

May 20, 2004

The Honorable Zev Yaroslavsky
Chair, Board of Directors
Metropolitan Transportation Authority
One Gateway Plaza
Los Angeles, CA 90012

Dear Supervisor Yaroslavsky:

This letter supersedes the May 18, 2004 letter from my office pertaining to this subject. On behalf of the City of Los Angeles, I am submitting to you the City's nominees to the MTA Westside/Central and San Fernando Service Sectors for consideration at the meeting of the full Board of the MTA on May 27, 2004. They are as follows:

Mr. A. Dennis Lytton, a Hollywood resident, law student at the Southwestern University School of Law, and an avid user of the Metro transit system, for the final vacant seat on the Westside/Central Governance Council.

Dr. Richard O. Arvizu, a resident of West Hills, the Associate Vice President of Administrative Services at Los Angeles Mission College, and a regular patron of the Metro transit system. He has been nominated by Los Angeles City Council President Alex Padilla to replace Mr. Bart Reed on the San Fernando Valley Governance Council.

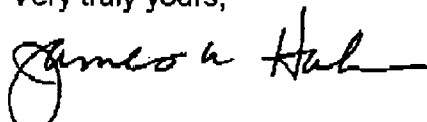

Each of the above nominees resides in the respective Service Sector areas, and they are all involved in their local communities and follow transit deployment and development issues.

Honorable Zev Yaroslavsky
May 20, 2004

I am confident that each of these nominees will offer valuable information and experience regarding transit planning. Their resumes are enclosed. Thank you for your consideration.

Very truly yours,

JAMES K. HAHN
Mayor

Summary of Qualifications

A dynamic, energetic, result-oriented, and visionary executive professional with exceptional communication skills. Proven stellar abilities in strategic planning, financial analysis, innovative thinking, managing multiple and complex programs simultaneously, and an extensive background in systems integration. Able to quickly grasp complex concepts, analysis and interpret ideas into a logical strategy for implementation. Successfully demonstrated the ability to motivate and lead a diverse group of individuals to maximize efficiency, effectiveness and productivity.

AREAS OF EXPERTISE

Strategic Planning Management	Program Management	Facilities
CIS & MIS Technology Planning	Budgetary Control	Capital Construction
Contract Administration Management	Financial Analysis	Human Resource

Professional Experience

Los Angeles Mission College (2002-Present) *Associate Vice President of Administrative Services*

Responsible for senior leadership and management of Administrative Services, which includes financial, budgeting and business operations; facilities; contracting; human resources; campus police; risk management; worker's compensation; reprographics; bookstore; receiving warehouse; parking services; audio/visual; and computers and information systems.

Directly responsible for the leadership and management of the Personnel Office; Telecommunication and Technology Services; Security/Safety and Sheriff's Office; Fiscal Planning (Budget and Finance); Proposition A and AA Construction Projects (\$179M); and supporting college special events and functions.

Initiated a new Emergency Response Plan and Technology Master Plan to lead and direct the college in establishing critical planning documentation and vision for the future.

Rio Hondo Community College District (1999-2001)

Executive Dean, College Services

Provided senior leadership and vision for all aspects of college-wide business operations and services, planning and institutional effectiveness. Worked successfully with civic leaders, community representatives, and student leaders to promote activities, programs and services offered by the college and its police and fire academies.

Directed and managed the following areas: Facilities Services (new construction, renovation, scheduled maintenance, FEMA and infrastructure); Risk Management & Insurance; Security; Parking Services; Human Resources; Marketing & External Relations; Institutional Research & Analysis; Accounting and Finance; Contract Management & Vendor Services (bookstore, warehouse and food services); Technology and Information Services (computers, software, databases, servers, hubs, routers, digital switches, NT systems & telecommunications); Print Shop; Mailroom/College Operator; and Grounds and Maintenance Services.

Successfully managed \$12.5 million renovation of the three-story Science Building complex.

Acquired land, facilities and HUD grant funding (\$1 million) for new Regional Public Safety Training Center.

Space & Missile Systems Center
1999)

(1991-

Executive Director, Office of Research and Technology Applications

Managed technology development and transfer of advanced space and missile systems and technologies for commercialization and privatization. Technical Advisor to the National Law Enforcement & Corrections Technology Center-Western Region for interpreting and facilitating system requirements and integration of complex issues and programs. Directed special classified projects and missions for the NSA, CIA, and NRO in conjunction with unified special operations.

Dr. Richard O. Arvizu

Transferred over \$100 million of dual-use technologies and systems for commercial applications.

Lead and managed the Small Business Innovation Research Program, Cooperative Research and Development Agreements, Educational Outreach Programs, Memorandum of Agreements, and other transfer and grant mechanisms, valued at over \$85 million.

Initiated and finalized agreements with universities, Department of Justice and local law enforcement agencies to transfer military non-lethal and advanced technology systems.

Successfully managed 15 Defense Advanced Research Projects Agency projects valued at over \$70 million.

Successfully transferred high-tech instrumentation for the war against drugs to DEA and Border Patrol.

Co-chaired the Executive Committee on Reinventing Air Force Space, which established space operations as a separate and distinct function (incorporated the classified intelligence agencies and the U.S. Air Force).

Phillips Laboratory
1991)

(1989-

Technical Director, West Coast Office

Senior Technical Advisor to the Laboratory Commander on technology development, testing, strategic planning and overall financial investment strategies. Laboratory focal point and manager to system program offices for acquiring new advanced technologies and test facilities to support their complex and demanding missions.

Initiated and received additional annual funding of over \$50 million for new space and missile technology investments through grants and funding from various organizations and agencies.

Developed the documentation for grants and study funding for advanced technology research and demonstrations with universities and "Think Tank" organizations.

Developed strategic roadmaps and investment strategies to support new advanced classified research.

Space Division
1989)

(1988-

Director of Systems Engineering

Managed, supervised, and directed all aspects of system engineering and testing, system effectiveness and advanced technologies for the \$589 million Kinetic Energy Weapon System concept.

Developed the systems engineering plans for all facilities, demonstrations, and acceptance testing, which saved the government over \$25 million.

Directed and developed the Strategic and Fiscal Master Plan for the Star War Initiative (SWI) dealing with high-energy weapon systems.

Hughes Aircraft Company AFPRO
1988)

(1985-

Director of Engineering and Program Management

Directed and managed all engineering activities, and program and financial management issues for multiple defense weapon systems valued at \$4.23 billion.

Saved the U.S. Air Force over \$55 million in recurring costs by eliminating redundant testing and non-value documentation. Directed the long-range investment strategy plan for the U.S. Air Force, Classified Intelligence Space Program and associated advanced technologies.

Developed Strategic Financial and Facilities Master Plans with Hughes Aircraft Company executives to incorporate DOD and USAF requirements to accommodate current and future classified programs.
