PROJECT OVERVIEW

The Metro Gold Line Eastside Extension Project is a six-mile, dual track light rail system with eight new stations and one station modification. The system originates at Union Station in downtown Los Angeles, where it connects with the Pasadena Gold Line, traveling generally east to Pomona and Atlantic Boulevards. The system will bridge State Route 101 Freeway and traverse the existing 1st Street Bridge over the Los Angeles River. The system will travel south on Alameda Street and then east on 1st Street with two stations at Alameda and Utah Streets. East of the Los Angeles River and 1st and Utah Streets, the alignment transitions to tunnel for approximately 1.7 miles, and continues beneath 1st Street to underground stations at 1st Street and Boyle Avenue and 1st Street and Soto Street. The alignment returns to the surface near the intersection of 1st Street and Lorena Streets, then jogs to the south, transitioning to follow 3rd Street with stations at Indiana Street, Ford Boulevard, Mednik Avenue and Pomona and Atlantic Boulevards.

The construction bid process is continuing. MTA has developed a Funding Action Plan to reconcile the cost differences between the forecast budget and the construction bids that were opened on December 10, 2003. The Funding Action Plan was submitted to the FTA on January 20, 2004. This plan includes the Best and Final Offer (BAFO) process with the bidders, in accordance with the Invitation for Bids. The BAFO process has begun and BAFO's are due in February 2004.

Contract(s) can be awarded only after the Full Funding Grant Agreement (FFGA) has been executed. The FFGA documents have been reviewed by the Office of the Secretary of Transportation (OST) and have been forwarded to the Office of Management and Budget (OMB) for review. It is anticipated that OMB will complete their review of the FFGA documentation by February 2004.

The next steps in the FFGA execution process are 60 calendar days for Congressional review and fourteen calendar days for FTA execution of the FFGA. Based upon the above dates and durations, it is anticipated that an executed FFGA will be received by mid-May 2004. Therefore, a planned construction NTP would occur by mid-June 2004 and the planned Revenue Operations Date (ROD) is forecasted to occur in June 2009, based upon the award of a combined bid package. Based upon the award of separate packages, ROD is forecasted to occur in December 2009.

January 2004

PROJECT OVERVIEW

Advanced utility relocations are underway by The Gas Company, Adelphia Cable, SBC, LABSL, Los Angeles Department of Water and Power (Power), and City of Los Angeles ITA. Advanced utility relocations completed are Adelphia Cable at the Boyle Heights/Mariachi Plaza Station site, The Gas Company at the Soto Station site, the Boyle Heights/Mariachi Plaza Station site and East Portal site, and the Los Angeles Bureau of Street Lighting (LABSL) at the intersection of Commercial Street and Alameda street.

Thirty-four of the 46 grade crossing applications have passed the 30-day public review period, including thirteen applications that have been approved by the California Public Utilities Commission (CPUC).

MANAGEMENT ISSUES

New Item (Date Initiated: October 2003)

FEDERAL TRANSIT ADMINISTRATION (FTA) EXECUTION OF THE FULL FUNDING GRANT AGGREEMENT (FFGA)

Concern/Impact

MTA is not able to award the construction contracts without receiving a fully executed FFGA. The forecasted Project Revenue Operations Date is directly related to the FFGA execution date.

Status/Action

To address the cost differences between the forecast budget and the construction bids, MTA has outlined a Funding Action Plan, that will facilitate the FFGA to be executed in May 2004. In addition, the MTA will proceed with the Best and Final Offer (BAFO) process with all bidders, in accordance with the Invitation for Bids. The MTA will continue to meet all the FTA requirements throughout this process.

PROJECT SCOPE

Contract C0802 – 101 Freeway Bridge
Overcrossing: The construction of the
bridge will be combined with Caltrans freeway
improvements project. While Caltrans will
advertise and administer the construction,
MTA will remain responsible for the design
and construction costs of the bridge
overcrossing.

Union

Station

Contract C0800 - Tunnel and Station
Excavation: This contract will be
design/bid/build. The contractor will be selected
utilizing a sealed bid, where the award will be
based on the lowest priced technically qualified
bid.

