#### **PROJECT OVERVIEW & STATUS**

Metro, Caltrans, and other mobility partners are working together to develop a package of solutions that will increase traffic flow and provide better travel options on I-10 and I-110 in Los Angeles County. ExpressLanes is a one-year demonstration project that will test innovations to improve existing transportation systems in three sub-regions: the San Gabriel Valley, Central Los Angeles and the South Bay Cities. These three sub-regions represent nearly 50 percent of both population and employment in LA County.

The Project Goal is to improve mobility and provide congestion relief on I-10 and I-110 corridors through the introduction of congestion pricing by converting High Occupancy Vehicle (HOV) lanes to High Occupancy Toll (HOT) lanes, improvement of transit service and other alternatives to driving, improvements to transit facilities, and the implementation of an intelligent parking management system in downtown Los Angeles.

This project offers improved transportation options and a choice for drivers of single occupant vehicles (SOV) to pay to travel in a carpool lane. The minimum toll per mile is \$0.25 and the maximum toll per mile is \$1.40. The general purpose lanes will not be tolled. An additional aim of the program is to foster incentives for sustainable change that creates travel time savings, increased trip reliability, cost savings, improves air quality and effectively manages our current roadway network.

The federal grant name for this Project is the Los Angeles County Congestion Reduction Demonstration (LA CRD). It is estimated that more than 2,400 construction-related jobs will be generated by this project.

#### PROJECT MANAGEMENT

The Project is 14.3% complete. Staff continues to work with Caltrans to address potential issues of conflict which may arise as a result of work they are currently performing related to the I-10 Rehab project. Staff is looking at existing contracts and their status in order to manage any risk to our ExpressLanes project.

#### TOLL INFRASTRUCTURE AND FREEWAY/ROADWAY IMPROVEMENTS

This element is currently in the Environmental and Preliminary Design phases. Caltrans is the lead agency for the NEPA and CEQA Environmental Documents. On April 28, 2010, the Final EIR/FONSI for the I-10 and I-110 HOT Lanes was approved.

PB, our consultant for the Preliminary Engineering phase, continues to focus on the 30% design package as well as the preparation of the Statement of Work and other documents related to the Design, Build, Operate and Maintain (DBOM) RFP. We are targeting the middle of May to advertise the DBOM RFP.

Staff continues to work with FTA/FHWA partners regarding the need for a schedule extension in order to ensure that the roadway improvements are completed prior to opening the HOT Lanes. Current estimates anticipate the need for a 19-month extension which would shift the opening date from December 31, 2010 to August 1, 2012. On February 25, 2010 the Metro

## Metro LA CRD (ExpressLanes) Project Monthly Project Status Report

## **PROJECT OVERVIEW & STATUS (Contd)**

Board approved amending the existing MOU with USDOT to extend the deadline for the conversion of the HOV lanes on the I-10 and I-110 to HOT lanes for up to 19 months to allow for the completion of the roadway improvements. Assemblymember Mike Eng agreed to author AB1224 which would extend Metro's tolling authority until January 2015.

#### TRANSIT SERVICE IMPROVEMENTS

59 new clean-fuel buses will be operated to support the demonstration project. Metro continues to operate its new Silver Line service connecting passengers to the El Monte and Artesia Transit Centers. For the month of April, the Silver Line weekday boardings total was 7,173 which represents an 8.4% increase in ridership since the Silver Line started service in December 2009.

Both Gardena and Foothill have placed the order for their buses and will be receiving them later this year. Torrance expects to place their order in June 2010, or earlier as they have an approved grant from FTA.

LADOT completed Preliminary Engineering (PE) of all 19 intersections at the end of February. Staff continues to work on the bid package in preparation for a June 2010 release date. The E-76 for Construction funds has been submitted to Caltrans for approval. Construction is expected to start in August 2010.

#### TRANSIT FACILITY IMPROVEMENTS

El Monte Transit Center – During April Metro staff continued coordination with the Gas Co. for relocating a 20" gas main. Completed construction at Power Chevrolet; Completed demolition of the Metro Transportation Building & completed paving at the site. Received 8 technical D/B proposals for Contract C0958 El Monte Station D/B construction. Four (4) price bids were opened 03/15/10. Staff determined the option selections for the apparent low bid. Notice of Intent to award was issued 03/23/10. Procurement has received and will address the NOI protests within the timeframe scheduled for contract award. Contract C0959 for the temporary terminal was awarded to S.H.E for \$657K & is awaiting protest period completion before NTP is issued. Contract C0934R for Demo, Repave and Lighting Installation over the former Old Transportation Bldg is complete.

