Appendix O Supplemental Graphics of Proposed Alignment Plan and Profile

1.0 INTRODUCTION

The purpose of this Appendix O is to provide supplemental graphics as to the proposed Project alignment plan and profile, in response to comments on Appendix Q, Proposed Alignment Plan and Profile, of the Draft EIR. Some commenters stated that the graphics included in Appendix Q are difficult to read, due to the scale of the graphics. All graphics from Appendix Q of the Draft EIR have been included in this Appendix O, in addition to the supplemental graphics described below provided for informational purposes.

These supplemental graphics are larger-scale insets of the graphics originally provided in Appendix Q of the Draft EIR. No changes to the graphics from Appendix Q were made.

Supplemental Graphics of Proposed Project Alignment Maps

This Appendix O provides supplemental graphics of the Draft EIR Appendix Q proposed Project alignment maps, listed below, with larger scale insets A through D for each map, provided for informational purposes:

- Map 1: ANSI Requirements and Additional Separation Buffer Along Proposed Project Alignment
 Depicting ANSI Requirements and Additional Separation Buffer;
- Map 2: ANSI Requirements and Additional Separation Buffer Along Proposed Project Alignment Depicting Public ROW | Publicly-Owned Property and Private Property;
- Map 3: ANSI Requirements and Additional Separation Buffer Along Proposed Project Alignment
 Depicting Public ROW | Publicly-Owned Property and Private Property for which Project Sponsor
 has an Arrangement for Aerial Rights, and Private Property for which Project Sponsor Does Not
 have an Arrangement for Aerial Rights; and
- Map 4: ANSI Requirements and Additional Separation Buffer Along Proposed Project Alignment Depicting Respective Ownership of Public Property and Private Property; and the Profile.

Supplemental Graphics of Proposed Project Alignment Profile

This Appendix O also provides supplemental graphics of the Draft EIR Appendix Q proposed Project alignment profile graphic, with larger-scale insets A through D, provided for informational purposes.

Table O-1: Map Key

Map 1:

ANSI* Requirements and Additional Separation Buffer Along Proposed Project Alignment Depicting ANSI* Requirements and Additional Separation Buffer

Map 2:

ANSI* Requirements and Additional Separation Buffer Along Proposed Project Alignment Depicting Public ROW | Publicly-Owned Property and Private Property

Additional Separation Buffer

Map 3:

ANSI* Requirements and Additional Separation Buffer Along Proposed Project Alignment Depicting Public ROW | Publicly-Owned Property, Private Property for Which Project Sponsor Has an Arrangement For Aerial Rights, and Private Property for Which Project Sponsor Does Not Have an Arrangement for Aerial Rights

Map 4:

ANSI* Requirements and Additional Separation Buffer Along Proposed Project Alignment Depicting Respective Ownership of Public Property and Private Property

