SUBJECT:

PURPLE (D LINE) EXTENSION TRANSIT PROJECT SECTION 3

SEPTEMBER 2023 MONTHLY PROJECT STATUS REPORT

Enclosed herewith is the Monthly Project Status Report for the Purple (D Line) Extension Transit Project Section 3. This report contains the Los Angeles County Metropolitan Transportation Authority's (LACMTA) representation of the Purple (D Line) Extension Transit Project Section 3 status for the period ending September 29, 2023.

If you have any questions regarding this report or its supporting information, please contact Marvin Li, Deputy Executive Officer, Program Control at (424) 551-4523.

PROJECT OVERVIEW

Project Background

The Purple (D Line) Extension Transit Project Section 3 (Project) is the third of three sections to be designed and constructed as part of the Los Angeles County Metropolitan Transportation Authority's (Metro) Measure R and Measure M Programs. The Measure R and Measure M Programs were approved by Los Angeles County voters in November 2008 and in November 2016, respectively, and provide in total a one-cent sales tax to finance new transportation projects. In April 2012, the three sections of the Project were environmentally cleared and adopted by Metro Board of Directors.

Section 3 will extend to Westwood from the future Century City Constellation Station that is part of the Westside Purple Line Extension Section 2 Project and currently under construction. The Project is located entirely underground, primarily following Wilshire Boulevard, and includes the design and construction of approximately 2.56 miles of double-track heavy rail, two new stations as well as the purchase of 16 heavy rail vehicles. The Westwood/UCLA Station is within the jurisdiction of the City of Los Angeles, and the Westwood/Veterans Administration (VA) Hospital Station is within the jurisdiction of the unincorporated area of Los Angeles County. The Project also includes train controls, signals, traffic controls, communications, traction power supply and distribution, fare collection systems and equipment, acquisition of right-of-way, and utility relocations.

The Westwood/UCLA Station box will be under Wilshire Boulevard beginning west of Westwood Boulevard and extending to the east of Veteran Avenue. The station will have three entrances, two full entrances on the north side of Wilshire Boulevard and one-half entrance on the south side of Wilshire Boulevard. The two full entrances will be located at Wilshire Boulevard and Gayley Avenue, and at Wilshire and Westwood Boulevards. The half entrance will be located at Wilshire and Westwood Boulevards.

The Westwood/VA Hospital Station box will be under the VA south campus, beginning west of the I-405 Freeway and extending west of Bonsall Avenue. The station will be equipped with double crossovers, one at each end of the station. The station entrance will be south of Wilshire Boulevard and east of Bonsall Avenue.

Major Procurements

<u>Contract C1151 – Tunnels:</u> The procurement of this design/build contract utilized a competitive negotiated procurement process to select a contractor that was determined to have met all the requirements set forth in the Request for Proposals (RFP) with a technically acceptable, "Lowest Evaluated Price" selection process. In June 2018, the Board authorized to award the C1151 Tunnels contract, subject to the FTA approval of the Letter of No Prejudice (LONP). The contract was awarded to Frontier-Kemper/Tutor Perini, (FKTP-JV) on November 30, 2018, after receiving the LONP from the FTA. Notice to Proceed (NTP) was issued on January 15, 2019.

The design/build contract provides for final design and construction of the twin bored tunnels, complete with cross-passages, along the 2.56-mile alignment. Contract scope

includes demolition and removal of structures and clearing sites to facilitate construction operations. A tunnel boring machine (TBM) launch shaft will be constructed at the westerly end of the Westwood/VA Hospital Station. Upon substantial completion, FKTP-JV will turn over all temporary lighting and ventilation to the follow-on contractor (Contract C1152).

Contract C1152 – Stations, Trackwork, Systems and Systems Integration Testing: The procurement of this design/build contract utilized a two-step approach with the submittal of qualification statements through a Request for Qualification (RFQ) process, prequalification of qualified proposers followed by the release of a Request for Proposals (RFP) soliciting technical and price proposals on a Best Value selection process with an option at Metro's discretion for Best and Final Offers (BAFO). In February 2019, the Board authorized the CEO to award the C1152 Stations, Trackwork, Systems, and Systems Integration Testing contract to Tutor Perini/O&G, JV (TPOG), subject to the FTA approval of a Full Funding Grant Agreement (FFGA). After the February Board action, FTA issued an LONP on April 18, 2019, that allows contract award to occur prior to receipt of an FFGA. The Board approved award of the C1152 contract at the May 2019 Board Meeting, and the Contract was awarded on May 28, 2019. Notice to Proceed was issued on July 15, 2019, with a commencement date of July 16, 2019.

The Design/Build contract provides for final design and construction of the infrastructure along the 2.56-mile alignment. Contract scope includes demolition and removal of structures and clearing sites to facilitate construction operations. The twin bored tunnels will be complete with walkways including all mechanical, electrical, and finished work. Two underground stations are to be constructed, with the Westwood/VA Hospital Station having two double crossovers, one at each end of the station. Each station will be equipped with stairs, escalators, and elevators which meet ADA requirements. The scope of work also includes all architectural finishes, mechanical and electrical systems and equipment including train control, traction power, communications, trackwork, system tie-in at the future Century City Constellation Station, testing and commissioning.

