Patricia Adler-Ingram, Ph.D., Executive Director
Historical Society of Southern California
P.O. Box 93487
Pasadena, CA 91109

Sent Via U.S. Mail

RE: Regional Connector Transit Corridor Project, City of Los Angeles, Los Angeles County, CA

Dear Ms. Adler-Ingram:

The Los Angeles County Metropolitan Transportation Authority (Metro) has been delegated responsibility by the Federal Transit Administration (FTA) for preparing cultural resources documentation, in compliance with Section 106 of the National Historic Preservation Act, for the Regional Connector Transit Corridor Project in downtown Los Angeles. SWCA is providing consultant services for assessment of potential project effects on historic, archaeological and paleontological resources.

The Regional Connector Transit Corridor Project is a proposed transit infrastructure improvement project that would construct 1.8 miles of a new set of dual tracks in order to connect four vital travel corridors that stretch across 50 miles of Los Angeles County. The proposed project would directly link the 7th St./Metro Center Station (the Metro Blue Line and Metro Expo Line [2010] terminus) located at 7th and Figueroa Streets to the Little Tokyo/Arts District Station (a new Metro Gold Line Station opening in 2009) located at 1st and Alameda Streets. The project would include the construction of several new Metro stations in downtown Los Angeles and would create direct trains between Long Beach and Pasadena, as well as East Los Angeles and Culver City. It would also provide passengers with direct trains into the heart of the business and civic districts. These improvements would provide regional benefits to people throughout Los Angeles County.

Metro will evaluate the following four (4) alternatives in a Draft Environmental Impact Statement/Draft Environmental Impact Report (DEIS/DEIR):

- No Build (Baseline)
- Transportation System Management (TSM)
- At-Grade Emphasis LRT Alternative
- Underground Emphasis LRT Alternative

Please refer to enclosed project maps, Figure 2-2A (At-Grade Emphasis LRT Alternative Alignment and Configuration) and Figure 2-2B (Underground Emphasis LRT Alternative Alignment and Configuration). Please also refer to the enclosed draft Area of Potential Effect (APE) map currently under review by the SHPO.

The purpose of this letter is to request your input on potential or known historic properties or other cultural resources in the project area. In conformance with Section 106, we are in the initial

phase, "identify[ing] historic properties potentially affected by the undertaking" (36 Code of Federal Regulations Part 880.1 a). In carrying out these responsibilities, we have reviewed previously identified sources of information on historic properties including the Historic Property Data File for Los Angeles County, maintained at the South Central Coastal Information Center at California State University, Fullerton. In addition, we have reviewed the City of Los Angeles Historic-Cultural Monument listings. As part of our survey effort, we will be evaluating properties that may be affected by the proposed project for both National Register of Historic Places and California Register of Historical Resources eligibility.

Built Environment and Archaeological Survey Reports are being prepared by SWCA Environmental Consultants (SWCA). However, we acknowledge that some areas and properties may contain values not readily apparent and would appreciate any such information you can provide.

Please notify SWCA in writing at the address listed below, if you have information on potential or identified historical properties in the project study area by no later than close of business, **Thursday, April 30, 2009**. Please contact me at the address or phone number below with any applicable comments:

RE: Regional Connector Transit Corridor Project, City of Los Angeles, Los Angeles County, CA

Dear Mr. Bernstein:

The Los Angeles County Metropolitan Transportation Authority (Metro) has been delegated responsibility by the Federal Transit Administration (FTA) for preparing cultural resources documentation, in compliance with Section 106 of the National Historic Preservation Act, for the Regional Connector Transit Corridor Project in downtown Los Angeles. SWCA is providing consultant services for assessment of potential project effects on historic, archaeological and paleontological resources.

The Regional Connector Transit Corridor Project is a proposed transit infrastructure improvement project that would construct 1.8 miles of a new set of dual tracks in order to connect four vital travel corridors that stretch across 50 miles of Los Angeles County. The proposed project would directly link the 7th St./Metro Center Station (the Metro Blue Line and Metro Expo Line [2010] terminus) located at 7th and Figueroa Streets to the Little Tokyo/Arts District Station (a new Metro Gold Line Station opening in 2009) located at 1st and Alameda Streets. The project would include the construction of several new Metro stations in downtown Los Angeles and would create direct trains between Long Beach and Pasadena, as well as East Los Angeles and Culver City. It would also provide passengers with direct trains into the heart of the business and civic districts. These improvements would provide regional benefits to people throughout Los Angeles County.

Metro will evaluate the following four (4) alternatives in a Draft Environmental Impact Statement/Draft Environmental Impact Report (DEIS/DEIR):

- No Build (Baseline)
- Transportation System Management (TSM)
- At-Grade Emphasis LRT Alternative
- Underground Emphasis LRT Alternative

Please refer to enclosed project maps, Figure 2-2A (At-Grade Emphasis LRT Alternative Alignment and Configuration) and Figure 2-2B (Underground Emphasis LRT Alternative Alignment and Configuration). Please also refer to the enclosed draft Area of Potential Effect (APE) map currently under review by the SHPO.

