#### **Independent Auditor's Report**

To the Honorable Members of the City Council of the City of Commerce, California and the Los Angeles County Metropolitan Transportation Authority

## **Report on the Financial Statements**

We have audited the accompanying financial statements of the Transit Fund (the Fund) of the City of Commerce, California (the City) which comprise the Fund's statements of net position as of June 30, 2021 and 2020, the related statements of revenues, expenses and changes in net position, and cash flows for the years then ended, and the related notes to the financial statements.

## Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### **Auditor's Responsibility**

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the City's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

# **Opinion**

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Transit Fund of the City of Commerce, California, as of June 30, 2021 and 2020, and the changes in its financial position and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

# **Emphasis of Matter**

As more fully described in Note 1, the financial statements present only the Transit Fund of the City and do not purport to, and do not present fairly the financial position of the City of Commerce, California, as of June 30, 2021 and 2020, the changes in its net position and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

#### **Supplementary Information**

Our audits were conducted for the purpose of forming an opinion on the Fund's financial statements as a whole. The supplementary information identified in the table of contents is presented for purposes of additional analysis and is not a required part of the basic financial statements.

The supplementary information identified in the table of contents is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the Fund's basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the Fund's basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the Fund's basic financial statements or to the Fund's basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information is fairly stated, in all material respects, in relation to the Fund's basic financial statements as a whole.

# Other Reporting Required by Governmental Auditing Standards

new 4 Company LLP

In accordance with *Government Auditing Standards*, we have also issued our report dated December 22, 2021 on our consideration of the City's internal control over the Transit Fund's financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over the Transit Fund's financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City's internal control over the Transit Fund's financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control over Transit Fund's financial reporting and compliance.

# NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Transit Fund (the Fund) of the City of Commerce (the City) is an enterprise fund of the City created by resolution of the City Council. The Fund accounts for the activities necessary to provide transportation service to the citizen and the industrial community. The accounting policies of the Fund conform to accounting principles generally accepted in the United States of America. The following is a summary of the significant policies applied in the preparation of the Fund's financial statements.

# **Reporting Entity and Fund Accounting**

All transactions of the Transit Fund are included in the reporting entity of the City of Commerce and are recorded in a separate fund of the City. As such, the accompanying financial statements present only the Transit Fund and do not purport to, and do not present fairly the financial position and the changes in financial position of the City of Commerce, California, as of and for the years ended June 30, 2021 and 2020. A fund is defined as an independent fiscal and accounting entity with a self-balancing set of accounts recording resources, related liabilities, deferred inflows and outflows, reserves, revenues and expenses and fund equities segregated for the purpose of carrying out specific activities or attaining certain objectives in accordance with special regulations, restrictions, or limitations.

The Fund follows the Uniform System of Accounts and Records prescribed by the Federal Transportation Administration (FTA) and the California State Controller. Transit system operations provide transportation services to the general public.

### **Fair Value Measurement**

In accordance with GASB Statement No. 72, Fair Value Measurement and Application, the City categorizes its fair value measurement within the fair value hierarchy that is based on the valuation inputs used to measure the fair value of the investment. Level 1 inputs are quoted prices in active markets for identical investments; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs. Accordingly, the City reports its investments at fair value and recognizes unrealized gain (loss) on investments.

Refer to the City's Annual Comprehensive Financial Report (ACFR) for detailed disclosures regarding the City's investments policy and fair value measurement disclosures.

# NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

# Cash, Cash Equivalents and Investments

Cash and investments of the Transit Fund are maintained in the City's cash and investment pool for the purpose of increasing income through investment activities.

Available cash balances consist primarily of certificates of deposit, deposits in the State Treasurer's Local Agency Investment Fund, bankers' acceptances and Federal agency investments and repurchase agreements. All of the City's investments are authorized by State statute. Cash and investments are stated at cost, which approximates fair value. The Transit Fund reported zero balance of cash and investments as of June 30, 2021 and 2020.

For purposes of reporting cash flows for the Fund, cash and cash equivalents include cash on hand and investments purchased with original maturities of 90 days or less. Cash includes deposits in the cash management pool that has the general characteristics of a demand deposit account. Further information concerning the City's investment pool and a full description of risks relating to cash and investments can be found in the City's ACFR.

## **Capital Assets**

Capital assets, comprised of property and equipment, are recorded at cost. Depreciation of capital assets in the Transit Fund is charged to operations. Depreciation is provided over the estimated useful lives of the assets using the straight-line method with no allowance for salvage values. The estimated useful lives used in computing depreciation of capital assets are as follows:

Description	Estimated Useful Life
Buildings	10-40 years
Improvements other than buildings	20-30 years
Distribution system	20-30 years
Infrastructure	20-40 years
Machinery and equipment	5-13 years

#### **Unearned Revenues**

Grants received by the City for the acquisition of capital assets and certain operating expenses are recorded as unearned revenue until such time as the capital assets are acquired or as the expenses are incurred.

# NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### **Deferred Outflows and Inflows of Resources**

Pursuant to GASB Statement Nos. 63 and 65, the City recognizes deferred outflows and inflows of resources. A deferred outflow of resources is defined as a consumption of net position by the government that is applicable to a future reporting period. A deferred inflow of resources is defined as an acquisition of net position by the government that is applicable to a future reporting period. Deferred outflows and inflows of resources as of June 30, 2021 and 2020 represent pension and OPEB related deferrals reported in accordance with GASB Statement No. 68, Accounting and Financial Reporting for Pensions—an amendment of GASB Statement No. 27, GASB Statement No. 71, Pension Transition for Contributions Made Subsequent to the Measurement Date—an amendment of GASB Statement No. 68, and GASB Statement No.75, Accounting and Financial Reporting for Postemployment Benefits Other than Pensions.

Further information concerning the City's pension and OPEB can be found in the City's ACFR.

#### **Statement of Cash Flows**

The City maintains the Statement of Net Position for the entire Transit Fund. The individual Statement of Net Position components cannot be broken down by projects. Thus, the Statement of Cash Flows cannot be presented separately for the Fixed Route, Dial-A-Ride and Recreational Transit projects.

# **Use of Estimates**

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures during the reporting period. Specifically, the Transit Fund has made certain estimates and assumptions relating to the collectability of its receivables and the useful lives of the capital assets. Actual results could differ from those estimates and assumptions.

#### Pensions

For purposes of measuring the net pension liability and deferred outflows/inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the City's California Public Employees' Retirement System (CalPERS) plans (Plans) and additions to/deductions from the Plans' fiduciary net position have been determined on the same basis as they are reported by CalPERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

# NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

### **Postemployment Benefits Other Than Pensions (OPEB)**

For purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the City's OPEB Plan and additions to/deductions from the Plan's fiduciary net position have been determined on the same basis as they are reported by the Plan. For this purpose, the Plan recognizes benefit payments when due and payable in accordance with the benefit terms. Investments are reported at fair value, except for money market investments and participating interest-earning investment contracts that have a maturity at the time of purchase of one year or less, which are reported at cost.

#### NOTE 2 DUE FROM OTHER GOVERNMENTS

As of June 30, 2021 and 2020, amounts due from other governmental agencies consisted of the following:

	_	2021	2020
State of California	\$	10,906	\$ -
Total	\$	10,906	\$ -

# NOTE 3 CAPITAL ASSETS

Capital assets at June 30, 2021 and 2020 is composed of:

	_	2021		2020

FTA CARES Act Labor		668,429	-
FTA Comprehensive Operational Analyst		93,269	-
FTA Transit Facility at CREA Site		116,607	
Tota	I \$_	3,757,257	\$ 3,150,964

# NOTE 5 OPERATING TRANSFERS

Proposition A Local Return revenues are recorded in the Proposition A Local Return Fund and then transferred to the Transit Fund as Operating Transfers. The funds transferred are used to finance the operations of the Transit Fund.

For the fiscal years ended June 30, 2021 and 2020, the Operating Transfers consisted of the following:

	_	2021	2020
Proposition A Local Return Fund	\$	261,984	253,644
Proposition A Exchange		1,425,000	1,425,000
Total	\$	1,686,984	1,678,644

#### NOTE 6 PENSION PLAN

# California Public Employers' Retirement System (CalPERS)

All qualified permanent and probationary employees are eligible to participate in the City's Miscellaneous Plan, agent multiple-employer defined benefit pension plans administered by CalPERS, which acts as a common investment and administrative agent for its participating member employers. Benefit provisions under the Plans are established by State statute and Local Government resolution. CalPERS issues publicly available reports that include a full description of the pension plans regarding benefit provisions, assumptions and membership information that can be found on the CalPERS' website under Forms and Publications.

CalPERS provides service retirement and disability benefits, annual cost of living adjustments and death benefits to plan members, who must be public employees and beneficiaries. Benefits are based on years of credited service, equal to one year of full time employment.

The City's net pension liability was measured as of June 30, 2020 and 2019 and the total pension liability used to calculate the net pension liability was based on an actuarial valuation as of June 30, 2019 and 2018, respectively.

In accordance with GASB Statement No. 68, the City allocated the following pension related accounts to the Fund as of June 30, 2021 and 2020:

	 2021	2020
Net pension liability	\$ 3,212,258 \$	4,460,220
Deferred outflows of resources	331,626	734,864
Deferred inflows of resources	917,990	118,337

Refer to the City's ACFR for the fiscal years ended June 30, 2021 and 2020 for more information about the City's pension plan and required note disclosures.

#### NOTE 7 POSTEMPLOYMENT BENEFITS PLAN

### Plan Description

The City administers a single-employer defined benefit plan with medical insurance benefits to eligible retirees and their spouses in accordance with various labor agreements. The City has not established a trust for the purpose of holding assets accumulated for plan benefits. After age 65, Medicare automatically becomes the primary provider of health coverage. The City's defined benefit plan becomes the secondary provider. Eligible retirees will have no noticeable change in health benefits or plan administration; however, there is a reduction in the City's cost of health coverage as the secondary provider. The City's defined benefit plan administrator establishes the cost of secondary provider rates annually. The City will pay 100% for eligible retirees' health coverage.