Contract C1153 – Advanced Utility Relocations: The work scope of this firm fixed price contract included the relocation of existing LADWP power and water utilities within the construction limits of the Westwood/UCLA Station. Metro issued Notice of Intent (NOI) to award to Steve Bubalo Construction Company (SBCC) on October 2, 2017, and NTP on January 2, 2018. SBCC was responsible for working in streets, procuring materials, and coordinating with the utility owner. SBCC constructed new facilities in accordance with the utility plans and specifications, provided traffic control, restored streets, and supported utility crews installing cabling and during cut-over of the existing utilities. SBCC achieved contract substantial completion on June 30, 2019, and Contract Final Acceptance was issued by Metro on April 13, 2020.

Contract C1204 - Shuttle and Valet Services During Construction of the Westwood/VA Station: The work scope for this firm fixed price contract includes providing shuttle and

valet services to the West Los Angeles Veterans Affairs (VA) Medical Center during the decommission of Parking Lot 42 and buildout of the replacement parking structure. The Request for Proposal (RFP) was issued on January 15, 2021. Contract awarded to Everpark Inc. on December 6, 2021, and NTP issued with shuttle and valet service transferred to Everpark Inc. on January 03, 2022.

<u>Contract C1212 - VA Parking Structure:</u> The Invitation For Bid (IFB) documents for the VA Parking Structure were solicited on October 14, 2022. C1212 consists of a multi-story parking structure and parking lot work at the West Los Angeles Veterans Affairs (VA) Medical Center and parking lot work at the General Services Administration in West Los Angeles. Notice of Award issued on August 28, 2023. *Notice to Proceed was issued on September 27, 2023.*

Metro Furnished Equipment

Metro to procure a contract to provide 16 Heavy Rail Vehicles (HRV) necessary to operate the extension of the Purple Line. The scope of the HRV contract includes design, manufacturing, testing and delivery of the vehicles. An additional contract will be procured for the Universal Fare System (UFS). The scope of the UFS contract will include design, fabrication, and installation of equipment at the two new stations and system testing.

Program Management

The Purple (D Line) Extension Transit Project Section 3 Project is being managed under the direction of an Integrated Project Management Office (IPMO). WSP Global (WSP) provides engineering and design support services, while MPPC Partners, a Joint Venture provides construction management support services. The on-site program management team is also supported by Metro headquarters' resources and includes, but not limited to, engineering, risk management, environmental, quality management, operations, and creative services departments.

<u>Project Schedule and Budget:</u> The Revenue Service Date (RSD) is planned for 2027. In June 2018, the Board authorized to establish the Life of Project (LOP) Budget for the Tunnels portion of the Project. In February 2019, the Board amended the LOP Budget to include the Stations portion of the Project. The LOP Budget for the Westside Purple Line Extension Section 3 Project is \$3.2 billion excluding Finance Charges of \$387.4 million. A detailed LOP Budget forecast is included under the Budget and Cost Forecast section of this report.

Funding is projected from a variety of sources to include:

- Federal Section 5309 New Starts
- Federal Section 5309 New Starts (ARPA-CIG)
- Federal STBG (Surface Transportation Block Grant)

- Federal CMAQ (Congestion Mitigation & Air Quality)
- Federal CIG Section 165
- Local Agency Contributions
- TCRP (Transit Cooperative Research Program)
- Measure R 35%
- Measure M 35%
- State RIP (Regional Improvement Program)

<u>Start Up:</u> The commencement of pre-revenue operations will be determined by Metro. Generally, all systems integration testing will have been completed and passed. All testing will be required to include and pass a "stress test" of maximum operational service levels to be acceptable. Pre-Revenue Operations include train runs, especially those involving multiple trains on the integrated and fully operational extension; rehearsal of expected revenue operations scenarios; abnormal and emergency scenarios in which random combinations of system interactions are tested and equipment "burned-in"; and training of emergency services as well as Metro personnel who will operate and maintain the extension. Activities occurring during Pre-Revenue Operations are carried out by a designated Metro Project Rail Activation Group.

EXECUTIVE SUMMARY

In September 2023, the Project achieved 50.3% completion to-date based on earned value measurements for the overall Project. The current focus of the Project is continuing final design for Contract C1152 (Stations, Trackwork, Systems and Systems Integration Testing), utility relocations at Westwood/UCLA Station, station excavation at the Westwood/UCLA and Westwood/VA stations, and cross passage excavation.

The re-sequenced/coordinated schedule jointly proposed by both C1151 Tunnels and C1152 Stations Contractors has been approved resulting in time extensions for both C1151 Tunnels and C1152 Stations substantial completion dates. The current forecast Revenue Service Date is late 2027.

The following is an overview of current design and construction activities.

Design Status

- The Engineering Management Services team continues to provide engineering services during construction, real estate support services, supporting Metro in reviewing the C1152 Stations final design submittals and the C1151 and C1152 review of submittals, responding to RFIs, and assisting in the preparation and review of Changes.
- C1151 Tunnels Contract: The design work for this contract is substantially complete. Metro has Approved for Construction all of the design unit packages.
- C1152 Stations Contract: The list of the various design unit (DU) packages is listed below:
 - DU 40: VA Station Temporary Works
 - APDU 41 (41A, 41B, 41D)
 - APDU 42
 - APDU 43 (43A)
 - APDU 44 (44A, 44B)
 - APDU 45
 - APDU 46
 - DU 50: UCLA Station Temporary Works
 - APDU 51 (51A, 51B, 51C)
 - APDU 52, 52A, 52B
 - APDU 53
 - APDU 54
 - APDU 55
 - DU 60: VA Station
 - APDU 61 (61A, 61B)
 - DU 60 (60, 60A, 60B)
 - o DU 70: UCLA Station
 - DU 70 (70, 70A, 70B, 70C, 70D)

