECEMBER 31, 2004

INTRODUCTION

The National Cooperative Highway Research Program (NCHRP) was established in 1962 to provide a continuing program of highway research. It is sponsored by member departments of the American Association of State Highway and Transportation Officials (AASHTO) in cooperation with the Federal Highway Administration (FHWA), U.S. Department of Transportation, and is carried out under a three-way agreement among these agencies and the National Academies. AASHTO annually proposes specific research problems for inclusion in the NCHRP fiscal year activities. At least two-thirds of the member departments must approve the research problems and agree to their financial support before they can be brought into the Program. Following balloting by the member departments, the approved problems are referred to the Academies, where they are reviewed to determine their acceptability to the Academies for administration by the Transportation Research Board (TRB). Each State annually contracts with the Academies to commit a portion of its Federal-Aid Highway State Planning and Research (SPR) funds. In recent years, these funds have made available a cooperative pool of, on average, about \$31.3 million for NCHRP each year through 2004. For programming purposes, funds available for 2005 and 2006 are estimated to be \$35 million each.

Each research project in the Program is assigned to a panel made up of persons knowledgeable in the particular problem area. The panel analyzes the problem, outlines the particular project and its objectives, and then prepares a research project statement by which proposals are solicited from qualified research agencies. The panels review the proposals, recommend contract awards, and provide counsel to the NCHRP staff members responsible for surveillance of work under the research contracts. Finally, the panels review final reports for acceptability and for accomplishment of the approved research plan. Currently, there are more than 1,700 members on these panels coming from the States, the District of Columbia, Puerto Rico, and Canada.

A professional staff is assigned to NCHRP by the Board. Project managers with training and experience in the many research areas encompassed by the Program are responsible for administrative and technical surveillance of the contracts. If necessary, meetings involving the staff, panel, and agency personnel are held to review project progress and provide guidance for ongoing work. Most research findings are published in the NCHRP *Report* series, in the NCHRP *Synthesis* series, as a *Research Results Digest*, on CD-ROMs, or on the NCHRP website. Each state transportation administrator receives a copy immediately on publication, and as many as 4,500 copies are issued through the TRB Publications Office.

Periodic reports, along with the NCHRP website, are available to the sponsors to provide them with current information on the specifics of technical progress of the projects, as well as the specifics of administrative matters relating to Program operation. This information is supplemented by publication of this annual *Summary of Progress*, which is made available at the end of each year to the sponsors and the public at large.

HOW NCHRP PROGRAMS ARE FORMULATED

NCHRP programs are initiated annually, and there are several steps between initiation and the publication of final reports. Each fiscal year's program must start with the identification of critical problems by state highway and transportation departments, AASHTO committees, and the FHWA.

The many problems (usually exceeding 140) received from these sources each year are screened to determine the following:

- If the proposed problem represents an immediate research need and is of interest to many States.
- If the problem can be handled effectively under a cooperative program.
- If similar efforts are already under way, or if satisfactory answers are already available. In these respects, a search is made of the relevant literature stored in the Board's automated Transportation Research Information Services (TRIS).
- The probability of success.

The technical merits of the problems that survive are evaluated in depth by the AASHTO Standing Committee on Research (SCOR) and the AASHTO Research Advisory Committee (RAC). Final priorities are determined each year at a meeting of SCOR to formulate the recommended research programs for NCHRP. After the program is approved by the AASHTO Board of Directors, the program is referred to TRB for execution.

PROGRAMS RECEIVED TO DATE

In recent years, each year's program has consisted of 28 to 45 new projects, each with funding usually ranging between \$200,000 and \$500,000 and a number of project continuations funded in earlier years. The Intermodal Surface Transportation Efficiency Act of 1991 (ISTEA) resulted in a funding level of approximately \$17 million for NCHRP for fiscal years 1992 through 1997. The Transportation Equity Act for the 21st Century (TEA-21) of 1998 increased funding by more than 50 percent on average in fiscal years 1998 through 2003. Although new federal legislation has not been authorized for subsequent fiscal year programs, Congress has passed extensions for FY

2004 and FY 2005 (until May 31, 2005) for approximately \$35 million and \$23 million, respectively.

In 2004, AASHTO referred the FY 2005 program of research problems to TRB for execution. From all programs through FY 2004, 1,015 research contracts have resulted, totaling some \$325.3 million, and the FY 2005 program will increase that number by another 41 new contracts and 25 continuations, for some \$27.5 million. The subject matter of the projects addresses the full spectrum of concern within the highway industry and demonstrates AASHTO's interest in acquiring answers to the many acute problems facing administrators and engineers. The FY 2006 program will be formulated in March 2005 by SCOR. Proposals will be solicited starting in August 2005. AASHTO's initial steps toward development of the FY 2007 research program will be taken in mid 2005.

FINANCING THE PROGRAM

Each year, each State contracts with the National Academies to support the Program. The agreement commits the State to 5.5 percent of its 2-percent Federal-Aid Highway SPR funds. From these contributions, a cooperative pool of \$35 million was made available for NCHRP's administrative and contract research operations in FY 2004. A similar amount of money is anticipated for FY 2005. Funds are scheduled to become available so that research can begin near the first of each year—for example, projects in the FY 2005 program are scheduled to begin in early 2005.

HOW NCHRP IS ORGANIZED TO ADMINISTER RESEARCH PROGRAMS

All problems are assigned to specific problem areas within each of the eight broad research fields shown in Figure S-1 and are given related NCHRP project numbers.

Each project is assigned to a panel of outstanding individuals who are very knowledgeable in the project area and who are looked to for technical guidance and counsel throughout the research and reporting phases. A broad search is made for these individuals, and the Board usually receives about four to five times as many nominees as can be used in the available panel positions. The panels are in existence for the life of their projects. Members do not act as consultants or advisors to project investigators; they may not submit proposals for research. All members serve without compensation, and their total yearly contribution to the Program adds up to thousands of staff-days. The

PROBLE	EM AREAS
RESEARCH FIELD A ADMINISTRATION	RESEARCH FIELD B TRANSPORTATION PLANNING
2 Economics 11 Law 19 Finance	 8 Forecasting 25 Impact Analysis (SEEE*) * Social, Environmental, Economic, Energy
RESEARCH FIELD C DESIGN	RESEARCH FIELD D MATERIALS AND CONSTRUCTION

RESEARCH FIELD G TRAFFIC	SPECIAL PROJECTS
 3 Operations and Control 5 Illumination and Visibility 7 Traffic Planning 17 Safety 	20 Encompasses all projects not readily identified with other problem areas

Figure S-1. NCHRP Classification System

panel members are drawn from all walks of professional life, and, as shown in Table S-1, heavy dependence is placed on the States for providing members.

The duties and responsibilities of project panels include the following:

- Defining the scope of problems assigned by AASHTO and drafting project statements requesting proposals for studies,
- Evaluating proposals and making recommendations regarding selection of research agencies,
- Monitoring research progress,
- Providing guidance regarding technical aspects of the research,
- Reviewing and evaluating project reports as to the accomplishment of objectives and suitability for publication, and
- Making recommendations as to whether or not studies should be continued.

HOW THE PROJECTS ARE PLACED UNDER CONTRACT

NCHRP does not award grants for basic research. Rather, the Program calls for contract research with specific objectives that, if achieved, will result in solutions that are practical and readily usable. As NCHRP gets each year's program under way, the project panels meet to write research project statements based on the research problems referred by AASHTO.

These statements are then issued electronically on the World Wide Web. Anyone interested in receiving research project statements must periodically browse the NCHRP website or register electronically on the same website (www4.national-academies.org/trb/crp.nsf). Those who have registered electronically receive an e-mail notification of every project statement posting. Announcements are also made through the weekly TRB E-Newsletter. Because NCHRP operates on a fixed-schedule, proposals must be submitted according to fixed deadlines.

Contracts have been let to agencies headquartered in more than 47 States, the District of Columbia, Canada, and England. The types of agencies selected to conduct NCHRP research are listed in Table S-2. The opportunity to propose is open to anyone possessing extensive, demonstrated capability and experience in the problem area. Because the projects call for practical remedies to pressing operational problems, it is expected that only the highest level of agency capability will be applied in meeting the commitments of the proposal—capability cannot be developed at project expense. Consonant with the goal of providing practical, readily usable solutions to pressing problems, time and experience have led to the development of fairly stringent specifications for proposals and agency attributes that are acceptable to the mission-oriented nature of NCHRP. Proposals must comply with the format in the current brochure, *Information and Instructions for Preparing Proposals*.

The staff and panel members evaluate all proposals in a uniform manner, with primary consideration given to

- The understanding of the problem and the merit of the research plan and • approach,
- The experiment design and the promise of fulfilling the objectives of the project statement,
- The qualifications of the principal investigator and members of the research team,
- The adequacy of facilities, and

The allocation of resources.

TABLE S-1 Affiliations of Panel Members on Active Projects
--

AFFILIATION	NO. OF PANEL MEMBERS*
State agencies	1,041
Federal agencies	141
Local, transit agencies, MPOs	76
Educational institutions	244
Industry, consultants, and associations	452
All	1,954

* Does not include liaison representatives.

Agency Distribution of FY '63 Through FY '04 Projects TABLE S-2

TYPE OF AGENCY	CONTRACTS	
	NO.*	%
Educational institutions	386	32.6
Research institutes	76	6.4
Industry, consultants, administrative	673	56.8
Associations	9	0.8
State agencies	6	0.5
Federal and governmental agencies	34	2.9
All	1,184	100.0

* Totals do not include the individual topics and tasks for Projects 8-36, 20-5, 20-6, 20-7, 20-30, 20-36, and 20-44.

The proposed budget total is not one of the primary factors because the funds available for research are announced in the project statement. Specific budget items are reviewed to better determine staff allocations and distribution of resources. When the proposed cost exceeds the funds stated to be available, the proposal is rejected on receipt.

A panel meeting is held to select an agency for each project, and a review is made of all known aspects of performance of the proposers on other research projects under NCHRP or elsewhere. The successful proposals are retained by the panel members for use in monitoring the research. Proposals are considered to be privileged, and the information in them is not released outside TRB. Policy also holds that panel deliberations and meeting notes are privileged.

Following the selection meetings, a list of recommended research agencies is transmitted to AASHTO for its review and approval. Contracts between the Academies and the research agencies are executed, and research is begun. Again, it should be emphasized that NCHRP is a program of contract research—it does not operate on a grant basis. Further, proposals can be received only in response to advertised project statements, because the funds available each year to the Program are earmarked in their entirety for research problems specified by the sponsor—AASHTO.

In order to support AASHTO's interests, needs, and capital investments, a contract is not signed with the selected agency until the staff and project panel are satisfied that the proposed scope of work provides the best probability for success in meeting AASHTO's needs. In the period between agency selection and contract execution, a concerted effort is made to resolve questions and clarify technical issues emanating from the selection process. This action usually results in an addendum to the research plan in the agency's approved proposal; therefore, both the proposal and the addendum are incorporated in the contract as the binding scope of work. Furthermore, soon after contract execution, the agency is required to submit a Working Plan (an amplified version of the research plan), against which project progress is monitored by the staff and project panel.

The policy of NCHRP is to provide a debriefing, if requested, to unsuccessful proposers to indicate the technical areas in which their proposals were judged weak or deficient and how the weaknesses or deficiencies were factors in the proposers not having been selected.

NCHRP projects included in the 44 fiscal year programs conducted to date are listed in Table 1.

KEEPING TRACK OF RESEARCH IN PROGRESS

Once research starts, administrative and technical surveillance of its progress is performed by NCHRP staff, currently consisting of 30 (full-time equivalents)—13 professional and 17 support. In-depth surveillance by project managers with wide-ranging expertise contributes much to the probability of project success and can be one of the most significant of the several elements influencing how well objectives are met. It is recognized, however, that a delicate balance must be maintained in the practical exercise of surveillance. It must be penetrating enough to be effective, but neither so complex nor so burdensome as to distract the researchers from their primary efforts or add unreasonably to the agency's cost of doing business.

In addition to reviewing monthly progress schedules and quarterly progress reports, the project managers maintain frequent telephone and e-mail contacts and periodically visit the research agencies throughout the contract periods. They talk with each principal investigator about the project's status to learn whether or not the research is being pursued in line with the approved research plan, and they provide guidance in all technical and administrative matters. They provide liaison in whatever manner is required to keep their project panels abreast of progress and to acquire panel guidance and counsel in technical matters, particularly as regards the relationships between research objectives and the needs of the practicing engineer. Because the agency's proposal is incorporated in its entirety in the contract, the agency's approved budget is among the items subject to the terms of the agreement. The principal investigator has flexibility in managing the budget up to the point of not materially departing from the approved research plan or exceeding the contract's maximum allowable cost. Major changes to account for promising new leads or unproductive lines of study must be approved in advance by the staff and project panel and are authorized through a contract amendment. Agency invoices are checked by the staff for deviations from the approved budget. Based on all surveillance activities, the staff members prepare progress reports, which are sent to AASHTO's member departments. Finally, the staff and panels evaluate the completed research to determine the degree of technical compliance with the contract so that recommendations for contract close-out can be made.

A point heavily stressed with the research agencies at the time of the first surveillance visit is that they must orient their thinking toward presentation of their research results in a form that is directly usable by practicing engineers. Further, to enable an easy determination of the usefulness of the results to practice, each final report generally includes a "Summary of Findings" and a chapter on "Interpretation, Appraisal, and Application of Results." The detailed research techniques and analyses of interest primarily to researchers are offered in appendixes. Such specification of the style and organization of reports guides the researcher in presenting results so that maximum use by AASHTO's member departments may be obtained.

NCHRP publications consist of the following:

- Project reports in the regular NCHRP Report series,
- Reports in the NCHRP Synthesis of Highway Practice series,
- Annual Summary of Progress through December 31,
- NCHRP Research Results Digests,
- NCHRP Legal Research Digests,
- NCHRP IDEA Annual Progress Report,
- Semiannual progress reports,
- Published NCHRP reports on the World Wide Web,
- Unedited agency reports on the World Wide Web, and
- CD-ROMs.

Publications are distributed widely through NCHRP and through the Board's selective distribution process; the print order for reports in the formal NCHRP series ranges from 2,500 to 4,500 copies. In addition to AASHTO and the chief executive officers of State transportation departments, copies automatically go to the following:

- Individual TRB members who have selected publications in the particular subject area of the report,
- About 100 libraries,
- TRB representatives in the State highway and transportation departments,
- Educational institutions,
- Liaison representatives, and
- Appropriate panels and committees.

For each published report, NCHRP staff writes a foreword that (1) identifies the fields of specialty of those individuals likely to be most interested in the results and (2) suggests how the results fit into present knowledge and practice. Furthermore, the Board's Technical Activities Staff members follow the progress of the work and can, therefore, discuss the potential application of research results during their periodic visits to State highway and transportation departments. All published reports are offered for sale through the Board's Publications Office and are entered in the National Technical Information Service (NTIS). Since 2001, published reports also have been made available electronically on the World Wide Web. All unpublished reports are placed on microfiche or posted on the NCHRP website for ready availability to interested parties.