Patsaouras Plaza – During April staff continued advanced conceptual engineering efforts. Design charettes with stakeholders (including Metro, Caltrans, FHWA, FTA, and ProLogis) were held January 26-27, 2010. Engaged consultant to prepare PR/PSR reports for Caltrans approval, and continued coordination with Caltrans disciplines. Final concept has been developed but requires additional refinements. Conceptual design alternatives were developed and reviewed March 9, 2010. 65% ACE to be submitted 10-May-2010. Additional coordination with High Speed Rail project required to reduce potential future design and construction conflicts.

# **PROJECT OVERVIEW & STATUS (Contd)**

Harbor Transitway – This project will have at least 6 procurements. Bids were received for the Artesia Law Enforcement substation & CCTVs. The low bid contract was awarded to Minco Construction for \$547K. Received 4 technical bids for Station Lighting & UPS; apparent low bid was \$443K vs. Metro's estimate of \$532K. Procurement activities are ongoing for sound attenuation pilot test & the bus stop cutouts. Project management is still coordinating with staff for the CCTV's and signage/way-finding workscope.

Division 13 Facility - The design team continues to progress in completion of the final design, and a 90% complete submittal was submitted to Metro January 15, 2010. City of Los Angeles approved the vacation of Lyon Street. Conducted a third party review of the 90% submittal January 18-22, 2010. Metro Engineering reviewed the 90% submittal and was rejected. An interim 95% submittal developed and was submitted April 26, 2010. Metro review is ongoing. 100% Design is anticipated at June 1-14, 2010.

**Pomona Metrolink Station** – The Contractor completed the retaining wall, underground electrical, drainage facilities, and asphalt concrete paving in the area of the new parking spaces east of the existing parking spaces. Construction of the platform extension began. Construction of the temporary platform continues.

#### DEMAND-BASED PARKING PRICING

Received FHWA approval on the technical matters in the ExpressPark Project Plan, Caltrans gave informal approval of the Project Plan; We have agreement with FHWA and Caltrans regarding the next steps. Currently reviewing the RFP to assure compliance with City, State and Federal requirements. The project will require two Federal Authorizations – one for construction of Dynamic Message Signs and one for the PE and all other work to be done. Preparation of the E-76 documents is in process. Expected RFP release is scheduled for June 2010.

#### MANAGEMENT ISSUES

Concern No. 1: Caltrans Cooperative Agreement for ExpressLanes

Status/Action The team continues to meet on a regular basis and we are now very close to completing the agreement. Metro is now awaiting the final revisions Caltrans is requesting in order to complete the agreement. Timeline for completion of the Cooperative Agreement is May 2010.

Concern No. 2: Review of the 30% Design Package and Finalization of the RFP Documents

Status/Action An Industry Review was held on March 24, 2010 and Metro is now receiving comments from the Industry as well as the 3rd party agencies, including FHWA and FTA, all of whom have been given copies of the Draft RFP. Metro will incorporate as many comments into the final RFP document as is possible and practicable. As additional reviews are performed on the document corrections that impact the contract will be made, as appropriate.

Concern No. 3: Project Risk Register

<u>Status/Action</u> At the request of the federal partners, Metro submitted a schedule risk analysis to FTA/FHWA/USDOT on April 9, 2010. The major project risks to schedule at this time are: approval of the Fact Sheets by Caltrans and FHWA and advertising the DBOM RFP.

Concern No. 4: Real Estate

<u>Status/Action</u> Property swap with the City of Alhambra has not been fully executed. A formal MOU is with Metro Legal Counsel for review and finalization. Metro's goal is to execute this MOU by May 2010.

Concern No. 5: Tolling Agreement

<u>Status/Action</u> Tolling agreement with <u>USDOT</u> has not been finalized. Draft language is currently under review by USDOT.

Concern No. 6: Project Management Plan (PMP)

Status/Action The Project Management Plan (PMP) has not been finalized. The PMP is under internal review by Executive staff. The document is expected to be finalized by May 2010.

