SUBJECT: FY08 THIRD QUARTER FINANCIAL PERFORMANCE

ACTION: RECEIVE AND FILE

RECOMMENDATION

Receive and file the FY08 third quarter Financial Performance Report.

ISSUE

This report discusses the financial performance of major programs for FY08.

DISCUSSION

SUMMARY OF SALES TAX REVENUES

Proposition A, Proposition C, Transportation Development Act (TDA), and State Transit Assistance (STA) sales taxes represent just under 60% or \$1.7 billion of our total budgeted revenues. Propositions A, C and the TDA funds are sales taxes that are distributed to us by the State Board of Equalization (SBE). STA revenues are sales taxes on gasoline and are distributed to the southern California region through the state of California Prop 42 process.

Sales tax and STA revenues for the third quarter of FY08 have not yet been received from the SBE and State Controller. Through December, actual sales tax revenues are approximately \$1.3 million more than last year but are \$5 million below the January 2008 UCLA forecast growth rate for FY08. Although the STA revenues appear to be \$13.2 million or 27.33% more than the re-forecasted budget estimate for the first six months of FY08, we have been advised by the State Controller's office that they made a mistake in the second quarter

payment which will result in a reduced third quarter payment. We will keep you updated on the STA forecast as we get additional information.

	FY07 Dec. YTD Actual (A)	FY08 Dec. YTD Actual (B)	Change (C = B - A)	FY08 Dec YTD Adopted Budget* (D)	Variance (E = B - D)	Variance %
1 Proposition A	\$343.6	\$344.7	\$1.1	\$346.4	(\$1.7)	-0.5%
2 Proposition C	343.6	344.7	1.1	346.4	(1.7)	-0.5%
3 TDA	173.3	172.5	(0.8)	174.1	(1.6)	-0.9%
4 Total Sales Tax	860.5	861.9	1.4	866.9	(5.0)	-0.6%
5						
6 STA	98.4	61.5	(36.9)	48.3	13.2	27.3%
7 Combined Revenues	\$958.9	\$923.4	(\$35.5)	\$915.2	\$8.2	0.9%

*Sales tax reforecasted amounts based on UCLA's January 2008 Economic Forecast Update approved as part of the FY09 Business Planning Parameters. STA reforecasted amount based on State Controller's Revised Estimate received Oct 2007.

OUTLOOK OF SALES TAX REVENUES

In February 2008, the Board approved the FY09 Business Planning Parameters based on UCLA's January 2008 forecast which estimated taxable sales growth for the county. The UCLA forecast estimated retail sales growth to slow to .96% for FY08. The revised estimate for FY08 will result in approximately \$7 million less revenues than were presumed in the FY08 adopted budget. This represents less than one half of one percent of the total sales taxes received annually.

The table below summarizes our re-forecasted FY08 sales tax and STA revenues for FY08 based on revised information received from UCLA and the State Controller's Office:

	FY08 Adopted Budget	FY08 Forecast*	Variance Inc/(Dec)	FY07 Actual
1 Proposition A	\$694.2	\$692.8	(\$1.4)	\$686.2
2 Proposition C	694.3	692.9	(1.4)	686.3
3 TDA	352.4	348.3	(4.1)	345.0
4 Total Sales Tax Revenues	1,740.9	1,734.0	(6.9)	1,717.5
5				
6 STA	57.1	96.6	39.5	191.1
7 Combined Revenues	\$1,798.0	\$1,830.6	\$32.6	\$1,908.6

*Reflects UCLA's January 2008 forecasted growth rate for FY08 (.96%) applied to FY07 actual sales tax revenues. STA reforecasted budget estimate represent the updated FY08 information provided by the State Controller's Office in October 2007.

SUMMARY OF ENTERPRISE FUND

The Enterprise Fund continues to be essentially on budget after three quarters. The favorable trends in fare revenue and expenses noted in the first and second quarters continued in the third. Variances that exist are relatively minor. Labor and fringe benefits are only 1.7% below budget on a \$531.1 million year-to-date budget. Fuel is 3.2% below budget because reduced usage of diesel is offsetting higher than expected usage of CNG. The fuel hedging program has created positive results for our overall budget. Workers' Compensation cost is within 1% of budget. The combination of increased revenues and decreased costs creates a \$37.7 million favorable variance to the year-to-date budget.