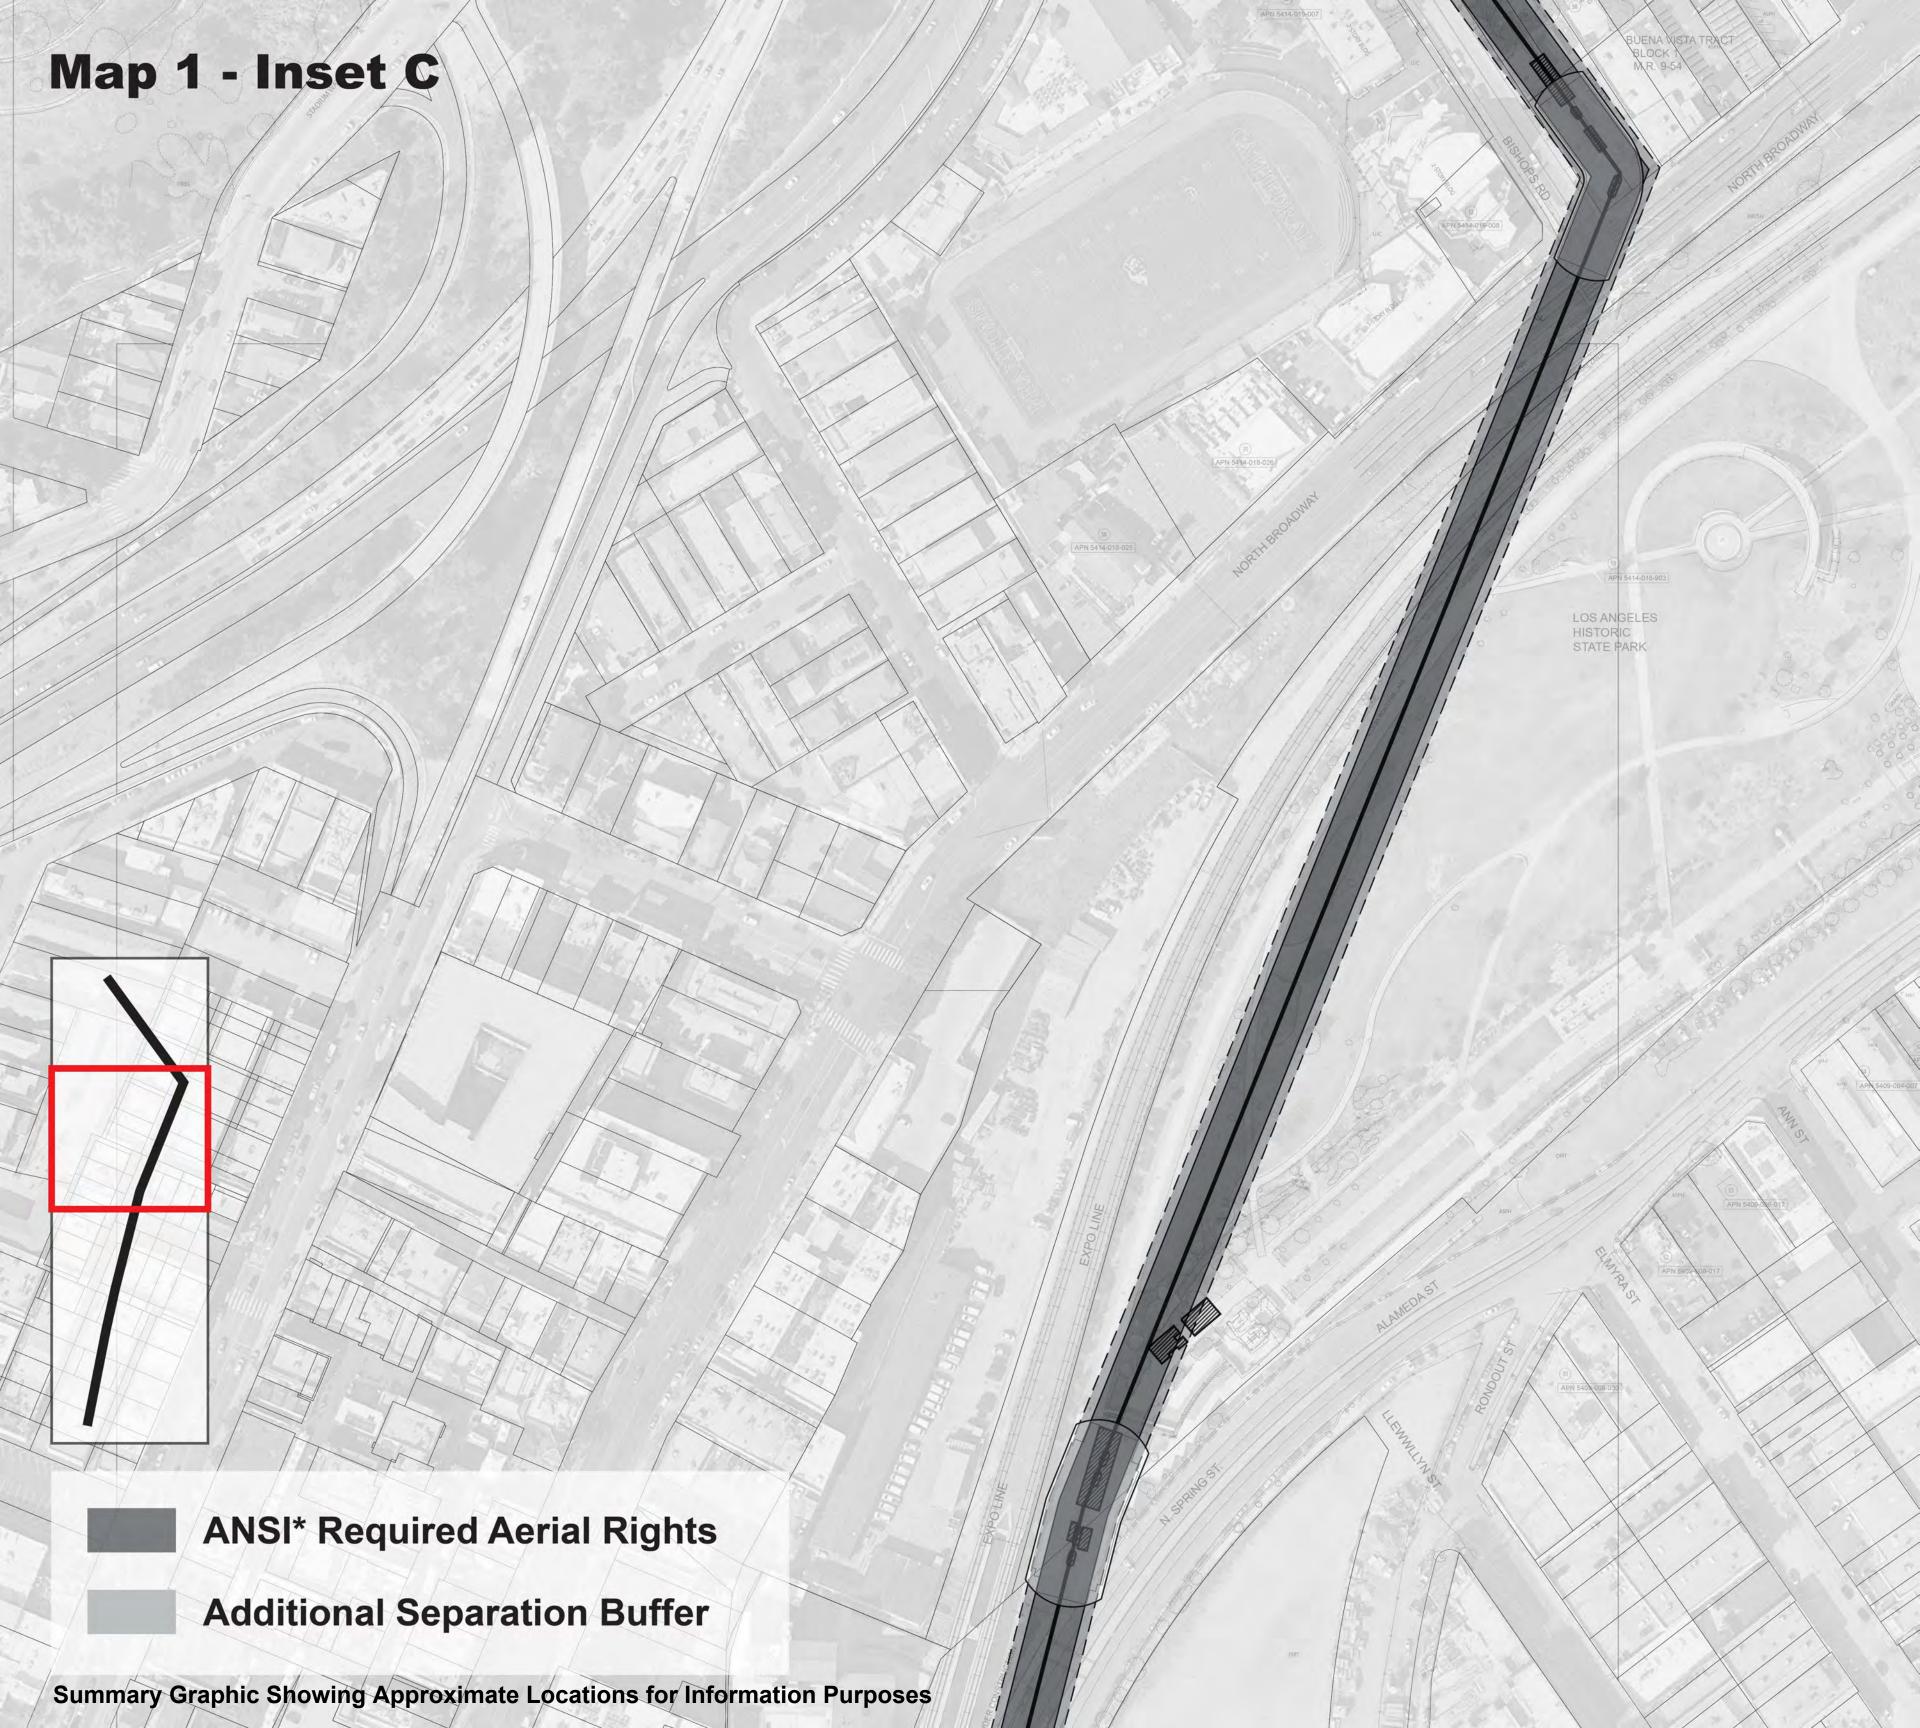