SYSTEMATIC PLANNING FOR GETTING RESEARCH RESULTS FROM NCHRP PROJECTS INTO PRACTICE

Promoting Useful Results

As mentioned previously, many activities take place between initiation of research programs and execution of research contracts. Many additional activities occur before formal publication of the final reports is realized. Throughout the process, NCHRP looks for opportunities to increase the probability that results will be applied. Beyond the sponsor's initial contribution of setting the goals for a program of applied research dedicated to solving pressing operational problems, NCHRP tries to further increase the probability by

- Establishing the agency and personnel qualifications that are mandatory if the goals are to be achieved. Emphasis is placed on the importance of a record of successful past performance in endeavors similar to those to be undertaken. Further, it is also stipulated that proposals are not acceptable if they do not contain specific statements as to how the anticipated results can be used to improve practice.
- Making use of panel members—who not only are experts in the particular problem area, but who also have a complete understanding of the needs of the practitioners—to define the research problem and its objectives in the form of a precise project statement on which fully responsive research proposals can be based. Experts drawn from the highway and transportation departments play a major role in this task.

- Exercising extreme care in the process of selecting research agencies to ensure not only that the proposed research plan is the best possible in addressing the specifics of the objectives, but that it also culminates in the best promise for providing the practitioner with a product that is both usable and readily implementable.
- Establishing—on the basis of staff and project panel review of and suggested modifications to the research plan—a clear meeting of the minds as to what specifically is expected from the project and the researchers in order to meet the needs of the practitioner.
- Acquiring an amplified research plan that is intended to detail comprehensively the approved research plan and to include a specific schedule of events for the major tasks. This document is used by the staff in the day-to-day surveillance of the project's progress and by the project panel as required.
- Carrying out project surveillance sufficient to keeping the research in line with the approved research plan, constantly keeping the researchers aware of the needs of the practitioner, and ensuring that all project developments through final reporting center on these needs.
- Requiring research reports in a format designed specifically to first meet the needs of the busy administrator and the practitioner and then to meet the needs of other researchers.

NCHRP Reporting of Research Results

In an applied research program such as that of NCHRP, the sponsor rightfully expects not only results that are accurate, but also findings that can be readily put into practice. This means that the final research reports must be presented in language understandable to both administrators and engineers and in such a format as to permit easy assimilation. Research agencies for NCHRP are required to report their results in a form that succinctly summarizes the findings for the busy administrator and also informs the practitioner of the application of the findings. The detailed research techniques and analyses in which a researcher would be interested are presented in appendixes so that readers do not have struggle to extract the findings. The Program specifies the style and organization of all reports to guide the researchers in their writing so that maximum use by AASHTO's member departments may be obtained.

IMPLEMENTING RESEARCH RESULTS

Over the years, Program staff and various AASHTO committees have worked together to structure the research findings into the best possible form for immediate use by the practitioner. Such joint efforts are highly desirable and represent the ultimate in the steps that the Program can take to facilitate implementation of the findings.

AASHTO has provided NCHRP with frequent opportunities for staff and project researchers to go before the various committees of the Association to present their findings and recommendations directly to the user community.

AN IMPLEMENTATION SURVEY

In 2004, NCHRP surveyed panel members, who helped shape the research products of the last several years, to learn what they know about implementation of research findings. Thirty-three percent (521) of 1,562 panel members who were solicited responded. These respondents represented service on panels for 147 projects completed between 1999 and 2002 that produced 157 products. Respondents were asked to indicate whether or not the research results (1) have been applied, (2) confirmed current practice, (3) were unsuccessful, or (4) had some other outcome. Written explanations were encouraged. Of the 157 products, 76 percent (120) received at least one response indicating that the research results were being applied in some way.

An additional question asked how panel members would rate the Program using four performance factors. Respondents were asked to rate the contractor's performance, panel contributions, NCHRP staff support, and the panel member's overall experience on a scale from very poor to very good, assigning numerical values from 1 to 5. The average values of the responses were 3.93 for contractor performance (those charged with the toughest component of the process—doing the actual research), 4.14 for panel contributions, 4.49 for NCHRP staff support, and 4.16 for overall experience.

There was a great deal to learn from the respondents' comments on the NCHRP process and the experience of participating in it. All comments will receive further attention. In general, comments about participating in the process related to the experience being a unique opportunity to expand knowledge, meet contacts, build networks, and gain a new understanding of the collaborative process.

The projects highlighted below are a sampling of research results that survey respondents said were being applied. For a complete listing, please refer to the NCHRP website at http://tinyurl.com/6mtqj/NCHRPSurveyResults.pdf.

Highway Capacity Manual 2000 [Project 03-55 (03)]

The result of this project was a completely new and updated *Highway Capacity Manual* 2000. In addition to the text and exhibits of the book, a CD-ROM includes tutorials, narrated example problems, explanatory videos, navigation tools, hyperlinks among sections of the manual, and easy access to calculating software. The manual is in use worldwide; about 14,500 copies have been sold through the TRB Bookstore.

NCHRP Report 418: Research on the Relationship Between Economic Development and Transportation Investment (Project 02-19)

This project developed analytical techniques to address typical transportation decisionmaking problems. The underlying emphasis of this research is to adopt a bottom-up approach to link existing tools to analytical requirements at the state DOT and MPO levels. The tool box of techniques is referred to by planners when discussing transportation investment justifications.

NCHRP Report 426: CAESAR: An Expert System for Evaluation of Scour and Stream Stability (Project 24-06)

This automated system for cataloging and evaluating scour risk and river stability at bridge sites assists bridge inspectors with several elements of the bridge inspection process, including cross section plotting; storage of bridge design data; storage and retrieval of previous inspection data; note editing and storage; digital photograph storage, viewing, and annotation; and independent scour risk evaluation. Tests have been conducted in Washington, Oregon, North Carolina, Illinois, and Arkansas; and 25 case studies have been developed for sites across the United States. The updated product can be downloaded from the University of Washington civil engineering website at http://www.ce.washington.edu/~scour.

NCHRP Reports 443 and 448: Environmental Impact of Construction and Repair Materials on Surface and Ground Waters (Primer and Summary of Methodology, Laboratory Results, and Model Development, respectively) (Project 25-09)

The project delivered a validated methodology for assessing the environmental impact of highway construction and repair materials on surface and ground water under six general highway reference environments. This methodology includes (1) a set of bioassay protocols that measure the toxicity of leachates from highway construction and repair materials on two target organisms, the water flea, *Daphnia magna*, and the freshwater algae, *Selenastrum capricornutum*; and (2) the IMPACT software model that can estimate the fate and transport of such leachates in typical highway environments.

Florida has used these materials, according to a survey respondent, "to place the burden of proof on...providers of phosphogypsum and flyash. The method also increases credibility with regulatory agencies when questionable materials are used."

Articles on this research are found on the EPA website, the National Library of Medicine, *Waste Management* magazine, Elsevier's Science Direct website, and FHWA's *Public Roads* (August 2000).

The research team summarized its findings and methodology tools in a five-volume guidance report. A 17-page primer (*Primer: Environmental Impact of Construction and Repair Materials on Surface and Ground Waters, NCHRP Report 443*) explaining the basics of the study is intended to be used in 1-day training workshops. All five volumes, the primer, and the IMPACT software are available on CD-ROM (*CRP-CD-7*).

NCHRP Report 472: Comprehensive Specification for the Seismic Design of Bridges (Project 12-49)

This project recommended new load and resistance factor design (LRFD) specifications with commentary for the seismic design of bridges to take advantage of new insight into ground motion and geotechnical effects, improved performance criteria, and more advanced analytical and design methodologies. The research brought 30-year-old specifications up to date and is the basis for revisions being considered by the AASHTO Technical Committee for Technical Design. It has, in whole or in part, been put into practice as *NCHRP Report 472* or as a Technical Committee publication. The specifications were implemented on the new Mississippi River Bridge in St. Louis, Missouri. One survey respondent stated that this specification "changed the culture of seismic design at the national level." Another commented that "Had this research not been done, we would not be advancing the state of the art now."

Web Document 13: Developing Measures of Effectiveness for Truck Weight Enforcement Activities (Project 20-34)

The objective of this research was to develop and validate measures of effectiveness for truck weight enforcement programs. Software was developed to analyze and compare measures of effectiveness and analyze pavement design life resulting from the observed enforcement activity.

The TWEET (Truck Weight Enforcement Effectiveness Tool) software may be accessed through the Transportation Research Corporation website at http://www.trc-net.com/tweet/. As of October 2004, the software had been downloaded more than 200 times by State highway agencies, consultants, and universities in 30 states as well as by 28 foreign countries. Downloads to public agencies include several with truck-weight enforcement responsibilities.

SUMMARY

NCHRP is a unique contract research effort designed to respond to the needs of State highway and transportation departments through the resolution of pressing transportation problems. Although TRB administers the Program, the research content is solely the prerogative of AASHTO and its member departments. The Program is one of applied (rather than basic) research, and every possible effort is made to help administrators and engineers put the findings to early use. Program policy ensures maximum exposure of the research while in progress in the hope that research results will, in fact, more quickly find their way into practice in the form of policies, procedures, specifications, and standards of State highway and transportation departments. •

STATUS OF NCHRP PROJECTS

The following table summarizes the status of all NCHRP projects. Detailed status reports on those projects for which there is any type of contractual activity can be found on the NCHRP website at

http://www.trb.org/nchrp

01-36	Determination of Pavement Damage from Super-Single and Singled-Out Dual Truck Tires	University of Nevada - Reno	99,027	11/1/1 996	2/23/1998	Contract cancelled
01-37	Development of the 2002 Guide for the Design of New and Rehabilitated Pavement Structures	Nichols Consulting Engineers	325,489	12/20/1996	7/31/1 997	Contract cancelled
01-37A	Development of the 2002 Guide for the Design of New and Rehabilitated Pavement Structures: Phase II	ERES Consultants	6,579,080	2/1/1998	2/28/2004	CompletedAvailable for evaluation online at bttp://www.trb.org/mcpdg
)1-37A(01)	Distribution Plan for the Recommended Mechanistic-Empirical Pavement Guide and Software	ERES Consultants	53,126	5/14/2004	2/28/2005	Research in progress
01-38	Guide on Pavement Rehabilitation Strategies	Kathleen T. Hall	100,000	3/1/1999	3/31/2001	CompletedAgency report available as NCHRP Web Document 35
)1-39	Traffic Data Collection, Analysis, and Forecasting for Mechanistic Pavement Design	Cambridge Systematics	500,000	8/30/2000	7/30/2004	CompletedTo be publishe as NCHRP Report 538; "Equipment for Collecting Traffic Load Data" publishe as NCHRP Report 509
01-40	Facilitating the Implementation of the Guide for the Design of New and Rehabilitated Pavement Structures					Conducted as NCHRP Proje I-40A to 1-40J
01-40A(01)A	Independent Review of the Recommended Mechanistic-Empirical Design Guide and Software: Technical Reviewer for Flexible Pavement Design		35,000			Research in progress

No.	Title	Research Agency	Contract Amount	Starting Date	Completion Date	Project Status **
01-40A(01)B	Independent Review of the Recommended Mechanistic-Empirical Design Guide and Software: Senior Technical Reviewer for Flexible Pavement Design	Consultant: Dr. Marshall R. Thompson	90,000	9/1/2004	8/31/2005	Research in progress
01-40A(01)C	Independent Review of the Recommended Mechanistic-Empirical Design Guide and Software: Technical Reviewer for Flexible Pavement Design	Consultant: Dr. Barry J. Dempsey	25,000	9/3/2004	9/30/2005	Research in progress
01-40A(01)D	Independent Review of the Recommended Mechanistic-Empirical Design Guide and Software: Technical Reviewer for Flexible Pavement Design		25,000			In development
01-40A(02)A	Independent Review of the Recommended Mechanistic-Empirical Design Guide and Software: Senior Technical Reviewer for Rigid Pavement Design		75,000			Research in progress
01-40A(02)B	Independent Review of the Recommended Mechanistic-Empirical Design Guide and Software: Technical Reviewer for Rigid Pavement Design	Construction Technology Laboratories	35,400	9/14/2004	9/14/2005	Research in progress
01-40A(02)C	Independent Review of the Recommended Mechanistic-Empirical Design Guide and Software: Technical Reviewer for Rigid Pavement Design	Consultant: Dr. Jeffrey R. Roesler	26,500	9/1/2004	8/30/2005	Research in progress
01-40A(02)D	Independent Review of the Recommended Mechanistic-Empirical Design Guide and Software: Technical Reviewer for Rigid Pavement Design	Consultant: Dr. Jamshid M. Armaghani	27,000	9/3/2004	9/30/2005	Research in progress
01-40A(02)E	Independent Review of the Recommended Mechanistic-Empirical Design Guide and Software: Technical Reviewer for Rigid Pavement Design		18,000			Contract pending
01-40A(02)F	Independent Review of the Recommended Mechanistic-Empirical Design Guide and Software: Technical Reviewer for Rigid Pavement Design		25,000			Contract pending
01 -4 0A(03)	Independent Review of the Recommended Mechanistic-Empirical Design Guide and Software: Reliability, Composite Pavement Design, and Summary Report		190,000			Contract pending
01-40A(04)	Independent Review of the Mechanistic-Empirical Pavement Design Guide: Low Volume Road Design		25,000			Contract pending
01-40B	Local Calibration Guidance for the Recommended Guide for Mechanistic- Empirical Design of New and Rehabilitated Pavement Structures		200,000			Contract pending