Metro LA CRD (ExpressLanes) Project Monthly Project Status Report **April 2010** 

# **MANAGEMENT ISSUES (Contd)**

Concern No. 7: Project Oversight Agreement (POA)

Status/Action FHWA has requested that Caltrans execute a POA for the HOT lanes element of this project. POA executed April 28, 2010.

#### PROJECT SCOPE

Los Angeles County Metropolitan Transportation Authority and Caltrans have partnered with Foothill Transit, Gardena Municipal Bus Lines, Los Angeles Department of Transportation, Southern California Regional Rail Authority (Metrolink) and Torrance Transit, to develop a package of solutions to increase traffic flow and provide travel options on the I-10 and I-110 freeways in Los Angeles County. These solutions will be incorporated into a one-year demonstration that will test new technologies to improve the existing transportation system called ExpressLanes.

The project goal is to improve mobility and provide congestion relief on the I-10 and I-110 freeways through the introduction of congestion pricing by converting High Occupancy Vehicle (HOV) Lanes to High Occupancy Toll (HOT) Lanes, improvements to the transit service along the freeways, transit facility improvements, increased funding for vanpools and the introduction of an intelligent parking management program, called ExpressPark, in downtown Los Angeles.

This project offers improved transportation options and a choice for drivers of single occupant vehicles (SOV) to pay to travel in a carpool lane. The general purpose lanes will not be tolled. The aim of the program is to foster incentives for sustainable change that creates travel time savings, increased trip reliability, cost savings, improved air quality and effectively manages our current roadway network.

# PROJECT SCOPE (Contd)

The features of the ExpressLanes project include:

#### 1) TOLL INFRASTRUCTURE AND FREEWAY/ROADWAY IMPROVEMENTS

- I-10 HOV Conversion to HOT Lanes (I-605 to Alameda St./Union Station) and I110 HOV Conversion to HOT Lanes (Artesia Transit Center to Adams Blvd.) –
  an electronic toll collection system will be constructed that includes toll infrastructure,
  changeable message and static signage, transponders, cameras, back-office
  administration and management, CHP enforcement, and incident management
  response.
- Add 2<sup>nd</sup> HOT Lane on I-10 (between I-605 and I-1710) a 2<sup>nd</sup> HOT lane will be added on the I-10 between I-605 and I-710 in both the eastbound and westbound directions. This will be accomplished by re-striping the existing enforcement zone buffer and minor roadway widening.
- Widen Adams Blvd. and Lane Modifications to Adams Blvd Off-Ramp —
  modifications at Adams Blvd. include re-configuration to include two dedicated left
  turn lanes and one dedicated right turn lane. Widening of Adams Blvd. will require
  the sidewalk to be taken to add an additional dedicated right turn in the westbound
  direction. To replace the sidewalk, a pedestrian over-crossing will be constructed
  over the I-110 freeway on the north side of Adams Blvd.
- Project Study Report (PSR): Adams Blvd.-Figueroa St. HOT Lane Flyover –
  funding will be provided to Caltrans to perform a PSR to identify alternatives to
  connect from the northbound I-110 HOT Lanes to Figueroa St. The PSR will be
  coordinated with the Harbor Freeway Cap Park Feasibility Study lead by the City of
  Los Angeles.

#### 2) TRANSIT SERVICE IMPROVEMENTS

- Enhanced Silver Line BRT and Feeder Services Funding will be provided to
  Metro for 41 new CNG buses to enhance service on the I-10 and I-110 and create a
  new dual-hub BRT. In addition, Foothill Transit will deploy 12 new buses, Gardena
  Transit will deploy 2 new gas-hybrid buses and Torrance Transit will deploy 4 new
  buses to improve additional commuter bus service on both the I-10 and I-110.
  During the 1-year Demonstration period, Foothill, Torrance and Gardena will also
  receive an operating subsidy for their expanded service.
- Transit Signal Priority in Downtown Los Angeles The LADOT will install bus signal priority technology on Figueroa St. between Wilshire Blvd. and Adams Blvd. (15 signals) and Flower St. between Wilshire Blvd. and Olympic Blvd. (5 signals) to enhance transit operations. This project will also extend the existing AM peak-period northbound bus-only lane on Figueroa St. to cover the PM peak-period.

## **PROJECT SCOPE (Contd)**

 Vanpools – Activities to support the formation of 100 new vanpools include marketing and vanpool start-up costs such as training community groups to form commuter vanpools and ensure that vanpools are created and retained, ridematching software, driver (or other empty seat subsidies), back-up driver training exams and parking lot leases.