The start of tunnel construction is based upon the completion of final design, successful construction award and acquisition of full take real estate parcels. Construction of the 1.7 mile tunnel segment includes tunnel excavation using two Earth Pressure Balance Machines (EPBM) type, excavation of cross passages, concreting of the tunnels and cross passages, and the east and west portals construction.

Station excavation of the two underground stations, Boyle Heights/Mariachi Plaza and Soto, include drilling, placing and concreting the soldier piles that line the perimeter of the station box to be excavated. Construction also includes street decking. Boyle Heights/Mariachi Plaza will be the staging area for assembling the TBMs and all excavated materials will be removed from this location.

Little Tokyo /
Arts District

Pico/Aliso

Maravilla

Atlantic

Indiana

Maravilla

East LA Civic Center

Contract C0801 - Stations, Trackwork, and Systems: This contract will be design/build. The contractor will be selected utilizing the two-step low bid procurement, following the guidelines set forth in the Federal Acquisition Regulations (FAR) Part 15 and requirements of California Public Utilities Code (CPUC) Section 130242.

The construction of each underground station will occur at the successful completion of the critical tunnel boring work under contract C0800. Construction of the two underground stations includes structural walls, station platforms, mezzanines, station entrances, and plazas, architectural finishes and all related mechanical and electrical work.

All six of the at-grade stations along the six-mile alignment will be constructed under this contract. This contract includes all the trackwork installation and testing for the entire alignment. Systems installation and testing is inclusive of power systems, automatic train control, fire and emergency management, TRACS and communications systems. The contractor will be responsible for systems integration testing for the entire line segment prior to pre-revenue operations.

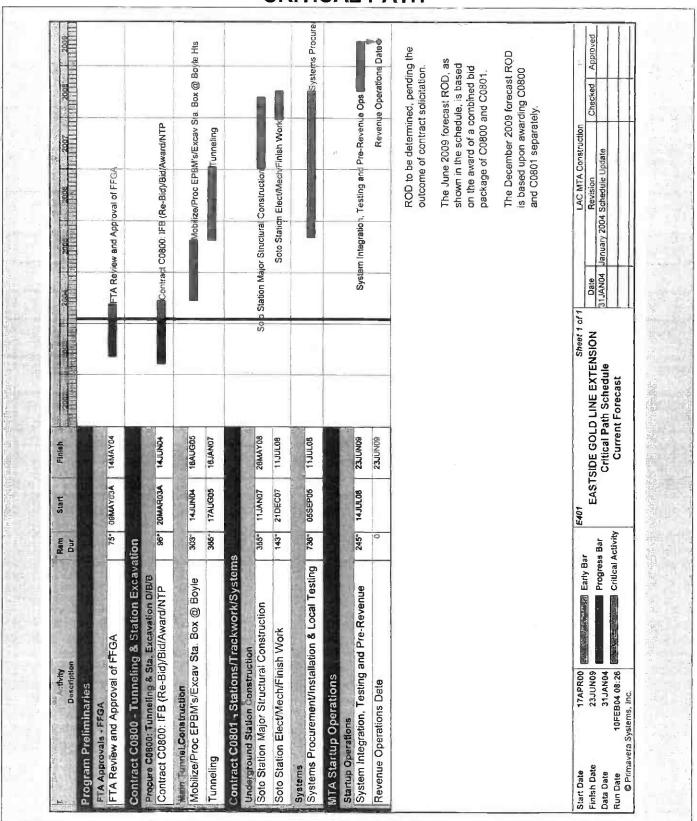

Note: Contract C0803 encompasses work scope of both Contract C0800 and C0801.

PROJECT MASTER SCHEDULE CRITICAL PATH

CRITICAL PATH NARRATIVE

The construction bid process is continuing. The MTA has developed a Funding Action Plan to reconcile the cost differences between the forecast budget and the construction bids that were opened on December 10, 2003. The Funding Action Plan was submitted to the FTA on January 20, 2004. This plan includes the Best and Final Offer (BAFO) process with the bidders, in accordance with the invitation for Bids. The BAFO process has begun and BAFOs are due in February 2004.

The critical path for the construction contract(s) begins with the contract award and Notice to Proceed (NTP) date(s) and ending with the Revenue Operations Date (ROD). Contract(s) can be awarded only after the Full Funding Grant Agreement (FFGA) has been executed. The FFGA documents have been reviewed by the Office of the Secretary of Transportation (OST) and forwarded to the Office of Management and Budget (OMB) for review. It is anticipated that (OMB) will complete the review of the FFGA documentation by February 2004.