		Research	Contract	Starting	Completion	
No.	Title	Agency	Amount	Date	Date	Project Status **
03-21	Motorist Response to Highway Guide Signing	BioTechnology	272,071 *	4/1/1974	1/31/1976	CompletedReport not published; summarized in NCHRP Research Results Digest 91; for avail. see Summary of Progress Throug 1988
03-21(02)	Effectiveness of Changeable-Message Displays in Advance of High-Speed Freeway Lane Closures	BioTechnology	170,993 *	12/1/1979	8/31/1981	CompletedPublished as NCHRP Report 235
03-22	Guidelines for Design and Operation of Ramp Control Systems	Stanford University	199,030 *	4/15/1974	12/31/1975	CompletedReport not published; for avail. see Summary of Progress Throug 1988
03-22A	Guidelines for Design and Operation of Ramp Control Systems	Texas A&M University	249,538 *	2/1/1977	3/31/1981	CompletedPublished as NCHRP Report 232
03-23	Guidelines for Uniformity in Traffic Control Signal Design Configurations	KLD Associates	308,779 *	4/8/1974	7/28/1977	Completed—Report not published; summarized in NCHRP Research Results Digest 97; for avail. see Summary of Progress Throug 1988
03-24	Determine the Luminous Requirements for Retroreflective Highway Signing	University of Michigan	100,000 *	9/1/1974	4/30/1977	CompletedReport not published; for avail. see Summary of Progress Throug 1988
03-25	Cost and Safety Effectiveness of Highway Design Elements	Jorgensen & Associates	260,576 *	7/15/1975	4/16/1978	CompletedPublished as NCHRP Report 197
03-26	Investigation of Selected Noise Barrier Acoustical Parameters	Pennsylvania State University	224,494 *	12/1/1976	2/28/1980	CompletedReport not published; summarized in NCHRP Research Results Digests 105 and 122; for ava see Summary of Progress Through 1988
03-27	Guidelines for Selecting Traffic Signal Control at Individual Intersections	Voorhees & Associates	150,000 *	11/15/1976	7/31/1979	CompletedPublished as NCHRP Report 233
03-28	Development of an Improved Highway Capacity Manual	JHK & Associates	161,000 *	12/15/1977	8/15/1979	Completed—Report not published; for avail. see Summary of Progress Throug 1988
03-28(02)	Urban Signalized Intersection Capacity	JHK & Associates	331,000 *	10/1/1979	8/31/1982	CompletedResults include in Highway Capacity Manua (TRB Special Report 209)
03-28A	Two-Lane, Two-Way Rural Highway Capacity	Texas A&M University	157,492 *	5/1/1980	2/28/1983	CompletedResults include in Highway Capacity Manua (TRB Special Report 209)
)3-28B	New Highway Capacity Manual	Polytechnic Institute of New York	283,440 *	7/1/1982	3/31/1985	CompletedResults include in Highway Capacity Manua (TRB Special Report 209)
03-28C	Effects of Quality of Traffic Signal Progression on Delay	Texas A&M University	164,546 *	8/1/1986	7/31/1988	CompletedPublished as NCHRP Report 339

No.	Title	Research Agency	Contract Amount	Starting Date	Completion Date	Project Status **
03-29	Traffic Signal Display Complexity	Systems Technologies	196,284 *	7/1/1983	3/31/1986	CompletedReport not published; for avail. see Summary of Progress Through 1988
03-30	Intersection Channelization	Jack Leisch Associates	130,000 *	7/1/1983	5/15/1985	CompletedPublished as NCHRP Report 279
03-31	Guidelines for Evaluating Alternatives for Replacing a Grade-Separated Rail/Highway Crossing	Ernst & Whinney	200,000 *	9/4/1984	2/28/1987	CompletedPublished as NCHRP Report 288
03-32	Temporary Pavement Markings for Work Zones	Texas A&M University	164,990 *	5/1/1985	2/28/1987	CompletedSummary published in Transportation Research Record 1160
03-33	Capacity and Level-of-Service Procedures for Multilane Rural and Suburban Highways	JHK & Associates	475,132 *	6/1/1985	4/30/1990	CompletedResults included in Highway Capacity Manual (TRB Special Report 209)
03-34	The Feasibility of a National Heavy- Vehicle Monitoring System	Arthur D. Little	499,791 *	11/1/1985	9/30/1988	CompletedPublished as NCHRP Report 303
03-35	Speed-Change Lanes	JHK & Associates	250,000 *	6/1/1986	5/31/1989	CompletedReport not published
03-36	Development of a Low-Cost Bridge Weigh-In-Motion System	Bridge Weighing Systems	400,000 *	2/16/1987	2/28/1990	CompletedReport not published
03-37	Capacity and Level of Service at Ramp-Freeway Junctions	Polytechnic University	400,000	7/1/1990	12/31/1993	CompletedResults included in Highway Capacity Manual (TRB Special Report 209)
03-37(02)	Capacity and Level of Service at Ramp-Freeway Junctions (Phase II)	Polytechnic University	150,000	9/1/1994	4/30/1996	CompletedPublished as NCHRP Report 385
03-38(01)	Assessment of Advanced Technologies for Relieving Urban Traffic Congestion	Castle Rock Consultants	202,666 *	7/1/1987	6/30/1991	CompletedPublished as NCHRP Report 340
03-38(01)A	A Study to Assess Advanced Vehicle and Highway Technologies	TRB EO	345,000	7/1/1989	3/31/1991	CompletedPublished as TRB Special Report 232
03-38(02)	Travel Characteristics of Large-Scale Suburban Activity Centers	JHK & Associates	300,000 *	6/1/1987	2/28/1989	CompletedPublished as NCHRP Report 323
03-38(03)	Traffic Adaptive Control (Phase 1) Critical Intersection Control Strategies; (Phase 2)OPAC Control Strategies	Farradyne Systems	374,829	9/1/1987	3/31/1993	CompletedReport not published
03-38(04)	Traffic Signal Control for Saturated Conditions	KLD Associates	270,000 *	10/1/1987	6/4/1992	CompletedReport not published
03-38(05)	Effective Utilization of Street Width	Midwest Research Institute	159,941 *	4/1/1988	6/30/1990	CompletedPublished as NCHRP Report 330
03-38(06)	Cost Sharing for Transportation Improvements Near Major Suburban Employment Centers	Indiana University	125,000	5/15/1988	2/28/1991	CompletedReport not published
03-38(07)	Access Management Policies and Guidelines for Activity Centers	Metro Transportation Group	224,759	5/15/1989	9/30/1993	CompletedPublished as NCHRP Report 348
03-39	Evaluation and Calibration Procedures for Weigh-In-Motion Systems	Texas A&M University	398,500	3/1/1988	12/31/1993	CompletedReport not published

No.	Title	Research Agency	Contract Amount	Starting Date	Completion Date	Project Status **
03-39(02)	On-Site Evaluation and Calibration Procedures for Weigh-In-Motion Systems	Washington State University	247,846	3/10/1994	12/9/1995	CompletedAgency report available for loan; summarized in NCHRP Research Results Digest 214
03-40	Single Point Urban Interchange Design and Operations Analysis	Texas A&M University	241,037 *	5/1/1989	11/30/1991	CompletedPublished as NCHRP Report 345
03-41	Procedure for Determining Work Zone Speed Limits	Graham-Migletz	200,000	11/15/1989	5/31/1993	CompletedAgency report available for loan; summarized in NCHRP Research Results Digest 192
03-41(02)	Effectiveness and Implementability of Procedures for Work Zone Speed Limits	Graham-Migletz	200,000	1/1/1994	3/31/1997	CompletedReport not published
03-42	Determination of Stopping Sight Distances	Texas A&M University	500,000	5/1/1991	11/1/1994	CompletedPublished as NCHRP Report 400
03-43	Use of Shoulders and Narrow Lanes to Increase Freeway Capacity	JHK & Associates	300,000	1/15/1991	4/15/1994	CompletedPublished as NCHRP Report 369
03-44	Improved Traffic Control Device Design and Placement to Aid the Older Driver	Michigan State University	400,000	4/15/1992	12/31/1996	CompletedResults included in FHWA's Older Driver Handbook
03-45	Speed-Flow Relationships for Basic Freeway Segments	JHK & Associates	350,000	11/1/199 2	6/30/1995	CompletedResults included in 1997 Highway Capacity Manual update
03-46	Capacity and Level of Service at Unsignalized Intersections	University of Idaho	412,436	1/1/1993	12/31/1995	CompletedResults included in 1997 Highway Capacity Manual update; agency report available as NCHRP Web Documents 5 and 6
03-47	Capacity Analysis of Interchange Ramp Terminals	Texas A&M University	400,000	1/1/1994	4/30/1997	CompletedSome results included in 2000 Highway Capacity Manual update; agency report available as NCHRP Web Document 12
03-48	Capacity Analysis for Actuated Intersections	University of Florida	250,000	12/15/1993	9/30/1996	CompletedSome results included in 1997 Highway Capacity Manual update; agency report available as NCHRP Web Document 10
03-49	Capacity and Operational Effects of Midblock Left-Turn Lanes	University of Nebraska - Lincoln	300,000	1/1/1994	11/30/1996	CompletedPublished as NCHRP Report 395
03-50	Driver Information Overload	Westat, Inc.	299,833	1/3/1994	9/30/1998	CompletedReport not published; to be included in Project 03-50(02)
03-50(02)	Additional Investigations on Driver Information Overload	Westat, Inc.	220,204	10/13/1999	11/15/2002	CompletedPublished as NCHRP Report 488 and available on CRP-CD-36
03-51	Communications Mediums for Signal, IVHS, and Freeway Surveillance Systems	Kimley-Horn & Associates	380,000	12/15/1993	4/30/1996	CompletedAgency report available as NCHRP Web Document 2
03-52	Impacts of Access-Management Techniques	Urbitran Associates	399,982	2/27/1995	3/31/1998	CompletedPublished as NCHRP Report 420

No.	Title	Research Agency	Contract Amount	Starting Date	Completion Date	Project Status **
03-52A	Impacts of Access-Management Techniques	Urbitran Associates	99,232	12/1/1998	3/31/2000	CompletedSummarized in NCHRP Research Results Digest 247; software availabl on CRP-CD-24
03-53	Development of a HOV Systems Manual	Texas A&M University	250,000	2/20/1995	2/28/1998	CompletedPublished as NCHRP Reports 413 and 414
03-54	Uniform Traffic Signal Displays for Protected/Permissive Left-Turn Control	Kittelson & Associates	100,000	1/9/1995	12/31/1996	CompletedReport to be included with Project 03- 54(02)
03-54(02)	Evaluation of Traffic Signal Displays for Protected/Permissive Left-Turn Control	Kittelson & Associates	732,618	12/22/1997	7/31/2004	CompletedPublished as NCHRP Report 493 and CR CD-35; results being considered for inclusion in th MUTCD
03-55	A Highway Capacity Manual for the Year 2000	Catalina Engineering	300,000	1/1/1995	10/31/1996	CompletedReport not published
03-55(02)	Techniques to Estimate Speeds and Service Volumes for Planning Applications	Dowling Associates	200,000	7/1/1995	9/30/1996	CompletedPublished as NCHRP Report 387
03-55(02)A	Planning Applications for the Year 2000 Highway Capacity Manual	Dowling Associates	200,000	7/18/1997	6/17/1999	CompletedResults include in 2000 Highway Capacity Manual; report available on the CRP website
03-55(03)	Capacity and Quality of Service for Two-Lane Highways	Midwest Research Institute	599,829	9/15/1995	11/30/1999	CompletedResults include in 2000 Highway Capacity Manual; report available on the CRP website
03-55(04)	Performance Measures and Levels of Service in the Year 2000 Highway Capacity Manual	JHK & Associates/TransCore	159,250	1/8/1996	10/ 31/199 7	CompletedReport not published
03-55(05)	Capacity and Quality of Service of Weaving Areas	Viggen Corporation	299,829	12/1/1996	1/31/1999	InactiveBeing completed i 03-55(05)B
03-55(05)B	Capacity and Quality of Service of Weaving Areas	Iteris, Inc.	18,866	6/11/2004	12/10/2004	CompletedPublication decision pending
03-55(06)	Production of the Year 2000 Highway Capacity Manual	Catalina Engineering	1,152,750	10/15/1996	1/31/2001	CompletedPublished as 2000 Highway Capacity Manual
)3-56	Systemwide Impact of Safety and Traffic Operation Design Decisions for Resurfacing, Restoration, or Rehabilitation (RRR)	Midwest Research Institute	434,874	5/15/1996	9/30/2002	CompletedPublished as NCHRP Report 486 and available on CRP-CD-28
03-56(02)	Implementation of the Resurfacing Safety Resource Allocation Program	Midwest Research Institute	75,000	1/31/2003	1/31/2005	Research in progress
03-57	Recommended Traffic Control Devices for Railroad-Highway Grade Crossings	Westat, Inc.	269,837	6/1/1999	12/31/2001	CompletedPublished as NCHRP Report 470; results being considered for inclusion in the MUTCD
03-58	Assessing Traffic Control Signal Installations Using Capacity Analysis and Simulation	Texas A&M University	175,000	8/4/1999	6/30/2001	CompletedPublished as NCHRP Report 457

TABLE	1 (continued)	

No.	Title	Research Agency	Contract Amount	Starting Date	Completion Date	Project Status **
)3-59	Assessment of Variable Speed Limit Implementation Issues	Northwestern University	549,860	11/9/2000	7/9/2005	Research in progress
)3-60	Capacity and Quality of Service of Interchange Ramp Terminals	Pennsylvania State University	299,904	5/30/2001	3/31/2005	Research in progress
3-61	Communicating Changes in Horizontal Alignment	Michigan State University	410,629	5/7/2001	2/28/2005	Research in progress
3-62	Guidelines for Accessible Pedestrian Signals (APS)	University of North Carolina - Chapel Hill	700,000	10/4/2001	12/31/2005	Research in progress; interin materials summarized in NCHRP Research Results Digest 278
3-63	Assessment of Sharing Information Between Public Safety and Transportation Agencies for Traffic- Incident Management	Mitretek Systems	199,807	11/12/2001	3/31/2004	CompletedPublished as NCHRP Report 520
3-64	Highway Capacity Manual Applications Guide	Kittelson & Associates	273,301	2/13/2002	8/11/2005	CompletedReport available at http://hcmguide.com
3-65	Applying Roundabouts in the United States	Kittelson & Associates	899,994	6/5/2002	6/4/2005	Research in progress
3-66	Traffic Signal State Transition Logic Using Enhanced Sensor Information	University of Tennessee	600,000	4/25/2003	5/24/2005	Research in progress
3-67	Expert System for Recommending Speed Limits in Speed Zones	University of North Carolina - Chapel Hill	300,000	9/17/2003	9/16/2005	Research in progress
3-68	Guide to Effective Freeway Performance Measurement	Cambridge Systematics	300,000	10/13/2003	10/12/2005	Research in progress
13-69	Design of Construction Work Zones on High Speed Highways	Pennsylvania State University	499,999	8/6/2003	2/5/2006	Research in progress
3-70	Multimodal Level of Service Analysis for Urban Streets	Dowling Associates	450,000	3/14/2003	3/31/2005	Research in progress
3-71	Improving Pedestrian Safety at Unsignalized Roadway Crossings (TCRP Project D-08)	Texas A&M University	550,000	11/6/2002	6/5/2005	Research in progress
3-72	Lane Widths, Channelized Right Turns, and Right-Turn Deceleration Lanes in Urban and Suburban Areas	Midwest Research Institute	450,000	5/20/2003	5/19/2005	Research in progress
3-73	Separation of Vehicles - CMV Only Lanes		100,000			In development
3-74	Guidelines for Selection of Speed Reduction Treatments at High Speed Intersections	Kittelson & Associates	500,000	6/15/2004	6/14/2007	Research in progress
3-75	Analysis of Freeway Weaving Sections	Polytechnic University	450,000	6/1/2004	3/1/2007	Research in progress
3-76A	Highway Traffic Signal Warrant For Intersections Near Highway-Rail Grade Crossings	Polytechnic University	150,000	3/31/2004	3/30/2005	Research in progress
3-76B	Low-Cost Active Warning Systems for Highway-Rail Grade Crossings	Texas A&M University	200,000	3/1/2004	5/31/2005	Research in progress
3-77	Guide to Contracting Intelligent Transportation System Projects	Edwards & Kelcey, Inc.	299,931	3/4/2004	7/3/2005	Research in progress

