

FINANCE AND BUDGET COMMITTEE  
March 19, 2008

**SUBJECT: FY08 SECOND QUARTER FINANCIAL PERFORMANCE**

**ACTION: RECEIVE AND FILE**

**RECOMMENDATION**

Receive and file the FY08 second quarter Financial Performance Report.

**ISSUE**

This report discusses the financial performance of major programs for FY08.

**DISCUSSION**

**SUMMARY OF SALES TAX REVENUES**

Proposition A, Proposition C, Transportation Development Act (TDA), and State Transit Assistance (STA) sales taxes represent just under 60% or \$1.7 billion of total budgeted revenues. Actual quarterly sales tax amounts are received from the State three months after the reporting period end date. Actual cash receipts for the September and December 2007 quarters, which reflect actual economic activity for the period April through September 2007, were \$4.7 million below the same period last year.

STA revenues are sales taxes on gasoline and are distributed through the Prop 42 process. Actual STA revenues received for the first six months totaled \$61.5 million, which is \$33 million or 115.52% more than the year-to-date (YTD) budget of \$28.5 million. The adopted budget for STA was based on the State Controller's estimate at the time of budget preparation. The revised estimate received from the State Controller indicates that we can expect to earn approximately \$96.6 million in STA revenues for FY08 which is \$39.5 million more than planned.

**OUTLOOK OF SALES TAX REVENUES**

As part of the FY08 Financial Stability Policy, the Board adopted the 20-year historical average of 4% for sales tax growth applied to the prior year budget amount as the assumption for the FY08 adopted budget.

We now estimate that FY08 Prop A and C funds will be approximately \$3 million under budget and TDA funds will be approximately \$4 million under budget. This projection relies upon UCLA's latest forecast which indicates taxable sales growth for the County has slowed to approximately 86% for FY08. These sales tax revenue reductions are more than offset by previously unanticipated STA revenue.

The table below summarizes our re-forecasted FY08 sales tax and STA revenues for FY08 based on revised information received from UCLA and the State Controller's Office:

| (Amounts in Millions)                   | FY08 Budget | Revised FY08 Estimates* | Estimated Variance Inc/(Dec) | FY07 Actual |
|---|-------------|-------------------------|------------------------------|-------------|
| Sales Tax Revenues                      |             |                         |                              |             |
| Proposition A                           | \$694.2     | \$692.8                 | (\$1.4)                      | \$686.2     |
| Proposition C                           | 694.3       | 692.9                   | (1.4)                        | 686.3       |
| TDA                                     | 352.4       | 348.3                   | (4.1)                        | 345.0       |
| Total Sales Tax Revenues                | 1,740.9     | 1,734.0                 | (6.9)                        | 1,717.5     |
| State Transit Assistance (STA) Revenues | 57.1        | 96.6                    | 39.5                         | 191.1       |
| Total Sales Tax and STA Revenues        | \$1,798.0   | \$1,830.6               | \$32.6                       | \$1,908.6   |

\*FY08 Estimated Sales Tax figures represent UCLA's latest forecasted growth rate for FY08 (.96%) applied to FY07 actual sales tax revenues. STA Estimated Revenues represent the updated FY08 information provided by the State Controller's Office in October 2007.

## SUMMARY OF ENTERPRISE FUND

Total fare revenues in the first half of FY08 were \$167.7 million which is \$5.7 (3.5%) over the FY08 budget. Fare revenues were \$144.4 million in the first half of last year. System-wide boardings were 234.2 million, 1.8% below the budget. Last year, boardings were 247.1 million during the first half of the year. The fare revenue per boarding in FY08 is \$0.72, 7.5% above budget. Advertising revenue also exceeded the budget by \$0.5 million due to two pilot advertising programs on rail car exteriors and stations.