The next steps in the FFGA process are 60 calendar days for Congressional review and seven calendar days for FTA execution of the FFGA. Based upon the above dates and durations, it is anticipated that an executed FFGA will be received by mid-May 2004. Thereafter, a planned construction NTP would occur by mid-May 2004 and the planned ROD is forecasted to occur in June 2009, based upon the award of a combined bid package. Based upon the award of separate packages, ROD is forecasted to occur in December 2009.

Upon the issuance of Notice To Proceed(s), there will be a 13-month lead time for the procurement of two Earth Pressure Balance Machines (EPBMs). Concurrent with the EPBM procurement, the project will proceed with mobilization, pile installation, and station box excavations. The station box excavations are scheduled to complete prior to the EPBMs delivery.

The critical path continues with EPBMs assemblies, excavation of both tunnels, excavation of crosspassages, and tunnel invert and walkway construction. The critical path then follows Soto underground station construction. The systems equipment installation and local facilities testing is the last stage of the critical path prior to entering the final test stage where systems integration testing and pre-revenue operations are conducted.

STATUS OF FUNDS ANTICIPATED

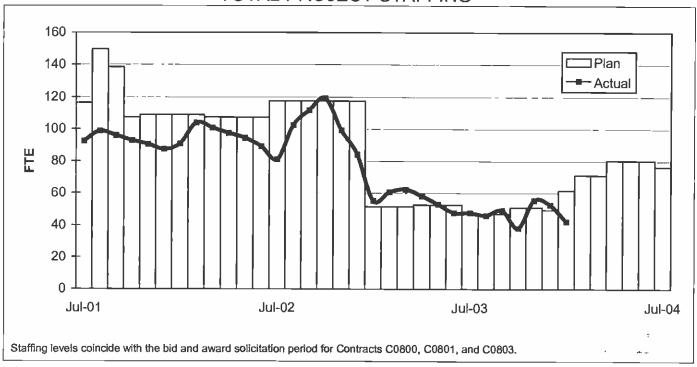

FEDERAL SECTION 5309: MTA submitted a grant amendment application CA-03-0508-04 for \$3,934,330 on April 18, 2003. Funds were available for draw down as of June 2003.

STATE TCRP: On April 3, 2003 the California Transportation Commission approved MTA's request to amend the STIP to convert \$191 million of unallocated TCRP funds to STIP funds.

On August 25, 2003, MTA submitted a request for AB1335 Letter of No Prejudice (LONP) authority for Phase 4 construction activities. The LONP is scheduled for approval at the February 2004 CTC Meeting.

CONSTRUCTION MANAGEMENT

REAL ESTATE STATUS

- For C0800, the tunnel portion of the alignment, 43 parcels are required for acquisition (10 full takes, 16 sub-surface easements, 8 part takes, 5 sub-surface easements/building protection, 2 building protections, 1 street vacation and 1 permit from Caltrans which will be coordinated through MTA's Third Party Coordination).
- For C0801, the at-grade portion of the alignment, 35 parcels are required for acquisition (19 full takes, 9 partial takes, 3 street vacations, 2 access closures, and 2 permits required from Caltrans which will be coordinated through the MTA's Third Party Coordination office). Nine parcels have been identified for the proposed Ramona High School site reconfiguration.
- For C0802, 3 parcels are required (2 surface easements and 1 full take parcel).
- Seventy-two parcels have been certified, 40 for C0800, 30 for C0801 and 2 for C0802.
 Offers have been made to 33 property owners. A total of 15 parcels have been acquired (8 under C0800, 6 under C0801, and 1 under C0802). Four parcels are in condemnation and Real Estate is in negotiations with the other property owners.

ENVIRONMENTAL STATUS

- The Los Angeles Regional Water Quality Control Board approved NPDES Permit.
- Completed Mobil Station demolition.
- Continued discussions with Caltrans regarding storm water.
- Continued work on Groundwater Treatment Units. Modest repair and replacement of some parts will be required.

