Interim Work Plan for Westside/Central Governance Council

Draft for Discussion July 1, 2004

3 Goals

- Service Development
- Public Focal Point
- Education

Service Development

- Improve service on Westside/Central bus lines within budget constraints
 - Identify and recommend to staff changes in sector routes and schedules that will improve bus transit service.
 - Identify opportunities for cost savings through improved efficiencies such as better scheduling, elimination of duplication, etc.
 - Identify opportunities to improve the existing fleet, bus stops & stations, and customer communication in order to improve the transit experience for passengers.

Public Focal Point

- Provide a forum for the public to present their opinions and suggestions regarding Westside/Central bus service and act on those suggestions where appropriate
 - Hold service change public hearings as required
 - Accept comments and suggestions from the public

Education

- Become knowledgeable about Metro bus operations and service in order to make better decisions/recommendations about service
 - Visit divisions and other facilities
 - Receive briefings on various aspects of service planning and operations such as security, ADA, UFS, route planning & scheduling, budget, etc.
 - Interact and communicate with other Governance Councils.