Overall, operating expenses totaled \$559.2 million, \$19.6 million or 3.4%, below budget. Wage savings from vacant positions were not totally offset by added overtime for the remaining employees, resulting in wage expenses \$3.4 million below the budget. Fringe benefits were below budget by \$3.3 million due to vacancies. Fuel and propulsion power costs were below the budget by \$1.3 million due to lower than expected CNG prices more than offsetting slightly higher usage, and unanticipated increases in electric rates. Parts cost was below budget by \$2.8 million due to lower rail vehicle and central maintenance usage. Professional services were below budget \$6.0 million due to delays implementing TAP, labor negotiations consulting, service planning and analysis systems development and new rail programs such as Pasadena Gold Line signal improvements and Blue and Red line vehicle gap reduction. As a result of ongoing safety programs and a significant lower than anticipated settlement of a Blue Line claim, liability costs were below budget by \$1.4 million.

Gateway Occupancy cost was over budget due to a larger share than planned being allocated to the Enterprise Fund and a smaller share to the Capital Projects Fund. This change occurs when direct labor costs shift from one fund to the other. Workers' compensation costs were on budget in total. However, as a result of claims related to accidents, rail was over budget by \$3.9 million, and bus was under budget by the same amount. All other expense categories were at or slightly below budget.

The combination of increased revenues and decreased costs creates a \$25.8 million favorable variance to the year-to-date budget.

### **OUTLOOK OF ENTERPRISE FUND**

We can expect to end the year on, or slightly below, the adopted budget level for Enterprise fund operating expenses. As vacant positions are filled, higher wage and benefit costs will offset under runs experienced in the first half.

FY08 Enterprise Fund Actual vs. Budget

For the six months ended December 31, 2007

| (Amounts in Millions)          | Actual         | Budget         | Variance<br>Over/(Under) |
|--------------------------------|----------------|----------------|--------------------------|
| Operating Revenue              |                |                |                          |
| Fares                          | \$167.7        | \$162.0        | \$5.7                    |
| Other                          | 9.5            | 9.0            | 0.5                      |

| <b>Total</b>               | <b>\$559.2</b> | <b>\$578.8</b> | <b>(\$19.6)</b> |

Excludes: Muni share of EZ Pass, Debt, Depreciation

## Summary Of Performance Measurements For Bus

For the six months ended December 31, 2007

| Performance Measurement<br>Bus & Orange Line | Actual    | Budget    | Variance<br>Over/<br>(Under) | FY07 Actual | FY06 Actual |
|--|-----------|-----------|------------------------------|-------------|-------------|
| Bus Cost/Revenue Service Hour                | \$116.35  | \$117.04  | (\$0.69)                     | \$109.81    | \$105.86    |
| Orange Line Cost/Revenue Service Hour        | \$197.16  | \$218.73  | (\$21.57)                    | \$212.17    | NA          |
| Bus Revenue Service Hours                    | 3,728,015 | 3,837,203 | (109,188)                    | 3,776,820   | 3,860,917   |
| Orange Line Revenue Service Hours            | 48,535    | 50,781    | (2,246)                      | 41,555      | NA          |
| Bus Cost/Passenger Mile                      | \$0.64    | \$0.63    | \$0.01                       | \$0.55      | \$0.55      |
| Orange Line Cost/Passenger Mile              | \$0.44    | \$0.48    | (\$0.04)                     | \$0.44      | NA          |
| Bus Subsidy/Passenger Mile                   | \$0.43    | \$0.42    | \$0.01                       | \$0.39      | \$0.40      |
| Orange Line Subsidy/Passenger Mile           | \$0.32    | \$0.38    | (\$0.07)                     | \$0.36      | NA          |
| Complaints per 100,000 Boardings             | 2.70      | 2.75      | (0.05)                       | 3.06        | 3.48        |
| Traffic Accidents/100,000 Miles              | 3.42      | 3.50      | (0.08)                       | 3.70        | 3.25        |
| New Workers Comp Claims per 200,000 Hours    | 11.38     | 12.13     | (0.75)                       | 12.43       | 13.87       |
| Mean Miles Between Mechanical Failures       | 3,176     | 3,500     | (324)                        | 3,532       | 3,274       |
| In-Service On-time Performance               | 63.70%    | 65.30%    | -1.60%                       | 63.77%      | 64.35%      |

