PROJECT OVERVIEW & STATUS

The I-405 Sepulveda Pass Widening Project will add a 10-mile HOV lane and improve supporting infrastructure such as ramps, bridges and sound walls on the San Diego Freeway (I-405); while widening lanes from the Santa Monica Freeway (I-10) to Ventura Freeway (U.S. 101). This project will reduce existing and forecasted traffic congestion on the I-405 and enhance traffic operations by adding freeway capacity in an area that experiences heavy congestion. In addition to these modifications, the project will improve both existing and future mobility and enhance safety throughout the corridor. Project benefits include a decrease in commuter time, reduce air pollution, and promote ridesharing. The I-405 Sepulveda Pass Widening Project features include:

- Add a 10-mile HOV lane on the northbound I-405 between the I-10 and US-101 freeways
- · Remove and replace the Skirball Center, Sunset Blvd. and Mulholland Dr. Bridges
- Realign 20 on and off ramps
- Widen 20 existing overpasses and structures
- Construct approximately 18 miles of retaining walls and sound walls

Interstate 405 (I-405), also known as the San Diego Freeway, is a north/south route classified as an interstate/interregional loop freeway. It is part of the National Highway System (NHS), originating at the I-5 in Orange County in the City of Irvine and terminating at the I-5 in Los Angeles County, in the City of Los Angeles near the community of Mission Hills. The high-occupancy vehicle (HOV) lanes on I-405 are currently operating in both northbound and southbound directions from the county line of Orange County to north of I-105; from north of Burbank Boulevard to Route 118; and in the southbound direction from Waterford Street to north of Burbank Boulevard.

The design-build contract Notice to Proceed (NTP) was given on 6/2/2009, with commencement of contract time (1550 calendar days) on August 31, 2009. Substantial completion is currently expected to occur in May 2013, with final acceptance of the project required by November 27, 2013.

Kiewit Pacific Co. (KPC) design related support activities are nearly complete. K-rail placement on mainline NB is complete. Restriping, sawcut and smooth grinding, and K-rail placement of SB lanes has commenced and is expected to complete by mid-June 2010. Church Lane widening effort was completed in May 2010. The DWP Power undergrounding is underway and completion is expected by early June 2010. The Sunset Bridge demolition work started in May 2010 with major demolition of the top deck to start in late June 2010. The wall excavation on the north end of the Project also started in May 2010.

Key project activities for May 2010 include:

Sound Mitigation for the 23 homeowners, between Montana Avenue and Sunset Blvd. on the east side of the I-405, has been the focus of the project since the beginning of the environmental process. KPC and Metro have agreed to utilize the pile supported tie-back system assuming the residents would agree on the permanent tie-back easement and the COLA requested location on Sepulveda Blvd. Metro and Kiewit are working to obtain approval from residents on these issues and it appears that most of the homeowners will sign the MOA. New lawyers for Caltrans have been reviewing and making changes to the MOA to focus on avoidance of CEQA/NEPA problems with the homeowners. Caltrans and

PROJECT OVERVIEW & STATUS (Cont'd)

Metro lawyers have also reviewed and are still reviewing the MOA terms for mitigation and abatement issues in relation to construction noise concerns. As of May 31, 2010, 20 of the 23 homeowners' signatures have been obtained. Minor issues left to be resolved on one, and on another one we will do a work-around due to lack of known property owner.

The Project is working with ROW staff from Caltrans and Metro to solicit support in completing the appraisal process and finalizing cost negotiations.

- Widening of Sepulveda between Montana and Church to accommodate the COLA requests for standard lanes and shoulders. Part of the potential costs will be through a Change Order and Provisional Sums are involved as well as increases and decreases in baseline costs which are making this not a straightforward process. Metro Contract Administration has asked that this issue be addressed as a change and the Project is working to process it through the system. The Change Notice has been processed, Metro Contracts Administration has determined the merit, and it is the Project understanding that County Consul has approved this change. Next step is to send to LACMTA Board.
- Visual Quality Concept Plan was approved on May 14, 2010.
- Kiewit continues with the design mitigation of the existing 12' x 12' Reinforced Concrete Box. Metro has made the decision that the construction cost of the 12' X 12' Box would be part of Provisional Sums and therefore the dispute over this issue is concluded. KPC has indicated they would like to go to the Disputes Review Board (DRB) for informal discussions on the schedule part of the dispute; this is scheduled for June 2010.