- o DU 81: Tunnels/Cross Passages and Track
- o DU 82: Systems
- DU 90: Tail Track Exit Shaft and Western VA Staging Area (APDU 90A/90B)

Final design for the various design packages is on-going. Design unit packages progress to date:

- o DUs 60, 70, 81, 82:
 - 100% design is on-going for DUs 70A, 70B
 - AFC design is on-going for DU 60B, 70, 70C, 70D, 81, 82
 - IFC is on-going for DU 60, 60A, APDU 61A/61B
- o DU 90:
 - IFC is on-going for APDU 90A, 90B
- o APDUs 41, 42, 43, 44, 45, 51, 52, 53, 54:
 - 100% design is on-going for APDUs 41A, 53
 - AFC design is on-going for APDUs 52A, 52B, 55 (Parts 1, 2, & 4)
 - IFC is on-going for APDUs 41D (LA County portion), 54 (Parts 2 & 4), 55 (Part 3)

Approved for Construction (AFC) design packages:

- APDUs 41A, 41D (LA County portion)
- o APDU 54 (Part 2)
- o APDU 61A/61B
- o DU 60B
- o DU 70D
- o APDUs 90A, 90B

Issued for Construction (IFC) design packages:

- o APDUs 41B, 42, 43, 44, 45, 46
- o APDUs 51A, 51B, 51C, 52, 54 (Part 3), 55 (Part 3)
- o APDU 90B IFC
- o DU 60A IFC

DUs and APDUs submitted this reporting period:

- o APDU 54 Part 3
 - o Rev 7 Drainage Plans and Drainage Report (Rev E) OTS
 - o AFC (Rev) Rev 7 Drainage Plans & Report
- o APDU 61B AFC Calculation only LACDPW

Construction Status

C1153 – Advanced Utility Relocations: (Complete)
 Substantial completion occurred on June 30, 2019, and the contract is 100% complete. The City of Los Angeles' Bureau of Contract Administration signed-off on all punch list items on July 31, 2019. SBCC completed all punch list items and submitted 100% billing for all remaining items. SBCC submitted request for

Certificate of Final Acceptance and release of retention on April 12, 2020, and Final Acceptance was issued by Metro on April 13, 2020. Metro has issued a contract modification to close the balance of provisional sums and final payment and the release of retention was processed to the contractor. Metro issued the final release of retention check and SBCC issued "Unconditional Waiver and Release on Final Payment" on July 16, 2020.

• C1151 – Tunnels Contract:

Tunnel cross passage work is ongoing. At cross passage CP-52, ground treatment is completed, and excavation & initial lining installation (8%) is ongoing from BL tunnel. At cross passages CP-49 preparatory works and ground treatment are ongoing. Removal of TBM operation related equipment within the tunnels is ongoing.

C1152 – Stations Contract:

The final design continues and is approximately 97% complete. At the Westwood/UCLA station, excavation is about 40% complete. Walers and struts continue to be installed at excavation levels 2 and 3; 33% of walers and 26% of struts have been installed. Utility support work is ongoing and approximately 83% complete. At the Westwood/VA station, excavation is approximately 49% complete. Walers and struts continue to be installed at excavation level 3; 48% of walers and 56% of struts have been installed. At the Westwood/VA station entrance, tiebacks at level five are being installed, and eight lifts of shotcrete have been applied. Work inside the VA steam tunnel continued with the Mechanical, Electrical, and Plumbing systems (91% complete). Also, the installation of the dewatering system is complete, and the system is operational.

Third Party Utility Relocations:

The LADWP power cutover to 10921 Wilshire Boulevard (Westwood Medical Center) is expected to be completed in Fall 2023.

Cost and Schedule Summary

Metro issued Contract Modification 2 to the C1151 Tunnels contractor for extending Substantial Completion by 95 calendar days, in October 2022 Metro issued Contract Modification 23 that approved a time extension for 60 calendar days, and in July 2023 Metro issued a Change Order 11 to grant 757 calendar days extension. The total time extension for C1151 Substantial Completion is 912 calendar days. Due to the late hand over of the tunnels access to the C1152 Stations contractor, Change Order 109 was issued to the C1152 Stations contractor granting 161 calendar days for late access. Mitigation efforts are being evaluated to improve the Substantial Completion date and minimize impact to the C1152 Stations contract. It is anticipated that the forecast revenue service date (RSD) can be achieved before the Full Funding Grand Agreement (FFGA) stipulated RSD date.

The Critical Path (CP) of the Project includes third party utility relocations, C1152 Contractor required utility relocations, followed by both stations' support of excavation, street decking, station box excavations, and structural concrete for the stations. Next it flows into installation of the interior finishes and electrical equipment, followed by systems, testing and pre-revenue operations. A summary graphic of the critical path is found on Page 17.

C1151 Tunnels

	Original Contract Dates	Time Extension	Current Contract Forecas		Variance CDs

Project costs continue to track within budget and projected contingency limits. The Current Budget and Current Forecast remain the same this period at \$3.7 billion. Detailed cost and budget information is provided on Page 19.