Note: FY06 Bus includes Orange Line

### Discussion

Bus costs per revenue service hour (RSH) were below the target by 0.6% due to \$15.3 million (3.4%) favorable cost variance more than offsetting 2.8% fewer hours. RSH are below budget due to operating less unscheduled service than budgeted. Operating expenses were 4.9% below budget due to under-expenditures in wages, benefits, Workers' Compensation and services. Orange Line costs per RSH were below target because costs were lower than budget by 13.8%, offsetting RSH being 4.4% below budget. Passenger miles were also below budget, by about the same percentage as revenue service hours. Therefore, cost per passenger mile and subsidy per passenger mile were better than budget.

Complaints per 100,000 boardings were lower than the annual target, and the previous year. As a result of the fare increase, complaints peaked in July then declined thereafter.

Traffic accidents per 100,000 miles were below target, and better than last year. Management continues to develop mitigation programs including defensive driving/accident awareness programs.

New workers' compensation claims per 200,000 hours were lower than the annual budget, and better than last year. The improvement is due to the ongoing safety program and safety meetings that focus on safety awareness and accident prevention.

Mean miles between mechanical failures requiring a bus exchange are worse than the target and last year. Battery-related sensor issues are reported as a major cause for failures.

In-service on-time performance was negatively impacted by increased congestion, and delays in boarding related to the new fare structure.

**Summary Of Performance Measurements For Rail**

For the six months ended December 31, 2007

| Performance Measurement – Rail                 | Actual   | Budget   | Variance Over/ (Under) | FY07 Actual | FY06 Actual |
|--|----------|----------|------------------------|-------------|-------------|
| Heavy Rail Cost/Vehicle Service Hour           | \$328.86 | \$323.87 | \$4.98                 | \$212.89    | \$303.66    |
| Light Rail Cost/Vehicle Service Hour           | \$375.37 | \$382.36 | (\$6.99)               | \$530.70    | \$378.54    |
| Heavy Rail Cost/Passenger Mile                 | \$0.43   | \$0.44   | (\$0.01)               | \$0.39      | \$0.43      |
| Light Rail Cost/Passenger Mile                 | \$0.48   | \$0.50   | (\$0.02)               | \$0.48      | \$0.46      |
| Heavy Rail Subsidy/Passenger Mile              | \$0.27   | \$0.36   | (\$0.09)               | \$0.28      | \$0.30      |
| Light Rail Subsidy/Passenger Mile              | \$0.37   | \$0.45   | (\$0.08)               | \$0.40      | \$0.38      |
| New Workers Comp Claims per 200,000 Hours      | 12.33    | 10.00    | 2.33                   | 8.06        | 11.56       |
| Light Rail Vehicle Accident Rate/100,000 Miles | 0.84     | 0.40     | 0.44                   | 0.55        | 0.40        |

Light rail expenses are \$2.5 million (3.4%) below budget, primarily due to wage, benefits, and a Blue Line liability claims settlement mentioned above. However, heavy rail expenses are \$0.5 million (1.2%) over budget due to greater than anticipated propulsion power, workers' compensation and security costs. As a result of vehicle accidents and equipment failures, light and heavy rail vehicle service hours are 1.1% below budget. Therefore, cost per hour variances are due to cost expenses. Greater than budgeted boardings and fare revenue resulted in favorable variances per passenger mile.

New workers' compensation claims were over budget, and significantly above last year. Light rail accidents on the Blue and Gold Lines, were over the target and worse than the previous year. Rail Operations continues to focus on safety awareness programs to help reduce claims and accident rates.

**SUMMARY OF CAPITAL PROGRAM**

The attached capital program status report for the second quarter of FY08 shows the status of adopted life-of-project budgets and projected total costs to complete for each project. The projected costs to complete are provided by the project managers for each project and are updated quarterly. The following table identifies projects in closeout and projects with potential cost overruns.

