Independent Auditor's Report

To the Honorable Members of the City Council of the
City of Commerce, California and the
Los Angeles County Metropolitan Transportation Authority

Report on the Audit of the Financial Statements

Opinions

We have audited the financial statements of the Measure R 20% Bus Operations Fund and the Measure R Regional Clean Fuel Bus Capital Fund (collectively, the Funds) of the City of Commerce, California (the City) which comprise the Funds' balance sheets as of June 30, 2022 and 2021, the related statements of revenues, expenditures and changes in fund balances for the years then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the Measure R 20% Bus Operations Fund and the Measure R Regional Clean Fuel Bus Capital Fund of the City of Commerce, California as of June 30, 2022 and 2021, and the respective changes in financial position for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the City and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Emphasis of Matter

As discussed in Note 2, the financial statements present only the Measure R 20% Bus Operations Fund and the Measure R Regional Clean Fuel Bus Capital Fund of the City of Commerce, California, and do not purport to, and do not present fairly the financial position of the City as of June 30, 2022 and 2021, and the changes in its financial position for the years then ended in accordance with accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

Responsibilities of Management's for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the City's ability to continue as a going concern for twelve months beyond the financial statements date including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplementary Information

Our audits were conducted for the purpose of forming opinions on each of the Funds' financial statements as a whole. The supplementary information identified in the table of contents is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the Funds' basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the Funds' basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the Funds' basic financial statements or to the Funds' basic financial statements themselves, and other additional procedures in accordance with GAAS. In our opinion, the supplementary information is fairly stated, in all material respects, in relation to each of the Funds' basic financial statements as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated December 8, 2022 on our consideration of the City's internal control over the Funds' financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over the Funds' financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City's internal control over the Funds' financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control over the Funds' financial reporting and compliance.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Fund Accounting

The operations of the Measure R 20% Bus Operations Fund (MRBOF) and Measure R Regional Clean Fuel Bus Capital Fund (MRRCFBCF) are accounted for in the City's Transit Fund, with separate funding source account coding to monitor the receipts of revenues and payment of expenditures.

The MRBOF represents 20% of a half-cent sales tax which is allocated among the eligible municipal operators according to the shares calculated by the Formula Allocation Procedure (FAP) for the year in which funds are allocated. Funds are distributed to the jurisdictions within Los Angeles County that have submitted a Metro approved Measure R 20% Improvement Plan that includes a description of how these funds will be spent. Eligible projects include operating expenses for countywide bus service operations, maintenance and expansion, and any other operating expenses that will contribute to meet the program's purpose and objectives.

The MRRCFBCF represents a total of \$150 million which is set aside for the total life of the Measure R Program to cover Metro and municipal regional clean fuel bus capital facilities and rolling stock which is allocated among the included and eligible municipal operators according to the shares calculated by the Capital Allocation Procedure (CAP). The purpose of the Measure R Regional Clean Fuel Bus Capital program is to construct transit facilities and/or repairs, procure rolling stock and fund related components.

Basis of Accounting

MRBOF and MRRCFBCF are accounted for using the modified accrual basis of accounting. Revenues are recognized when they become "susceptible to accrual", that is, measurable and available to finance expenditures of the current period. Expenditures are recorded when the liability is incurred.

Budgets and Budgetary Accounting

The budgeted amounts presented in this report for comparison to the actual amounts are based on budgets approved by Metro and are presented in accordance with accounting principles generally accepted in the United States of America.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Fair Value Measurement

In accordance with GASB Statement No. 72, *Fair Value Measurement and Application*, the City categorizes its fair value measurement within the fair value hierarchy that is based on the valuation inputs used to measure the fair value of the investment. Level 1 inputs are quoted prices in active markets for identical investments; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs. Accordingly, the City reports its investments at fair value and recognizes unrealized gain (loss) on investments. The MRBOF and the MRRCFBCF does not have investments measured at fair market value on a recurring basis as of June 30, 2022 and 2021.

Refer to the City's Annual Comprehensive Financial Report (ACFR) for detailed disclosures regarding the City's investments policy and fair value measurement disclosures.

Fund Balance Reporting

Governmental Accounting Standards Board (GASB) Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*, establishes the fund balance classifications that comprise a hierarchy based primarily on the extent to which a government is bound to observe constraints imposed upon the use of the resources reported in governmental funds.

The MRBOF and MRRCFBCF report the following fund balance classification as of June 30, 2022 and 2021:

- Restricted - Amounts that are constrained for specific purposes, which are externally imposed by providers, such as creditors, or amounts constrained due to constitutional provisions or enabling legislation. The use of the Funds' remaining fund balances are restricted for projects approved by Metro.

Information regarding the fund balance reporting policy adopted by the City is described in the City's ACFR.

Deferred Outflows and Inflows of Resources

Pursuant to GASB Statement No. 63, *Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position* and GASB Statement No. 65, *Items Previously Reported as Assets and Liabilities*, the City recognizes deferred outflows and deferred inflows of resources. A deferred outflow of resources is defined as a consumption of net position by the government that is applicable to a future reporting period. A deferred inflow of resources is defined as an acquisition of net position by the government that is applicable to a future reporting period.