The following claims that are being evaluated:

- C1151 Tunnels
 - NOIC 05 STV's Notice of Intent to Claim pertaining to RFC 12.4 -3rd Party Delays
- C1152 Stations, Trackwork, Systems, and Testing
 - o Claims 01 & 02 General Requirement Items (Insurance & Bond Cost)
 - o Claim 03 Reserve right for time extension under unilateral change orders
 - o NOIC 04 Delay impact due to utilities relocation at Wilshire & Gayley
 - o NOIC 05 VA grade separated pedestrian connection reconfiguration
 - o NOIC 06 RFC-019 Design cost regarding TTES reconfiguration
 - o NOIC 07 RFC-020 Design cost regarding TTES Vane Implementation
 - NOIC 08 RFC-011 Time impact on design management related to CO-001 thru CO-030
 - o NOIC 09 RFC-011 Additional time & compensation for CO-15.5
 - NOIC 10 RFC-025 Acoustic Criteria and Speech Intelligibility Criteria (Design)
 - NOIC 11 RFC-28 Added Cost to Remove & Dispose Unsuccessful Tree Relocation
 - NOIC 12 RFC-14 UCLA Station East UPE Grates (Design)
 - NOIC 13 Unilateral CO 35.3 VA Steam Tunnel Size Increase and Redundancy - VA Sta - Construction Only

Key Management Concerns

Turnover of the C1151 Tunnels contract to the C1152 Stations contract.

Project Construction Photos

Westwood/VA Station: Installation of Level 5 Tiebacks at Main Entrance

Cross Passage CP-52 in BL Tunnel: Excavation and Initial Lining Installation

Westwood/VA Station: Excavation Support Bracing at Level 3, West of Bonsall

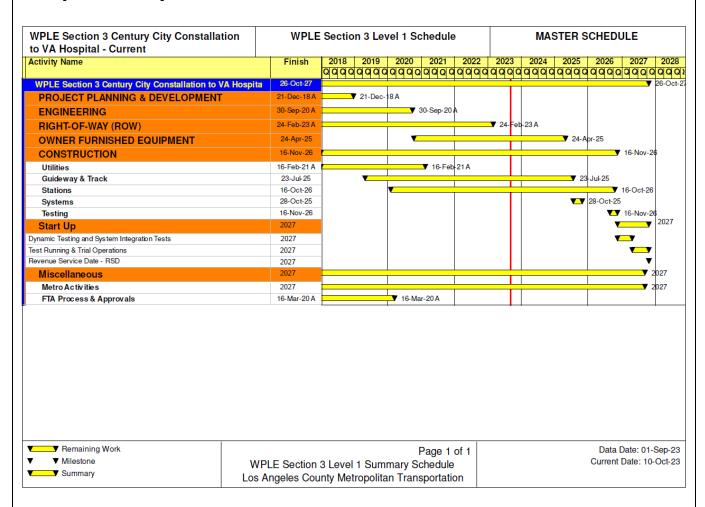

Westwood/UCLA Station: Welding of Transverse Bracing for Electrical Vault

Project Schedule Contingency Drawdown Analysis

The project schedule contingency drawdown model provides a dual-axis perspective based upon the FFGA RSD of December 2028 and Metro's Project Master Schedule (PMS) forecast of 2027.

The introduction of the PMS model axis reflects a proportional distribution of available float relative to the FFGA model.

With regards to the FFGA RSD, schedule float is currently Thirteen (13) months with respect to the current forecast project completion.

Original Budget

Original Budget of \$3.6 billion reflects the Life of Project (LOP) budget approved by the Board on February 28, 2019, plus Finance Charges of \$387.4 million.

Current Budget and Current Forecast

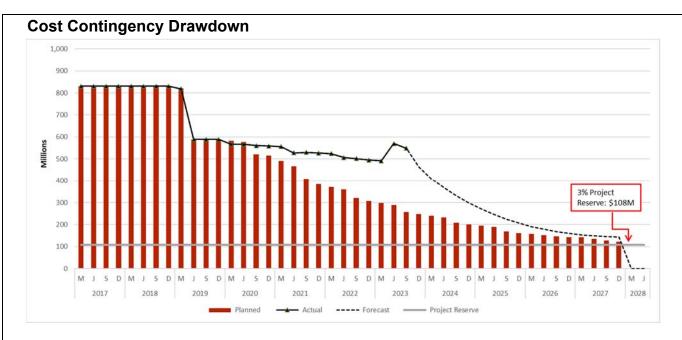

The Current Budget and Current Forecast remains the same this period at \$3.7 billion.

Commitments

The Commitments increased by \$5.2 million primarily due to Contract Modifications for Tunnels Contract C1151 and Project Control Support Services, Change Orders for Stations Contract C1152, Task Order for Engineering Design Services and Work Order for Third Party Master Cooperative Agreements offset by Third Party Agency commitment reduction of \$2.2 million due to completion of work orders from prior years. The \$2.3 billion in Commitments to date represent 63.8% of the Current Budget.

Expenditures

The Expenditures increased by \$15.5 million primarily due to costs associated with the Tunnels Contract C1151, Stations Contract C1152, VA Shuttle and Valet Services Contract 1204, Metro Project Administration, Engineering Management Support Services, Environmental Support Services, Quality Assurance Support Services, Legal Services, ROW agreement, appraisal and acquisition fees, Engineering Design Services, and Third Party Master Cooperative Agreements. The \$1.4 billion in Expenditures to date represent 38.3% of the Current Budget.