#### 3) TRANSIT FACILITY IMPROVEMENTS

- El Monte Transit Center Improvements a new 30-bay bus terminal will be constructed at the current El Monte Transit Center location to accommodate service improvements and expansion. This will add capacity for Metro's dual-hub BRT service and Foothill's Silver Streak service and will be LEED Gold Certified.
- Patsaouras Plaza Connector to the El Monte Busway the existing passenger boarding/alighting areas located at the corner of Alameda St. and the Busway entrance will be relocated to the south side of Patsouras Plaza to allow direct pedestrian access to the Plaza and Union Station.
- Division 13 (formerly Union Division) a new bus operations and maintenance facility will be constructed adjacent to Metro headquarters. This new facility will house and operate a mixed fleet of approximately 200 CNG buses and will be built to accommodate 40-foot, 45-foot and 60-foot articulated buses. It will also include bus and automobile parking, administrative offices, a maintenance shop and all associated maintenance equipment and will be LEED Silver Certified.
- Harbor Transitway Park and Ride Improvements improvements will include enhanced signage, lighting and security at 8 Park and Ride lots. A Sherriff's Substation will be constructed at Artesia Transit Center. New bike lockers will be installed and bus stops will be re-located for lines 108 and 115 so that they are under the Slauson and Manchester Transitway stations.
- Pomona Metrolink Station Expansion this project consists of new pedestrian
  access improvements, 100 new parking spaces and the extension of the platform to
  accommodate additional rail cars at the Pomona (North) Metrolink Station that
  serves the San Bernardino Line.

#### 4) DEMAND-BASED PARKING PRICING

ExpressPark – the LADOT will deploy new parking meter technology to 5,500 onstreet metered parking spaces in the Central Business District, Chinatown, Civic
Center, East Downtown, Little Tokyo and Washington/Broadway. These new meters
will charge demand-based parking rates depending on the time of day and length of
stay. They will also provide alternative payment options (i.e. credit card, cell phone).
In addition to the on-street meters, occupancy reporting systems will also be
implemented for the major City-owned off-street parking facilities (approx 7,500).
Real-time parking information for 13,000 public on- and off-street parking spaces will
be provided through various media including: websites, mobile phones, and onstreet dynamic message signs.

# PROJECT SUMMARY SCHEDULE

#### CRITICAL PATH NARRATIVE

The Critical Path of the HOT Lanes DBOM contract runs through the Toll Implementation design/procurement/test related activities. The following layout shows all the activities related to the Toll Implementation scope of work. The schedule assumes a one month end-to-end testing period for each of the corridors, following installation of the Toll Operation Service Center and two months of integrated test period for the entire system following the corridor-wide testing. Our design consultants have confirmed that those durations are adequate for the testing activities.

#### PROJECT COST ANALYSIS

#### **Adopted Budget**

The Adopted Budget reflects the Metro Board adopted Life-of-Project (LOP) Budget which was approved in September 2008 in the amount of approximately \$290 million plus partner local match and other Non-CRD Funds to be used in the CRD Program, bringing the total CRD Program Budget to approximately \$320 million.

#### **Adopted Budget and Current Forecast**

The Current Forecast of approximately \$358 million (comprised of preliminary estimates) exceeds the Adopted Budget of \$320 million, which will require Board approval. Metro will secure additional Non-CRD/UPA funding sources to address the shortfall or reduce/defer scope.

#### Commitments

The Commitments increased by \$1.238M this period primarily for Metro and other agency staff charges, and awarding of task orders to miscellaneous design consulting firms.

#### **Expenditures**

Expenditures increased by \$2.067M this period primarily for expenditures for design and construction consulting firms, and Metro and Other Agency staff labor charges. The \$45.7 million in Project Expenditures to date represents 14.3% of the Adopted Budget.

#### STATUS OF FUNDS ANTICIPATED

#### FEDERAL CMAQ:

Transit Signal Priority (LADOT): \$250,000 of CMAQ funds are available for drawdown. Express Park (LADOT): \$750,000 of CMAQ funds are available for drawdown.

#### FEDERAL FTA 5307:

Metro Bus Procurement: An FTA grant application of \$23.572M (CA-90-Y716) was awarded on July 2, 2009. Funds are available for drawdown.

