FOR IMMEDIATE RELEASE

"Century Crunch" Public Service Announcement Video Now Available

Supervisor Ridley-Thomas asks for Patience During Century Crunch, 57-Hour Bridge Demolition July 25-28 at Century/Aviation Boulevards

Metro has released a Public Service Announcement featuring Los Angeles County Supervisor Mark Ridley-Thomas alerting the public about the upcoming demolition of the old railroad bridge over Century Boulevard at Aviation Boulevard the weekend of July 25-28, 2014.

The PSA video is publicly available on You Tube at <http://youtu.be/1mii88iUFHY> to help individuals, businesses, and community members alike raise public awareness about the coming demolition operation and required street closures.

Century Boulevard is one major artery to Los Angeles International Airport with more than 92,000 motorists traveling through the Century and Aviation boulevards intersection daily.

Ridley-Thomas is asking the public to plan ahead, have patience, allow extra time if traveling in the area, find an alternate route, or use public transit.

"We're here to alert you to what we are calling the 'Century Crunch,'" says Ridley-Thomas in the PSA. "We want to make sure that we are safe...and that no one is in any way harmed by delays."

The 57-hour full street closure on Century Boulevard will begin on 9 p.m. Friday, July 25 and open at 6 a.m. Monday, July 28. Aviation Boulevard will close the southbound lane between Arbor Vitae and 104th street.

The overpass bridge needs to be replaced for construction of a new state-of-the-art light-rail station for the Crenshaw/LAX Line, a 8.5-mile rail line that will connect the Green Line and the Expo Line. The Crenshaw/LAX Line is expected to open in 2019.

For more information on the Crenshaw/LAX Transit Project, the Century bridge demolition, related street closures and recommended detours go to metro.net/Crenshaw. Join us on Facebook at <https://www.facebook.com/CrenshawRail> and on Twitter at <https://twitter.com/crenshawrail>.

About Metro

Metro is a multimodal transportation agency that is really three companies in one: a major operator that transports about 1.5 million boarding passengers on an average weekday on a fleet of 2,000 clean air buses and six rail lines, a major construction agency that oversees many bus, rail, highway and other mobility related building projects, and it is the lead transportation planning and programming agency for Los Angeles County. Overseeing one of the largest

public works programs in America, Metro is, literally, changing the urban landscape of the Los Angeles region. Dozens of transit, highway and other mobility projects largely funded by Measure R are under construction or in the planning stages. These include five new rail lines, the I-5 widening and other major projects.