OUTLOOK OF ENTERPRISE FUND

If the current trends continued we might expect to end the year 3-4% below the adopted budget level for Enterprise fund operating expenses. As vacant positions are filled, higher wage and benefit costs will partially offset under-runs experienced in the first nine months. Fare revenue has been ahead of budget for most of the year, but is trending closer to budget in recent months. If there is a surplus at the end of the year, we will apply a portion to fringe benefits to increase reserves for our Other Post Employment Benefits (OPEB) liability.

FY08 Enterprise Fund Actual vs. Budget
For the nine months ended March 31, 2008

	(Amounts in Millions)	YTD Actual	YTD Budget	Variance
1	Operating Revenue			
2	Fares	\$246.8	\$239.1	\$7.7
3	Other	15.1	15.1	-
4	Total Operating Revenue	261.9	254.2	7.7
5	Operating Expenses			
6	UTU Labor	184.4	191.3	(6.8)
7	ATU Labor	93.5	90.6	2.9
8	AFSCME Labor	33.2	33.9	(0.7)
9	Non-Contract Labor	43.7	44.8	(1.1)
10	TCU Labor	23.1	22.7	0.4
11	Teamster Labor	4.0	3.4	0.6
12	Fringe Benefits	149.2	153.5	(4.3)
13	Subtotal All Labor	531.1	540.2	(9.1)
14	Fuel	39.1	40.4	(1.3)
15	Propulsion Power	14.6	16.0	(1.4)
16	Parts	56.9	59.9	(3.0)
17	Security Services	49.6	49.6	-
18	Purchased Transportation	27.1	27.1	-

Excludes: Muni share of EZ Pass, Debt, Depreciation

SUMMARY OF PERFORMANCE MEASURES FOR BUS AND ORANGE LINE

For the nine months ended March 31, 2008

	Indicators	FY08 YTD Actual	FY08 YTD Budget	Variance Over/(Under)	FY07 Actual	FY06 Actual
1	Bus Cost/Revenue Service Hour	\$115.00	\$116.77	(\$1.77)	\$114.51	\$107.71
2	Orange Line Cost/Revenue Service Hour	\$202.95	\$234.50	(\$31.55)	\$210.62	NA
3	Bus Revenue Service Hours	5,650,314	5,755,804	(105,490)	5,686,989	5,723,747
4	Orange Line Revenue Service Hours	72,424	76,171	(3,747)	65,439	NA
5	Bus Cost/Passenger Mile	\$0.63	\$0.63	(\$0.00)	\$0.58	\$0.56
6	Orange Line Cost/Passenger Mile	\$0.45	\$0.51	(\$0.06)	\$0.46	NA
7	Bus Subsidy/Passenger Mile	\$0.42	\$0.42	-	\$0.41	\$0.39
8	Orange Line Subsidy/Passenger Mile	\$0.34	\$0.42	(\$0.08)	\$0.38	NA
9	Complaints per 100,000 Boardings	2.68	2.75	(0.07)	2.46	2.41
10	Traffic Accidents/100,000 Miles	3.47	3.50	(0.03)	3.75	3.75
11	New Workers Comp Claims per 200,000 Hours	11.45	12.13	(0.68)	10.98	12.27
12	Mean Miles Between Mechanical Failures	3,168	3,500	(332)	3,536	3,274
13	In-Service On-time Performance	63.82%	65.30%	-1.48%	63.07%	66.00%

Note: FY06 Bus includes Orange Line

Discussion

Bus costs per revenue service hour (RSH) were below the target by 1.5% due to \$22.3 million (3.3%) favorable cost variance more than offsetting 1.8% fewer hours. RSH are below budget due to less special event and emergency service than was budgeted as well as delaying and canceling less than 1% of the planned service due to in-service delays. Operating expenses were 4.9% below budget due to under-expenditures in wages, benefits, Workers' Compensation and services. Orange Line costs per RSH were 13.5% below target because expenses were lower than budget by 17.7%, offsetting RSH being 4.9% below budget. Bus passenger miles were also below budget due to lower than expected boardings.