**Capital Projects to be Completed under Budget before Q3, FY08**

| (Amounts in Thousands)                                  | Forecasted<br>Project Cost at<br>Completion | Authorized<br>LOP | Variance<br>Over/(Under) |
|---|---|-------------------|--------------------------|

**Capital Projects to be Completed with Estimated Cost Overrun before Q3, FY08**

|  |                  |                  |                |
|--|------------------|------------------|----------------|
| 204060- Installation of Barricades (DHS)                 | \$232.5          | \$225.0          | \$7.5          |
| 204061-Pan/Tilt/Zoom Cameras for Gateway Center (DHS)    | 127.9            | 120.0            | 7.9            |
| 208003-Bus System Expansion Non Revenue Vehicles         | 242.0            | 227.0            | 15.0           |
| 207040-FY08 Financial/HR System Upgrades                 | 462.4            | 447.0            | 15.4           |
| 204082-UPS System & Backup Generator for Loc 61 - Bldg A | 369.7            | 294.0            | 75.7           |
| 204062-MRL Variable Message Sign Upgrade (DHS)           | 2,725.5          | 2,451.8          | 273.7          |
| <b>Total</b>   | <b>\$4,160.0</b> | <b>\$3,764.8</b> | <b>\$395.1</b> |

The report identifies the projected life-of-project (LOP) budget status for each project. If the project exceeds the LOP budget but is under \$1million, it is within the Board-approved limit for transferring contingency funds to the project. If the LOP change causes the project to exceed \$1 million, the project manager is required to return to the Board for approval.

## **MAJOR CONSTRUCTION**

Major construction projects include construction of new fixed guideway corridors, new rail car purchases, and other major infrastructure improvements. For the period ended December 31, 2007, all adopted major construction projects are forecasted to be completed within board approved life-of- project budgets.

The Gold Line Eastside Extension Enhancements and Mitigations Project (800288) includes a 200-parking space structure at the intersection of Pomona and Atlantic Boulevards. The parking structure was originally estimated to cost \$4.3 million. Project management intends to award the contract for construction of the parking structure as early as mid-2008. The current design includes infrastructure elements that will allow a portion of the ground level parking area to be converted for future ground floor retail space. However, a larger structure is required to provide the minimum amount of 200 transit-dedicated parking spaces and the additional spaces needed to meet zoning requirements for the commercial retail area. The life-of-project budget will be revised to cover the scope increases and the recent escalation costs in construction. Discussions continue between project management and executive management on the potential increases to the life-of-project budget.

The Orange Line continued with close-out activity and landscaping completion activities. Settlement discussions continue with the contractor to resolve outstanding claims. The Canoga Park and Ride lot is nearing completion and will move into the close-out phase. This project may be completed under the approved life-of project budget.

Staff continues to work on the Pasadena Gold Line close-out project to resolve all outstanding issues regarding Gold Line construction. A Board report will be prepared to provide details on actions required to successfully close out the construction project activities.

Detailed information on the major construction projects, such as the Eastside Extension of the Gold Line, is available through individual project reports.

## **BUS ACQUISITIONS**

The major bus acquisition project during FY08 is the procurement of 95 CNG articulated buses. All but two of the buses have been received. The ATV Bus Purchase (Hybrid Vehicles) Project is progressing. Six shells have been received and painted (in Anniston). The lead bus has been assembled and is awaiting installation of the power plant. The HCNG Demonstration Project is on hold due to the business failure of the HCNG engine developer. This project will continue when a new engine developer is identified.

## **BUS MAINTENANCE AND FACILITIES**

The largest bus maintenance project during FY08 is the \$29.5 million annual bus mid-life program. In FY07, the Board approved the addition of 32 FTE's to complete this project. The project manager reports that the scope of this project may be reduced from rebuilding 250 buses to 225 buses due to difficulty in filling the new positions.

The Division 9 Transportation Building, project #202014, has been completed. The project manager reports that close out will be processed by the end of the fiscal year. The building is environmentally-friendly in its design and earned a "silver" rating by Leadership in Energy and Environmental Design (LEED).

