

MOTION

By Director Parks

Metro has traditionally identified their Rail lines by color for various reasons, including operational and communications purposes. The Mid-City/Exposition Light Rail Transit Project has been visually represented over the years with different colors, however, the Board has not adopted an official color. Since inception, the project has been known as the "Expo Line" and a color designation is not necessary to create a stronger identity or help reinforce awareness of the project.

I THEREFORE MOVE that the Metro Board adopt "Expo Line" as the official name for the Mid-City/Exposition Light Rail Transit Project and direct the CEO to indicate the "Expo Line" on all maps and publications by the color rose.