The favorable cost variance offset the unfavorable passenger miles resulting in cost per passenger mile and subsidy per passenger mile being on budget. Orange Line passenger miles were also below budget.

Complaints per 100,000 boardings were lower than the annual target. As a result of the fare change complaints peaked in July then declined thereafter.

Traffic accidents per 100,000 miles were below target, and better than last year. Management continues to develop mitigation programs including defensive driving/accident awareness programs.

New workers' compensation claims per 200,000 hours were lower than the annual budget. The improvement is due to the ongoing safety program and safety meetings that focus on safety awareness and accident prevention.

Mean miles between mechanical failures requiring a bus exchange are worse than the target and last year. Reported failures have been impacted by battery related sensor issues.

In-service on-time performance was negatively impacted by increased congestion.

SUMMARY OF PERFORMANCE MEASURES FOR RAIL

For the nine months ended March 31, 2008

	Indicators	FY08 YTD Actual	FY08 YTD Budget	Variance Over/ (Under)	FY07 Actual	FY06 Actual
1	Heavy Rail Cost/Vehicle Service Hour	\$336.65	\$328.33	\$8.32	\$320.31	\$294.94
2	Light Rail Cost/Vehicle Service Hour	\$372.50	\$385.83	(\$13.33)	\$382.55	\$393.51
3	Heavy Rail Cost/Passenger Mile	\$0.44	\$0.44	(\$0.00)	\$0.42	\$0.41
4	Light Rail Cost/Passenger Mile	\$0.48	\$0.50	(\$0.02)	\$0.49	\$0.46
5	Heavy Rail Subsidy/Passenger Mile	\$0.28	\$0.30	(\$0.01)	\$0.30	\$0.27
6	Light Rail Subsidy/Passenger Mile	\$0.38	\$0.41	(\$0.03)	\$0.42	\$0.38
7	New Workers Comp Claims per 200,000 Hours	11.39	10.00	1.39	7.00	11.60
8	Light Rail Vehicle Accident Rate/100,000 Miles	0.73	0.40	0.33	0.55	0.40

Discussion

Light rail expenses are \$4.8 million (4.4%) below budget primarily due to under expenses in wage and benefits caused by vacancies. Additionally, we settled a long-standing claim for the Blue Line at less than the reserve amount creating a budget under-run. Heavy rail expenses are \$1.6 million (2.4%) over budget due to greater than anticipated workers' compensation costs. As a result of vehicle accidents and equipment failures, light and heavy rail vehicle service hours are 0.9% and 0.2% respectively below budget. Greater than budgeted boardings and fare revenue resulted in favorable variances per passenger mile.

New workers' compensation claims were over budget and significantly worse than last year on rail. Light Rail accidents on the Blue and Gold Lines were over the target and worse than

the previous year. Rail Operations will continue to focus on safety awareness programs to help reduce workers' compensation claims and accident rates.

SUMMARY OF CAPITAL PROGRAM

The attached capital program status report for the third quarter of FY08 presents adopted life-of-project (LOP) budgets and projected total costs to complete for each project. The projected costs to complete are provided by the project managers for each project and are updated quarterly.

There are 120 active capital projects, with a combined LOP budget of \$2.4 billion, estimated to complete within their LOP budget. In addition, the following projects are forecasted to finish with at least \$100K or 10% lower than the authorized LOP:

	Project (Amounts in Millions)	Forecasted Cost at Completion	Authorized LOP	Variance Over/(Under)
1	800112 Orange Line	\$278.5	\$313.0	(\$34.5)
2	204017 Division 21 Improvements	1.9	4.5	(2.6)
3	800117 Canoga Station Park and Ride Project	23.6	26.0	(2.4)
4	208002 Bus System Support Replacement Non-Revenue Vehicles	3.7	6.0	(2.2)
5	204012 Rail Systemwide Safety Improvements	0.9	2.1	(1.2)
6	206004 Breda Rail Car Retrofit	2.0	2.3	(0.3)
7	208004 Rail Support Replacement Non Revenue Vehicles	1.6	1.8	(0.2)
8	Total	\$312.2	\$355.7	(\$43.5)

Additionally, there are five projects currently projecting a slight cost overrun. All of the projects are less than \$1M and are within the Board delegation authorization for the CEO to approve additional funding:

	Project (Amounts in Millions)	Forecasted Cost at Completion	Authorized LOP	Variance Over/(Under)
1	208003 Bus System Expansion Non Revenue Vehicles	\$0.24	\$0.23	\$0.01
2	207040 FY08 Financial/HR System Upgrades	0.46	0.45	0.02
3	204059 Division 22 Spray Paint Booth	0.17	0.15	0.02
4	204082 UPS System & Backup Generator for Loc 61 - Bldg A	0.38	0.29	0.08
5	202251 Division 2 Reconstruction Master Plan	0.30	0.20	0.10
6	Total	\$1.55	\$1.32	\$0.23

The Capital Program Status Report (Attachment) identifies the projected life-of-project budget status for each project. If the project exceeds the LOP budget but is under \$1 million, it is within the Board-approved limit for transferring contingency funds to the project. If the LOP change causes the project to exceed \$1 million, the project manager is required to return to the Board for approval.

MAJOR CONSTRUCTION

Major construction projects include construction of new fixed guideway corridors, new rail car purchases, and other major infrastructure improvements.

The Orange Line project (CP#800112) will be completed with a saving of \$34,500,000 under the approved LOP due to lower expenditures than anticipated.

The Canoga Station Park and Ride project (CP800117) will be completed with a saving of \$2,400,000 under the approved LOP. This saving is the result of removal of land and development costs for an additional parking lot from the project scope due to conditions which precluded acquisition of the land.

The second quarter status report included a discussion of increasing the life-of-project for the Metro Gold Line Eastside Extension Enhancements and Mitigations Project (800288) to construct a 200-parking space structure at the intersection of Pomona and Atlantic Boulevards. Staff anticipates award of a contract in late September or early October of this year. The Board previously authorized the CEO to solicit and award a design-build contract for the parking structure. At this time it was stated that staff would seek approval for an increase in the LOP after receipt of bids and acceptance of the lowest price from a responsible bidder.

Detailed information on the major construction projects, such as the Eastside Extension of the Gold Line, is available through individual project reports.

BUS ACQUISITIONS

The major bus acquisition project during FY08 is the procurement of 94 CNG articulated buses, CP#201044. All buses have been received and all but 15 have been put into revenue service. The remaining buses will be put into service in the June shake-up.

BUS MAINTENANCE AND FACILITIES

The largest bus maintenance project during FY08 is the \$29.5 million annual bus mid-life program, CP#203005. This project has completed rebuilding 116 buses as of the end of the third quarter of FY08. Staff estimates that by the end of the fiscal year 175 buses will be rebuilt. The original goal for the project was 250, but the delay in hiring mechanics required that the plan be reduced. The unspent funds will be reprogrammed to the FY09 Bus Rebuild program.

The Division 9 Transportation Building and Facilities Improvements, project #202014, has completed construction at the approved LOP. The building is environmentally-friendly in its design and earned a "silver" rating by Leadership in Energy and Environmental Design (LEED).

CP#202251 Division 2 Reconstruction Master Plan has been revised to increase the LOP from \$200,000 to \$300,000 to fully cover professional services required to complete the

project. This LOP increase will be reflected in the final FY09 budget.

CP#202237 Division 18 Solar Energy Project will be completed at a the approved LOP. We will receive a rebate in the amount of \$1,600,000 from Sempra Energy Utilities.

Staff is reporting that CP# 202246, Bauchet Street Construction may require additional funding (LOP increase) due to higher than planned land acquisition costs, modifications to the scope of the project to improve the land use capacity, a scope change to increase the building size, LEED Silver certification, and possible construction cost inflation. The exact amount of increase is not currently known; we will bring a request to the Board at the time of contract award.

All other bus projects are forecasted to be completed at, or under, the approved life-of project budget.

RAIL CAPITAL PROJECTS

CP#204012 Rail System-wide Safety Improvements were completed with a saving of \$1,204,331 under the life-of-project budget. The unspent monies will be reprogrammed as part of the FY10 capital program.

CP#204017 Division 21 Improvements was completed with a savings of \$2,600,000 under the life-of-project budget. The project scope was reduced due to an archaeological find which necessitated a smaller scale storage track. The unspent monies will be reprogrammed as part of the FY10 capital program.