MANAGEMENT ISSUES

Concern No. 1: Community Outreach Program

Status/Action Design of the project will be completed in the next 3 months and the Project has committed to the CAC and Community to review the Aesthetics and Landscaping 100% plans to resolve any outstanding issues.

Concern No. 2: Align I-405 Closer to the Getty Parking Structure (96" MWD Waterline)

<u>Status/Action</u> The Project and Getty are in conceptual agreement with the 5+1 lane configuration, ROW, and other issues. Written agreement is in the process and should be completed by early June 2010.

Concern No. 3: Provisional Sums

Status/Action Provisional Sums process is moving forward.

Concern No. 4: One Team with Caltrans and Metro

<u>Status/Action</u> As the construction phase of the project hits higher level of effort, Caltrans and Metro will evaluate combined effort to look for areas to work together more efficiently.

Concern No. 5: Reversible Lane Project on Sepulveda

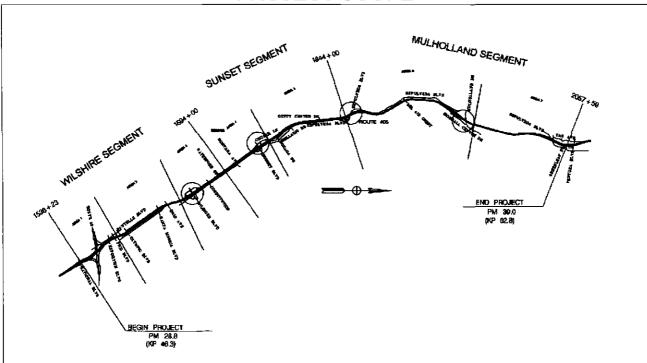

Status/Action The FHWA has some concerns about COLA canceling this contract and transferring it to the I-405 Project. The Project is working through the issues with COLA, FHWA, HNTB, and KPC to identify overlap of I-405 and Reversible Lane Projects to justify the need to include the work in the I-405 Project.

Concern No. 6: Review Support from COLA

Status/Action

The COLA has, for the most part, met commitments for the submittal review times, but in the last month or so, the COLA Departments have made it clear that they will not be able to make some of the upcoming review times due to lack of staff and resources. Funding is available to the city, but in some cases, no overtime has been allocated to the appropriate accounts at the Mayor's office. The Project and Metro will continue to work with the City Staff and Elected Officials to find ways to keep the project supported and on schedule. K.N. Murthy, LACMTA Deputy Chief Capital Management Officer and the COLA Mayor's office met with City Managers to develop core services plan which requires City Staff to be committed to Metro Projects. Currently, the I-405 Project is waiting for implementation of the plan. Regardless of this effort, the Project is working with the City Staff and will escalate issues as necessary.

PROJECT SCOPE

The I-405 Sepulveda Pass Widening Project is a Design-Build contract to add a 10-mile High Occupancy Vehicle (HOV) lane on the northbound San Diego Freeway (I-405) between the Santa Monica (I-10) and Ventura (US 101) Freeways. The purpose of the project is to reduce congestion by adding the HOV lane and closing the HOV gap, which will provide a continuous HOV lane from the Orange County Line to the I-405/US-101 interchange. The scope entails an 11-foot half median, one 12-foot HOV lane, a 1-foot HOV buffer, five 12-foot mixed-flow lanes, and a 10-foot outside shoulder.

Most of the freeway widening required for this project occurs along the east side of I-405 along Sepulveda Blvd. between Montana Ave. and Moraga Dr. and between Getty Center Drive and the northbound Getty Center off-ramp. Sepulveda Blvd. is going to be slightly realigned at the relocated southbound I-405 Skirball Center Drive on/off-ramps in order to add a left-turn lane to the on-ramp.

Some freeway widening also occurs along the west side of the freeway between Olympic Blvd. and Waterford Street and between Bel Air Crest to just north of Ventura Blvd.