10-55	Fiber Reinforced Polymer Composites for Coucrete Bridge Deck Reinforcement	Florida Atlantic University	299,994	4/1/ 1999	9/30/2002	CompletedTo be summarized in NCHRP Research Results Digest 282
10-56	Accelerated Pavement Testing: Data Guidelines	ERES Consultants	175,000	3/7/2000	10/14/2002	CompletedPublished as NCHRP Report 512
10-57	Structural Safety Evaluation Guidelincs For Suspension Bridge Parallel-Wire Cables	Weidlinger Associates	448,752	3/10/2000	4/30/2004	CompletedGuidelines published as NCHRP Report 534; agency report available on CRP-CD-54
10-57A	Structural Safety Evaluation Guidelines For Suspension Bridge Parallel-Wire Cables	Consultant: Robert Easterling	25,000	10/16/2002	12/31/2003	CompletedAgency report available as appendix on CRP- CD-54
10-58	Construction Engineering and Management Research Program	University of Wisconsin	200,000	3/1/2000	10/31/2001	CompletedAgency report available as NCHRP Web Document 51
10-58(01)	Evaluation of the Use of Incentives/Disincentives (I/D) to Reduce Time to Complete Highway Construction Projects		70,000			In development
10-58(02)	Using Contractor-Performed Tests in Quality Assurance	Auburn University	298,802	10/24/2003	4/28/2006	Research in progress

TABLE 1	(continued)
---------	-------------

No	Title	Research	Contract	Starting	Completion	Designet Charles ##
No.	Title	Agency	Amount	Date	Date	Project Status **
10-58(03)	Analysis of Nighttime Construction Activities and Impacts on Safety, Quality, and Productivity		70,000			In development
10-58A	Construction Engineering and Management Research Program (Brochure)	Bergstrahl-Shaw- Newman	12,722	6/20/2002	7/31/2002	Completed—Agency report available at http://www.transportation.org/ ommittees/construction
10-59	Construction Specifications for Bonded Repair and Retrofit of Concrete Structures Using FRP Composites	University of Cincinnati	0	5/29/2001	5/28/2003	Contract transferred to North Carolina State University
10-59A	Construction Specifications for Bonded Repair and Retrofit of Concrete Structures Using FRP Composites	North Carolina State University	475,000	10/19/2001	12/31/2005	Contract transferred to Florida International University; Phase I results published as NCHRP Report 514
10-59B	Construction Specifications for Bonded Repair and Retrofit of Concrete Structures Using FRP Composites	Florida International University	281,754			Research in progress
10-60	Avoiding Delays in the Delivery of Highway Construction Projects	Cancelled				Project cancelled
10-61	Best-Value Procurement Methods for Highway Construction Projects	Trauner Consulting Services	299,952	4/1/2002	4/30/2005	Research in progress
10-62	Acceptance Test for Surface Characteristics of Steel Strands Used in Pre-stressed Concrete	Wiss, Janney, Elstner & Associates	500,000	7/25/2003	7/26/2006	Research in progress
10-63	Heat-Straightening Repair of Damaged Steel Bridge Girders: Fatigue and Fracture Performance	Lehigh University	375,000	3/27/2003	3/26/2006	Research in progress
10-64	Field Inspection of In-Service FRP Bridge Decks	Construction Technology Laboratories	299,311	4/16/2003	4/15/2005	Research in progress
10-65	Nondestructive Testing Technology for Quality Control and Acceptance of Flexible Pavement Construction	ERES Consultants	699,995	8/22/2003	2/21/2006	Research in progress
10-66	Predicting In-Service Performance of Flexible Pavements from Accelerated Pavement Testing	J.B. Metcalf	100,000	3/4/2004	3/31/2005	Research in progress
10-67	Texturing of Concrete Pavements	ERES Consultants	499,994	8/20/2004	2/19/2007	Research in progress
0-68	Effectiveness of Pavement Warranties		300,000			In development
0-69	Guidelines for Dowel Alignment in Concrete Pavements		500,000			Contract pending

11-01	Rules of Compensability and Valuation in Highway Land Acquisition	University of Wisconsin	84,840 *	1/1/1965	4/30/1967	CompletedPublished as NCHRP Report 104
11-01(01)	Eliminating Enhancement or Diminution Effects on Right-of-Way Valuation	Real Estate Research	5,000 *	9/2/1968	2/28/1969	CompletedPublished as NCHRP Report 114

		Research Agency	Contract	Starting	Completion	Project Status **
No.	Title		Amount	Date	Date	
11-01(02)	Recognition of Benefits to Remainder Property in Highway Valuation	Montano & Associates	5,000 *	10/1/1968	3/31/1969	CompletedPublished as NCHRP Report 88
11-01(03)	Taxation Aspects of Right-of-Way Acquisition	University of Tulsa	2,250 *	9/16/1968	4/30/1969	Project cancelledNo final report
11-01(04)	Compensation in the Nature of Additives to Market Value	University of Oklahoma	2,500 *	12/1/1968	5/31/1969	CompletedReport not published; for avail. see Summary of Progress Through 1988
11-01(05)	Rules of Discovery and Disclosure in Highway Condemnation Proceedings	Long, Mikkelborg	2,500 *	9/15/1968	4/14/1969	CompletedPublished as NCHRP Report 87
11-01(06)	Valuation and Condemnation Problems of Selected Special Purpose Properties	Edward E. Level	7,500 *	9/2/1968	11/28/1969	CompletedPublished as NCHRP Report 92
11-01(07)	Valuation and Compensability of Noise, Pollution, and Other Environmental Factors	University of Oklahoma	2,500 *	10/1/1968	3/31/1969	CompletedReport not published; for avail. see Summary of Progress Through 1988
11-01(08)	Remainder Damages Caused by Drainage, Runoff, Blasting, and Slides	Harrison Lewis	7,500 *	10/15/1968	1/15/1970	CompletedPublished as NCHRP Report 134
11-01(09)	Valuation and Condemnation Problems Involving Trade Fixtures	Edward L. Snitzer	5,000 *	3/15/1969	12/1/1969	CompletedPublished as NCHRP Report 94
11-01(10)	Compensability and Valuation Aspects of Residential Displacement in Highway Programs	Ross, Hardies, et al.	5,000 *	3/15/1969	9/15/1969	CompletedPublished as NCHRP Report 107
11-01(11)	Valuation Elements of Joint Development Projects, Including Air Rights	Real Estate Research	5,000 *	2/24/1969	8/25/1969	CompletedReport not published; for avail. see Summary of Progress Through 1988
11-02	Theory and Practice in Inverse Condemnation	Reg & Urban Planning	15,000 *	2/1/1965	6/30/1966	CompletedPublished as NCHRP Report 72
11-03	Valuation and Legal Implications of Scenic, Conservation, and Roadside Basements	Sutte, Jr. & Associates	25,000 *	11/1/1966	12/15/1967	CompletedPublished as NCHRP Report 56
11-03(01)	Public Control of Roadside Advertising Signs for Highway Beautification	Sutte, Jr. & Associates	20,000 *	10/1/1968	12/31/1969	CompletedPublished as NCHRP Report 119
11-03(02)	Public Control of Junkyards for Highway Beautification	Real Estate Research	13,300 +	9/2/1968	2/28/1970	CompletedPublished as NCHRP Report 112
11-04	Elimination of Wide Divergence in Right-of-Way Valuation	Am Inst Rl Est App	24,959 *	7/1/1969	2/28/1971	CompletedPublished as NCHRP Report 126
11-05	Valuation of Air Space	Daniel, Mann, Johnson, Mendenhall	49,800 *	10/1/1970	5/31/1972	CompletedPublished as NCHRP Report 142
11-06	Valuation and Compensability of Noise Pollution	Jack Faucett Associates	94,744 ■	4/1/1974	7/31/1975	CompletedReport not published; for avail. see Summary of Progress Through 1988
11-07	National Data-Management System for Highway Tort Claims	Pennsylvania State University	290,495	5/1/1 997	8/30/2002	CompletedAgency report available as NCHRP Web Document 57

	AREA TWELVE : DESIGN-BI					
12-01	Deformation of Steel Beams Related to Permitted Highway Bridge Overloads	University of Missouri	50,000 *	2/1/1965	6/30/1967	CompletedReport included in Project 12-06 report
12-02	Distribution of Wheel Loads on Highway Bridges	Iowa State University	79,512 *	6/1/1966	12/31/1968	CompletedPublished as NCHRP Report 83
2-03	Development of Waterproof Roadway Joints for Bridges	Southwest Research Institute	149,895 *	12/15/1965	3/14/1969	CompletedReport available only to sponsors; summarized in NCHRP Research Results Digest 14
12-04	Thermal Characteristics of Highway Bridges	Southwest Research Institute	102,400 *	12/15/1965	3/31/1968	CompletedReport not published; for avail. see Summary of Progress Throug 1988
12-05	Protection of Steel in Prestressed Concrete Bridges	University of Denver	173,255 *	9/15/1966	11/15/1968	CompletedPublished as NCHRP Report 90
2-06	Prediction of Permanent Camber of Bridges	University of Missouri	82,253 *	2/1/1967	4/30/1972	CompletedReport not published; for avail. see Summary of Progress Throug 1988
2-07	Effects of Weldments on Fatigue Strength of Steel Beams	Lehigh University	399,023 *	10/1/1966	12/31/1972	CompletedPublished as NCHRP Report 102; Phase II published as NCHRP Report 147
2-08	Bridge Rail Service Requirements as a Basis for Design Criteria	Texas A&M University	98,546 *	3/1/1968	6/30/1971	CompletedPublished as NCHRP Report 86; Phase II published as NCHRP Report 149
2-09	Elastomeric Bearing Research	Battelle Memorial Institute	84,800 *	9/1/1967	1/31/1970	CompletedPublished as NCHRP Report 109
2-10	Analysis and Design of Bridge Bents	Portland Cement Association	297,900 *	1/1/1970	12/31/1973	CompletedPublished as NCHRP Report 163
2-11	Waterproof Membranes for Protection of Concrete Bridge Decks	Materials R&D	303,004 *	8/1/1970	9/30/1978	CompletedPuhlished as NCHRP Report 165; Phase II report not published; for avai see Summary of Progress Through 1988
2-12	Welded Steel Bridge Members Under Variable-Cycle Fatigue Loadings	US Steel	310,000 *	10/1/1970	10/31/1975	CompletedPublished as NCHRP Report 188
2-13	Cathodic Protection for Reinforced Concrete Bridge Decks	USS Engineering & Consulting	174,601 *	10/1/1972	7/31/1974	CompletedPublished as NCHRP Report 180
2-13A	Field Evaluation of Galvanic Cathodic Protection for Reinforced Concrete Bridge Decks	Portland Cement Association	74,405 *	8/1/1975	5/15/1981	CompletedPublished as NCHRP Report 234
2-14	Subcritical Crack Growth in Steel Bridge Members	US Steel	99,923 *	10/1/1972	6/30/1974	CompletedPublished as NCHRP Report 181
12-15	Detection and Repair of Fatigue Cracking in Highway Bridges	Lehigh University	100,000 *	10/1/1972	4/30/1975	CompletedPublished as NCHRP Report 206

Project		_				
No.	Title	Research Agency	Contract Amount	Starting Date	Completion Date	Project Status **
12-15(02)	Retrofitting Procedures for Fatigue- Damaged Full-Scale Welded Bridge Beams	Lehigh University	150,000 *	6/1/1976	11/30/1978	CompletedPublished as NCHRP Report 206
12-15(03)	Fatigue Behavior of Full-Scale Welded Bridge Attachments	Lehigh University	125,000 *	2/1/1978	7/31/1980	CompletedPublished as NCHRP Report 227
12-15(04)	Steel Bridge Members Under Variable- Amplitude, Long-Life Fatigue Loading	Lehigh University	150,000 *	4/1/1980	9/30/1983	CompletedPublished as NCHRP Report 267
12-15(05)	Fatigue Behavior of Variable-Loaded Bridge Details Near the Fatigue Limit	Lehigh University	399,999 *	9/1/1 983	12/31/1990	CompletedInterim report published as NCHRP Report 286; final report published as NCHRP Report 354
12-16	Influence of Bridge Deck Repairs on Corrosion of Reinforcing Steel	Battelle Columbus	214,912 *	9/1/1974	11/30/1977	CompletedReport not published; summarized in NCHRP Research Results Digest 85; for avail. see Summary of Progress Through 1988
12-17	Evaluation of Repair Techniques for Damaged Steel Bridge Members	Battelle Columbus	49,974 *	11/15/1976	4/30/1978	CompletedReport not published; for avail. see Summary of Progress Through 1988
12-17A	Guidelines for Evaluation and Repair of Damaged Steel Bridge Members	Shanafelt/Horn	99,950 *	10/1/1981	5/31/1984	CompletedPublished as NCHRP Report 271
12-18	Development of an Integrated Bridge Design System	Multiplications, Inc.	224,985 *	9/6/1977	12/31/1982	CompletedReport not published; for avail. see Summary of Progress Through 1988
12-18A	Assessment of an Integrated Bridge Design System	Eng Computer Corp	15,000 *	2/1/1984	1/3/1986	CompletedReport available only to sponsors
12-19	Cathodic Protection of Concrete Bridge Structures	Corrosion Engineering & Research	250,000 *	1/1/1978	12/31/1980	CompletedReport not published; for avail. see Summary of Progress Through 1988
12-19A	Concrete Scalers for Protection of Bridge Structures	Wiss, Janney, Elstner & Associates	99,190 *	8/1/1979	12/1/1981	CompletedPublished as NCHRP Report 244
12-19B	Cathodic Protection of Concrete Bridge Structures	Wiss, Janney, Elstner & Associates	138,900 *	11/1/1982	4/30/1985	CompletedPublished as NCHRP Report 278
12-20	Bridges on Secondary Highways and Local Roads: Rehabilitation and Replacement	University of Virginia	169,878 *	3/1/1978	11/30/1981	CompletedPublished as NCHRP Report 222; Phase II published as NCHRP Report 243
12-21	Evaluation of Damage and Methods of Repair for Prestressed Concrete Bridge Memhers	G. O. Shanafelt	188,454 *	4/15/1979	7/8/1985	CompletedPublished as NCHRP Report 226; Phase II published as NCHRP Report 280
12-22	Thermal Effects in Concrete Bridge Superstructures	Eng Computer Corp	100,000 *	10/1/1981	1/31/1984	CompletedPublished as NCHRP Report 276
12-23	Recommended Revisions to the AASHTO Manual for Maintenance Inspection of Bridges	A.G. Lichtenstein & Associates	233,800 *	1/3/1989	8/3/1992	CompletedReport distributed to sponsors