Cost Contingency Drawdown Analysis

The Original Budget of \$3.6 billion includes finance charges of \$387.4 million. It also includes a project cost contingency of \$830.6 million or 23.1% of the total project, which is based on the amended Life of Project (LOP) Budget approved by the Board in February 2019. An allocated contingency amount of \$366.5 million is included in the total cost contingency. The allocated contingency is an amount to cover anticipated but unknown contract modifications issued by Metro [when applicable to specific contracts within each Standard Cost Category (SCC)].

A 3% project reserve threshold is included in the project cost contingency drawdown. Metro's Board is to be notified when it becomes necessary to drawdown contingency below the project reserve threshold to cover project costs. This process was adopted by the Metro Board of Directors in September 2012.

The project cost contingency drawdown curve is based on a 2027 Forecast (RSD).

The allocated contingency decreased this period by \$1.1 million due to approved Contract Change Orders for Stations Contract C1152 and executed Contract Modification for Tunnels Contract C1151.

PROJECT COST CONTINGENCY					
DOLLARS IN THOUSANDS					
	Original Contingency (Budget)	Previous Period	Current Period	To-Date	Remaining Contingency (Forecast)
Unallocated Contingency	464,142	(222,058)	-	(222,058)	242,085
Allocated Contingency	366,455	(58,505)	(1,105)	(59,610)	306,845
Total Contingency	830,597	(280,562)	(1,105)	(281,667)	548,930

Risk Management

Summary of Risks

During the quarterly risk register meeting, one (1) new risk was identified, no risk was closed, resulting in a total of sixty-four (64) risks to be managed in the next quarter.

Of the sixty-four (64) risks, eight (8) are scored as high, thirty-two (32) as medium, and twenty-four (24) as low.

The next Purple (D Line) Extension Transit Project Section 3 Risk Register quarterly update is scheduled for December 2023.

Top Risks

The table below shows the top five (5) project risks.

Risk ID	Risk Description	Risk Score	Action Items
10.001	Cross passage work coordination between 2 contractors - C1151 & C1152	22.5	C1152 to re-evaluate and re-sequencing the schedule to interface with C1151 cross passage construction. Metro issued direction to proceed with the re-sequencing schedule. Pending negotiation with the contractor on final agreement.
653.30	Delay of contract turnover from tunnels to stations	22.5	1. Review schedule interface between tunnels and stations contracts. 2. Setup regular collaboration meeting. 3. Monitor the tunneling and station excavation progress and seek opportunities for schedule recovery. 4. Review the contractor's cost and schedule from C1151 for the resequencing. 5. C1152 Contractor to submit an integrated schedule with C1151 Tunnel Contractor. 6. Metro issued direction to proceed with the re-sequencing schedule. Pending negotiation with the contractor on final agreement. 7. Cross passage durations have been increased from the baseline duration as shown in the re-sequencing schedule. 8. Both C1151 & C1152 shall develop a interface plan to allow concurrent workin with different trades.
90.4	Covid 19 pandemic impact	15.0	1. RFCs under review by Metro
400.3	Additional measures may be needed if ground improvement does not work as intended or if further investigation by Contractor shows different conditions from baseline requiring a different ground improvement design/method. (cross passages)	13.5	Revising baseline report being finalized with C1151 Contractor. Contractor to provide probing plan after TBM tunnel. Contractor to submit a comprehensive phasing plan
677.3	3rd party approvals of SOE for stations utility supports and utilities conflicts in the field including station excavations, entrances & appendages at UCLA	12.5	1. Follow Section 2 criteria with COLA BOE.

Percent of Contract MODs equals the Total Contract MODs divided by the Contract Award Amount.

Twenty-five Contract Modifications (MODS) with a total value of \$25.3 million have been executed since the award of C1151 Contract for Tunnels.

Eighty-nine Contract Modifications (MODS) with a total value of \$12.5 million have been executed since the award of C1152 Contract for Stations.

Thirteen Contract Modifications (MODS) with a total value of \$2.0 million have been executed since the award of C1153 Contract for Advanced Utility Relocations.

DISADVANTAGED BUSINESS ENTERPRISE (DBE)

Contract C1151

As of August 2023:

DBE Goal – Design The percentage of funds apportioned to Design Contracts	11.19%
Current DBE Commitment Design Total DBE Committed Dollars divided by Total Contract Value for Design	\$3.17M 17.22%
Current DBE Participation Total amount paid to date to DBEs divided by the amount paid to date to Prime	\$3.21M 17.85%

Six (6) Design DBE sub-consultants have been identified for Design.

DBE Goal – Construction The percentage of funds apportioned to Construction Contracts	17.10%
Current DBE Commitment Construction Contract commitment divided by current contract value for Construction	\$87.54M 22.55%
Current DBE Participation Total amount paid to date to DBEs divided by the amount paid to date to Prime	\$81.96M 22.02%

Eighty-One (81) Construction DBE sub-contractors have been identified to date.

Contract C1152

As of July 2023:

DBE Goal – Design The percentage of funds apportioned to Design Contracts	19.25%
Current DBE Commitment Design Total DBE Committed Dollars divided by Total Contract Value for Design	\$15.93M 18.10%
Current DBE Participation Total amount paid to date to DBEs divided by the amount paid to date to Prime	\$14.35M 17.08%

Nineteen (19) Design DBE subcontractors have been identified for Design.