El Monte Transit Center: An FTA grant application of \$2.160M (CA-90-Y716) was awarded on July 2, 2009. Funds are available for drawdown.

Patsaouras Connector: An FTA grant application of \$1.2M (CA-90-Y716) was awarded on July 2, 2009. Funds are available for drawdown.

Harbor Transitway Improvements: An FTA grant application of \$2.0M (CA-90-Y716) was awarded on July 2, 2009. Funds are available for drawdown.

Bus Procurement and Operations (Other Agencies):

Foothill Transit: Plans to submit in June 2010 a grant application to the FTA for \$7.5M.

Torrance Transit: A grant application for \$2.8M (CA-90-Y715) has been approved and funds are available for drawdown.

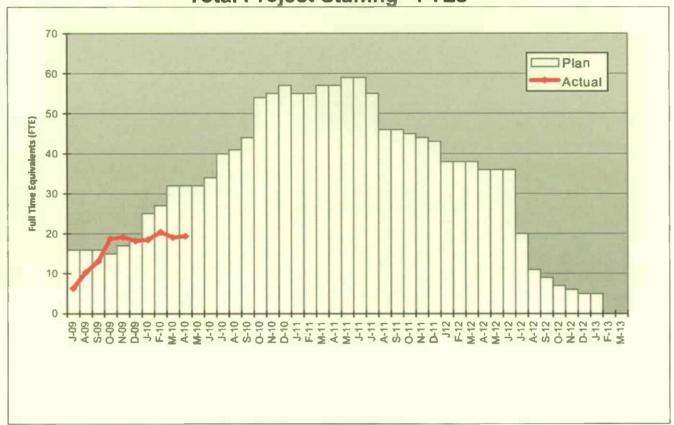

Gardena Transit: A grant application for \$1.2M (CA-90-Y707) has been approved and funds are available for drawdown.

Metrolink: Submitted a grant application (CA-90-Y777) in March 2010 for \$4.7M

#### NON CRD FUNDS:

Division 13 Proposition 1B Funds: A initial \$4.99M funding request was approved by the State in February 2008. However, Metro's second funding request of \$12.7M has been put on hold pending resolution of the State budget.

# STAFFING STATUS Total Project Staffing - FTEs

## **Total Project Staffing**

The Total Project Staffing Plan has been updated to reflect the current plan which includes the El Monte Transit Center, Patsaouras Plaza, Harbor Transitway and Union Division support staff. Actuals have also been retroactively adjusted. The difference in the planned and actual staffing is largely due to the Division 13 Project (formerly the Union Division), which has not been staffed as planned due to a delay in the design effort. The design effort has been extended approximately 4 months while the construction contract procurement process is on hold pending identification of funds.

#### **REAL ESTATE STATUS**

 Property swap with the City of Alhambra has not been fully executed. Metro's Third Party Manager has been working with City staff and has concluded a verbal agreement. A formal MOU is in progress and will be executed once the environmental documents have been approved. Drawings have been provided to Caltrans which depict the improvements that are required.

#### **REAL ESTATE STATUS TO DATE**

Number of Parcels	Required	In Appraisal Process	Appraisal Process Complete	Offer Made	Closing	Acquired	Turned Over to Contractor
This Period	0	0	0	0	0	0	0
Last Period	0	0	0	0	0	0	0

#### **ENVIRONMENTAL STATUS**

There are eight (8) projects that require environmental approval. The status of each is as follows:

- I-10 and I-110 HOV Conversion to HOT Lanes EIR/EA. NEPA approval, with a Finding of No Significant Impact (FONSI), was received April 28, 2010. CEQA (Statement of Overriding Considerations) approval expected by the end of May 2010.
- Harbor Transitway Improvements Listed Categorical Exclusion/Exemption, no approval required.
- El Monte Transit Center Improvements Categorical Exclusion (NEPA)/Categorical Exemption (CEQA). Submitted September 2009. NEPA approved November 2009. CEQA approved December 2009.
- Patsaouras Plaza Connector Categorical Exclusion (NEPA)/Categorical Exemption (CEQA). NEPA submitted for approval November 2009 and approved March 30, 2010. CEQA document was submitted in March 2010 and was approved on April 15, 2010.
- Division 13 (Union Division) Categorical Exclusion (NEPA)/Categorical Exemption (CEQA). CEQA submitted August 2008 and approved September 2008. NEPA submitted and approved in December 2009.
- Transit Signal Priority Categorical Exclusion (NEPA)/Categorical Exemption (CEQA). NEPA and CEQA approved September 2009.
- ExpressPark Categorical Exclusion (NEPA)/Categorical Exemption (CEQA).
   NEPA and CEQA approved October 2009.
- Pomona Metrolink Station Improvements Categorical Exclusion (NEPA)/Statutory Exemption (CEQA). NEPA and CEQA approved November 2007. FTA requested an update in March 2010 and Metrolink staff is responding to FTA questions.

