"Burbank is a city of great strength and progress. The livable community Burbank has provided for decades is under attack by heavier traffic congestion, an uncertain airport future, and the threat of poorer air and drinking water quality. Burbank needs long-term solutions that energize our neighborhood communities and small businesses, keeps our schools at the forefront of educational opportunities, and protects the welfare of our children, athletes and senior citizens.

Burbank-born and raised, educated with masters degrees in management and policy, and serving as policy director for a statewide organization that fights for a better California, I have the experience to make our community a better place to live, work and raise a family. Thank you for providing me with the opportunity to serve you as a Burbank City Council Member."
