AB 2645 Lackey R Electronic toll collection systems: information sharing: law enforcement.	5/23/2024-S. RLS. 5/23/2024-In Senate. Read first time. To Com. on RLS. for assignment.	Current law prohibits a transportation agency, as defined, from selling or otherwise providing to any other person or entity, with certain exceptions, personally identifiable information of a person who subscribes to an electronic toll collection system or who uses a toll bridge, toll lane, or toll highway that employs an electronic toll collection system. Under current law, a transportation agency is authorized to make personally identifiable information of a person available to a law enforcement agency only pursuant to a search warrant, except under certain circumstances. Current law defines “personally identifiable information” for these purposes and provides that it includes, among other things, a license plate number. Current law authorizes a law enforcement agency to request the Department of the California Highway Patrol (CHP) to activate the Emergency Alert System within the appropriate area if that agency determines that a child 17 years of age or younger, or an individual with a proven mental or physical disability, has been abducted and is in imminent danger of serious bodily injury or death, and there is information available that, if disseminated to the general public, could assist in the safe recovery of that person.