DBE Goal – Construction The percentage of funds apportioned to Construction Contracts	21.00%
Current DBE Commitment Construction Contract commitment divided by current contract value for Construction	\$57.79M 4.67%
Current DBE Participation Total amount paid to date to DBEs divided by the amount paid to date to Prime	\$36.49M 6.97%

Twenty-two (22) Construction DBE sub-contractors have been identified to date.

PROJECT LABOR AGREEMENTS

As of August 2023

Contract C1151

Targeted Worker Goal Construction work to be performed by residents from Economically Disadvantaged Area of Los Angeles County	40.00%
Targeted Worker Current Attainment	43.22%
Apprentice Worker Goal	
Construction work to be performed by Apprentices	20.00%

PROJECT ORGANIZATION AND STAFFING

The design-build contract is being managed by a joint team of Metro and consultant personnel jointly located at the Integrated Project Management Office (IPMO).

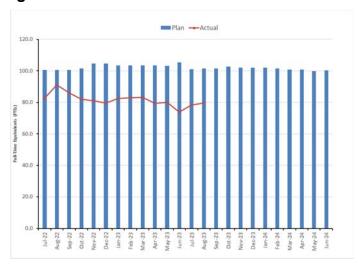

Metro Purple (D Line) Extension Transit Project Section 3 Responsibility and Reporting Matrix

The overall FY24 Total Project Staffing Plan averages 101.40 FTEs per month.

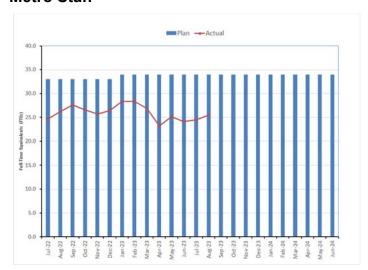

For August 2023, there were a total of 25.5 FTEs for MTA's Project Administration Staff and 54.0* FTEs for Consulting Staff. The total project staffing for August 2023 was 79.5 FTEs.

Total Project Staffing – Metro and Consultants

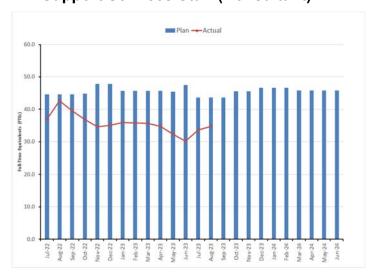

*Actuals include 4.3 FTEs related to Project Management Support Services (PMSS).

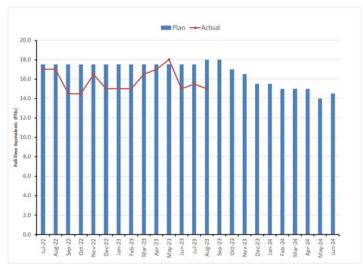

Metro Staff

CM Support Services Staff (Consultant)

Engineering Services Staff (Consultant)

Staffing by Group

The opposing graphs represent planned vs. actual staffing levels by group.

Metro staffing includes full time staff located in the IPMO as well as part-time support located at Gateway Headquarters.

Staffing plans are developed for each fiscal year based on project needs.

QUALITY ASSURANCE

- Attended weekly project staff meetings for C1151 Tunnels, C1152 Stations, and FKTP & TPOG weekly progress meetings.
- Held QA/QC meetings with C1151 FKTP and C1152 TPOG Quality Teams.
- Attended QMO Priority Meeting for both C1151 and C1152 Construction and Process Assessments.
- Support Metro Auditor on C1152 Construction Management System audit process.
- Coordinate with Metro ITL (N & M) to conduct special testing on shotcrete application at C1151 tunnel cross passage shotcrete and C1152 Tiebacks wall lagging and conducted welding inspection and NDT on C1152 SOE onsite installation and offsite fabrication.
- Review and provide comments on C1151 and C1152 submittals and RFIs.
- Conducted <u>new assessment</u> and issued subsequent conforming or non-conforming items for following:
 - C1151 (Tunnels Contract)
 - Environmental Assessment on GR-01 35 35 Water Pollution Control
 - ➤ C1152 (Stations Contract)
 - VA Station SOE Welding (Bracing, struct) Field Assessment
 - VA Station SOE Tie-Backs Installation Field Assessment
 - VA Station SOE Tiebacks Lagging Shotcrete Wall (Field Assessment) @
 3rd Level Assessment
 - VA Station Field Welding Assessment on SOE Struts and Wales Installation
 - VA Station Welding inspection oversight at TPOG Fontana Yard for SOE struts and walers fabrication
 - UCLA Station Geotechnical Instrumentation (For SOE Struts Strain Gauge Only) Field Assessment
 - UCLA Station SOE Welding Inspection (Bracing, struct) on SOE Struts, walers and Bracing Installation Field Assessment
 - UCLA Station SOE Mass Excavation 3rd Level Field Assessment
 - UCLA Station SOE Shop Welding and NDT of Bracing & Structure Fabrication Assessment at TPOG Fontana Yard
 - NDT oversight at TPOG Fontana Yard on September 5 and 6, 2023.
 Observed and performed ultrasonic testing (UT) on strut splices CJP (repairs) to verify UT test results
 - Conducted <u>on-going monthly assessment</u> and issued subsequent conforming or non-conforming items for following:
 - C1151(Tunnels Contract)
 - Environmental Assessment on GR-01 35 35 Water Pollution Control.
 - C1152 (Stations Contract)
 - VA Station and UCLA Station SOE Shop Fabrication Welding (Struts, Walers, bracing) at TPOG Fontana Yard
 - VA and UCLA Stations Welding inspection and NDT oversight on SOE Struts, Walers, and Utility Bracing Installation
 - VA and UCLA Station SOE Excavation / Lagging Installation / Struts Jacking and Strain Gauge Installation / Utility Support & bracing installation.
 - VA Station SOE tiebacks installation and shotcrete application