CP#202016 Temple and Beaudry Layover was put on hold pending joint development considerations at the site. Staff completed the environmental studies in March 2007 and all further work is deferred. The funding for this project was through a Bus Operator's Subcommittee (BOS) allocation of federal funds. Staff will propose an alternate use for the funds.

All other bus projects are forecasted to be completed at, or under, the approved life-of-project budget.

## **RAIL CAPITAL PROJECTS**

CP#204012 Rail Systemwide Safety Improvements was completed with a cost of \$1,000,759 under the life-of-project budget. The unspent monies will be reprogrammed as part of the FY09 capital program.

CP#2040017 Division 21 Improvements was completed with a cost of \$2,000,000 under the life-of-project budget. The project scope was reduced due to an archaeological find which necessitated a smaller scale storage track. The unspent monies will be reprogrammed as part of the FY09 capital program.

CP # 204082 UPS System & Backup Generator for Loc 61 is anticipating that they will require a \$75,000 increase to the approved life-of-project budget of \$294,000. The project was created during FY07 from the project contingency in response to an emergency services request. While developing the design specifications, the project manager was advised that the generator could not be placed where it was originally planned and must be placed in an alternate location due to the One Santa Fe Joint Development. Staff identified a new location for the project. The final cost of the project will be developed in the first quarter of FY09. Since this project is under \$1 million, it is within the CEO's authority to transfer the required additional funding from rail contingency funds.

CP#205009 Crossing Gate Equipment Replacement was completed with a cost of \$116,746 under the approved LOP. The unspent monies will be reprogrammed as part of the FY09 capital program.

CP#205020 FY07 Wayside Systems Tools and Equipment: This project was completed with a cost of \$72,408 under the approved LOP. The unspent monies will be reprogrammed as part of the FY09 capital program.

#### **OTHER CAPITAL PROJECTS**

The Universal Fare System project and the Regional Clearinghouse Project (TAP) are continuing in FY08. Project management is reporting on the progress of both projects at the monthly Operations Committee meetings.

The projects included in the Warehouse element are reporting that several projects are being completed under budget. Overall, they will experience a \$60,637 reduction to the total project costs.

CP#207010 ITS Telecommunications Transmission Replacement Project: The bids for this project exceeded the board approved LOP. The Executive Investment Committee reviewed the project at its December meeting and has decided to cancel the project while considering alternative options. The unused funds will be programmed in the FY09 capital program budget.

The Non-Revenue vehicle projects are reporting substantial project underruns in their FY08 and FY07 projects. This is due primarily to the difficulty of completing procurements and receiving delivery of the vehicles within one year for these annually-appropriated projects. As a result, we have revised the non-revenue vehicle projects starting with the FY09 budget so that they will be multi-year projects with a specific scope approved by the Board. The unspent monies from the prior year projects have been reprogrammed to the FY08 non-revenue projects.

#### **SUMMARY OF GOVERNMENTAL FUNDS**

The Governmental funds budget includes Special Revenue and General Fund programs and projects. The Special Revenue Fund includes all sales tax subsidies to other entities including the Local Return Program to Cities, Formula Allocation Process to municipal bus operators, Access Services, Metrolink Operating and Capital, the Incentive Program, and the Call for Projects.

A summary of the activity in the subsidies-to-others through the second quarter follows:

For the six months ended December 31, 2007

| Description<br>(Amounts in Millions)           | Actual         | Budget         | Variance<br>Over/(Under) |
|--|----------------|----------------|--------------------------|
| A & C Local Return                             | \$148.7        | \$150.8        | (\$2.1)                  |
| Prop A Bus FAP                                 | 27.2           | 36.6           | (9.4)                    |
| Prop C Bus FAP                                 | 10.7           | 16.8           | (6.1)                    |
| TDA Formula Subsidies                          | 33.6           | 43.0           | (9.4)                    |
| STA Subsidies                                  | 8.5            | 5.7            | 2.8                      |
| TDA Other Subsidies                            | 2.9            | 13.9           | (11.0)                   |
| Prop A Incentive                               | 1.1            | 9.1            | (8.0)                    |