COMMUNITY RELATIONS STATUS

- Coordinated public outreach events with community representatives to facilitate public interest in the Metro Gold Line Eastside Extension Project.
- Conducted meetings with business owners to discuss pre-construction activities impact mitigation.
- Continued education campaign on advanced utility relocation and circulated construction notices on active relocations.
- Developed station renderings and outreach materials.

QUALITY ASSURANCE STATUS

- Project Quality Management (PQM) continues to monitor advance utility relocations with field visits and reporting. Issues of concern are reported immediately to Third Party for their coordination/ resolution and the progress of work is reported in periodic Quality Surveillance Reports complete with photographs.
- PQM is drafting a Project Quality Management Plan (PQMP). The PQMP will serve as a "one stop" reference document addressing all quality related activities on the project.
- PQM has begun making draft project—specific revisions to the Construction Division Inspection Instructions (CDII's), to support the MGLEE project. A small number of new CDII's will be generated addressing new MTA processes such as manufacture/installation of bolted and gasketed tunnel liner segment inspection, as well as several CDII's which were not previously developed in time to support past projects. Draft CDII's will be routed to project staff for comments.

SAFETY STATUS

- Participated in bi-weekly progress meetings with MTA Construction Management to discuss safety related issues.
- Revised Worksite Safety Requirement section 05145 (2.5) regarding Emergency Medical Technician.
- Monitored utility relocation activities to ensure safety compliance.

THIRD PARTY AGREEMENT STATUS

Third Party	Type of Agreement	Forecast Execution Date	Required Need Date	Status/ Comments
City of Los Angeles	Amendment	Complete	N/A	Fully executed on 12/23/02.
Los Angeles County	Master	Complete	N/A	Execution completed 4/1/03.
Caltrans (All Projects)	Master	Complete	N/A	MTA execution completed 5/7/03. Full execution by Caltrans occurred in July.
Caltrans (101)	Design	Complete	N/A	MTA execution completed by 5/7/03. Full execution by Caltrans occurred in July.
Caltrans (101)	Construction	Complete	N/A	MTA execution completed 6/16/03. Full execution by Caltrans occurred in September 2003.
Caltrans (101)	Maintenance	4/04	6/07	Initial negotiation meeting on 1/9/03 resulted in MTA's recommendation to use the existing agreement with a similar San Diego system. The San Diego agreement was forwarded to MTA on 1/29/03. MTA received a draft from Caltrans on 4/10/03. Agreement was returned to Caltrans on 4/22/03 with comments. After a negotiation meeting on 7/29/03, a draft agreement by Caltrans was received on 1/22/04 but contained none of the previous comments. MTA will complete additional modifications by 2/15/04 and send back to Caltrans.
LADWP (Water)	Amendment	2/04	3/04	The revised draft amendment was hand delivered to LADWP on 11/19/03 and was discussed in a 12/3/03 meeting. In a 1/15/04 meeting, DWP presented a draft of City type agreement to MTA. MTA will review and comment back by 2/12/04.
LADWP (Power)	Amendment	2/04	3/04	A draft amendment was hand delivered to LADWP on 11/19/03 and was discussed in a 12/3/03 meeting. In a 1/15/04 meeting, DWP presented a draft City type agreement to MTA. MTA will review and comment back by 2/12/04.
So. Cal. Edison Co.	Amendment	2/04	3/04	The revised draft amendment was hand delivered to SCE on 11/19/03.
The Gas Company	Amendment	2/04	3/04	The Gas Co. will continue to work under the existing agreement until an amendment is executed. A draft amendment was hand delivered to the Gas Co, on 11/19/03 and was discussed in a 12/9/03 meeting. MTA also forwarded a copy of contract language that will protect MTA and utilities that are in Contract C0801. A negotiation meeting has been scheduled for February 2004

THIRD PARTY AGREEMENT STATUS (Continued)