CP#204082 UPS System & Backup Generator for Location 61 will require a \$81,000 increase to the approved life-of-project budget of \$213,000 to \$294,000. The project was created during FY07 from the project contingency in response to an emergency services request. The cost increase reflects a requirement to relocate the location of the generator. The increase is within the Board approved delegation authority to the CEO. The revised LOP will be reflected in the final FY09 budget.

CP#204059 Division 22 Spray Paint Booth has been revised to increase the LOP from \$150,000 to \$374,000. The increase is based on revised estimates consistent with current experience. This LOP will be reflected in the final FY09 budget.

CP#206004 Breda Car Retrofit was completed at a cost of \$314,110 under the approved LOP. This project successfully met the CPUC requirements for preventing motion after the train stops. The unspent monies will be reprogrammed as part of the FY10 capital program.

OTHER CAPITAL PROJECTS

The Universal Fare System project and the Regional Clearinghouse Project (TAP) are continuing in FY09. Project management is reporting on the progress of both projects at the monthly Operations Committee meetings.

Several projects included in the Warehouse element are projected to be completed under budget. Overall, they will experience a \$139,253 reduction to the total project costs.

CP#210050 Gateway Security Improvements was completed at a cost of \$40,000 under budget. The project installed the optical turnstiles in the Gateway building third floor entrance to the elevators, and reinforced the structure of the parking garage. These savings will be reprogrammed in the FY10 budget.

SUMMARY OF GOVERNMENTAL FUNDS

The Governmental Funds budget includes Special Revenue and General Fund programs and projects. The Special Revenue Fund includes all sales tax subsidies to other entities including the Local Return Program to Cities, Formula Allocation Procedure to municipal bus operators, Access Services, Metrolink Operating and Capital, the Incentive Program, and the Call for Projects.

A summary of the activity in the subsidies-to-others through the third quarter follows:

For the nine months ended March 31, 2008

	(Amounts in Millions)	YTD Actual	YTD Budget	Variance Over / (Under)
1	Prop A & C Local Return	\$223.8	\$226.2	(\$2.4)
2	Prop A Bus FAP	50.5	55.0	(4.5)
3	Prop C Bus FAP	18.9	25.1	(6.2)
4	TDA FAP	55.2	64.5	(9.3)
5	STA FAP	8.5	8.5	-
6	TDA Other Subsidies	14.2	20.8	(6.6)
7	Prop A Incentive	9.4	13.6	(4.2)
8	Metro Rapid Improvements	1.3	7.8	(6.5)
9	Regional Surface Transportation Projects (CFP)	26.1	51.4	(25.3)
10	Freeway Projects (CFP)	17.8	38.2	(20.4)
11	Local Traffic System (CFP)	11.6	17.3	(5.7)
12	Bus Capital (CFP)	2.4	4.9	(2.5)
13	Misc. Call for Projects	0.5	1.0	(0.5)
14	Soundwalls Program	2.6	11.4	(8.8)
15	ASI	21.0	21.1	(0.1)
16	Metrolink	28.5	43.9	(15.4)
17	Regional EZ Pass	6.6	6.4	0.2
18	Immediate Needs;SHORE	3.3	6.1	(2.8)
19	Regional Grantee	1.8	4.0	(2.2)
20	Transit Security	3.0	4.7	(1.7)
21	Other Planning Projects	0.8	2.3	(1.5)
22	Total Subsidy	\$507.8	\$634.2	(\$126.4)

Generally, the subsidies portion of the budget experiences cash flow delays due to the timing of invoicing from the other entities. Local return subsidies parallel sales tax revenues earned and because these revenues are slightly below budget, the related subsidy expenses are also below budget.

The STA subsidy amount above represents payment of prior year unspent reserves—not current year allocation payments. No accrual of current year STA FY08 subsidy expenses was recorded because the municipal operators have not yet provided any approved invoices. Metrolink is experiencing delays in their rehabilitation project causing the under-run. Regional EZ Pass subsidy expense presented above includes \$2.8 million of payments related to prior year activity.