| Metrolink Operating                            | 26.3           | 27.3           | (1.0)                    |
| Metrolink Capital                              | 1.3            | 2.0            | (0.7)                    |
| Regional EZ Pass                               | 4.8            | 4.3            | 0.5                      |
| Immediate Needs; SHORE                         | 2.2            | 2.7            | (0.5)                    |
| Regional Grantee                               | 0.9            | 2.7            | (1.8)                    |
| Transit Security                               | -              | 3.1            | (3.1)                    |
| Other Planning Projects                        | 0.5            | 1.5            | (1.0)                    |
| <b>Total</b>                                   | <b>\$307.7</b> | <b>\$421.9</b> | <b>(\$114.2)</b>         |

Generally, subsidy-to-others experience cash flow delays due to the timing of invoicing from other entities. The STA subsidy amount above represents payment of prior year unspent reserves.

State Accounting procedures for FY08 have changed which means the State no longer advances recipients estimated revenues for the quarter. We did not receive the actual STA receipts for the first quarter until January 2008 and for the second quarter until February 2008. Consequently, through December 31, 2007, none of the operators had received any FY08 STA disbursements for the current year. No accrual of expenses was recorded because Operators have to invoice us for their share of STA and then pass an efficiency test before earning the subsidy.

The Special Revenue Fund and the General Fund also include budget for work done by us, such as, planning and programming of funds, Freeway Service Patrol, Service Authority for Freeway Emergencies (SAFE), Internal Auditing and Inspector General expenditures, Ethics and County Counsel expenditures, all lobbying activities and other

non-allocable costs. The second quarter YTD account summary for these departments, excluding subsidies (reported separately), is summarized below:

For the six months ended December 31, 2007

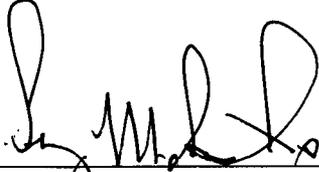

| (Amounts in Millions)               | Actual        | Budget        | Variance Over/(Under) |
|-------------------------------------|---------------|---------------|-----------------------|
| Operating Expenditures              |               |               |                       |
| Labor                               | \$14.4        | \$15.4        | (\$1.0)               |
| Fringe Benefits                     | 4.9           | 4.9           | -                     |
| Professional Services               | 13.2          | 27.1          | (13.9)                |
| Other Services                      | 11.9          | 23.1          | (11.2)                |
| Workers' Comp                       | 0.3           | 0.2           | 0.1                   |
| Insurance                           | 0.2           | 0.2           | -                     |
| Travel                              | 0.1           | 0.2           | (0.1)                 |
| Others                              | 4.8           | 5.9           | (1.1)                 |
| Overhead                            | 1.6           | 0.7           | 0.9                   |
| <b>Total Operating Expenditures</b> | <b>\$51.4</b> | <b>\$77.7</b> | <b>(\$26.3)</b>       |

## GOVERNMENTAL FUNDS OUTLOOK

Both the subsidies-to-others (Special Revenue Fund) and non-allocable expenses are expected to end the year below the FY08 budget. Historically, these budgets are not fully expended due to delays in invoicing from the Project managers, and the complexity of the professional and contracted services contracts.

As always, the fire, life and safety equipment critical to employee safety is our #1 priority. Resolving the critical safety issue mandated the need for installation of a gate alarm which was not previously planned in the scope of work. The elevated work platform (catwalk) gate alarm is a device warning employees to refrain from entering the catwalk area when propulsion power is energized. The elevated work platforms at the division provide access to the vehicle roof which contains exposed high-voltage equipment. This could create a potentially serious safety hazard for maintenance workers.</p> <p>FY08 Q3: Plan to complete the engineering design of the "catwalk" alarm system and begin the procurement process. The remaining tasks: the car wash equipment, the additional entrances to the car wash platform, the platform walkways and aprons, and the closed circuit televisions will be prioritized and addressed without exceeding the LOP.</p> |