Third Party	Type of Agreement	Forecast Execution Date	Required Need Date	Status/ Comments
Pacific Bell	Amendment	3/04	3/04	The revised draft amendment was hand delivered to SBC on 11/19/03. A meeting was held on 12/17/03 and the objectives of the new draft were discussed. MTA will forward another revision and hold a negotiation meeting in mid-February 2004.
Adelphia Cable Company	Amendment	3/04	3/04	The revised draft amendment was hand delivered to Adelphia Cable on 11/19/03.
California Water Service Company	Master	3/04	3/04	MTA sent the revised draft amendment on 11/20/03 and an electronic copy on 1/23/04. Comments are anticipated to occur no earlier than mid-February 2004.
L.A.County Sanitation Districts	N/A	Complete	3/04	Sanitation District letter dated 3/26/03 stated no need for an agreement since there are no relocations necessarily related to their facilities. They will review the submittals related to encasement for their facility on Indiana Street.
MCI Worldcom	Amendment	2/04	3/04	The revised draft amendment was sent to MCI on 11/19/03 and was discussed during 12/11/03 and 1/22/04 conference calls. MCI will redraft the agreement.
Metropolitan Water District	Amendment	Complete	3/04	1/7/03 meeting resulted in using the existing agreement. A letter was sent to MWD on 4/1/03 for their concurrence. Concurrence was executed by MWD on 4/21/03 and received on 5/12/03.
Verizon Wireless	Amendment	3/04	3/04	The revised draft amendment was hand delivered to Verizon on 11/19/03.
AT&T Local Services	Amendment	2/04	3/04	The revised draft amendment was hand delivered to AT&T on 11/19/03.

CONTRACT P2550 STATUS

Description: 2550 Rail Vehicle Program

Contractor: Ansaldobreda, Italy

Progress/Work Completed:

Completed Milestone 1A, 2A and 3A.

In January the MTA Integrated Project Team (IPT) continued to review Contractor Schematic Design submittals and completed the following:

- 1. Finite Element Model Review for Car Shells and Trucks conducted in Italy by IPT.
- 2. Finite Element Analysis for Car Shells and Trucksconducted in
- 3. Conducted detailed review of Contract Schedule reporting and made recommendations for improvements in format and presentation.

Areas of Concern:

Finalizing wheel design and vendor.

Contract No.: P2550 MTA Project: 800151

Status as of: January 31, 2003

Major Activities (In Progress):

Contractor has continued the Milestone 4A & 5A work.

Major Activities Next Period:

On-site Signal-Testing at the Metro Blue Line, Metro Green Line, and Pasadena Gold Line.

Final Operator Cab Design Review. Low Voltage Schematic Design Review. Medium Voltage Schematic Design Review. High Voltage Schematic Design Review. EMI Schematic Design Review.

Control Voltage Reviews.

Carborne Equipment Integration Reviews.

Technical and commercial data continue to be delivered and weekly teleconference meetings continue to monitor technical design and production development of the 2550 rail vehicles.

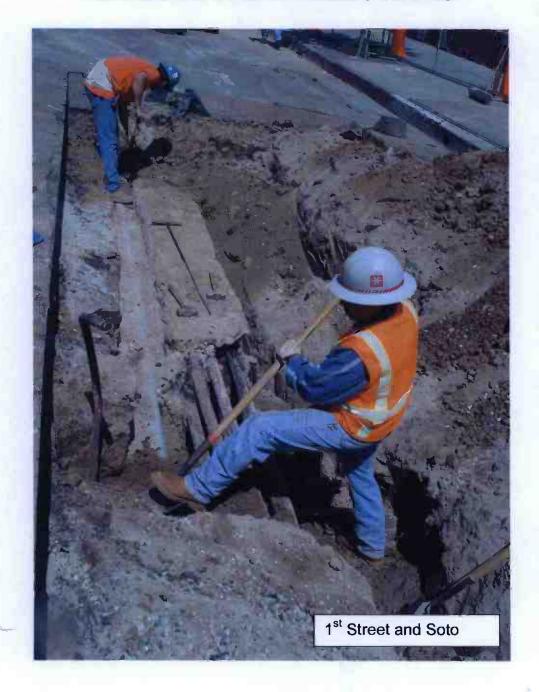

Schedule Summary:			Original Contract Oates	Time Extension	Current Contract	Forecast	Variance CDs

		Milestone 14A - Acceptance of two First Article Vehicles	12/02/05	0	12/02/05	12/02/05	o l
Physical Percent Complete:	Cost Summary:			\$ In millions			

Physical completion * as of January 2004 is 21%.