The Special Revenue Fund and the General Fund also include budget for work done by us such as planning and programming of funds, Freeway Service Patrol, Service Authority for Freeway Emergencies (SAFE), Internal Auditing and Inspector General expenditures, Ethics and County Counsel expenditures, all lobbying activities and other non-allocable costs. The third quarter YTD account summary for these departments, excluding subsidies (reported separately), is summarized below:

For the nine months ended March 31, 2008

	(Amounts in Millions)	YTD Actual	YTD Budget	Variance Over / (Under)
1	Labor	\$21.9	\$23.1	(\$1.2)
2	Fringe Benefits	7.5	7.5	-
3	Professional Services	21.0	43.6	(22.6)
4	SAFE, FSP and other Service Contracts	19.9	33.7	(13.8)
5	Workers' Comp	0.3	0.4	(0.1)
6	Insurance	0.3	0.4	(0.1)
7	Travel	0.2	0.2	-
8	Other including Overhead	9.7	11.2	(1.5)
9	Total Expenditures	\$80.8	\$120.1	(\$39.3)

GOVERNMENTAL FUNDS OUTLOOK

Both the subsidies-to-others (Special Revenue Fund) and non-allocable expenses are expected to end the year below the FY08 budget. Historically, these budgets are not fully expended due to delays in invoicing from the Project managers, and the complexity of the professional and contracted services contracts.

800088	Metro Gold Line Eastside Extension	690,839,574	144,666,851	63,307,576	898,814,000	898,814,000	0	0	Deliverables completed in FFY08 Q3:	
									1. Began rail installation in the tunnels	
									2. Completed delivery of OCS poles	
									3. C0803 contractor has completed track installation on the 1st Street Bridge	
									4. Completed fabrication of the ticket vending machines and stand alone validators	
									5. Completed Phase I of the temporary street decking removal and street restoration	
									6. Began Phase II of the temporary street decking removal and street restoration	
									7. Completed civil guideway construction in Segment 7	
									8. Delivered three of the six traction power substations to the site	
									9. Began installation of mechanical ventilation equipment at the 1st/Boyle underground station	
									Deliverables to be completed in FY08 Q4:	
									1. Complete construction of the East Portal Structure	
									2. Complete construction of the Union Station baggage handling road	
									3. Complete at-grade stations canopy installations	
									4. Complete entrance structure at the Boyle Heights/Mariachi Plaza Station	
									5. Complete civil guideway construction in Segments 2A and 2B	
									6. Begin communications equipment installation at the Atlantic Station

200018	Homeland Security Project (DHS)	2,504,898	551,655	122,447	3,179,000	3,179,000	0	Project 200018 is comprised of 17 separate capital projects. Of the 17 projects, 5 projects have not been completed and a sixth project is in closeout. MTA received an extension through May 31, 2008 to complete these projects. Projects remaining are:
1) Hi Rail Vehicle (\$185K) 2) Personal Protection Equipment-LASD (\$177K) 3) Personal Protection Equipment-Security (\$95K) 4) Hi Rail Trailer and Gear (\$135K) 5) MRL Vent Grates (\$115K) 6) In-Train Real Time CCTV for Metro Rail (\$1,546,850)- Project completed and final invoices are being processed for payment.								
The following milestones were achieved in FY08 Q3: 1) Hi-Rail Vehicle- Q3: Delivery of Metro Security High Rail Vehicle. 2) Personal Protection Equipment-LASD- FY08 Q3: All Personal Protection Equipment has been delivered except for 1 item. FY08 Q4: (Planned): Anticipate receiving 1 remaining item. 3) Personal Protection Equipment-Metro Security: This project was not part of original grant award and has been approved by DHS with surplus funds remaining in project 200018. FY08 Q3: PO was issued. Delivery of Personal Protection Equipment anticipated by 4th Quarter. 4) Hi-Rail Trailer and Gear- This project was not part of original grant award and has been approved by DHS with surplus funds remaining in project 200018. Requisition submitted and awaiting PO to be issued.								