Project	- <u></u>	- Research	Contract	Starting	Completion	
No.	Title	Agency	Amount	Starting Date	Completion Date	Project Status **
12-24	Design of Multi-Beam Precast Bridge Superstructures	University of Washington	149,879 *	8/1/1983	5/31/1986	CompletedPublished as NCHRP Report 287
2-25	Fatigue and Fracture Evaluation for Rating Riveted Steel Bridges	Lehigh University	199,957 *	9/1/1984	9/30/1987	CompletedPublished as NCHRP Report 302
2-26	Distribution of Wheel Loads on Highway Bridges	Imbsen & Associates	500,000 *	4/15/1985	10/31/1990	CompletedPhase I and II summarized in NCHRP Research Results Digest 187
2-26(02)	Distribution of Wheel Loads on Highway Bridges	Imbsen & Associates	100,000	9/28/1992	12/31/1993	CompletedAgency report available on microfiche
2-27	Welded Repair of Cracks in Steel Bridge Members	Welding Institute	374,575 *	10/15/1984	2/28/1989	CompletedPublished as NCHRP Report 321
2-28(01)	Load Capacity Evaluation of Existing Bridges	Case Western Reserve University	302,000 *	9/1/1985	8/31/1989	CompletedPublished as NCHRP Report 301
2-28(02)	Bridge Management Systems	ARE, Inc.	495,000 *	6/24/1985	4/30/1990	CompletedPublished as NCHRP Report 300; Phase 1 has no final report
2-28(02)A	Bridge Management Systems Software	National Engineering Technology Corporation	585,000	1/10/1992	12/31/1994	CompletedNo report
2-28(02)B	Bridge Management Systems Software	National Engineering Technology Corporation	140,000	8/14/1995	12/31/1996	CompletedNo report; software and documentation available
2-28(02)C	Conversion of BRIDGIT Bridge Management Software to Windows	National Engineering Technology Corporation	54,456	1/1/1998	6/30/1998	CompletedNo report; software distributed
2-28(03)	Fatigue Evaluation Procedures for Steel Bridges	Case Western Reserve University	200,000 *	7/1/1985	9/30/1987	CompletedPublished as NCHRP Report 299
2-28(04)	Methods of Strengthening Existing Highway Bridges	Iowa State University	164,985 *	7/1/1985	7/31/1987	CompletedPublished as NCHRP Report 293
2-28(05)	Standard Methodology for Conducting Condition Surveys of Concrete Bridge Components	New Mexico State University	98,338 *	8/1/1985	8/31/1987	CompletedPublished as NCHRP Report 312
2-28(06)	Distortion-Induced Fatigue Cracking in Steel Bridges	Lehigh University	250,000 *	10/1/1985	11/30/1989	CompletedPublished as NCHRP Report 336
2-28(07)	Guidelines for Evaluating Corrosion Effects in Existing Steel Bridges	Modjeski & Masters	298,644 *	5/5/1986	11/30/1989	CompletedPublished as NCHRP Report 333
2-28(08)	Improving Bridge Load Capacity Estimates by Correlation with Test Data	University of Tennessee	191,024 *	2/1/1986	2/19/1988	CompletedPublished as NCHRP Report 306
2-28(09)	Methods of Flaw Detection in Concrete Bridge Components	Combined				Combined with Project 10- 30(03)
2-28(10)	Guidelines for Determining Redundancy in Steel Bridges	Lehigh University	299,995 *	3/1/1986	5/31/1989	CompletedPublished as NCHRP Report 319
2-28(11)	Development of Site-Specific Load Models for Bridge Rating	Imbsen & Associates	200,000 *	2/9/1987	3/30/1990	CompletedReport not published
2-28(12)	Inelastic Rating Procedures for Steel Beam and Girder Bridges	University of Minnesota	241,031 *	9/1/1987	5/30/1990	CompletedPublished as NCHRP Report 352

No.	Title	Research Agency	Contract Amount	Starting Date	Completion Date	Project Status **
12-28(13)	Nondestructive Load Testing for Bridge Evaluation and Rating	Raths Raths & Johnson	150,000 *	10/4/1987	9/30/1989	CompletedReport not published
12-28(13)A	Bridge Rating Through Nondestructive Load Testing	A.G. Lichtenstein & Associates	227,200 *	12/17/1990	2/28/1994	CompletedSummarized in NCHRP Research Results Digest 234
12-29	Design of Simple-Span Precast Prestressed Bridge Girders Made Continuous	Construction Technology Laboratories/PCA	241,993 *	8/26/1985	5/31/1988	CompletedPublished as NCHRP Report 322
12-30	Fatigue of Cables in Cable-Stayed Bridges	Acer Freeman Fox Ltd.	124,975	1/13/1986	2/12/1989	CompletedReport not published
12-31	Notch Toughness Variability in Bridge Steel Plates	University of Texas	385,000 *	9/1/1987	9/1/1992	CompletedPublished as NCHRP Report 355
12-32	Evaluation of Bridge Deck Protective Strategies	University of Washington	92,515 *	4/1/1986	5/15/1987	CompletedPublished as NCHRP Report 297
12-33	Development of a Comprehensive Bridge Specification and Commentary	Modjeski & Masters	1,404,167	7/1/1988	12/31/1995	CompletedSpecifications published by AASHTO; summarized in NCHRP Research Results Digest 19 report published as NCHRI Report 368
12-33A	Development of a Comprehensive Bridge Specification and CommentaryTimber Structures and Code Calibration	Sensei Engineers	60,000	9/19/1988	12/31/1991	CompletedNo report; See Project 12-33
12-33B	Development of a Comprehensive Bridge Specification and CommentaryConcrete Structures	Imbsen & Associates	125,500 *	9/19/1988	3/31/1992	CompletedNo report; See Project 12-33
12-33C	Development of a Comprehensive Bridge Specification and CommentarySoil-Structure Interaction Systems	D'Appolonia	83,832 *	7/24/1989	3/31/1992	CompletedNo report; See Project 12-33
12-34	Update of AASHTO Standard Specifications for Highway Bridges: Division IIConstruction	Imbsen & Associates	200,000 *	10/19/1987	10/18/1989	CompletedReport provid to AASHTO
12-35	Recommended Specifications for the Design of Foundations, Retaining Walls, and Substructures	D'Appolonia	99,588 *	1/4/1988	7/3/1989	CompletedReport provid to AASHTO
12-36	Redundancy in Highway Bridge Superstructures	City College of New York	200,000	4/8/1991	11/16/1993	CompletedSee Project 12 36(02)
12-36(02)	Redundancy in Highway Bridge Superstructures: Phase II	City College of New York	250,000	9/1/1994	5/31/1997	CompletedPublished as NCHRP Report 406
12-37	Transverse Cracking in Newly Constructed Bridge Decks	Wiss, Janney, Elstner & Associates	350,000	1/27/1992	3/31/1995	CompletedPublished as NCHRP Report 380
12-38	Improved Design Specifications for Horizontally Curved Steel Girder Highway Bridges	Auburn University	378,103	1/1/1993	6/30/1999	CompletedPublished as NCHRP Report 424; specification adopted by AASHTO and Appendixes F published by AASHTO a GHC-4

TABLE	1	(continued)

No.	Title	Research Agency	Contract Amount	Starting Date	Completion Date	Project Status **
12-39	Design Specifications for Debris Forces on Highway Bridges	University of Louisville	474,735	3/1/1993	4/30/2000	CompletedPublished as NCHRP Report 445; Task 7 report published as NCHRP Report 417
12-40	Fatigue Criteria for Modular Bridge Expansion Joints	Lehigh University	335,000	1/18/1994	4/30/1997	CompletedPublished as NCHRP Report 402
12-41	Rapid Replacement of Bridge Decks	University of Nebraska - Lincoln	499,921	1/1/1994	8/31/1997	CompletedPublished as NCHRP Report 407
2-42	LRFD Bridge Design Specifications Support	Modjeski & Masters	922,630	2/1/1995	12/31/2003	CompletedPublication decision pending
12-43	Life-Cycle Cost Analysis for Bridges	National Engineering Technology Corporation	439,69 1	5/28/1996	3/30/2002	CompletedPublished as NCHRP Report 483 and CR CD-26
12-44	Recommended Specifications for the Design of Movable Highway Bridges	Modjeski & Masters	374,325	7/26/1996	9/30/1999	CompletedSpecifications published by AASHTO
12-45	Recommended Specifications for Large-Span Culverts	Simpson Gumpertz & Heger, Inc.	475,000	4/26/1996	11/30/2001	CompletedPublished as NCHRP Report 473
12-46	Manual for Condition Evaluation and Load Rating of Highway Bridges Using Load and Resistance Factor Philosophy	A.G. Lichtenstein & Associates	389,187	3/1/1997	9/30/2000	CompletedReport on calibration published as NCHRP Report 454; agency report available as NCHRP Web Document 28
2-47	Redundancy in Highway Bridge Substructures	Imbsen & Associates	250,000	1/1/1998	8/31/2000	CompletedPublished as NCHRP Report 458
2-48	Design of Highway Bridges for Extreme Events	City College of New York	350,000	7/15/1998	9/30/2002	CompletedPublished as NCHRP Report 489 and CR CD-30
2-49	Comprehensive Specification for the Seismic Design of Bridges	ATC/MCEER Joint Venture	850,000	8/1/1998	11/30/2001	CompletedSpecifications under review by AASHTO; published as NCHRP Report 472
2-50	Bridge Software Validation Guidelines and Examples	Michael Baker, Jr., Inc.	499,948	5/13/1998	6/30/2002	CompletedPublished as NCHRP Report 485 and CR CD-29A&B
2-51	Effect of Truck Weight on Bridge Network Costs	Wayne State University	399,998	12/1/2000	12/31/2002	CompletedPublished as NCHRP Report 495 and CR CD-37
2-52	LRFD Specifications for Horizontally Curved Steel Girder Highway Bridges	Modjeski & Masters	700,000	9/1/1999	3/31/2005	Research in progress
2-53	Connection Between Simple-Span Precast Concrete Girders Made Continuous	University of Cincinnati	300,000	5/1/1999	8/31/2003	CompletedPublished as NCHRP Report 519
2-54	Integral Connections of Modern Steel Bridge Structures	Modjeski & Masters	499,961	7/1/1999	1/31/2004	CompletedPublished as NCHRP Report 527
2-55	Load and Resistance Factors for Earth Pressures on Bridge Substructures and Retaining Walls	D'Appolonia	250,000	4/17/2001	1/15/2004	CompletedPublication decision pending

No	Title	Research	Contract	Starting	Completion Date	Project Status **
No.		Agency	Amount	Date		
2-56	Application of the LRFD Bridge Design Specifications to High- Strength Structural Concrete: Shear Provisions	University of Illinois	650,000	7/26/2001	7/25/2005	Research in progress
2-57	Extending Span Ranges of Precast, Prestressed Concrete Girders	Ralph Whitehead Associates, Inc.	240,000	4/30/2001	9/30/2003	CompletedPublished as NCHRP Report 517
2-58	Effective Slab Width for Composite Steel Bridge Members	State University of New York	359,999	7/6/2001	12/30/2004	CompletedPublication decision pending
2-59	Design and Construction of Segmental Geosynthetic-Reinforced Soil (GRS) Bridge Abutments for Bridge Support	University of Colorado - Denver	299,998	8/1/2001	12/31/2004	CompletedPublication decision pending
2-60	Transfer and Development Length of Prestressing Strand and Development and Splice Length of Reinforcement in High-Strength Concrete	Purdue University	600,000	4/16/2002	4/15/2005	Research in progress
2-61	Simplified Shear Design of Structural Concrete Members	University of Illinois	250,000	1/7/2003	1/6/2005	Research in progress
2-62	Simplified Live Load Distribution- Factor Equations	BridgeTech, Inc.	249,958	4/8/2003	1/30/2005	Research in progress
2-63	Legal Truck Loads and AASHTO Legal Loads for Posting	Lichtenstein Consulting Engineers, Inc.	350,000	7/1/2003	6/30/2006	Research in progress
2-64	Application of the LRFD Bridge Design Specifications to High- Strength Structural Concrete: Flexure and Compression Provisions	North Carolina State University	600,000	8/15/2003	8/14/2006	Research in progress
2-65	Full-Depth, Precast-Concrete Bridge Deck Panel Systems	George Washington University	399,989	7/7/2003	1/6/2006	Research in progress
2-66	AASHTO LRFD Specifications for Serviceability in the Design of Bridge Foundations	Geo Testing Express, Inc.	500,000	5/1/2004	4/30/2006	Research in progress
2 -6 7	Multiple-Objective Optimization for Bridge Management Systems	Purdue University	350,000	2/13/2004	5/12/2006	Research in progress
2-68	Improved Rotational Limits of Elastomeric Bearings	University of Washington	350,000	6/18/2004	9/17/2006	Research in progress
2-69	Design and Construction Guidelines for Long-Span Decked Precast, Prestressed Concrete Girder Bridges	Construction Technology Laboratories	¥ ^{499,242}	6/1/2004	5/31/2007	Research in progress
2-70	Scismic Analysis of Retaining Walls, Buried Structures and Embankments	CH2M Hill	499,970	3/25/2004	6/24/2007	Research in progress
2-71	Design Specifications and Commentary for Horizontally Curved Concrete Box-Girder Highway Bridges		350,000			In development
2-72	Blast-Resistant Highway Bridges: Design and Detailing Guidelines		1,000,000			In development
2-73	Design Guidelines for Durability of Bonded CFRP Repair/Strengthening of Concrete Beams		500,000			In development

17-18(06)	AASHTO Strategic Highway Safety Plan Case Studies	Transportation Safety Management Systems	25,000	2/1/2001	6/30/2001	CompletedSummarized ir NCHRP Research Results Digest 265
17-18(07)	AASHTO Strategic Highway Safety Plan - Technology Transfer Plan	Roy Jorgensen Associates, Inc.	150,000	7/3/2001	12/30/2002	CompletedReport not published
17-18(08)	Comprehensive Human Factors Guidelines for Road Systems	Westat, Inc.	200,031	9/28/2001	12/30/2004	CompletedPublication decision pending
17-18(09)	Coordinated Safety Research Approach	Transportation Research Corp.	49,969	10/23/2001	2/28/2003	CompletedWorkshop summary report available or request
17-18(10)	Safe Landscaping Awareness Course/Landscape Architect Training	University of North Carolina - Chapel Hill	38,000	3/21/2003	3/20/2004	CompletedTraining materials provided to FHWA