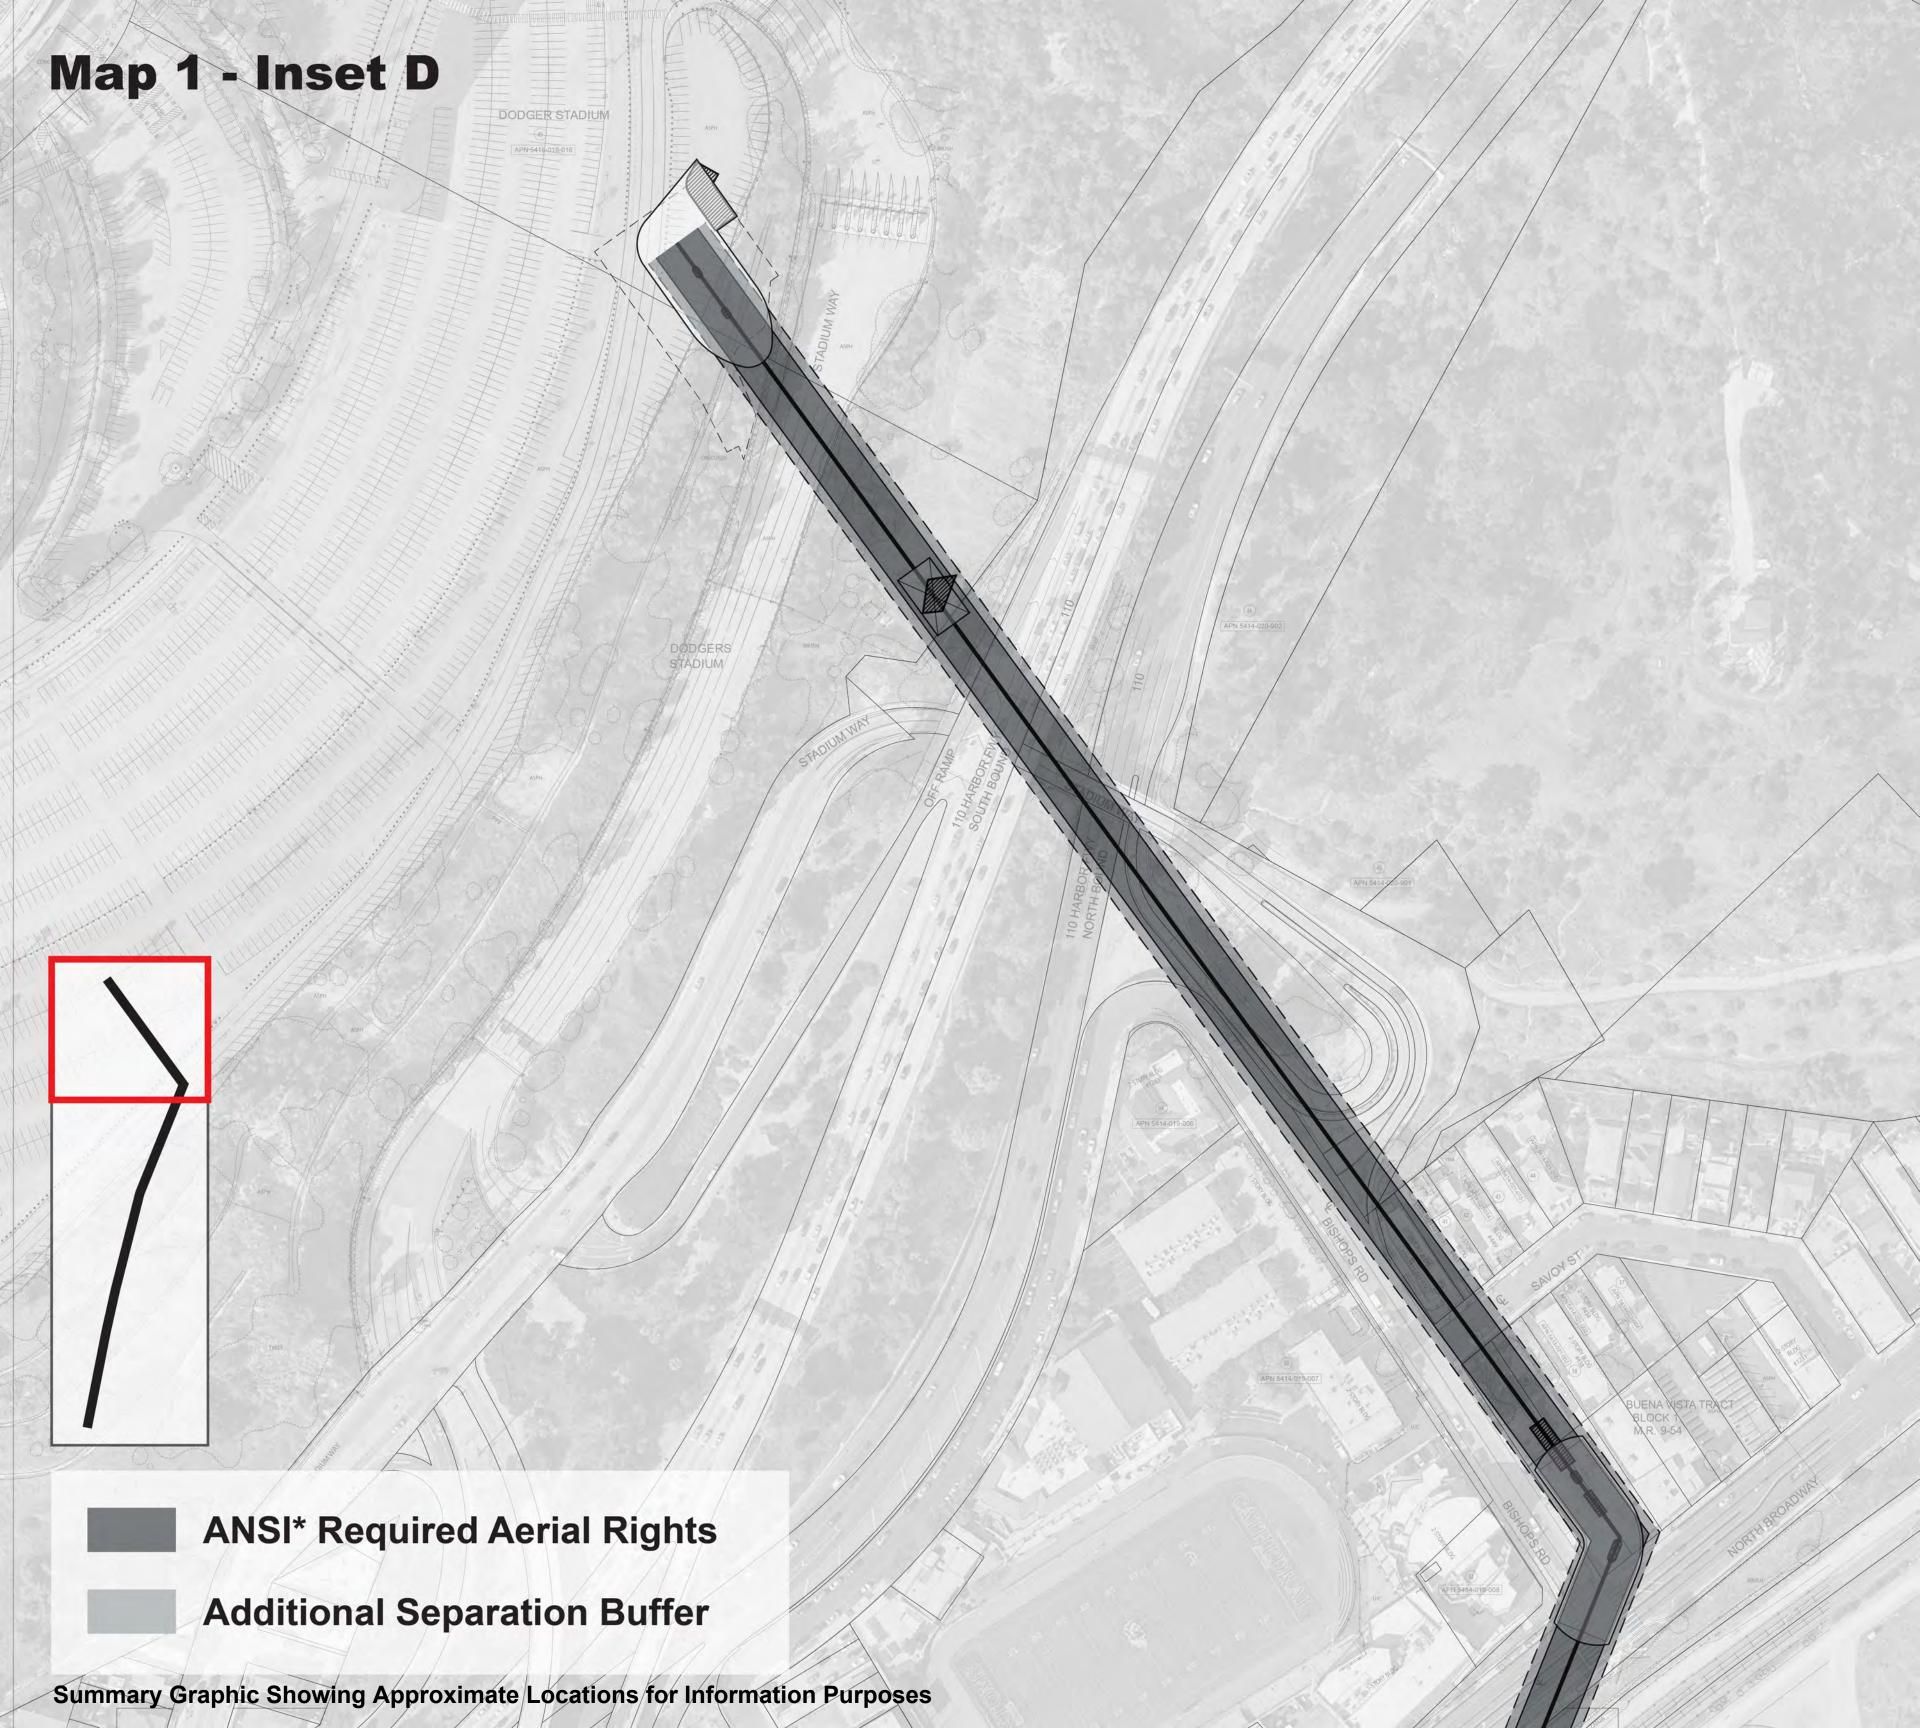