In order to reduce accidents associated with traffic on the ramps, project scope includes several interchange improvements as detailed below:

PROJECT SCOPE

Wilshire Blvd. interchange in both directions

The northbound on-ramp from eastbound Wilshire Blvd. is grade-separated from the northbound off-ramp to westbound Wilshire Blvd. and from Sepulveda Blvd. The southbound off-ramp to eastbound Wilshire Blvd. is grade-separated from the southbound off-ramp to westbound Wilshire Blvd.

Northbound I-405 Sunset Blvd. interchange

The northbound I-405 off-ramp to eastbound Sunset Blvd. is widened to include one more lane. Two exclusive 12-foot lanes on the reconstructed Sunset Blvd. overcrossing and two 12-foot lanes on the on-ramp are provided for the northbound I-405 on-ramp from eastbound Sunset Blvd. In the eastbound direction three 12-foot lanes and in the westbound direction three 11-foot lanes are provided which solves the existing reduction from three lanes to two lanes in the eastbound direction. In both directions, 4-foot shoulders and 5-foot sidewalks as well as a 13-foot median are provided on the Sunset Blvd. overcrossing.

- The irregular northbound I-405 on/off-hook ramps at the Getty Center interchange are reconfigured to a standard diamond interchange to increase stopping sight distances in order to improve safety.
- The southbound I-405 Skirball Center Drive interchange is relocated to form a "T" intersection with Sepulveda Blvd. This eliminates the existing intersection at the end of the southbound I-405 Skirball Center Drive off-ramp.
- The southbound Valley Vista/Sepulveda Blvd. off-ramp is reconstructed due to freeway widening.

A total of 12 soundwalls and 54 retaining walls within the project limits are constructed at embankments where right-of-way is constrained.

A total of 12 undercrossings within the project limits are widened. Three overcrossings at Sunset Boulevard, Skirball Center Drive, and Mulholland Drive are replaced.

PROJECT SUMMARY SCHEDULE

May 2010

CRITICAL PATH NARRATIVE

The project has several critical paths which may potentially change as the work progresses. Currently, the primary critical path runs through the COLA 30% plans and Sunset Area 4A Walls 1720/1730 design. It then heads to the construction of Walls 1720/1730, continues on with fine grade/place and finish AB on Sepulveda Blvd, and completes with paving and realignment of traffic on Sepulveda Blvd.

The path continues through construction of the Sunset Off-Ramp Bridge #14, demolition of existing and constructing the Sunset on-ramp, constructing MSE Wall #1740B, finishing sub-grade for the Sunset on-ramp, and finally paving the Sunset on-ramp.

This path then continues on by switching to Phase 2 MOT at Area 4, Median work at Sunset Area, and finally Median Work at Wilshire Area to achieve Area 3 Substantial Completion and Relief of Maintenance.

PROJECT COST ANALYSIS

Approved Budget

The Approved Budget reflects the Metro Board adopted Life-of-Project (LOP) Budget which was approved in April 2009 in the amount of \$1,034.0 million.

Current Budget and Current Forecast

The Current Budget and Forecast remain the same at \$1,034.0 million. Certain items budgeted and forecast under the PSE phase will be re-allocated to the RS and CS phases once the necessary approvals are obtained.

Commitments

The Commitments increased by \$1.511M this period primarily for MWD and miscellaneous consultant service contracts, Metro/Caltrans staff charges and Caltrans Real Estate parcel purchase commitments.

Expenditures

Expenditures are cumulative through April 2010. The expenditures increased by a total of \$32.397M this period. Expenditures for the period within the engineering phase included Metro project staff and miscellaneous consultant contract services. Metro costs in the right-of-way support category were for 3rd party Metro staff costs. Caltrans expenditures for the period included staff charges for engineering, right-of-way support and construction support costs and real estate parcel capital purchases. The Kiewit December 2009 invoice for \$31.0M was processed this period. The \$161.2 million in Project Expenditures to date represents 15.6% of the Original Budget.

STATUS OF FUNDS ANTICIPATED

FEDERAL SAFETEA-LU: \$117M is available for drawdown for specific phases of the Project as agreed upon in the Cooperative Agreement between Caltrans and Metro.

