Fare Revenue

The chart below depicts actual passenger fare revenue received in FY04 through FY06, plus budgeted receipts for FY07 and FY08. In FY04, a 35-day strike partially offset by a fare restructuring resulted in a 10% drop in fare revenue. As a consequence of the fare restructuring and uninterrupted service, FY05 fare revenue

shows growth over FY04. Fare revenue in FY08 is projected to grow by 4% due to increased boardings.

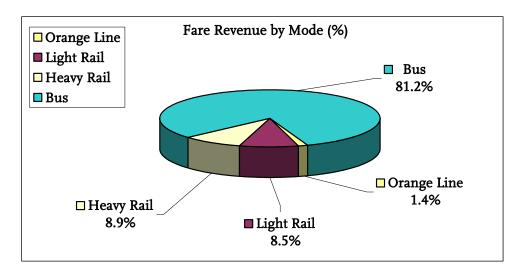

Fare revenue is allocated among modes and lines according to ridership estimates for each line.

Fare Revenue by Mode

The chart below illustrates the estimated FY08 fare revenue by mode. As shown on

the graph, most of Metro's fare revenue is attributed to bus operations.

Regional Programs

Metro provides funding directly to projects through grants of local funds or indirectly through allocated federal or state grants. Local funds consist mainly of Proposition A and Proposition C funds which are disbursed by Metro to agencies based on an approved spending plan. Federal and state grant funds are programmed or allocated by Metro and disbursed directly by the granting agency or disbursed by Metro to the grantee or recipient. The recipient agency is responsible for

administering and managing the federal or state grant.

The FY08 budget for local funding commitments to the Call for Projects (CFP) reflects current year cash flow. Funding for all other local programs, including Municipal Operator programs, ASI, Proposition A Incentive, Local Return, and Metrolink, reflects the FY08 programmed amounts.

Public Transportation Services Corporation

In December 1996, LACMTA created the Public Transportation Services
Corporation (PTSC), a nonprofit public benefit corporation organized under the laws of the state. PTSC was created in order to transfer certain functions, currently performed by the LACMTA, and the employees related to those functions, to this new corporation. The PTSC conducts essential public transportation activities including but not limited to the following: (a) coordinates multi-modal multi-jurisdictional transportation planning, (b) programs Federal, state and local funds for transportation projects

county-wide within Los Angeles County, (c) oversees construction, (d) provides certain business services to the County's Service Authority for Freeway Emergencies (SAFE) and the Southern California Regional Rail Authority (SCRRA), (e) provides security services to the operation of the Metro Bus and Rail systems, and (f) provides other activities and services as it deems necessary. One advantage of the PTSC is that it allows the employees of the corporation, including those transferred from the LACMTA, to participate in the California Public Employees Retirement System (PERS).

Agency Fund

The Agency Fund is used to report Benefit Assessment financial activity.

A Benefit Assessment is a fee used to pay part or all of the cost of capital improvements enhancing the value of property receiving service from, or located near and benefiting from, those capital improvements. Metro's Benefit Assessment is a levy on properties within one-half mile of downtown Metro Heavy Rail stations and one-third mile of the Westlake/ MacArthur Park Station.

Metro's Benefit Assessment Districts (BAD) A1 and A2 were created pursuant to a resolution adopted by the former Southern California Rapid Transit District's Board of Directors on July 11, 1985 to pay for a portion of the construction costs of the Metro Heavy Rail Segment 1 stations. BAD A1 includes the

downtown area of Los Angeles. The boundary is set at one-half mile from the centers of the Metro Heavy Rail stations at Union, Civic Center, Pershing Square, and 7th Street Metro Center. BAD A2 includes the MacArthur Park area. The boundary is set at one-third mile from the center of the Westlake/MacArthur Park Station.

The purpose of the BAD Program is threefold: (1) to ensure that assessments are levied at a rate high enough to repay the A1 and A2 Assessment Districts' bonded indebtedness and administrative costs, (2) to implement the property owner appeals process, and (3) to maintain a current inventory of assessable properties. The A1 and A2 Districts' bonds do not constitute an indebtedness of the Metro and are payable solely from payments received on assessments against the levied properties.

Service Authority for Freeway Emergencies

The Los Angeles County Service Authority for Freeway Emergencies (SAFE) was established in Los Angeles County in 1988. SAFE is a separate legal authority created under state law and is responsible for providing motorist aid services in Los Angeles County. SAFE currently operates, manages and/or funds:

- The Los Angeles County Kenneth Hahn Call Box System
- #399 Mobile Call Box program
- Metro Freeway Service Patrol (FSP)
 Big Rig Demonstration Project
- The expansion of the Metro Freeway Service Patrol.

In FY08, SAFE will continue the operation and management of the call box system and the #399 program. SAFE will also continue its funding of the Metro FSP Big Rig Demonstration Project and the expansion of the Metro FSP program. SAFE also plans on completing an evaluation of the entire call box system and obtaining authorization to proceed with implementing the recommendations

regarding the placement and number of call boxes throughout the County.

Another item on SAFE's agenda for FY08 is the implementation of a new Motorist Aid and Traveler Information System (MATIS). This new system will consolidate all call center operations, provide Metro FSP fleet monitoring services and provide comprehensive traveler information services via the web and phone (511). SAFE plans on having a contract awarded during the first quarter of FY08 and will begin the operation of MATIS during the third quarter of FY08. Additionally, SAFE is in the process of updating all the analog call boxes to digital in accordance with the discontinuance of the availability of any analog signals beginning in 2008.

SAFE receives its funding from a dedicated \$1 surcharge assessed on each vehicle registered within Los Angeles County. SAFE's annual budget is developed and approved separately from Metro's budget by the SAFE Board of Directors.
