Final Environmental Impact Statement/Environmental Impact Report—Volume 4
APPENDIX H: *Response to Comments*

APPENDIX H—RESPONSE TO COMMENTS

This appendix presents the response to comments made on the Draft EIS/EIR. As part of the NEPA and CEQA process, the Draft EIS/EIR was circulated for a 45-day review and comment period starting September 3, 2010 and concluding October 18, 2010. During this period, the document was made available to interested and concerned parties, including residents, property owners, community groups, the business community, elected officials, and public agencies, for public and agency comment. More than 800 submission comments were received, which included nearly 2,000 comments. Chapter 8, Coordination and Consultation, of this Final EIS/EIR describes in more detail the public outreach process used during the Draft EIS/EIR phase.

Appendix H is organized as follows:

- Table H.1: List of Submission
 - ❖ A full list of all submissions with page numbers (Page H-section number-page number)
- Section 2.0: Agency Comments and Responses
 - ❖ Section 2.1: Federal Agency Comments and Responses

 - ❖ Section 2.3: Local Agency Comments and Responses
- Section 3.0: Group and Organization Comments and Responses

 - ❖ Section 6.2: Individuals Last Name G-M Comments and Responses
 - ❖ Section 6.3: Individuals Last Name N-T Comments and Responses
 - ❖ Section 6.4: Individuals Last Name U-Z Comments and Responses

To locate a comment and response, identify the commenter in the Table H.1 – List of Submissions. Submissions are grouped by categories (public agencies, groups, individuals, etc.) and each submission was assigned a submission number. Those who spoke at a public hearing are listed under their affiliation (individuals who spoke are listed under individuals, government officials who spoke are listed under government officials, etc). The page number in the List of Submissions first lists the section number and then the page number of the first page of the submission. For example, page H-6.1-230 would begin on page 230 of Section 6.1.

Each submission was divided into unique comments. On the submission, each of these comments is labeled by submission number-comment number (e.g. 234-1 would be

submission number 234 comment number 1). The response to each comment appears immediately to the right of the comment, with both the comment and response designated the same identifying number.

Each comment letter and comment was reviewed thoroughly and a response developed that best addressed the remark. In some cases, “topical” or “themed” responses were developed for comments that had similar concerns. Chapter 8 of this Final EIS/EIR provides an overview of the major theme of the comments received and the thematic responses developed to address them. As indicated in Chapter 8, the majority of the comments received from the public related to the following topics: length of the Project’s LPA alignment; Century City Stations and associated routes; Westwood/VA Hospital Stations; other station locations; project schedule; station connectivity; transportation issues; and construction effects.

In some instances, a comment generated a need to make a change to the environmental document. Where changes were made in this Final EIS/EIR, the appropriate section in which the change was made is referenced in the response. Changes or corrections identified with respect to the Draft EIS/EIR are addressed in the Draft EIS/EIR Errata which is available on the Draft EIS/EIR page of the Metro Westside Subway Extension Project website: www.metro.net/projects/westside/westside-reports.