The purpose of this letter is to request your input on potential or known historic properties or other cultural resources in the project area. In conformance with Section 106, we are in the initial

phase, "identify[ing] historic properties potentially affected by the undertaking" (36 Code of Federal Regulations Part 880.1 a). In carrying out these responsibilities, we have reviewed previously identified sources of information on historic properties including the Historic Property Data File for Los Angeles County, maintained at the South Central Coastal Information Center at California State University, Fullerton. In addition, we have reviewed the City of Los Angeles Historic-Cultural Monument listings. As part of our survey effort, we will be evaluating properties that may be affected by the proposed project for both National Register of Historic Places and California Register of Historical Resources eligibility.

Built Environment and Archaeological Survey Reports are being prepared by SWCA Environmental Consultants (SWCA). However, we acknowledge that some areas and properties may contain values not readily apparent and would appreciate any such information you can provide.

Please notify SWCA in writing at the address listed below, if you have information on potential or identified historical properties in the project study area by no later than close of business, **Thursday, April 30, 2009**. Please contact me at the address or phone number below with any applicable comments:

Little Tokyo Service Center
231 E. 3rd Street, Suite G-106
Los Angeles, CA 90013

Sent Via U.S. Mail

RE: Regional Connector Transit Corridor Project, City of Los Angeles, Los Angeles County, CA

Dear Mr. Watanabe:

The Los Angeles County Metropolitan Transportation Authority (Metro) has been delegated responsibility by the Federal Transit Administration (FTA) for preparing cultural resources documentation, in compliance with Section 106 of the National Historic Preservation Act, for the Regional Connector Transit Corridor Project in downtown Los Angeles. SWCA is providing consultant services for assessment of potential project effects on historic, archaeological and paleontological resources.

The Regional Connector Transit Corridor Project is a proposed transit infrastructure improvement project that would construct 1.8 miles of a new set of dual tracks in order to connect four vital travel corridors that stretch across 50 miles of Los Angeles County. The proposed project would directly link the 7th St./Metro Center Station (the Metro Blue Line and Metro Expo Line [2010] terminus) located at 7th and Figueroa Streets to the Little Tokyo/Arts District Station (a new Metro Gold Line Station opening in 2009) located at 1st and Alameda Streets. The project would include the construction of several new Metro stations in downtown Los Angeles and would create direct trains between Long Beach and Pasadena, as well as East Los Angeles and Culver City. It would also provide passengers with direct trains into the heart of the business and civic districts. These improvements would provide regional benefits to people throughout Los Angeles County.

Metro will evaluate the following four (4) alternatives in a Draft Environmental Impact Statement/Draft Environmental Impact Report (DEIS/DEIR):

- No Build (Baseline)
- Transportation System Management (TSM)
- At-Grade Emphasis LRT Alternative
- Underground Emphasis LRT Alternative

Please refer to enclosed project maps, Figure 2-2A (At-Grade Emphasis LRT Alternative Alignment and Configuration) and Figure 2-2B (Underground Emphasis LRT Alternative Alignment and Configuration). Please also refer to the enclosed draft Area of Potential Effect (APE) map currently under review by the SHPO.

The purpose of this letter is to request your input on potential or known historic properties or other cultural resources in the project area. In conformance with Section 106, we are in the initial

phase, "identify[ing] historic properties potentially affected by the undertaking" (36 Code of Federal Regulations Part 880.1 a). In carrying out these responsibilities, we have reviewed previously identified sources of information on historic properties including the Historic Property Data File for Los Angeles County, maintained at the South Central Coastal Information Center at California State University, Fullerton. In addition, we have reviewed the City of Los Angeles Historic-Cultural Monument listings. As part of our survey effort, we will be evaluating properties that may be affected by the proposed project for both National Register of Historic Places and California Register of Historical Resources eligibility.

Built Environment and Archaeological Survey Reports are being prepared by SWCA Environmental Consultants (SWCA). However, we acknowledge that some areas and properties may contain values not readily apparent and would appreciate any such information you can provide.

Please notify SWCA in writing at the address listed below, if you have information on potential or identified historical properties in the project study area by no later than close of business, **Thursday, April 30, 2009**. Please contact me at the address or phone number below with any applicable comments:

Subject: Regional Connector Transit Corridor Project, Los Angeles

A priority mail letter was sent to Richard S. Kimball on April 16, 2009 regarding the above-referenced project and requesting information regarding historic properties. To date, we have not received a reply. Please let us know by April 30, 2009, preferably in writing, if your organization has any information they would like to convey. If we do not hear from your group by that date, we will assume that you have no comments. Thank you, in advance for your attention to this project.