TABLE 1 (continued)
-----------	------------

No.	Title	Research Agency	Contract Amount	Starting Date	Completion Date	Project Status **
17-18(11)	Marketing Plan and Products	Van Ryan Banks, Inc.	238,745	4/15/2003	6/30/2005	Research in progress
7-18(12)	Rewrite of the Unsignalized Intersection Guide for Local Agencies	Consultant: Eugene Wilson	25,000	7/4/2003	12/30/2004	CompletedPublication decision pending
7-18(13)	Integrated Safety Management Process/Safety-Conscious Planning Coordination	TRB Division A	40,000	9/12/2003	6/30/2007	Research in progress
7-19	Implementation of Model Deployment Strategies In AASHTO's Strategic Highway Safety Plan		750,000			Continued under Project 17 18(03)
7-20	Research for the AASHTO Task Force on Roadside Safety	Various	200,000			Research in progress
7-20/Task 01	Publication of the Year 2000 Roadside Design Guide	Trauner Consulting Services	34,999	11/15/2000	11/30/2001	CompletedFinal report delivered to AASHTO for u in updating the Year 2000 Roadside Design Guide
7-20/Task 02	Identification of Specific References Used in Developing Criteria and Recommendations in the Roadside Design Guide	Consultant: Kimberly Nystrom	55,900	7/8/2002	6/30/2004	Completed
7-20/Task 03	Research for the AASHTO Task Force for Roadside Safety	University of Nebraska - Lincoln	50,000	10/10/2003	2/9/2005	Research in progress
7-20/Task 04	Safety Evaluation and Crash Testing of Secure Mailboxes	George Washington University	25,000	5/16/2002	2/28/2003	Completed
7-20/Task 05	Full Scale Crash Test to Evaluate the Safety Performance of Secure Mailboxes	George Washington University	25,000	2/4/2004	2/3/2005	Research in progress
7-21	Safety of U-Turns at Unsignalized Median Openings	Midwest Research Institute	320,000	11/6/2000	1/30/2004	CompletedTo be publishe as NCHRP Report 524
7-22	Identification of Vehicular Impact Conditions Associated with Serious Ran-Off-Road Crashes	University of Nebraska - Lincoln	499,999	8/15/2001	11/30/2005	Research in progress
7-23	Safety Profile and Other Implications of Changed Speed Limits on High Speed Roads	Charles River Associates	350,000	7/23/2002	4/1/2005	Research in progress
7-24	Use of Event Data Recorder (EDR) Technology for Highway Crash Data Analysis	Rowan University	250,000	5/1/2002	6/30/2004	CompletedPublication decision pending
7-25	Crash Reduction Factors for Traffic Engineering and ITS Improvements	University of North Carolina - Chapel Hill	400,000	8/1/2003	7/31/2005	Research in progress
7-26	Methodology to Predict the Safety Performance of Urban and Suburban Arterials	Midwest Research Institute	696,403	6/2/2003	10/31/2005	Research in progress
7-27	Prepare Parts I and II of the Highway Safety Manual	iTRANS Consulting, Inc.	249,998	5/14/2004	5/13/2006	Research in progress
7-28	Pavement Marking Materials and Markers: Safety Impact and Cost- Effectiveness	iTRANS Consulting, Inc.	456,796	2/18/2004	2/17/2007	Research in progress

Project		-				
No.	Title	Research Agency	Contract Amount	Starting Date	Completion Date	Project Status **
17-29	Methodology to Predict the Safety Performance of Rural Multilane Highways	Texas A&M University	500,000	7/1/2004	6/30/2006	Research in progreess
17-30	Traffic Safety Evaluation of Nighttime and Daytime Work Zones	Texas A&M University	500,000	5/1/2004	10/31/2006	Research in progress
17-31	Human Factors Guidelines for Road Systems - Phase 2		300,000			In development
17-32	Balancing the Benefits and Tradeoffs of Shoulder Rumble Strips and Centerline Rumble Strips on Divided and Undivided Highways in Urban and Rural Areas		400,000			In development
17-33	Effectiveness of Behavioral Highway Safety Countermeasures		600,000			In development
17-34	Prepare Parts IV and V of the Highway Safety Manual		200,000			In development
-	AREA EIGHTEEN : MATERIA	LS AND CONSTRUC	TION-CO	NCRETE	MAŢERIA	LS .
18-01	Revibration of Retarded Concrete for Continuous Bridge Decks	University of Illinois	103,895 *	9/1/1967	12/1/1969	CompletedPublished as NCHRP Report 106
18-02	Use of Polymers in Highway Concrete	Lehigh University	300,000 *	10/1/1972	9/30/1975	CompletedPublished as NCHRP Report 190
18-02(02)	Polymer Concrete in Highway Bridge Decks	Lehigh University	30,000 *	1/1/1978	3/15/1979	CompletedReport not published; for avail. see Summary of Progress Throug 1988
18-02(03)	Long-Term Rehabilitation of Salt- Contaminated Bridge Decks	Lehigh University	199,900 *	5/1/1980	4/29/1983	CompletedPublished as NCHRP Report 257
18-03	Silica Fume Concrete for Bridge Decks	Construction Technology Laboratorics	314,194	3/1/1995	9/30/1997	CompletedPublished as NCHRP Report 410
18-04A	Durability of "Early-Opening-to- Traffic" Portland Cement Concrete for Pavement Rehabilitation: Background and Plan for Evaluation	Texas A&M University	42,968	11/15/1997	9/30/1998	CompletedAgency report available for loan
18-04B	Durability of "Early-Opening-to- Traffic" Portland Cement Concrete for Pavement Rehabilitation	Michigan Tech University	349,734	4/3/2000	7/15/2004	CompletedTo be published as NCHRP Report 540
18-05	Relationship of Portland Cement Characteristics to Concrete Durability	Pennsylvania State University	400,000	4/7/1997	4/30/2001	CompletedSummarized in NCHRP Research Results Digest 270
8-06	Service Life of Corrosion-Damaged Reinforced Concrete Bridge Superstructure Elements (Phase I)	Michigan State University	19,675	1/4/2000	8/31/2001	CompletedPhase I only; continued under Project 18- 06A
8-06A	Service Life of Corrosion-Damaged Reinforced Concrete Bridge Superstructure Elements	Concorr, Inc.	350,000	4/10/2001	2/28/2005	Research in progress
18-07	Prestress Losses in Pretensioned High- Strength Concrete Bridge Girders	University of Nebraska - Lincoln	300,000	6/8/1999	8/31/2002	CompletedPublished as NCHRP Report 496

20-24(14)D	Innovations in Private Involvement in Project Delivery	Consultant: Donn Hancher	25,000	10/26/2000	5/31/2001	CompletedAgency report available as NCHRP Web Document 39, Scan 2
20-24(14)E	Innovations In Institutionalizing Systems Operations	Consultant: Philip Tarnoff	25,000	10/26/2000	5/31/2001	Completed—Agency report available as NCHRP Web Document 39, Scan 3
20-24(14)F	Innovations In Workforce Strategies	Texas A&M University	25,000	11/15/2000	5/31/2001	CompletedAgency report available as NCHRP Web Document 39, Scan 5
20-24(14)G	Innovations In Organization Development as a Result of Information Technology	Battelle Columbus	25,000	10/26/2000	4/30/2001	CompletedAgency report available as NCHRP Web Document 39, Scan 6
20-24(14)H	Innovative Finance	Cambridge Systematics	25,000	11/20/2000	5/31/2001	CompletedAgency report available as NCHRP Web Document 39, Scan 8
20-24(14)I	Managing Change in State Departments of Transportation	Consultant: Robert Johns	25,000	10/26/2000	5/31/2001	CompletedNo report
20-24(14)J	Managing Change in State Departments of Transportation	Consultant: Stephen Lockwood	25,000	10/31/2000	5/31/2001	CompletedNo report
20-24(15)	Scoping a Comprehensive Process to Serve Reauthorization Programs & a Review of the Condition and Performance Reporting Process	Consultant: Alan E. Pisarski	60,000	12/1/2000	12/31/2001	CompletedReport provide to AASHTO
20-24(16)	AASHTO Experience in Transportation Enhancements	Transmanagement, Inc.	38,903	12/15/2000	4/15/2002	CompletedReport sent to AASHTO
20-24(17)	National Conference on Historic Preservation	Transmanagement, Inc.	49,572	6/15/2001	6/15/2003	CompletedReport sent to AASHTO
20-24(18)	Outsourcing of State DOT Delivery of Capital Programs	Science Applications International Corporation	99,992	3/28/2002	4/30/2003	CompletedAgency report available as NCHRP Web Document 59
20-24(19)	State DOTs and E-Business	Booz-Allen & Hamilton	150,000	9/26/2003	9/25/2004	CompletedPublication decision pending
20-24(20)	Using Performance Measures to Manage Change in State Departments of Transportation	TransTech Management, Inc.	100,000	4/16/2002	7/31/2003	CompletedFinal report published by AASHTO

TABLE 1	(continued)

Project		

No.	Title	Research Agency	Contract Amount	Starting Date	Completion Date	Project Status **
20-24(21)	Characteristics of the 21st Century Operations-Oriented State DOT	PB Consult, Inc.	100,000	5/29/2002	10/30/2004	CompletedPublication decision pending
20-24(22)	Best Practices in Partnering with Public Resource Agencies	TransTech Management, Inc.	28,000	10/10/2002	6/30/2003	CompletedBrochure published by AASHTO
20-24(23)A	Assessing the Importance of Transportation for Major Industries and Sectors of the U.S. Economy Agriculture	North Dakota State University	50,000	5/15/2002	11/21/2003	CompletedReport available on agency website at http://www.ugpti.org/forum/i ex.php
20-24(23)A(01)) Assessing the Importance of Transportation for Major Industries and Sectors of the U.S. Economy Agriculture	North Dakota State University	30,305			CompletedSupplemental payment
20-24(23)B	Assessing the Importance of Transportation for Major Industries and Sectors of the U.S. Economy International Trade	California State University	49,051	9/15/2002	3/31/2003	CompletedAgency report available at http://www.metrans.org/caler ar.htm
20-24(23)C	Assessing the Importance of Transportation for Major Industries and Sectors of the U.S. Economy Congestion	UCLA Foundation	50,000	7/30/2003	12/31/2003	CompletedAgency report available at http://www.uclaextension.edu publicpolicy
20-24(23)D	Assessing the Importance of Transportation for Major Industries and Sectors of the U.S. Economy Travel, Tourism, and Recreation		50,000			In development
20-24(24)A	Transportation Mobility, Access, and Safety for an Aging Population	Consultant: Jon Burkhardt	15,000	5/23/2003	10/15/2003	CompletedAgency report available on loan
20-24(24)B	Transportation Mobility, Access, and Safety for an Aging Population	Consultant: John W. Eberhard	15,000	5/23/2003	12/31/2003	CompletedAgency report available on loan
0-24(24)B(01)) Transportation Mobility, Access, and Safety for an Aging Population	Eno Transportation Foundation	84,274	4/9/2004	1/31/2005	Research in progress Symposium held Nov. 4 and 2004; proceedings under review
20-24(25)	Improving Project Costing and Incorporation of New Attributes Highways and Transit	AECOM Consulting Transportation Group	125,000	4/3/2002	7/31/2003	CompletedFinal report to b sent to AASHTO
20-24(26)A	Finance Trends Trends in Non- Federal Funding and Debt	PB Consult, Inc.	100,000	2/28/2002	8/15/2002	CompletedFinal report sen to AASHTO
20-24(26)B	Trends in Non-Federal Funding and Debt	Urban Land Institute	75,000	3/4/2002	8/31/2002	CompletedFinal report sen to AASHTO
0-24(27)	Expanded State and National Investment Analysis Capability- Highways	Cambridge Systematics	249,776	2/14/2002	2/28/2003	CompletedFinal report sen to AASHTO
20-24(28)	Rate of Return From Highway Investment	Delcan, Inc.	99,998	10/15/2002	7/31/2003	CompletedRevised final report overdue
0-24(29)	CEO Peer Exchange Workshop for Strategic Leadership	University of Minnesota	99,335	11/15/2002	11/14/2003	CompletedAgency report available from AASHTO and website for the AASHTO Standing Committee on Quality

Project		_				
No.	Title	Research Agency	Contract Amount	Starting Date	Completion Date	Project Status **
20-24(29)(02)	CEO Peer Exchange Workshop for Strategic Leadership	University of Minnesota	15,012	7/1/2003	12/31/2003	CompletedTravel support
20-24(30)	Performance Measurement In Context Sensitive Design	TransTech Management, Inc.	100,000	7/2/2003	10/1/2004	Completed
20-24(31)	Effective Program Delivery in a Constrained Fiscal Environment	TransTech Management, lnc.	199,999	6/4/2004	12/3/2005	Research in progress
20-24(32)	AASHTO CEO Briefing	Tom Warne & Associates, LLC	20,000			CompletedNo report
20-24(33)	Transportation Vision 2010 and Beyond	Various				Work accomplished under 20-24(33)A, B, and C
20-24(33)A	21st Century Freight Mobility	ICF Consulting, Inc.	80,000	9/12/2003	7/30/2004	CompletedAgency report to be available as an NCHRP Web Document
20-24(33)B	Transportation, Technology, and the 21st Century Vehicle	Delcan, Inc.	75,000	8/22/2003	8/31/2004	CompletedAgency report to be available as an NCHRP Web Document
20-24(33)C	Vision 2010	Tom Warne & Associates, LLC	75,000	9/24/2003	7/31/2004	CompletedAgency report to be available as an NCHRP Web Document
20-24(34)	Commuting in America III	Alan E. Pisarski	100,000	11/17/2003	3/31/2005	Research in progress
20-24(35)	Communicating Urban Congestion Information	Texas A&M University	100,000	8/20/2004	8/19/2006	Research in progress
20-24(36)	Updating AASHTO's Strategic Plan in CY2004	TransTech Management, Inc.	100,000	3/30/2004	12/29/2004	CompletedDeliverable provided to AASHTO
20-24(36)A	Updating AASHTO's Strategic Plan in CY2004	TransTech Management, Inc.	50,000	6/20/2004	6/23/2004	Workshop support
20-24(37)	Strategic Performance Measures for State DOTs: Benchmarking Performance	TransTech Management, Inc.	100,000	3/19/2004	3/18/2005	Research in progress
20-24(38)	CEO Engagement Options for Discussing Strategic Issues and Sharing Best Practices	University of Minnesota	49,654	4/16/2004	1/15/2005	Research in progress
20-24(39)	Alternative Organizational Designs for State Transportation Departments for Improving Strategy, Delivery, and Operations		220,000			In development
20-24(40)	Analysis and Benchmarking of State DOT Human Resource Activities	B.T. Harder, Inc.	49,658	9/21/2004	6/20/2005	Research in progress
20-24(41)	Project Summaries for State DOT CEOs		30,000			In development; TRB staff effort
20-24(42)	Comparison of State DOT Quality Management Systems		150,000			In development
20-24(43)	Innovative Contracting for Major Transportation Projects		100,000			In development