Deferred inflows of resources reported by the City represent resources that are not available for spending as of June 30, 2022 and 2021.

NOTE 2 ANNUAL FINANCIAL STATEMENTS

The financial statements reflect only the financial position and results of operations of the MRBOF and MRRCFBCF and do not purport to, and do not present fairly the City's financial position as of June 30, 2022 and 2021, and the changes in its financial position for the years then ended in accordance with accounting principles generally accepted in the United States of America.

NOTE 3 MEASURE R 20% BUS OPERATIONS COMPLIANCE REQUIREMENTS

In accordance with *Measure R 20% Program Guidelines for Bus Operations*, funds received pursuant to the Guidelines may only be used for eligible operating expenses that include bus operation for countywide bus service operations, maintenance, and expansion and any other operating expenses that will contribute to meet the program purpose and objective. See accompanying Compliance Matrix for compliance requirements.

NOTE 4 MEASURE R REGIONAL CLEAN FUEL BUS CAPITAL COMPLIANCE REQUIREMENTS

In accordance with *Measure R Program Guidelines for Metro and Municipal Operators for Regional Clean Fuel Bus Capital*, funds received pursuant to the Guidelines can be used for costs associated with transit facilities construction and/or repairs, procurement of rolling stock and related components. See accompanying Compliance Matrix for compliance requirements.

NOTE 5 IMPACT OF CORONAVIRUS

On January 30, 2020, the World Health Organization declared the coronavirus outbreak a "Public Health Emergency of International Concern" and on March 10, 2020, declared it to be a pandemic. The coronavirus and actions taken to mitigate it have had and are expected to continue to have an adverse impact on the economies and financial markets of many countries, including the United States.

It is unknown how long these conditions will last and what the complete financial effect will be to businesses and other affected organizations, including local governmental entities. However, the City's management believes that the financial impact, if any, will not materially affect the June 30, 2022 Funds financial statements.

NOTE 6 SUBSEQUENT EVENTS

The City has evaluated events subsequent to June 30, 2022 to assess the need for potential recognition or disclosure in the financial statements. Such events were evaluated through December 8, 2022, the date the financial statements were available to be issued. Based upon this evaluation, it was determined that no subsequent events occurred that require recognition or additional disclosure in the financial statements.

Independent Auditor’s Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with Government Auditing Standards

To the Honorable Members of the City Council of the City of Commerce, California and the Los Angeles County Metropolitan Transit Authority

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the Measure R 20% Bus Operations Fund and the Measure R Regional Clean Fuel Bus Capital Fund (collectively, the Funds) of the City of Commerce, California (the City) as of and for the year ended June 30, 2022, and the related notes to the financial statements, and have issued our report thereon dated December 8, 2022.

Report on Internal Control over Financial Reporting

In planning and performing our audit of the Funds’ financial statements, we considered the City’s internal control over the Funds’ financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the Funds’ financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City’s internal control. Accordingly, we do not express an opinion on the effectiveness of the City’s internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the City’s financial statements will not be prevented or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City's Measure R 20% Bus Operations Fund and the Measure R Regional Clean Fuel Bus Capital Fund financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**Glendale, California
December 8, 2022**

COMPLIANCE SECTION

Independent Auditor's Report On Compliance

**To the Honorable Members of the City Council of the
City of Commerce, California and the
Los Angeles County Metropolitan Transit Authority**

Report on Compliance

Opinion

We have audited the City of Commerce, California's (the City) compliance with the Measure R 20% Program Guidelines for Bus Operations and the Measure R Program Guidelines for Los Angeles County Metropolitan Transit Authority (Metro) and Municipal Operators for Regional Clean Fuel Bus Capital (collectively, the Guidelines) as well as its Memorandum of Understanding (MOU) with the Metro for the year ended June 30, 2022.

In our opinion, the City of Commerce, California complied, in all material respects, with the compliance requirements of the Guidelines for the year ended June 30, 2022.

Basis for Opinion

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (GAAS); the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (*Government Auditing Standards*); and the Guidelines. Our responsibilities under those standards and the Guidelines are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the City and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance with the Guidelines. Our audit does not provide a legal determination of City's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for the City's compliance with the Guidelines and for the design, implementation, and maintenance of effective internal control over compliance with the compliance requirements of the Guidelines referred to above.

Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the City's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS, *Government Auditing Standards*, and the Guidelines will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material, if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the City's compliance with the requirements of the Guidelines as a whole.

In performing an audit in accordance with GAAS, *Government Auditing Standards*, and the Guidelines, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the City's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of the City's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Guidelines, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control over Compliance

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with the requirements, such that there is a reasonable possibility that material noncompliance will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with the requirements that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, or significant deficiencies as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Guidelines. Accordingly, this report is not suitable for any other purpose.