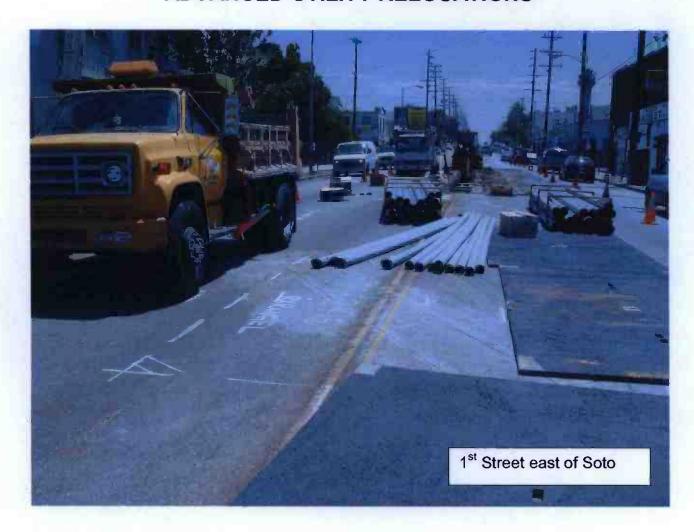

* Note: Physical completion assessment reflects work completed and invoiced, and current work in progess.

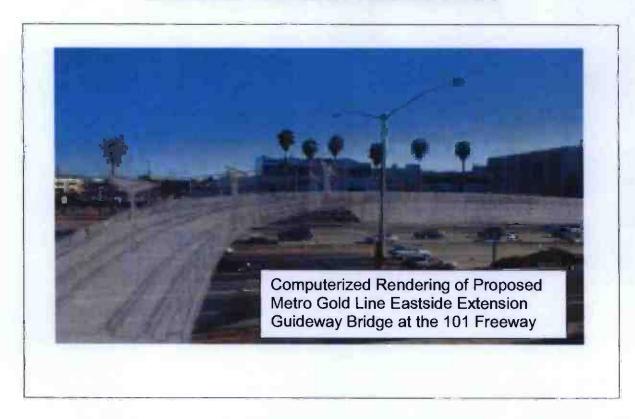

Award Value: 158.74 (Metro Gold Line Eastside Ext Only: 31.75) 2. Executed Modifications: 0.00 3. Approved Change Orders: 0.00 4. Current Contract Value (1 + 2 + 3): 158.74 5. Pending Changes: 0.00 6. Incurred Cost: 26.27