Highway Trade-Offs

No.	Title	Research Agency	Contract Amount	Starting Date	Completion Date	Project Status **
20-24(44)	Highway Safety Leadership Organizational Issues: A Survey of States and Recommendations for Sustaining Progress	<u> </u>	100,000			In development
20-24(45)	Executive Seminar, Coordinating Transportation and Land Development: Outlook, Challenges, Success		100,000			In development
20-24(46)	Freight Transportation: New Roles for State DOTs		120,000			In development
20-24(47)	Benchmarking Diversity in the Transportation Industry: A Scoping Study		25,000			In development
20-24(48)	Analysis and Benchmarking of State DOT Human Resource Activities		50,000			In development
20-24(49)	Future Financing to Meet Highway Needs					In development
20-25	Training Needs for Highway Construction Personnel	University of Maryland	73,728 *	6/15/1989	12/31/1990	CompletedAgency report available for loan; summariz in NCHRP Research Results Digest 206
20-25(02)	Training for Highway Construction Personnel	SNI International Resources	224,790	11/1/1991	6/30/1996	CompletedAgency report available for loan; summariz in NCHRP Research Results Digest 206
20-25(03)	Development of Training Material for Highway Construction Personnel	SNI International Resources	299,998	4/17/1995	8/7/1997	CompletedAgency report available for loan; summariz in NCHRP Research Results Digest 228
20-26	Bond and Insurance Coverages for Highway Construction Contractors	Texas A&M University	99,999 *	6/1/1989	9/30/1990	CompletedPublished as NCHRP Report 341
20-27	Adaptation of Geographic Information Systems for Transportation	University of Wisconsin	220,000	3/1/1990	6/30/1993	CompletedPublished as NCHRP Report 359; summarized in NCHRP Research Results Digests 18 and 191
20-27(02)	Development of System and Application Architectures for Geographic Information Systems in Transport	University of Wisconsin - Madison	200,000	4/1/1994	8/31/1997	CompletedPart I report summarized in NCHRP Research Results Digest 218 Part II report summarized in NCHRP Research Results Digest 221
20-27(03)	Guidelines for the Implementation of Multimodal Transportation Location Referencing Systems	University of Wisconsin - Madison	136,000	3/1/1998	4/30/2001	CompletedPublished as NCHRP Report 460
20-28	Hazardous Wastes in Highway Rights- of-Way	Transportation Research Board	300,000	4/16/1990	2/1/1992	CompletedPublished as NCHRP Report 351
20-29	Development of a Multimodal Framework for Freight Transportation Investment: Consideration of Rail and Highway Trade-Offs	Texas A&M University	150,000	5/15/1992	8/31/1994	CompletedReport not published pending completion of continuation project

No.	Title	Research Agency	Contract Amount	Starting Date	Completion Date	Project Status **
20-29(02)	Development of a Computer Model for Multimodal, Multicriteria Transportation Investment Analysis	Texas A&M University	217,500	12/15/1995	5/31/1999	CompletedSummarized in NCHRP Research Results Digest 258
20-30	NCHRPIDEA Program	TRB Division E	1,000,000 c	7/8/1992		Research in progress; see project write-up on CRP website
20-31	Public Policy for Surface Freight Transportation	TRB Division B	200,000	12/1/1992	9/4/1996	CompletedPublished as TRB Special Report 246
20-32	Development of a Comprehensive Thesaurus for Transportation Research	CDB Enterprises	225,000	12/1/1993	8/31/1996	CompletedReport not published
20-32(02)	Refinement of Transportation Research Thesaurus and Implementation of Updated TRIS Keyword Index	CDB Enterprises	199,965	12/1/1997	9/30/2000	CompletedPublished as NCHRP Report 450 and available on CRP-CD-6
20-33	Facilitating the Implementation of Research Findings	RAND Corporation	499,955	1/22/1993	1/15/1996	CompletedSummarized in NCHRP Research Results Digest 207 and NCHRP Report 382
20-33(02)	The Role of Procurement and Contracting Approaches in Facilitating the Implementation of Research Findings	Trauner Consulting Services	299,993	2/15/1997	12/31/1998	CompletedPublished as NCHRP Report 428; summarized in NCHRP Research Results Digest 22.
20-34	Developing Measures of Effectiveness for Truck Weight Enforcement Activities	Transportation Research Corporation	499,625	1/1/1994	3/18/1998	CompletedAgency report available as NCHRP Web Document 13; summarized NCHRP Research Results Digest 229
20-35	Plan for SHRP Follow-Up Studies	TRB Division D	100,000	6/1/1993	9/30/1995	CompletedAgency report available for loan
20-36	Highway Research and Technology International Information Sharing	TRB Division D	831,000 c	1/26/1993		Research in progress
20-36A	Scoping Study for a Joint FHWA/AASHTO Scanning Mission to China	Consultant: Wei-Bin Zhang	5,000	7/1/2003	9/24/2003	CompletedAgency report available upon request
20-37	Strategic Direction for the NCHRP and Other AASHTO Research Activities	Apogee Research	243,642	3/1/1994	3/31/1995	CompletedReport not published
20-38	Development of a Manual for State Transportation Research	Consultants: Reilly, Horowitz, Harder	118,000	9/1/1994	6/30/1997	CompletedAgency report available for loan
20-39	Improved User Access to TRIS Through the AASHTO VAN	Texas Transportation Institute	35,944	11/1/1994	7/31/1995	CompletedReport provid to AASHTO
20-39(02)	Improved Transportation Research-In- Progress Data System	Texas A&M University	300,367	3/28/2000	11/30/2005	Research in progress
20-40	Conversion of AASHTO Publications to Metric Units	Texas A&M University	1,208,581	11/1 0/1994	1/31/1999	CompletedSummarized i NCHRP Research Results Digest 240
20-41	Approaches for Increasing Private- Sector Involvement in Highway Innovation Process	TRB Division B	62,500	11/1/1994	6/30/1996	CompletedPublished as TRB Special Report 249

Project		- Research	Contract	Starting	Completion	
No.	Title	Agency	Amount	Date	Date	Project Status **
20-42	Sustainable Transportation	TRB Division B	150,000	5/1/19 94	7/31/1997	CompletedPublished as TRB Special Report 251
20-43	Application of CD-ROM Technology for AASHTO Technical Documents	Applied Research Associates	319,936	1/8/1996	9/30/1998	CompletedResults provided to AASHTO
20-44	Accelerating the Application of NCHRP Research Results	TRB Division D	100,000 c	8/1/1995		Support for various implementation activities
20-44C	Policy Implications of the Economic Value of Transportation	Apogee Research	25,471	8/1/1996	12/31/1996	CompletedReport sent to AASHTO
20-44D	Recommended Specifications for Modular Bridge Expansion Joints	Consultant: Robert Dexter	10,000	1/1/2002	5/31/2002	CompletedSpecifications under review by AASHTO
20-44E	AASHTO CEO Briefing	Tom Warne & Associates, LLC	40,000	12/23/2002	6/30/2003	CompletedNo report
20-45	Scientific Approaches for Transportation Research	Georgia Institute of Technology	199,999	3/23/1998	3/31/2001	CompletedAvailable on CRP-CD-22; NHI course available
20-46	Systems Approach to Evaluating Innovations for Integration into Highway Practice	Worcester Polytechnic Institute	121,866	7/1/1998	6/30/2000	CompletedPublished as NCHRP Report 442
20-47	Quality and Accuracy of Positional Data in Transportation	University of Wisconsin	25,000	7/28/1999	7/27/2001	Contract cancelled
20-47(01)	Quality and Accuracy of Positional Data in Transportation	Battelle Columbus	275,000	12/1/2000	6/1/2003	CompletedPublished as NCHRP Report 506 and CRP CD-41
20-48	Accessibility of Non-English Language Transportation Information	AppTek-L&H	174,228	8/24/1999	11/1/2001	CompletedSummarized in NCHRP Research Results Digest 267
20-48(01)	Making the Business Case for Translating Non-English Transportation Information	Consultant: John Metcalf	30,000	6/1/2002	3/31/2003	CompletedSummarized in NCHRP Research Results Digest 279
20-49	Support for LTPP Advisory Structure	TRB Division E	400,000	3/9/1998	3/8/2003	Completed
20-50(01)	LTPP Data Analysis: Data Availability and Facilitation	Consultant: Dr. Alaeddin Mohseni	50,000	2/11/2002	10/31/2002	Completed
20-50(02)	LTPP Data Analysis: Relative Performance of Jointed Plain Concrete Pavements with Sealed and Unsealed Joints	Kathleen T. Hall	74,963	7/29/1999	5/1/2001	CompletedAgency report available as NCHRP Web Document 32
20-50(03/04)	LTPP Data Analysis: Effectiveness of Maintenance and Rehabilitation Options	Kathleen T. Hall	250,000	10/14/1999	3/31/2002	CompletedAgency report available as NCHRP Web Document 47
20-50(05)	LTPP Data Analysis: Variations in Pavement Design Inputs	Consulpav International	249,991	10/13/1999	10/12/2001	Completed—Agency report available as NCHRP Web Document 48
20-50(06)	LTPP Data Analysis: Verification of Pavement Design Values Using Construction Test Data for SPS-1 and SPS-2 Sites	Cancelled				Project cancelled

No.	Title	Research Agency	Contract Amount	Starting Date	Completion Date	Project Status **
20-50(07/12)	LTPP Data Analysis: Daily and Seasonal Variations in Insitu Material Properties	University of Tennessee	349,969	2/7/2000	8/31/2003	CompletedAgency report to be available as NCHRP Web Document 60
20-50(08/13)	LTPP Data Analysis: Factors Affecting Pavement Smoothness	Soil & Materials Engineers, Inc.	199,998	10/25/1999	12/30/2001	CompletedAgency report available as NCHRP Web Document 40; summarized in NCHRP Research Results Digest 264
20-50(09)	LTPP Data Analysis: Feasibility of Using FWD Deflection Data to Characterize Pavement Construction Quality	Consulpav International	174,996	5/2/2000	6/3/2002	CompletedAgency report available as NCHRP Web Document 52
20-50(10)	LTPP Data Analysis: Factors Affecting the Performance of Flexible and Rigid Pavements	Arizona State University	46,387	4/17/2000	10/16/2001	Contract terminated Continued under Project 20- 50(10/16)
20-50(10/16)	LTPP Data Analysis: Influence of Design and Construction Features on the Response and Performance of New Flexible and Rigid Pavements	Michigan State University	299,301	6/27/2002	1/31/2005	Research in progress
20-50(11)	LTPP Data Analysis: Significance of Traditional Materials Pay Factors to Pavement Performance	Cancelled				Project cancelled
20-50(14)	LTPP Data Analysis: Significance of "As-Constructed" AC Air Voids to Pavement Performance	Applied Pavement Technologies	100,000	6/5/2000	6/28/2002	CompletedSummarized in NCHRP Research Results Digest 269
20-50(15)	LTPP Data Analysis: Confidence of WIM Axle Load Data	Cancelled				Project cancelled
20-51(01)	LTPP Product Development: Workshop on Pavement Smoothness	Soil & Materials Engineers, Inc.	56,000	1/24/2000	12/31/2001	CompletedAgency report available as NCHRP Web Document 42
20-51(02)	LTPP Product Development: PCC Pavement Practice Manual and Workshop	Transferred	100,000			Transferred to FHWA
20-51(03)	LTPP Product Development: Pavement Smoothness Specification for Approaches to WIM Equipment Sites	Transferred	100,000			Transferred to FHWA
20-52	TRAC PAC2 A Hands-on Educational Program	Commonwealth of Virginia	350,094	5/30/2000	5/29/2002	CompletedNew modules transferred to AASHTO
20-52(01)	Implementing TRAC PAC2 A Hands-on Educational Program	TransTech Management, Inc.	200,000	2/24/2003	2/1/2005	Research in progressDraft report in review
20-53	Using Customer Needs to Drive Transportation Decisions	Howard/Stein-Hudson Associates	149,985	5/11/2001	11/30/2002	CompletedPublished as NCHRP Report 487
20-54	Accelerating Opportunities for Innovation in the Highway Industry	TRB Division A/Consultant T. Ferragut	170,000	5/1/2000	1/1/2005	Research in progress
20-55	TRB Study on Future Surface Transportation Agency Human Resource Needs	TRB Division B	100,000	9/5/2000	3/31/2003	CompletedPublished as TRB Special Report 275
20-56	New Services for AASHTO's World Wide Web Site	Logistics Management Institute	474,144	3/25/2002	10/30/2003	CompletedResults provid to AASHTO

No	Title	Research Agency	Contract Amount	Starting Date	Completion Date	Project Status **
25-09(01)	Environmental Impact of Construction and Repair Materials on Surface and Ground WatersOutreach and Training	Oregon State University	99,957	5/16/2002	12/31/2004	CompletedWorkshop materials available for loan
25-10	Estimating the Indirect Effects of Proposed Transportation Projects	Louis Berger & Associates	287,666	12/1/1993	5/31/1996	CompletedPublished as NCHRP Report 403
25-10(02)	Continuation Funding for Estimating the Indirect Effects of Proposed Transportation Projects	Louis Berger & Associatcs	199,265	5/20/1999	5/1/2001	CompletedPublished as NCHRP Report 466
25-11	Development of a Modal-Emissions Model	University of California - Riverside	2,342,604	8/15/1995	9/30/2000	CompletedPublication decision pending
25-12	Wet Detention Pond Design for Highway Runoff Pollution Control	Washington State University	580,218	4/15/1996	2/2/2002	CompletedReport not published; agency report available for loan
25-13	Assessments of Impacts of Bridge Deck Runoff Contaminants on Receiving Waters	CH2M Hill	129,556	3/15/1997	12/31/2001	CompletedSummarized in NCHRP Research Results Digest 235
25-13(02)	Assessments of Impacts of Bridge Deck Runoff Contaminants on Receiving Waters	CH2M Hill	254,280	10/1/1999	12/31/2001	CompletedPublished as NCHRP Report 474
25-14	Heavy-Duty Vehicle Emissions	Cambridge Systematics	500,000	12/1/1998	10/31/2002	CompletedPublication decision pending
25-15	Short-Term Monitoring for Compliance with Air Quality Standards	CH2M Hill	200,000	12/1/1998	6/15/2002	CompletedPublished as NCHRP Report 479
25-16	Guidance for Selecting Compensatory Wetland Mitigation Options	A.D. Marble & Co., Inc.	224,784	3/1/1999	7/1/2002	CompletedSummarized in NCHRP Research Results Digest 251; published as NCHRP Report 482
25-17	Transportation Effects of the 1997 Changes to the National Ambient Air Quality Standards (NAAQS)	ENVIRON International Corporation	539,995	3/1/19 99	11/30/2002	CompletedPublication decision pending
25-18	Particulate Matter (PM2.5 and PM10) Apportionment for On-Road Mobile Sources	ARCADIS Geraghty & Miller	1,199,986	4/1/1999	1/31/2005	Research in progress
25-19	Evaluation of Methods, Tools, and Techniques to Assess the Social and Economic Effects of Transportation Projects	University of Iowa	199,935	3/29/1999	4/1/2001	CompletedPuhlished as NCHRP Report 456
25-20	Management of Runoff from Surface Transportation Facilities Synthesis and Research Plan	GKY & Associates, Inc.	149,889	4/14/1999	3/31/2001	CompletedAgency report available as NCHRP Web Document 37; CD-ROM de reference available upon request
25-20(01)	Evaluation of Best Management Practices for Highway Runoff Control	Oregon State University	699,826	8/22/2002	5/21/2005	Research in progress
25-20(02)	Identification of Research Needs Related to Highway Runoff Management	Venner Consulting	49,993	4/22/2003	12/31/2003	CompletedTo be publishe as NCHRP Report 521