#### **COMMUNITY RELATIONS STATUS**

- During the month of April, 2010, a total of 3 outreach briefings were provided to federal, state, and local elected officials' staff and stakeholders from the City of Los Angeles, San Gabriel Valley and South Bay.
- The total number of project briefings held from April 25, 2008 through April 30, 2010 is 164, as follows:
  - Project stakeholder briefings, technical advisory group meetings, live web chats, and community workshops: 125
  - o Legislative briefings: 20
  - Corridor Advisory Group meetings: 11
  - Public hearings: 8

As of the end of April the ExpressLanes stakeholder database included 1,668 contacts.

#### **QUALITY ASSURANCE STATUS**

 Provided responses to comments received on Specification Section 01460-DB during the Industry Review of the DBOM package.

#### **SAFETY STATUS**

• No data available for April 2010.

# **CHRONOLOGY OF EVENTS**

April 24, 2008	MOU w/USDOT for \$210 million Grant Award (I-210/I-10).				
July 23, 2008	CTC Eligibility Finding.				
July 24, 2008	1 <sup>st</sup> Amendment to MOU w/USDOT (Changes Demo Project from I-210/1-10 to I-110/I-10).				
August 24, 2008	Preliminary Concept of Operations for I-10 and I-110.				
September 28, 2008	State Tolling Authority Legislation Approved (Expires 1/15/13).				
September 29, 2008	Metro/Caltrans certify funding available for ExpressLanes.				
November 24, 2008	2 <sup>nd</sup> Amendment to MOU w/USDOT (administrative changes).				
December 4, 2008	ExpressLanes Project Inclusion in RTP approved.				
December 22, 2008	Key Physical Capacity Improvements identified to USDOT.				
January 14, 2009	FTIP approved: Amend #1 to the RTP and Amend 08-01 to 2008 RIP.				
January 22, 2009	Public Outreach & Communications Plan approved by Metro Board.				
February 17, 2009	RFIQ for Toll Systems Integrator released.				
April 15, 2009	Preliminary Engineering begins for Electronic Toll Collection.				
May 4, 2009	Short List of Toll Systems Integrator Firms completed.				
June 22, 2009	Public Hearings for Toll Rates (6).				
July 23, 2009	Toll Rates and Toll Policy adopted.				
January 20, 2010	Metro Board Approved USDOT National Evaluation Plan.				
February 12, 2010	Circulation of the Draft EIR/EA for the the I-10 and I-110.				
March 9 & 10, 2010	Public hearings held for the draft EIR/EA for I-10 and I-110.				
March 25, 2010	Metro Board Approved Low Income Commuter Assessment.				

# **CHRONOLOGY OF EVENTS**

April 7, 2010	CTC Authorizes Design-Build Authority for I-10 and I-110 HOT Lanes.
April 22, 2010	Metro Board Approved Administrative Account Fee Schedule.
April 28, 2010	EIR/FONSI for the I-10 and I-110 HOT Lanes is approved. Project Oversight Agreement Executed.

# APPENDICES COST AND BUDGET TERMINOLOGY

ADOPTED BUDGET: The Approved Project Budget as established by Metro Board of Directors at the time it authorizes Construction Project Management Division to commence full design and construction of the project (Project Adoption).

CURRENT FORECAST: Evaluation of costs to go combined with actual expenditures.

COMMITMENTS: The total of actual contract awards, executed change orders or amendments, approved work orders of Master Cooperative Agreements, offers accepted for purchase of real estate, and other Metro actions which have been spent or result in the obligation of specific expenditures at a future time. Also includes commitments reported by other agencies.

EXPENDITURES: The total dollar amount of funds expended by Metro for contractor or consultant invoices, third party invoices, staff salaries, real estate and other expenses that is reported in Metro's Financial Information System (FIS and expenditures reported by other agencies.