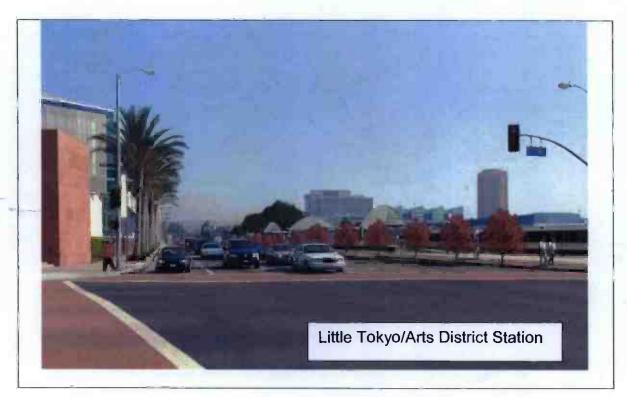

ADVANCED UTILITY RELOCATIONS

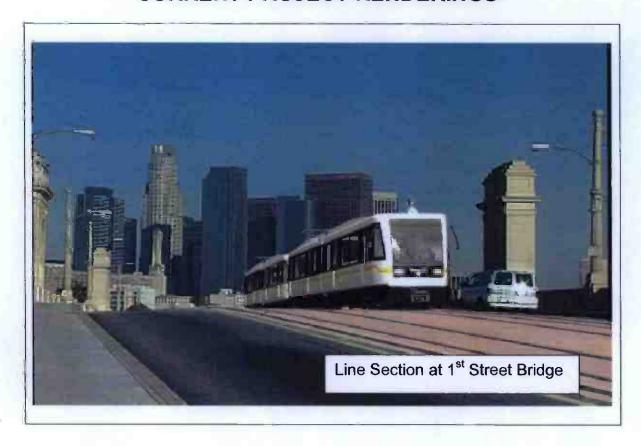

ADVANCED UTILITY RELOCATIONS

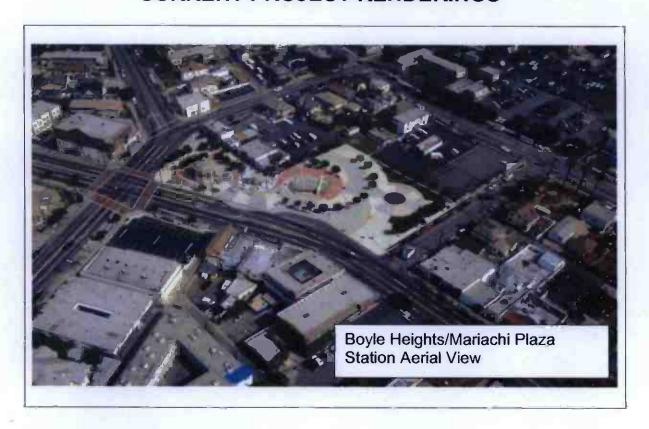

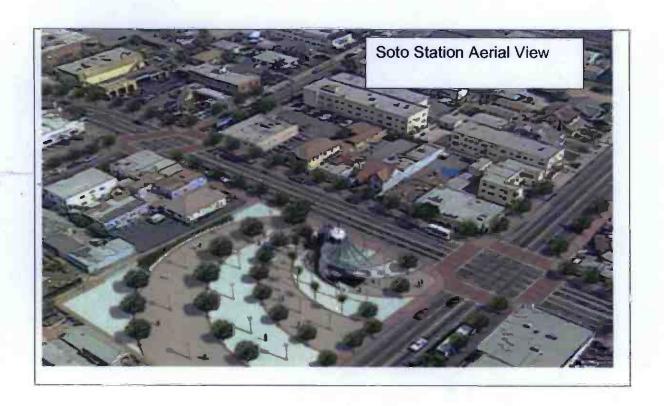

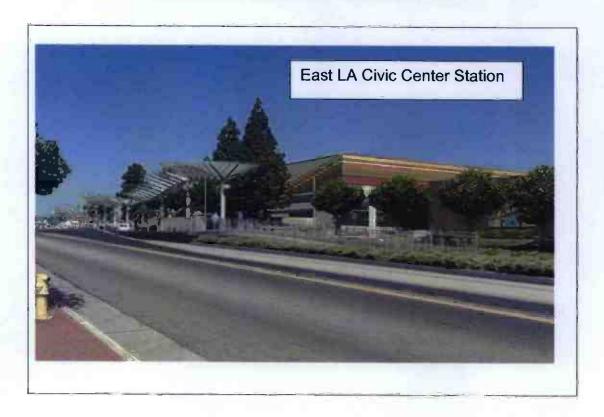

APPENDIX COST AND BUDGET TERMINOLOGY

ESTIMATED PROJECT COSTS: Estimated project costs are based upon the current project cost estimates that are produced during the engineering design phase.

COMMITMENTS: The total of actual contract awards, executed change orders or amendments, approved work orders of Master Cooperative Agreements, offers accepted for purchase of real estate, and other LACMTA actions that will result in specific expenditures at a future time.

INCURRED COST: The total value of work performed to date of services received, and acquired materials or properties.

EXPENDITURES: The total dollar amount of checks written by LACMTA's Accounting department for contractor or consultant invoices, third party invoices, staff salaries, and closing payments for escrow accounts that is reported in LACMTA's Financial Information System (FIS).

CONSTRUCTION: Includes guideways, yards and shops, systems equipment, stations, and vehicles.

PROFESSIONAL SERVICES: Includes general engineering, construction management services, consultant design support services during construction, legal counsel, and agency (MTA staff) costs.

RIGHT-OF-WAY: Includes real estate appraisals, purchase cost of parcels, easements, right-of-entry permits, escrow fees, and tenant relocation.

UTILITY/AGENCY FORCE ACCOUNT: Includes work by outside agencies and utilities in design coordination and review.

CONTINGENCY: A fund established at the beginning of a project to provide for anticipated but unknown additional costs that may arise during the course of the project.

SPECIAL CONDITIONS: Includes utilities relocation, environmental compliance and mitigation, master cooperative agreements, insurance program, artwork, systems integration testing and pre-revenue operations.