Other Capital Projects

200351	Regional Service Center and Clearinghouse	12,844,846	3,770,279	3,456,552	20,071,678	20,071,678	0	FY08 3rd quarter: Launched TAP sales for Metro monthly and weekly passes at all four Metro Customer Center and six participant operator stores for February 2008 sales. Successfully rolled out first municipal operator, Culver City, with TAP fare boxes and customer service center with TAP compact point-of-sales devices. Finalized design and functionality of tapago.net website. Began TAP sales at first third-party vendor location. Met with municipal operators currently under contract for TAP/UFS equipment, as well as additional local operators who are considering TAP participation, to identify installation and operational support needs as they prepare for TAP revenue operation.
								FY08 4th quarter: Expand TAP third party vendor pilot program at three additional locations for April and May 2008 pass sales. Develop and implement TAP third party vendor rollout at 20 locations for June 2008 pass sales. Implement and begin TAP revenue operation with Foothill Transit – includes training, installation of sales devices and fareboxes, and support of customers through the TAP Service Center.
204060	Installation of Barricades (DHS)		224,622	0	0	224,622	225,000	(37k) Project Completed. Reimbursement from DHS has been requested. Commence project closeout.

		Inception-to- Date Expenditures	Encumbrance	Balance of Project Costs				
204031	FY08 Rail Facility Improvements Contingency Projects	0	0	854,220	854,220	854,220	0	Projects under \$1 million are requested, authorized, and initiated under the Rail Engineering Service Request (RESR) process. Funds are then transferred to the new projects from this contingency fund and the Authorized LOP of this project is decreased by the amounts of the transfers. No expenditures (acquisition or labor) are to be performed under this project.
FY08 Q3: Reduced the LOP by \$625,000 by funding a new project, 204092, to construct a fence between the Blue Line tracks on Long Beach Blvd. that will discourage pedestrians from entering the trackway. Development of projects to increase the emergency exit capacity at Gold Line Union Station platform, install a pedestrian railing at Gold Line Ave 33, install a body shop ventilation system at Division 11, and construct additional rockfall containment at Division 21 are in process.								
FY08 Q4 (planned): Intend to initiate fund transfers for the remaining projects mentioned above.

206004	Breda Rail Car Retrofit	2,027,890	0	0	2,027,890	2,342,000	(314,110)	FY08 Q3: Project was completed and closed out. Project was completed underspent by \$314,110.33.	
							FY08 Q4 (planned): N/A		
206005	P2000 Vehicle Signaling Package Upgrade	219,146	12,000	3,132,854	3,364,000	3,364,000	0	FY08 Q3: One vehicle was converted in February. The remaining vehicles requiring conversion are converted when the cars are transferred to the Metro Green Line. This will continue to occur in future quarters, but firm dates have not been established.	
							FY08 Q4 (planned): Work is based on vehicle shipment from the Gold Line to the Green Line. Since no vehicles are scheduled to be transferred during Q3, no vehicles will be converted during that period. The current Fleet Plan calls for four more cars to be converted and transferred from the Gold Line to the Green Line within the next 24 months.		
206029	FY08 RFS Tools & Equipment	115,086	65,101	250,813	431,000	431,000	0	FY08 Q3: The long lead item, the 10-ton bridge, was received and is pending a mandatory job walk (site survey) by the vendor. Battery scrubbers were delivered and accepted. All other outstanding items have been received.	
							FY08 Q4 (planned): Follow-up on outstanding invoices. Plan to order two additional tools, a Pneumatic Torque System and a Profiler Tool for Rail Fleet Services. Prepare and submit requisitions. Work with Procurement in submitting cost estimates.

205031	FY08 Wayside Systems Contingency Projects	0	0	1,356,700	1,356,700	1,356,700	0	Projects under \$1 million are requested, authorized, and initiated under the Rail Engineering Service Request (RESR) process. Funds are then transferred to the new projects from this contingency fund and the Authorized LOP of this project will be decreased by the amounts of the transfers. No expenditures (acquisition or labor) are to be performed under this project.
FY08 Q3: Transferred \$42,000 to fund a new project, 205080 to replace the yard control system at Division 21. Completed planning for a project to add remote analog readings to the Segment-2 gas analyzer system. Development of projects to install a vertical parts carousel at Division 11 and replace and add cathodic protection on all Metro Rail lines are in process.								
FY08 Q4 (planned): Intend to initiate fund transfers for the remaining projects listed above.