No.	Title	Research Agency	Contract Amount	Starting Date	Completion Date	Project Status **
25-21	Assessment of Short-Term Versus Long-Term Air Quality Effects of Traffic Flow Improvement Projects	Dowling Associates	375,000	10/19/1999	4/30/2003	CompletedTo be published as NCHRP Report 535
25-22	Technologies to Improve Consideration of Environmental Concerns in Transportation Decisions	CH2M Hill	179,994	3/10/2000	12/15/2001	CompletedAvailable on CRP-CD-14
25-22(02)	Technologies to Improve Consideration of Environmental Concerns in Transportation Decisions	CH2M Hill	250,000	5/7/2004	1/30/2006	Research in progress
25-23	Environmental Information Management and Decision Support System for Transportation	Booz-Allen & Hamilton	248,767	5/19/2000	8/19/2002	CompletedPublished as NCHRP Report 481
25-23(02)	Software for an Environmental Information Management and Decision Support System	Cambridge Systematics	400,000	6/2/2004	9/20/2006	Research in progress
25-24	Monitoring, Analyzing, and Reporting on the Environmental Streamlining Pilot Projects	Vanasse Hangen Brustlin, Inc.	299,988	7/13/2001	1/12/2005	Research in progress
25-25	Research for the AASHTO Standing Committee on the Environment		600,000 c			Task order contracts
25-25/Task 01	Synthesis on Data Needs for EA and EIS Documentation	Parsons Brinckerhoff Quade & Douglas	49,858	9/30/2003	2/1/2005	Research in progress
25-25/Task 02	Transportation Impacts and "Smart Growth" Initiatives	Cambridge Systematics	70,000	5/21/2003	5/20/2004	CompletedReport sent to AASHTO
25-25/Task 03	Assessment and Mitigation Strategics for Land Development Impacts of Transportation Improvements	ICF Consulting, Inc.	99,893	4/4/2003	2/1/2005	Research in progress
25-25/Task 04	Environmental Stewardship Best Practices for Road Construction and Maintenance	Parsons Brinckerhoff Quade & Douglas	149,690	9/30/2003	9/30/2004	CompletedReport sent to AASHTO
25-25/Task 05	Assessing the Current State of the NEPA Environmental Review Process	TransTech Management, Inc.	60,000	1/7/2003	12/30/2003	CompletedReport sent to AASHTO
25-25/Task 06	Preparing State DOTs for Implementation of the 8-hour Ozone and PM2.5 Standards	Consultant: Sarah Siwek	20,000	7/23/2003	10/30/2003	CompletedReport sent to AASHTO
25-25/Task 07	Evaluation of Mobile Models: MOBILE 6.1, MOBILE 6.2 and MOBILE6/CNG	Parsons Brinckerhoff Quade & Douglas	49,972	10/6/2003	6/30/2004	CompletedReport sent to AASHTO
25-25/Task 08	Developing Performance Data Collection Protocol for Stream Restoration	ICF Incorporated	50,000	8/8/2004	8/7/2005	Research in progress
25-25/Task 09	Use of Existing Data in Decisionmaking		50,000			In development
25-25/Task 10	Alternative Mitigation Strategies/Early Mitigation: Streamlining and Achieving Net Benefits for the Natural Environment	Parsons Brinckerhoff Quade & Douglas	99,971	9/10/2004	9/9/2005	Research in progress
25-25/Task 11	Secondary/Indirect and Cumulative Effects Analysis	Parsons Brinckerhoff Quade & Douglas	74,988	9/10/2004	10/1/2005	Research in progress

Project

Project		-				
No.	Title	Research Agency	Contract Amount	Starting Date	Completion Date	Project Status **
25-25/Task 12	Design-Build Environmental Compliance Process and Level of Detail Required	Cambridge Systematics	50,000	1/7/2004	1/1/2005	Research in progress
25-25/Task 13	Agency Use and Approach to FHWA Approved Programmatic Agreements	Parsons Brinckerhoff Quade & Douglas	59,938	9/10/2004	6/9/2005	Research in progress
25-25/Task 14	Evaluation of Various Assessment Methodologies Used to Study and Monitor the Effects of Dam Removal Projects (Stream Restoration) Implemented as Appropriate Stream Mitigation for Federally Funded Transportation Projects	ICF Consulting, Inc.	74,948	8/8/2004	8/7/2005	Research in progress
25-25/Task 15	Historic Bridges	Parsons Brinckcrhoff Quade & Douglas	75,000	9/10/2004	9/9/2005	Research in progress
25-26	Development of a Low Impact Development Design and Construction Manual for Transportation Systems		500,000			Combined with 25-20(01)
25-27	Evaluation of the Use and Effectiveness of Wildlife Crossings	Utah State University	500,000	6/1/2004	5/31/2007	Research in progress
25-28	Predicting and Mitigating Hydroacoustic Impacts on Fish from Pile Installation		450,000			In development

* Final contract cost

** Information on all projects initiated under the NCHRP from its inception in 1962 through 1988 is included in the Special Edition of Summary of Progress through 1988. Subsequent to 1988, information about project status is available on the NCHRP World Wide Web site at http://www4.national-academies.org/trb/crp.nsf.

^a NCHRP funds obligated under the \$314,340 four-way agreement among the National Academy of Sciences, Michigan Department of State Highways, Wayne County, and the City of Detroit.

^b NCHRP funds obligated under the \$70,000 five-way agreement among the National Academy of Sciences, Michigan Department of State Highways, Wayne County, the City of Detroit, and the University of Michigan.

^c Continuing activity. Amount shown is for latest fiscal year in which funding was provided.

TABLE 2 PUBLISHED REPORTS OF THE NATIONAL COOPERATIVE HIGHWAY RESEARCH PROGRAM

	REPORT		REPORT
NO.	TITLE, PROJECT, PAGES, PRICE	NO.	TITLE, PROJECT, PAGES, PRICE
214	Design and Traffic Control Guidelines for Low-Volume	239	Multiple-Service-Level Highway Bridge Railing Selection
	Rural Roads (Proj. 20-7, Task 13), 41 p., \$5.60		Procedures (Proj. 22-2(3)), 161 p., \$10.40
215	Pavement Management System Development (Proj. 20-7,	240	A Manual to Determine Benefits of Separating Pedestrian
	Task 15), 32 p., \$5.20		and Vehicles (Proj. 20-10(2)), 56 p., \$7.20
216	The No-Action Alternative—Research Report (Proj. 811),	241	Guidelines for Using Vanpools and Carpools as a TSM
	72 p., \$6.80		Technique (Proj. 8-21), 154 p., \$10.40
217	The No-Action Alternative—Impact Assessment	242	Ultrasonic Measurement of Weld Flaw Size (Proj. 10-13)
	Guidelines (Proj. 8-11), 174 p., \$9.60		76 p., \$8.00
218A	Ecological Effects of Highway Fills on Wetlands-	243	Rehabilitation and Replacement of Bridges on Secondary
	Research Report (Proj. 20-15), 34 p., \$5.20		Highways and Local Roads (Proj. 12-20), 46 p., \$6.80
218B	Ecological Effects of Highway Fills on Wetlands-User's	244	Concrete Sealers for Protection of Bridge Structures (Pro
	Manual (Proj. 20-15), 99 p., \$7.20		12-19A), 138 p., \$10.00
219	Application of Traffic Conflict Analyses at Intersections	245	Methodology for Evaluating Highway Air Pollution
	(Proj. 17-3), 109 p., \$7.60		Dispersion Models (Proj. 20-18), 85 p., \$8.40
220	Erosion Control During Highway Construction—Research	246	Predicting Moisture-Induced Damage to Asphaltic
	Report (Proj. 16-3), 30 p., \$5.60		Concrete—Field Evaluation (Proj. 4-8(3)) 50 p., \$7.20
221	Erosion Control During Highway ConstructionManual	247	Effectiveness of Clear Recovery Zones (Proj. 17-5) 68 p.,
	on Principles and Practices (Proj. 16-3), 108 p., \$14.40		\$7.20
222	Bridges on Secondary Highways and Local Roads-	248	Elastomeric Bearings Design, Construction, and Material
	Rehabilitation and Replacement (Proj. 12-20), 132 p.,	-10	(Proj. 10-20), 82 p., \$8.40
	\$9.20	249	Peak-Hour Traffic Signal Warrant (Proj. 3-20A), 71 p.,
223	Maintenance Levels-of-Service Guidelines (Proj. 14-5),		\$7.60
	118 p., \$8.80	250	New Approaches to Understanding Travel Behavior (Proj
224	Guidelines for Recycling Pavement Materials (Proj. 1-17),		8-14A), 142 p., \$10.00
	137 p., \$9.20	251	Assessment of Deficiencies and Preservation of Bridge
225	Plastic Pipe for Subsurface Drainage of Transportation		Substructures Below the Waterline (Proj. 10-16), 80 p.,
	Facilities (Proj. 4-11), 153 p., \$9.60		\$8.40
226	Damage Evaluation and Repair Methods for Prestressed	252	Adding Dust Collector Fines to Asphalt Paving Mixtures
	Concrete Bridge Members (Proj. 12-21), 66 p., \$7.20		(Proj. 10-19), 90 p., \$8.40
22 7	Fatigue Behavior of Full-Scale Welded Bridge	253	Application of Disaggregate Travel Demand Models (Pro
,	Attachments (Proj. 12-15(3)), 47 p., \$6.40	-00	8-13(2)), 207 p., \$12.40
228	Calibration of Response-Type Road Roughness Measuring	254	Shoulder Geometrics and Use Guidelines (Proj. 1-22), 71
	Systems (Proj. 1-18), 81 p., \$7.60		p., \$7.60
229	Methods for Analyzing Fuel Supply Limitation on	255	Highway Traffic Data for Urbanized Area Project
	Passenger Travel (Proj. 8-23), 132 p., \$9.20		Planning and Design (Proj. 8-26), 191 p., \$11.60
230	Recommended Procedures for the Safety Performance	256	Partial Lighting of Interchanges (Proj. 5-9), 81 p., \$8.40
	Evaluation of Highway Appurtenances (Proj. 22-2(4)), 42	257	Long-Term Rehabilitation of Salt-Contaminated Bridge
	p., \$6.00	-01	Decks (Proj. 18-2(3)), 32 p., \$6.40
231	State Transportation Finance Within the Context of	258	Control of Air Content in Concrete (Proj. 10-18), 84 p.,
-01	Energy Constraints (Proj. 8-22), 86 p., \$7.60		\$8.40
232	Guidelines for Selection of Ramp Control Systems (Proj.	259	Design of Emulsified Asphalt Paving Mixtures (Proj. 9-5
	3-22A), 108 p., \$8.40		97 p., \$8.80
233	Selecting Traffic Signal Control at Individual Intersections	260	Application of Statewide Freight Demand Forecasting
	(Proj. 3-27), 133 p., \$9.20		Techniques (Proj. 20-17A), 210 p., \$12.80
234	Galvanic Cathodic Protection for Reinforced Concrete	261	Cost-Effectiveness of Transportation Services for
	Bridge Decks-Field Evaluation (Proj. 12-13A), 64 p.,		Handicapped Persons-Research Report (Proj. 8-27), 130
	\$6.80		p., \$9.60
235	Effectiveness of Changeable Message Displays in Advance	262	Planning Transportation Services for Handicapped
	of High-Speed Freeway Lane Closures (Proj. 3-21(2)), 49		Persons-User's Guide (Proj. 8-27), 74 p., \$8.00
	p., \$7.00	263	Simplified Procedures for Evaluating Low-Cost TSM

TABLE 7 (continued)

HOW TO OBTAIN PUBLICATIONS AND OTHER MATERIALS

Items for Sale

- 1. NCHRP Series Reports, Syntheses, Research Results Digests, and Legal Research Digests (see Tables 2, 3, 4, and 5 for prices).
- 2. Research agencies' final reports (see project summaries for prices).
- 3. Microfiche (\$8.00 per report). Price may change without notice. See latest Summary of Progress for current cost.
- 4. Other TRB publications.

A check or money order, payable to *Transportation Research Board*, must accompany all orders regardless of amount involved. Payment may be made by check or money order (payable to Transportation Research Board) or by VISA, MasterCard, or American Express only if more than \$10.00. Only charge-card orders will be accepted by telephone (202/334-3213) or fax (202/334-2519). Be sure to include expiration date. Mail orders to the following address:

Transportation Research Board Business Office 500 Fifth Street NW Washington, DC 20001

To order NCHRP publications on the Internet, use the following address:

http://www.trb.org/trb/bookstore

Follow the online instructions. Payment must be made using VISA, MasterCard, or American Express.

Items Available Free of Charge On Line

Since 2001, NCHRP Reports, Syntheses, Research Results Digests, and Legal Research Digests have been posted on the TRB website in PDF format (see the <u>TRB homepage</u>, "Online Documents").

Items for Loan

- 1. Some research agencies' final reports, manuals, videotapes, etc., are identified in the project summaries and are available on a loan basis upon written request to: Cooperative Research Programs, 500 Fifth Street NW, Washington, DC 20001
- 2. Loan requests for films and tapes should be directed to:

Mailing and handling charges may be assessed, especially where 1st-class delivery is requested; an invoice will accompany the loaned item.

Summary of Progress Through 1988—Special Edition

Printed copies are available, free of all charges, by ordering directly from Cooperative Research Programs, Transportation Research Board, 2101 Constitution Avenue NW, Washington, DC, 20418.

This document also can be viewed as *NCHRP Web Document* 7. See the Cooperative Research Programs' homepage (<u>http://www.trb.org/nchrp</u>) and click on "Web Documents".