ENVIRONMENTAL

- Conducted field environmental monitoring and inspections for environmental compliance and VA/UCLA MOA's for FKTP and TPOG.
- Paleontological monitoring at Westwood/UCLA and Westwood/VA Stations during excavations.
- Inspection of construction dewatering systems at VA and UCLA stations prior to dewatering.
- Finalized supplemental historical report for upcoming work at GSA with FTA.
- Completed review of stations final sustainability plan.

CONSTRUCTION AND COMMUNITY RELATIONS

- Attended the following meetings: Construction Management meetings for the Tunnels and Stations contracts, Section 2 and 3 Coordination, LADOT, VA Coordination, LABOE, Tishman Speyer coordination, UCLA, Westwood Medical Plaza coordination, and Westwood Building Managers.
- Produced and distributed 62 construction work notices for Westwood/UCLA work activities. Westwood/VA work activities. and tunnel work activities.
- Continued coordination with major stakeholder groups including LA Council Districts 5 and 11, Department of Veterans Affairs, County of Los Angeles, UCLA, Westwood Village, Century City Building Managers.
- Updated Facebook/Twitter and Metro.net as needed.

CREATIVE SERVICES

- Presented Westwood/VA Hospital Station artwork designs in progress at the Los Angeles County Veterans Advisory Commission meeting on September 20
- Management of artist design development for integrated station artworks.
- Assessment of Project operating impacts to signage between sections and systemwide.
- Coordination with arts and cultural stakeholders.
- Coordination with LA County and VA on "Veterans Legacy Art Project."

SAFETY AND SECURITY

Contract C1151 Tunnels

- Metro Project Safety staff attended weekly Toolbox Meetings, Progress Meetings, readiness reviews, and other project meetings to evaluate Contractor's Safety Program compliance with contract requirements.
- Metro / FKTP-JV project safety staff conducted schedule, safety / security and over-theshoulder review meetings.
- Metro Project Safety staff worked regularly with Program Management and Construction Relations staff to monitor issues related to public concerns regarding noise, traffic, and public/construction interfaces as well as public interactions with the construction crews.
- Metro Project Safety staff conducted project Safety Orientation, SCSR and H2S Safety Training for new Metro / Consultants and IPMO project staff.
- Metro Project Safety staff conducted right-of-way (ROW) and safety/security walks, safety/security reviews, and coordination with FKTP-JV staff for oversight and support of all project field work activities.
- Metro Project Safety hosted the August Monthly Safety and Security Meeting for Section 3 Westside-Purple Line Extension Contractors on September 29, 2023.
- FKTP-JV reported Zero (0) Recordable Injury in September 2023.
- FKTP-JV reported 22,335 actual work hours through September 2023.
- FKTP-JV Project to Date through September 2023, Contractor FKTP-JV Work Hours are 1,545,450.
- FKTP-JV Project to Date, there are Twenty (20) Recordable Injuries and Five (5) Days Away from Work Injuries. The Recordable Injury Rate of 2.59. The Bureau of Labor Statistics reports the National Average Recordable Injury Rate is 2.4.

Contract C1152 Stations, Trackwork, Systems, and Testing

- Metro Project Safety staff attended weekly Toolbox Meetings, Progress Meetings, readiness reviews, and other project meetings to evaluate Contractor's Safety Program compliance with contract requirements.
- Metro/(TPOG-JV) project safety staff conducted schedule, safety/security, and over-theshoulder review meetings.
- Metro Project Safety staff conducted project Safety Orientation, SCSR and H2S Safety Training for new Metro/Consultants and IPMO project staff.
- Metro Project Safety hosted the August Monthly Safety and Security Meeting for Section 3 Westside-Purple Line Extension Contractors on September 29, 2023.
- Metro Project Safety staff conducted project Safety Orientation for new Metro/Consultants and IPMO project staff.
- Metro Project Safety conducted right-of-way (ROW) and safety/security walks, safety/security reviews, and coordination with TPOG-JV staff for oversight and support of all project field work activities.
- TPOG-JV reported Zero (0) Recordable Injuries in September 2023.
- TPOG-JV reported 32,664 actual work hours through September 2023.
- TPOG-JV Project to Date through September 2023 Contractor TPOG-JV Work Hours is 1,337,393.
- TPOG-JV Project to Date, there are Zero (0) Recordable Injuries and Zero (0) Days Away from Work Injuries. The Recordable Injury Rate of 0.0. The Bureau of Labor Statistics reports the National Average Recordable Injury Rate is 2.4.

