REVISED
SYSTEM SAFETY, SECURITY & OPERATIONS COMMITTEE
FEBRUARY 19, 2015

SUBJECT: MONTHLY UPDATE ON TRANSIT POLICING PERFORMANCE

ACTION: RECEIVE AND FILE

RECOMMENDATION

Receive and file monthly update on transit policing performance.

ISSUE

On September 4, 2014, the board requested that staff provide a monthly update on transit policing performance to Systems Safety and Operations Committee. Specifically, the board requested monthly updates on criminal activity, fare enforcement, response time, deployment and perception of safety.

DISCUSSION

Staff is providing the following updates to each of the requested items:

Criminal Activity:

System-wide, Part 1 Crimes have increased by 1.4% from January 2014 - December 2014 compared to January 2013 - December 2013. The Blue and Expo Lines had a decrease in Part 1 Crimes per 1,000,000 riders from the same period last year, while the Green, Red, and Gold Lines had an increase.

Part 1 Crimes per 1,000,000 Riders

	2014 Jan - Dec	2013 Jan - Dec	2012 Jan - Dec	2011 Jan - Dec
Blue	13.4 ↓	15.5	14.1	12.6
Green	25.8 ↑	24.3	20.1	19.4
Red	4.8 ↑	4.1	4.0	3.1
Gold	6.2 ↑	6.0	4.3	5.3
Expo	15.2 ↓	18.9	20.1	N/A
Orange	7.3 →	7.3	6.0	4.7
Silver	3.1 ↑	2.1	2.7	N/A
Bus	1.70 ↑	1.37	1.3	1.1

Arrow indicates an increase or decrease from last year.

Overall, buses had an increase in Part 1 Crimes per 1,000,000 riders from the same period last year, or for every 3,000,000 million riders we had 1 more Part I Crimes compared to last year.

- ~~• Part 1 Crimes system wide have increased 1.4% from January 2014 to December 2014 compared to January 2013 to December 2013. Los Angeles Sheriff's Department (LASD) continued efforts in utilizing Intelligence Led Policing (ILP) to strategize their deployments and their ability to target specific crime trends enables resources to be deployed in order to target specific increases.~~
- ~~• Overall, Part 1 crimes per 1,000,000 riders on bus have increased 33% from last year. This can be attributed to LASD redeploying resources that have been previously assigned bus riding duties, and assigning them as extra staffing for rail related issues. Consequently, this increase can be correlated to the lessened visibility of LASD personnel on buses.~~
- As of September 2014, the Bus Riding Team was re-established to target bus related crime.

Fare Enforcement:

- In December 2014, law enforcement performed 642,652 fare checks on the rails and Orange Line, a decrease of 45,103 fare checks compared to November 2014.
- On average day, there are 185 LASD personnel on the Metro system, which is comprised of 142 deputies and 43 security assistants. LASD's personnel are concentrated heavily on rail, 77% of personnel are deployed to rail. The current rail deployment for LASD personnel is as follows: 37% Blue Line, 11% Green Line, 11% Expo Line, 23% Red Line, 14% Gold Line, 4% Orange Line. Fare enforcement contacts are disproportionately much higher on northern rail lines (Red, Gold and Orange) than they are on the southern rails (Blue, Green and EXPO). In the month of November, LASD exceeded fare enforcement contract target goals on the Red line by 16% and are nearly at the contract target goal for the Gold line at 95%. While these numbers reflect a diligent effort in ensuring monthly contract goals, the southern lines do not reflect the same type of effort. The Blue line contract goal is only at 44% while the Expo line is hovering around 64%. The only southern line that is nearing its goal is the Green line, which is still only at 72%. In the month of December however the fare enforcement contract goals for each of the southern lines dropped. The Blue line fell to 41%, the

Green line fell to 70%, while the EXPO line fell drastically to 46% of its targeted goal.