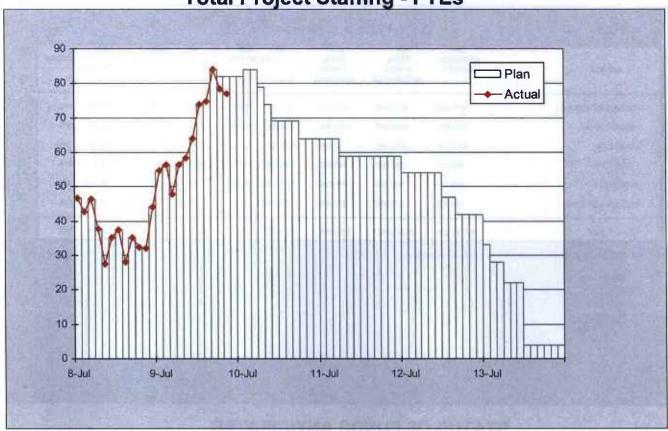

FEDERAL ARRA: \$189.9M is available for drawdown for specific phases of the Project as agreed upon in the Cooperative Agreement between Caltrans and Metro with consultation with FHWA.

STATE TCRP: \$42M is available for drawdown for specific phases of the Project as agreed upon in the Cooperative Agreement between Caltrans and Metro.

STATE RSTP: \$10.1M is available for drawdown for specific phases of the Project as agreed upon in the Cooperative Agreement between Caltrans and Metro.

PROPOSITION C 25%: The Metro Board approved the allocation of \$13M to the Project.

STAFFING STATUS Total Project Staffing - FTEs

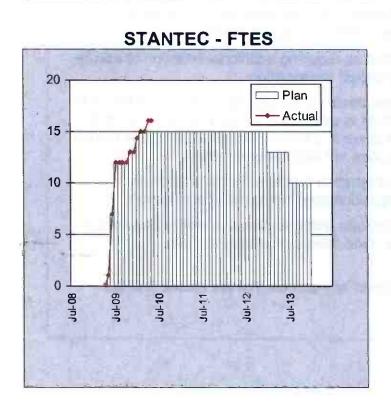

Total Project Staffing

Project Management has made a concerted effort to utilize resources on an as needed basis in lieu of assigned resources to support the Project. From Project inception, a pattern of manpower variances for Metro, Caltrans and Stantec occurred which initiated a reassessment of the Project's staffing requirements. Trends were prepared for all three entities in March and approved by Project Management in early April. The revised staffing requirements are now reflected in the charts found above and represent the new staffing plans which Metro, Caltrans and Stantec are expected to meet as the Project moves forward. The increase in Stantec's actual FTE's does not affect the revised Total Project Staffing Plan.

STAFFING STATUS

MTA - FTEs **CALTRANS-FTEs** 16 60 □ Plan 14 50 Actual 12 40 10 8 30 6 20 □Plan Actual

REAL ESTATE STATUS

- The real estate acquisition process is proceeding with a majority of the parcels on schedule to turn over to the Contractor by the contractual dates. Two parcels are presently late in turning over to the Contractor. The Project is working with the Contractor regarding access. A total of 32 parcels were initially identified as required for the project. Of that 7 were full takes with the remaining 25 being partial takes.
- As of May 2010, one partial take has been converted into a full take and 1 parcel was determined not to be required.
- Most parcels are on schedule to meet the target dates stated in the contract.
- Several parcels may require condemnation in order to be acquired. One (1) parcel is currently scheduled to proceed to condemnation CTC Board if the parcel owner is not willing to accept the offer. The Contractor has requested three (3) parcels earlier than stated in the contract and Metro is investigating the ability to accommodate their request.
- Parcels late to provide to the Contractor:
 - Santa Monica Mountain Conservancy. Presently working with the Contractor to determine what if any impacts this late delivery will have.
 - County of Los Angeles. Presently working with the Contractor to determine what if any impacts this late delivery will have.
- Several parcels have been identified as requiring additional attention to assure they stay on schedule and do not impact construction:
 - The Veterans Administration parcel containing the Breitburn oil line that will require additional attention to assure the Federal Government that the acquisition process will occur in a timely manner allowing the project to relocate the oil line so it does not impact construction.
 - The General Services Administration parcel will require additional attention to assure that acquisition does not impact construction.
 - The Project was able to negotiate with one parcel owner in Segment 2 and avoid a condemnation. One other parcel may require condemnation.
 - This information does not cover any parcels that are leased that the contractor may need.