APPENDIX

CHRONOLOGY OF EVENTS

January 2011 FTA approval to enter Preliminary Engineering

August 2012 FTA Record of Decision

April 2017 Issued RFQ for C1151 Tunnels Design/Build Contract

May 2017 Issued IFB for C1153 AUR Contract

September 2017 Issued RFQ for C1152 Stations, Trackwork, Systems & Testing

Design/Build Contract

January 2018 Issued NTP for C1153 AUR Contract

April 2018 C1153 Contractor commenced work

August 2018 FTA approval to enter New Starts Engineering Phase

September 2018 Received FTA approval for Letter of No Prejudice for C1151 Tunnels

Contract

November 2018 Issued Contract Award for C1151 Tunnels Contract

December 2018 FTA completed environmental review of 23 CFR §771.130 (c)

January 2019 Issued NTP for C1151 Tunnels Contract

April 2019 Received FTA's Letter of No Prejudice for C1152 Stations Contract

May 2019 Issued Contract Award for C1152 Stations Contract

June 2019 C1153 AUR Contract achieved Substantial Completion

July 2019 Issued NTP for C1152 Stations Contract

September 2019 FKTP began SCE Ductbank Construction

December 2019 Partial VA Site Access Given for Tree Removal

January 2020 Access to Tail Track Exit Shaft & Western Staging Area

February 2020 UCLA Lot 36 Access Given to TPOG

March 2020 FTA Executed FFGA

Purple (D Line) Extension Transit Project Section 3 Quarterly Project Status Report

June 2020	FKTP Completed SCE Ductbank Construction
July 2020	Began TBM Assembly in the Tail Track Exit Shaft
October 2020	TBM #1 Began Initial Tunnel Operations on October 23, 2020
November 2020	Access to VA Campus Lot 42
December 2020	Installation of Starter Gantry for TBM #1 (BR)
January 2021	TBM #1 (BR) Bore the first 415 feet. Permeation Grouting at Sepulveda started
February 2021	Removal of Starter Gantry for TBM #1 (BR)
March 2021	Installation of Starter Gantry and Cradle for TBM #2 (BL). Start Utilities Relocation in VA. Westwood/VA Station SOE pile installation started.
April 2021	Commission TBM #2 (BL) Starter Gentry & Start Boring. SOE Piling at VA started
May 2021	Storm Drain and Sanitary Sewer in VA completed
June 2021	West Endwall at VA completed
July 2021	Removal of Starter Gantry for TBM #2 (BL)
August 2021	UCLA Station SOE Pile Installation Started (Install West to East). Westwood/VA SOE pile installation complete. TBM #1 (BR) resumed full-mode mining.
September 2021	East Endwall at Westwood/VA Hospital Station completed. Permeation grouting work underneath Sepulveda Blvd completed.
October 2021	Install Soldier Piles Wilshire North - Stage 1 East - Gayley to Westwood.
November 2021	TBM #1 (BR) completed continuous mining underneath I-405 freeway and 96" MWD feeder. TBM #2 (BL) resumed full-mode mining.
December 2021	Contract C1204 – Shuttle and Valet Services During Construction of the Westwood/VA Station awarded to Everpark Inc. and NTP issued.
January 2022	BL TBM and BR TBM completed mining through the Westwood/VA Station and proceeding to the Westwood/UCLA Station. VA steam tunnel relocation work initiated.
February 2022	Concrete placement for the Construction on VA steam tunnel concrete cradle initiated. BR TBM reached the Westwood/UCLA Station, and the BL TBM completed the I-405/Sepulveda crossing.

Purple (D Line) Extension Transit Project Section 3 Quarterly Project Status Report

March 2022	Installation of reinforced concrete pipes for the VA Steam tunnel commenced and was completed in the month. TBM #2 (BL) reached Westwood/UCLA Station.
April 2022	First hyperbaric intervention for tool changes on TBM #2 (BL).
May 2022	TBM #1 (BR) completed 50% of the tunnel drive. TBMs successfully passed through the location of Westwood/UCLA station. Casting of C1151 tunnel linings 75% complete.
June 2022	TBM #2 (BL) completed 50% of the tunnel drive.
July 2022	Current phase of Westwood/UCLA SOE piles complete (87% of piles) - SOE to be completed following pile installation for entrances in 2024.
August 2022	Commenced installation of Westwood/UCLA station road decking at Wilshire Blvd. Construction at relocated Chase Bank at Westwood/UCLA completed. SCE power cut-over at Westwood/VA completed.
September 2022	Ground improvement at Westwood/UCLA completed. Commenced change-over of Westwood/VA Steam lines to new condensate & steam lines.
October 2022	Completed Change-over of Westwood/VA Steam lines to new condensate & steam lines. Commenced excavation of Westwood/VA Station. TBM #1 (BR) completed 75% of the tunnel drive. Invitation For Bid (IFB) documents issued for the VA Parking Structure - Contract C1212.
November 2022	Completed temporary road decking at Wilshire Blvd over the Westwood/UCLA station box location. Started excavation of Westwood/UCLA station. At Westwood/VA station started installation of the first level of struts/bracing. Manufacture of seismic steel tunnel linings completed.
December 2022	TBM #1 (BR) started installation of seismic steel tunnel linings. Casting of C1151 tunnel linings 100% complete.
January 2023	Westwood/UCLA Station excavation 13% complete. Westwood/VA station excavation 16% complete. Both TBMs, BR & BL, have advanced east of Santa Monica Boulevard.
February 2023	Westwood/UCLA Station excavation 16% complete. Westwood/VA station excavation 17% complete.
April 2023	Guideway mechanized tunneling 100% complete.
May 2023	Cross passage excavation started.
August 2023	Issued C1212 (VA Parking Structure) Notice to Award
1	

September 2023	Issued C1212 (VA Parking Structure) Notice to Proceed
	· · · · · · · · · · · · · · · · · · ·