5/22/2009

May 12, 2009

Ms. Kip Harper, Project Manager
SWCA Environmental Consultants
625 Fair Oaks Avenue, Ste 190
South Pasadena, CA 91030

In response to your request for input regarding impact of proposed Regional Connector Transit alternatives, I am submitting this letter of comment.

While there exists key historic and cultural properties in Little Tokyo, i.e., the historic 1st Street North (National Registry of Historic Sites), Union Church on Judge John Aiso St., Koyasan Buddhist Temple (1st St), and various art work, rather than focus on specific properties, it would be more appropriate to view impact of Transit alternatives on the Little Tokyo area as a whole.

Little Tokyo, Los Angeles, is one of three major historic Japantowns in the U.S. The other two are located in San Francisco and San Jose. State legislation acknowledged the importance of preserving these areas in State of California's Senate Bill 307. Recently Little Tokyo was designated a Preserve America community by the federal government. Currently the Little Tokyo Community Council is working with the City of Los Angeles Planning Department to adopt a Community Design Overlay for the area to maintain the physical cultural characteristics of the area.

Key to the sustainability of our historic and cultural community includes preservation of the physical properties; buildings, streetscape, artwork, but equally important as identified in the "Defining Cultural Preservation" report (Sept. 2004) are the intangible aspects of culture, "... traditions, arts, music, and the community's essence." A vibrant, active community is able to carry out cultural activities and maintain cultural traditions.

Therefore it is important to look at the impact of construction on small businesses, such as restaurants and shops. Traffic congestion and elimination of parking will inhibit visitors and patrons to shop, attend community events, attend cultural classes. Noise due to construction will hinder the visitor experience. The short-term impact could be so great that the important aspects of the community will not survive.

The overall goal for the construction of the Regional Connector may include promoting access and visitorship to Little Tokyo, and other areas of downtown Los Angeles, however, given the precarious nature of our community in its struggle to preserve active cultural and community activities, the immediate impact of construction cannot be disregarded.

Sincerely,

A handwritten signature in black ink that reads "Chris Aihara". The signature is fluid and cursive, with a long horizontal stroke at the end.

Chris Aihara

APN: 5144-008-013

***P3a. Description:** (Describe resource and its major elements. Include design, materials, condition, alterations, size, setting, and boundaries)

The subject property building, as previously recorded by Roger Hatheway in 1979, is no longer extant. The single-story Home Savings building and parking lot, located at 654 S. Figueroa Street, was demolished and replaced in 1989 by the 28-story Home Savings of America Tower. It is a French Chateausque style high-rise office building designed by Albert C. Martin and Associates. The building is now known as Figueroa Tower.

The subject property does not retain any of the original architectural features described by Hatheway in 1979, as the building is no longer extant. Figueroa Tower is a two-time recipient of the Building Owners and Managers Association Office Building of the Year award, however, it was constructed less than 50 years ago, has no known associations with important events or persons, and is not an architecture or engineering prototype. This property is not eligible for listing in the National or California registers under Criteria A/1, B/2 or C/ 3. No evidence was discovered to warrant consideration under Criterion D/4. The property is also not eligible as a contributor to a larger historic district.

HISTORIC RESOURCES INVENTORY

IDENTIFICATION

1. Common name: Home Savings 3465
2. Historic name, if known: _____
3. Street or rural address 654 S. Figueroa
- City: Los Angeles ZIP: 90017 County: Los Angeles
4. Present owner, if known: Home Savings and Loan Address: 3731 Wilshire Blvd.
- City: Los Angeles ZIP: 90010 Ownership is: Public ☐ Private ☒
5. Present Use: bank Original Use: bank
- Other past uses: _____

DESCRIPTION

6. Briefly describe the present physical appearance of the site or structure and describe any major alterations from its original condition:

This is a one story structure with a surface of travertine, tile and concrete. It is built in a nearly square plan and is designed in a utilitarian manner with applied decoration.

Architectural features include tile mosaics, central main entrance with stone surround, and a simple cornice. The parking area of this building is interesting in its combined grass and asphalt surface. The exterior of the structure appears to be unaltered.

101

7. Locational sketch map (draw and label site and surrounding streets, roads, and prominent landmarks):

8. Approximate property size:
Lot size (in feet) Frontage 119
Depth 155
or approx. acreage .426
9. Condition: (check one)
- a. Excellent ☒ b. Good ☐ c. Fair ☐
d. Deteriorated ☐ e. No longer in existence ☐
10. Is the feature a. Altered? ☐ b. Unaltered? ☒
11. Surroundings: (Check more than one if necessary)
- a. Open land ☐ b. Scattered buildings ☐
c. Densely built-up ☐ d. Residential ☐
e. Commercial ☒ f. Industrial ☐
g. Other ☐
12. Threats to site:
- a. None known ☒ b. Private development ☐
c. Zoning ☐ d. Public Works project ☐
e. Vandalism ☐ f. Other ☒ see tech report

NOTE: The following (Items 14-19) are for structures only.

