| This Work Order is released as authorization for work to commence. Any expenditures or reimbursements resulting from this Work Order are subject to the terms set forth in the finalized Master Cooperative Agreement ("MCA") between the Exposition Metro Line Construction Authority (Authority) and AT&T California (inclusive of the terms obligating one party or the other to pay for particular work).<br>It is stipulated between the parties that the amounts set forth in this Work Order are estimates only of the costs associated with the Scope of Work. Actual Costs shall be determined by the terms of the MCA. In the absence of a <u>written</u> Work Order revision issued by the Authority, the Authority shall not be obligated to pay for any work, whether or not described herein, when the cost for such work is in excess of the amount set forth in this Work Order, and the party to whom this Work Order is issued shall not be authorized to perform work in excess of this amount. All billings shall be subject to audit by the Authority and shall note all labor rates, overhead rates, and/or the prices of materials charged.<br>When a Work Order revision is given on contingent approval, it is to be understood that the conditions or circumstances surrounding the revision are still to be subject to verification and justification. Until these steps are satisfactorily completed, the Authority may identify the potentially responsible parties, (i.e., contractor, agency, etc.). The Authority reserves all rights as stated in the MCA. |                       |                                     |                               |  |
| Authorization:                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |                       |                                     |                               |  |