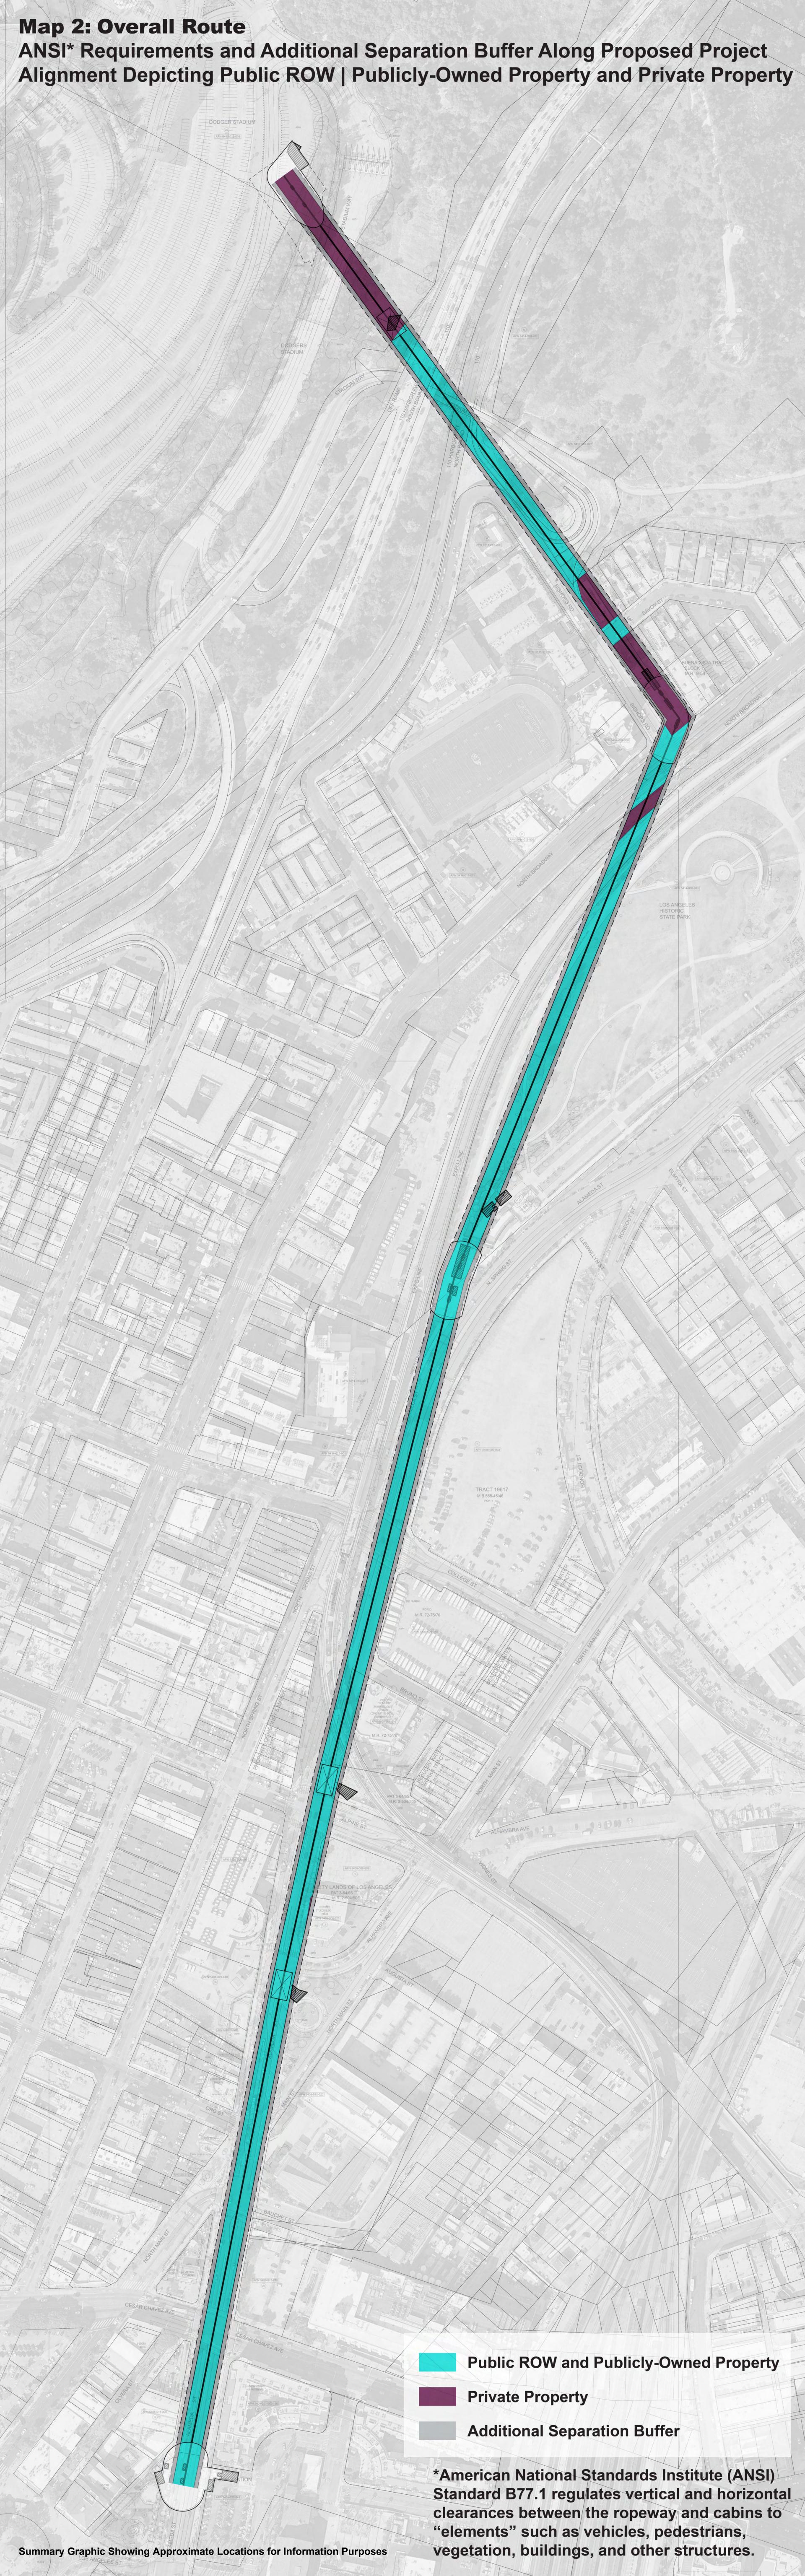