14. Primary exterior building material: a. Stone ☒ b. Brick ☐ c. Stucco ☐ d. Adobe ☐ e. Wood ☐
 f. Other ☒ travertine, tile, concrete
15. Is the structure: a. On its original site? ☒ b. Moved? ☐ c. Unknown? ☐
16. Year of initial construction 1974 This date is: a. Factual ☐ b. Estimated ☒
17. Architect (if known): _____
18. Builder (if known): _____
19. Related features: a. Barn ☐ b. Carriage house ☐ c. Outhouse ☐ d. Shed(s) ☐ e. Formal garden(s) ☐
 f. Windmill ☐ g. Watertower/tankhouse ☐ h. Other ☒ grass and surface parking lot i. None ☐

SIGNIFICANCE

20. Briefly state historical and/or architectural importance (include dates, events, and persons associated with the site when known):

Home Savings and Loan has built a considerable number of visually interesting buildings in Southern California. This particular example is not the most prominent of these, but it does incorporate the familiar use of tile mosaics and decorative stonework.

102

21. Main theme of the historic resource: (Check only one): a. Architecture ☐ b. Arts & Leisure ☐
 c. Economic/Industrial ☒ d. Exploration/Settlement ☐ e. Government ☐ f. Military ☐
 g. Religion ☐ h. Social/Education ☐

***a. County:** Los Angeles

and (P2b and P2c or P2d. Attach a Location Map as necessary.)

***b. USGS 7.5' Quad:** Hollywood, CA **Date:** 1966 (Photorevised 1981) **T 1S R 13W Sec.** Unsectioned **B.M.** San Bernardino

c. Address: 801 West 7th Street, 655-661 South Flower Street City: Los Angeles Zip: 90012

d. UTM: Zone: ; mE/ mN (G.P.S.)

e. Other Locational Data: (e.g., parcel #, directions to resource, elevation, etc., as appropriate) Elevation:

APN: 5144-008-009

***P3a. Description:** (Describe resource and its major elements. Include design, materials, condition, alterations, size, setting, and boundaries)

The subject property is a single-story, lowrise bank building. It was recently remodeled (Building Permit # 98016-10000-05031, 1999) using Classical Revival details, is one bay wide and likely has a flat roof with a continuous parapet. The building is configured in a rectangle in plan and is configured as an enframed window wall. The scored concrete exterior walls were embellished with decorative window headers and an ornate cornice during the recent remodel. An exaggerated water table stringcourse was added as well. The main elevation has a large, opening, infilled with contemporary storefront. Above the opening, an over-scaled sign band contains the tenant's name and their logo is in the wall above. Along the Flower street side, new openings contain doors and storefront, decorative pediments and numerous signs. The building is located at the northwest corner of 7th and Flower streets, and occupies the entire parcel. It is located in the densely built-up Central Business District, and is surrounded by other mid- and highrise commercial buildings and various vacant lots.

The subject property building was completed in 1950 and was likely used as a bank. Review of Sanborn Fire Insurance Co. maps of Los Angeles between 1906 and 1951 depict the subject property as reinforced concrete with steel truss on pilasters. The "fireproof" building was notably air-conditioned. Recent alterations have included addition of the Classical Revival details described above (dates unknown). Because of described modifications, the building is not recognizable to its original appearance. The subject property is an ordinary example of a very common type, the remodeled commercial building. The building is not eligible for listing in the National or California registers under Criterion C or 3 for its architecture and does not warrant further evaluation under Criteria A/1 or B/2 because of its lack of integrity. No evidence was discovered to warrant consideration under Criterion D/4. The property is also not eligible as a contributor to a larger historic district.

e. Other Locational Data: (e.g., parcel #, directions to resource, elevation, etc., as appropriate) Elevation:

APN: 5144-008-011

***P3a. Description:** (Describe resource and its major elements. Include design, materials, condition, alterations, size, setting, and boundaries)

The subject property is a 7-story, midrise office building. Although the building was completed in 1948, alterations made in the past 20 years include: replacement of all windows and ground level improvements with stepped-out, mirror-tinted storefront, and new smooth stucco wall finish applied with distinct screed grid (dates unknown). The resulting building is not recognizable as a building designed in 1948. It is located near southeast corner of Wilshire Boulevard and Figueroa Street, mid-block, and occupies the entire parcel. It is located in the densely built-up Central Business District, and is surrounded by other low, mid- and highrise commercial buildings.