FARE CHECK DATA								
NOV	FARE CHECKS	MONTHLY TARGET	TARGET	RIDERSHIP	FARE CHECKS	MONTHLY TARGET	TARGET	RIDERSHIP
Red/Purple	254,864	220,000	116%	3,938,587	269,907	220,000	123%	4,136,063
Blue	92,710	212,000	44%	2,177,865	86,213	212,000	41%	2,275,151
Green	98,299	136,000	72%	1,011,656	95,087	136,000	70%	1,075,163
Gold	109,678	116,000	95%	1,147,385	86,507	116,000	75%	1,220,228
Expo	57,935	90,000	64%	797,084	41,311	90,000	46%	841,756
Orange	47,135	92,000	51%	698,375	45,666	92,000	50%	683,470

Response Time:

- In December 2014, the average response time for “Calls for Service” (Emergency, Priority, and Routine) for all rail lines and buses is 19.5 minutes. LASD currently comply with Metro’s Performance Metrics requirement of average 30 minutes for call for service. Specifically, the response time for emergent call was less than 10 minutes.

Deployment:

- LASD’s deployment is based on their Intelligence Lead Policing (ILP) strategy. ILP is policing model created from law enforcement reports, trends and feedback to identify hot spots that are in critical needs of law enforcement services such as crime and fare enforcement. From month to month, deputies are redeployed to specific lines based on the ILP to ensure the safety of Metro patrons. Data obtained through ILP strategy contains specific bus and rail data, which assists law enforcement in the deployment of resources in order to ensure safety throughout the system.
- In the months of November 2014 and December 2014, Los Angeles Metro Protective Services (LAMPS) and Operations partnered to enhance the safety of our bus operators and patrons through the use of LASD’s Bus Riding Team and performing special bus fare operations. The result of these operations increased farebox revenue by 6-8% at the locations where bus boardings are being conducted. Staff is continuing to evaluate the performance of these operations and will make tactical adjustments based on these evaluations.

Perception of Safety:

- Metro Security has worked with Metro Strategic Initiatives department to enhance the ridership survey to include questions pertaining to safety on-board and while waiting at stops and stations. The ridership survey is scheduled to be conducted during the last two weeks of January.

Operator Safety:

- In spring 2015 the Transit Ambassador program is going to be implemented as a pilot program to ensure bus operators are given the proper training to improve customer satisfaction and operator safety.
- By June 2015, 268 buses will have video monitors installed. These monitors will assist in deterring fare evasion and assaults on buses.
- By the end of February, operator protective barriers will be delivered and installation will begin in 123 buses which will protect bus operators from potential threats.
- Deterring fare evasion on the bus system is extremely labor and cost intensive. As of January 2015, Transit Security Officers (TSO) have been deployed at high boarding locations in order to facilitate fare compliance. Currently, a pilot program is in place at Division 10 to identify intersections for TSO's to conduct bus boardings for proper fare. The TSO's will continue to be a visible presence and remove patrons who are unable or not willing to pay the proper fare. Valuable feedback is being collected from Metro bus operations and additionally, uniform presence is helpful in areas of high fare evasion. TSOs have been checking fares (bus boardings) and have completed fare checks on roughly 1,414 buses involving approximately 5,136 passenger boardings. TAP reports indicate collections of fares from stored value on TAP cards was up by 5.2% and cash collected was up 8.2% due to TSO bus boardings.

NEXT STEPS

Metro Security will continue working with Metro Strategic Initiatives department to explore additional methods in order to obtain more data regarding Metro ridership perception of safety and discuss survey results as they become available. Metro Security will also continue the bus policing pilot program with TSOs, which has proved to extremely effective. Metro will continue working with LASD to establish measurable perception of safety criteria. Staff will provide monthly performance updates.

*Each month, Reserve totals will display totals from the previous month because totals are not submitted until the end of each month.

The LASD reserve units are attached to regular LASD units of assignments. The reserves are there to perform the same function as any deputy. In that way, the reserves augment the force at no increase in cost. Contract agencies benefit significantly by the presence of reserves since they are directly paying for the LASD contract and do not have to pay for the additional reserve force.