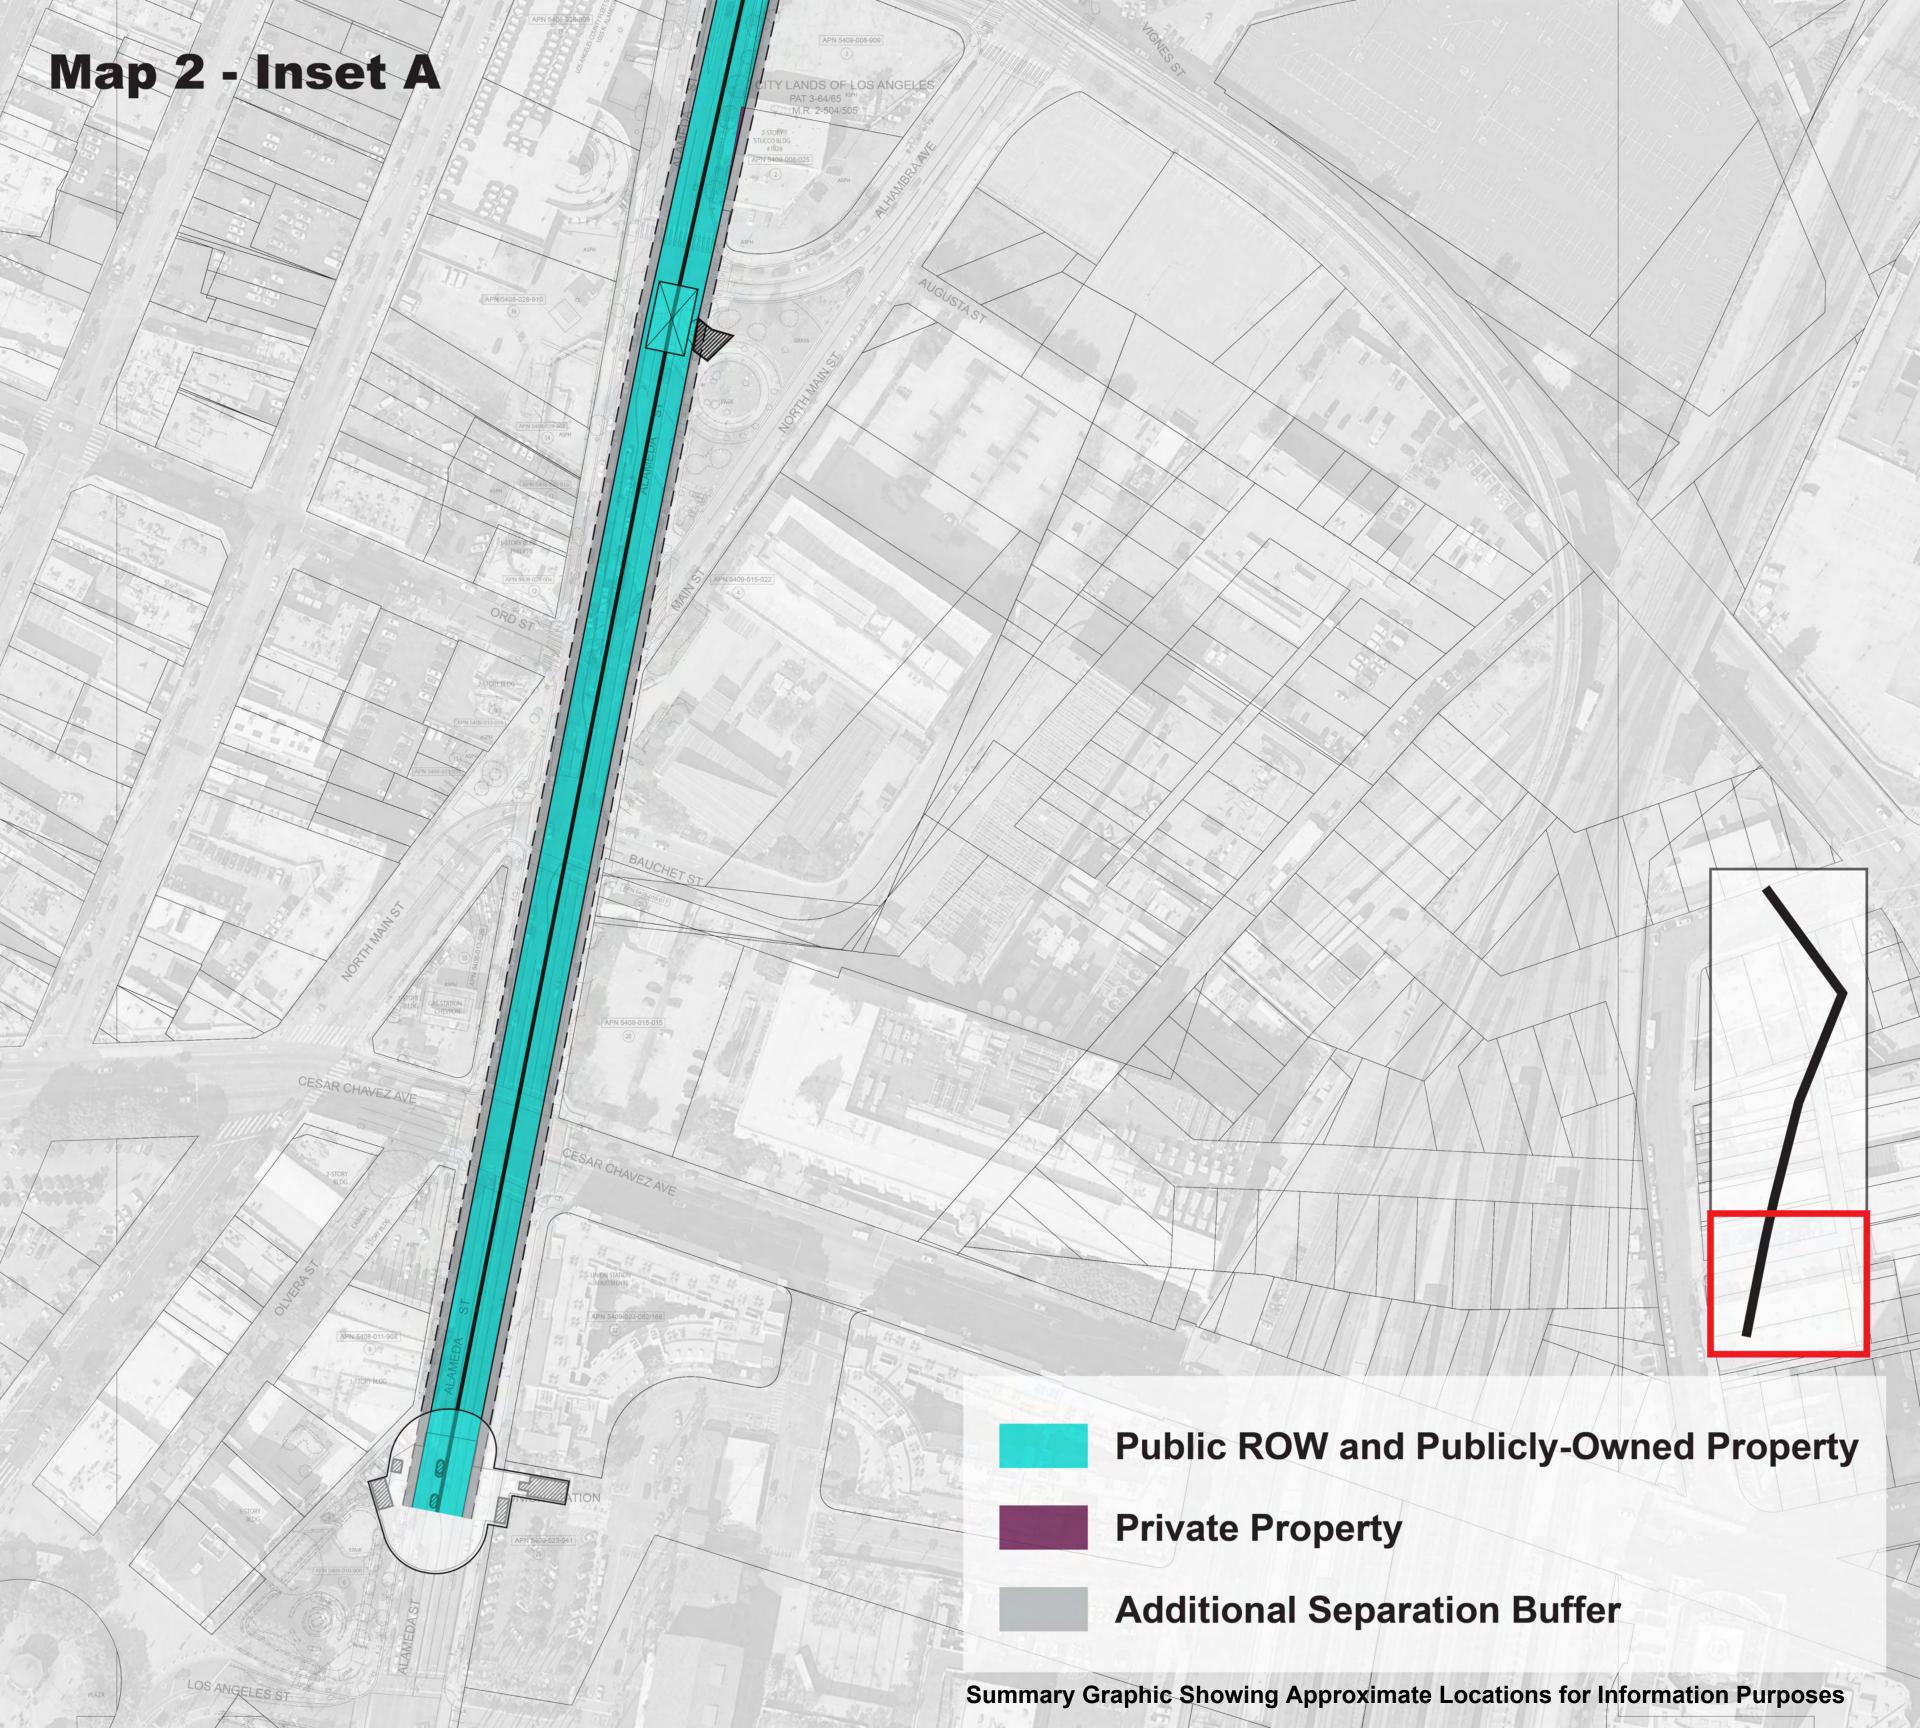