			_	A			

ENVIRONMENTAL STATUS

- Ongoing coordination with resource agencies for construction activities.
- Prepared Environmental Addendum to conduct additional soil testing for a proposed landscape investigation for homes located in Sherman Oaks.

COMMUNITY RELATIONS STATUS

- Distributed 11,250 construction notices for the following construction activities: clearing and grubbing at the Getty Trailhead, Bel Air Crest, Sherman Oaks, and Sunset; CCTV installation and drainage cleaning; potholing at Mulholland Bridge; SB I-405 restriping; saw cut and grinding activities, and Sunset traffic switch.
- Attended and presented at the following meetings: Elected Official Briefing, monthly
 meeting with the Community Advisory Committee (CAC) Quarterly Community
 Meeting, Brentwood Community Council, Luxe Hotel detour update, Council District
 11 Transportation Committee, Westwood Hills Property Owners Association and
 Pacific Palisades Community Council.
- Coordinated work activities with the contractor for 95 residents and businesses
 along the project alignment related to Valley Vista freeway construction noise
 impacts, Skirball ramp closures, vertical height clearance at Bel Air Crest Road,
 preconstruction surveys, Santa Monica Mountain Conservancy and communication
 tower installation, clearing and grubbing near the Getty Center and the
 Memorandum of Agreements for residents in the vicinity of the 17209/1730 walls.
- Coordinated emergency services personnel and school buses.
- Coordinated Bus Operations detours/service changes.
- Reached 53 people with the support of the following events: UCLA Bus Coordination, Emergency Services Coordination and School Bus Coordination.
- Project Twitter page currently has 1,200 followers. 1100+ postings have been made on Twitter since the page began on January 11, 2010.
- Project Facebook page now has 500 friends. All Twitter postings now available on Facebook page.
- Metro I-405 webpage has 10,000 monthly visitors. All Twitter postings now available on I-405 webpage.

QUALITY ASSURANCE STATUS

- Metro Quality participated in reviews of Construction Work Plans and Readiness Review Meetings for the following areas:
 - AC paving
 - Veteran's Administration sewer work
 - o Cast-in-place (CIP) walls
 - o Form, pour and strip of top decks and approach slabs
 - Erection of precast concrete (PCC) and steel girders
- Four Discrepancy Reports were closed. Discrepancy Report #4 (Striping Transition) is proceeding toward closure.
- Performed in-process Quality Assurance (IQA) of MSE Wall Panel casting in Redlands, CA. Over 3,500 panels cast to date.
- Performed weekend surveillance of initial exploratory demolition access holes into the Sunset Bridge by the DB subcontractor, Penhall. No discrepancies were noted.
- Metro participated in weekly Quality Team Meetings to discuss/resolve current issues of concern.

SAFETY AND SECURITY STATUS

- Project to date recordable injury rate: 0.0 (no recordable injuries to date).
- Attended pre-activity meetings to ensure compliance with approved Work Plans and contract specifications.
- Received Underground Soils Classification to meet Cal/OSHA regulations for jacking operations near Wilshire and the I-405.
- Reviewed Construction Yard Development activities for security issues and adherence to the DB Contractor's approved Project Security Plan.
- Monitored Construction activities to ensure contractor and safety compliance with contract specifications.
- Participated in weekly progress meetings with IPO, Kiewit's management personnel to discuss safety related issues and construction work activities.
- Participated in Kiewit's weekly Foreman's Safety Meetings.
- May Contractor work hours (Design and Construction): 85,984.
- Contractor project to date work hours (Design and Construction): 673,531.
- Total project to date work hours (Contractor and the IPO staff): 788,057.

May 2010

THIRD PARTY AGREEMENT STATUS

Third Party	Type of Agreement	Forecast Execution Date	Required Need Date	Status/ Comments
City of Los Angeles	MCA	9/10	6/09	Discussions have resumed with the City. Expect to reach agreement in May 2010 with City to move the MCA forward for approval.
Los Angeles County Department of Public Works/Los Angeles Flood Control District	MCA	10/10	6/09	County has previously mentioned that they will not move forward until Mission Dump Road issues are resolved. County representatives need to determine if those issues remains a sticking point or if the MCA can be approved.
Utility Owners	Utility Agreements	Various	Various	Caltrans style Utility Agreements (similar to MTA Work Order Authorizations) will be completed as relocation plans are approved for each location.