# **Eligibility**

Employees are eligible for retiree health benefits if they retire from the City on or after age 50 with at least 5 years of service and are eligible for a CalPERS pension.

#### **Net OPEB Liability**

The City's net OPEB liability was measured as of June 30, 2021 and 2019, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of June 30, 2020 and 2018, respectively.

In accordance with GASB Statement No. 75, the City allocated 16.00% and 13.70% of the City's total OPEB liability, expense and deferred inflows and outflows of resources to the Fund as of June 30, 2021 and 2020, respectively. Amounts allocated are as follows:

	2021	2020	
Net OPEB liability	\$ 9,413,626	\$ 8,209,398	
Deferred outflows of resources	907,994	911,581	
Deferred inflows of resources	1,463,257	1,121,632	

Refer to the City's ACFR for the fiscal years ended June 30, 2021 and 2020 for more information about the City's postemployment benefits plan and required note disclosures.

# NOTE 8 IMPACT OF CORONAVIRUS

On January 30, 2020, the World Health Organization declared the coronavirus outbreak a "Public Health Emergency of International Concern" and on March 10, 2020, declared it to be a pandemic. The coronavirus and actions taken to mitigate it have had and are expected to continue to have an adverse impact on the economies and financial markets of many countries, including the United States.

It is unknown how long these conditions will last and what the complete financial effect will be to businesses and other affected organizations, including local governmental entities. However, the City's management believes that the financial impact, if any, will not materially affect the June 30, 2021 funds financial statements.

#### NOTE 9 SUBSEQUENT EVENTS

The City has evaluated events subsequent to June 30, 2021 to assess the need for potential recognition or disclosure in the financial statements. Such events were evaluated through December 22, 2021, the date the financial statements were available to be issued. Based upon this evaluation, it was determined that no subsequent events occurred that require recognition or additional disclosure in the financial statements.

OFFICE LOCATIONS: Los Angeles Sacramento San Diego Manila

Independent Auditor's Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with Government Auditing Standards

To the Honorable Members of the City Council of the City of Commerce, California and the Los Angeles County Metropolitan Transit Authority

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the Transit Fund (the Fund) of the City of Commerce, California (the City) as of and for the year ended June 30, 2021, and the related notes to the financial statements, and have issued our report thereon dated December 22, 2021.

# **Internal Control over Financial Reporting**

In planning and performing our audit of the Fund's financial statements, we considered the City's internal control over the Fund's financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the Fund's financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, we do not express an opinion on the effectiveness of the City's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the Fund's financial statements will not be prevented or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

## **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the City's Transit Fund financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

## **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

# **Independent Auditor's Report on Compliance**

To the Honorable Members of the City Council of the City of Commerce, California and the Los Angeles County Metropolitan Transit Authority

#### **Report on Compliance**

We have audited the City of Commerce, California's (the City) compliance with the Transportation Development Act, State Transit Assistance, Proposition A 40% Discretionary and Proposition C 40% Discretionary Program Memorandum of Understanding (MOU) and Guidelines, and Proposition 1B Guidelines (collectively, the Guidelines) for the year ended June 30, 2021.

### Management's Responsibility

Management is responsible for the City's compliance with the Guidelines.

#### **Auditor's Responsibility**

Our responsibility is to express an opinion on the City's compliance based on our audit. We conducted our audit of compliance in accordance with the auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States; and the Guidelines. Those standards and the Guidelines require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the compliance requirements referred to above that could have a direct and material effect on the Transit Fund occurred. An audit includes examining, on a test basis, evidence about the City's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance with the Guidelines. Our audit does not provide a legal determination on the City's compliance with the Guidelines.

#### **Opinion**

In our opinion, the City of Commerce, California complied, in all material respects, with the compliance requirements of the Guidelines for the year ended June 30, 2021.

#### **Report on Internal Control over Compliance**

Management of the City is responsible for establishing and maintaining effective internal control over compliance with the compliance requirements referred to above. In planning and performing our audit of compliance, we considered the City's internal control over compliance to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the City's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance on a timely basis. A material weakness in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that we consider to be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Guidelines. Accordingly, this report is not suitable for any other purpose.

There were no findings noted.

An exit conference was held on December 15, 2021 with the City of Commerce representatives. Those in attendance were:

Vasquez and Company LLP representatives:

Cristy Canieda – Partner

Marialyn Salvador – Audit Senior Manager

Pam Tolentino – Senior Auditor

City of Commerce representatives:

Josh Brooks – Assistant Director of Finance
Claude McFerguson – Director of Transportation
Grant Farrell – Contract Accountant

#### Matters discussed:

Results of the audit disclosed no significant financial and compliance issues.

A copy of this report was forwarded to the following City representative for their comments prior to the issuance of the final report:

Josh Brooks – Assistant Director of Finance Claude McFerguson – Director of Transportation Grant Farrell – Contract Accountant