CHRONOLOGY OF EVENTS

	CHICHOLOGI OF EVENIO
May 18, 2007	The Draft Environmental Impact Report (EIR)/Environmental Impact Statement (EIS) is issued.
February 29, 2008	The Final Environmental Impact Report (EIR)/Environmental Impact Statement (EIS) is issued.
March 10, 2008	The Final Environmental Impact Report (EIR)/Environmental Impact Statement (EIS) errata with U. S. General Services Administration (GSA) comments is issued.
October 10, 2008	LACMTA issued Invitation For Bid (IFB) for the project.
February 20, 2009	Project bids opened.
April 23, 2009	LACMTA Board authorized the Chief Executive Officer to award Design-Build Contract C0882 to Kiewit Pacific Co.
April 23, 2009	LACMTA Board approved establishing a budget of \$1.034 billion for project 405523.
April 23, 2009	LACMTA awarded Contract C0882 to Kiewit Pacific in the amount \$694,156,000 to include Schedules A, C, and H (Option 4).
April 29, 2009	LACMTA issued a revised NOA to Kiewit Pacific in the amount \$720,922,000 to include Schedules A, C, E (Option 1), F (Option 2), G (Option 3), and H (Option 4).
June 2, 2009	LACMTA issued Notice to Proceed to Kiewit Pacific for the Design-Build Contract C0882.
August 31, 2009	Contract Commencement Date.
September 24, 2009	Kiewit Pacific submitted the Project Baseline Schedule.
October 14, 2009	Project Design Quality Management Plan approved.
December 14, 2009	Project Quality Management System approved.
January 20, 2010	Project Baseline Schedule was approved.
January 27, 2010	Roadway Restriping commenced.

May 2010

CHRONOLOGY OF EVENTS

March 12, 2010	Major Project Permits were obtained; Permit 401 – Water Quality Control Board, Permit 404 – U.S. Army Corps of Engineers, and Permit 1600 – California Department of Fish & Game.
May 31, 2010	The Project completed one year without a Recordable Injury.

APPENDICES COST AND BUDGET TERMINOLOGY

APPROVED BUDGET: The Approved Project Budget as established by Metro Board of Directors at the time it authorizes Construction Project Management Division to commence full design and construction of the project (Project Adoption).

CURRENT BUDGET: The Original Budget plus all budget amendments approved by formal Metro action. Also referred to as Approved Budget.

CURRENT FORECAST: Evaluation of costs to go combined with actual expenditures.

COMMITMENTS: The total of actual contract awards, executed change orders or amendments, approved work orders of Master Cooperative Agreements, offers accepted for purchase of real estate, and other Metro actions which have been spent or result in the obligation of specific expenditures at a future time.

EXPENDITURES: The total dollar amount of funds expended by Metro for contractor or consultant invoices, third party invoices, staff salaries, real estate and other expenses that is reported in Metro's Financial Information System (FIS).

PROJECT APPROVAL & ENVIRONMENTAL DOCUMENTS: Costs for agency staff and consulting contracts leading to project approval and environmental clearances.

PLANS, SPECS. & ENGINEERING: Agency staff and consulting contract costs between the initial project approval and environmental clearances but prior to start of construction.

RIGHT-OF-WAY SUPPORT: Costs for agency staff involved in real estate appraisal and parcel purchase activities and agency staff costs involved in utility relocations and third party agreements. Includes real estate appraisal costs.

CONSTRUCTION SUPPORT: Agency staff and consulting contract costs occurring during the construction phase of the project.

CONSTRUCTION: Costs for highway construction, bridge and on/off ramp construction and modifications, retaining wall and sound wall construction. Includes final design costs by Design/Build Contractor.

RIGHT-OF-WAY CAPITAL: Costs for real estate parcel purchases and utility relocations costs after approval of utility company agreements. Includes costs for Master Cooperative Agreements after approval by agencies.