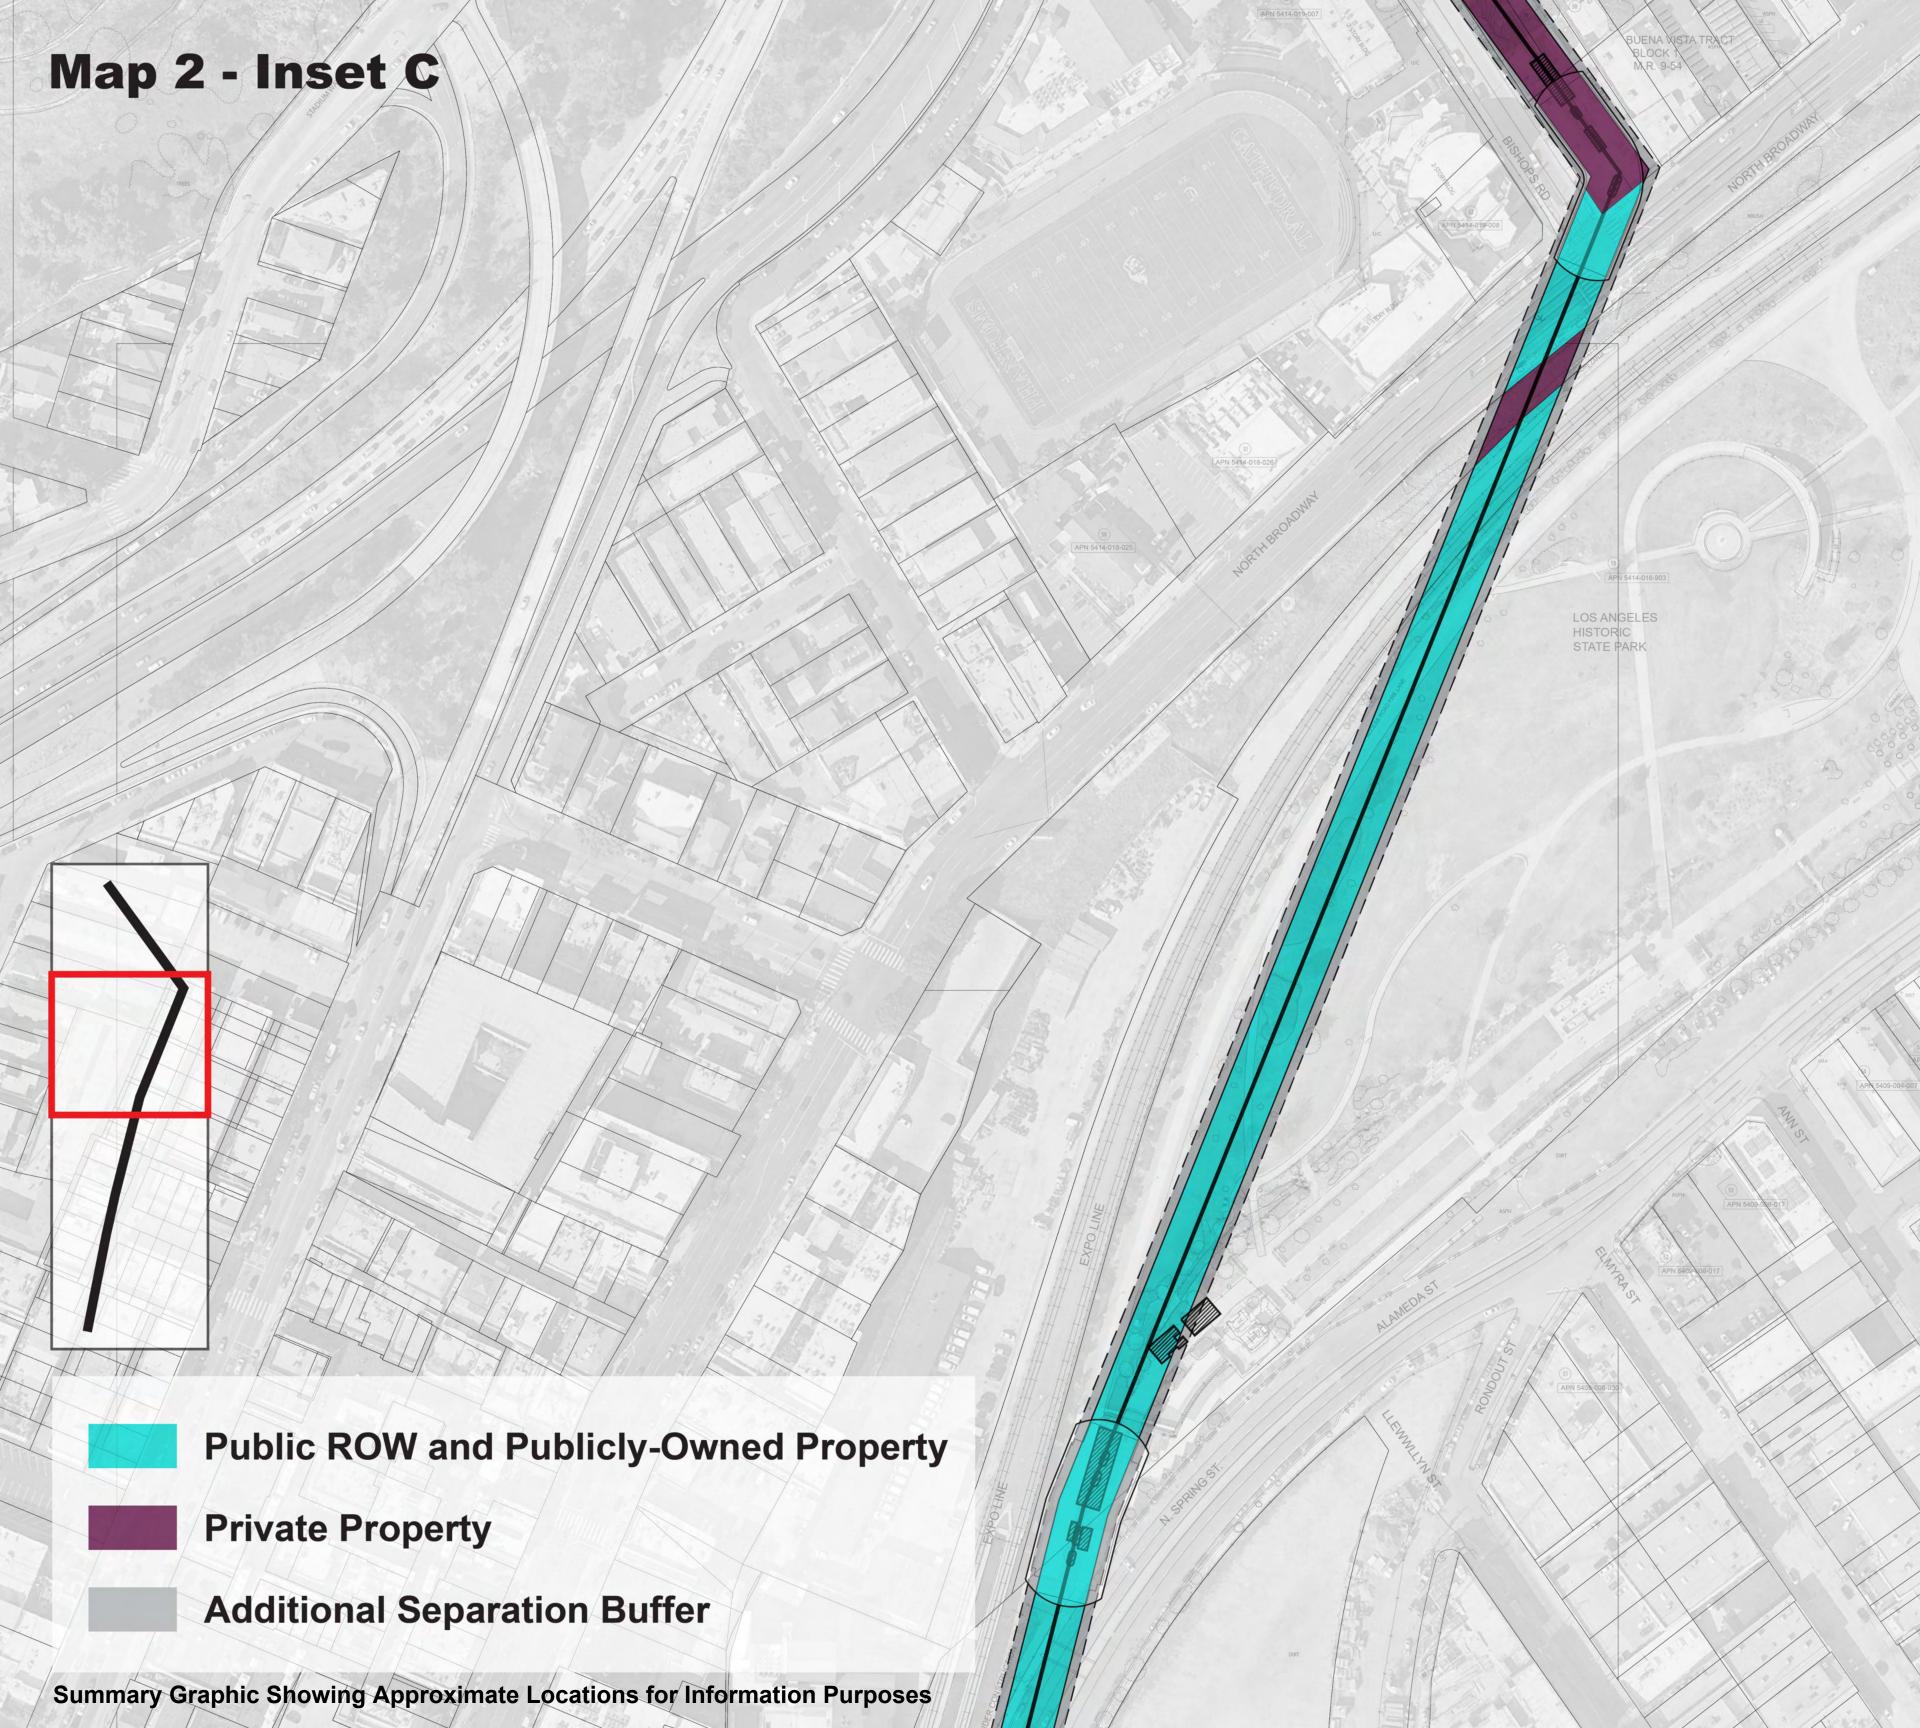

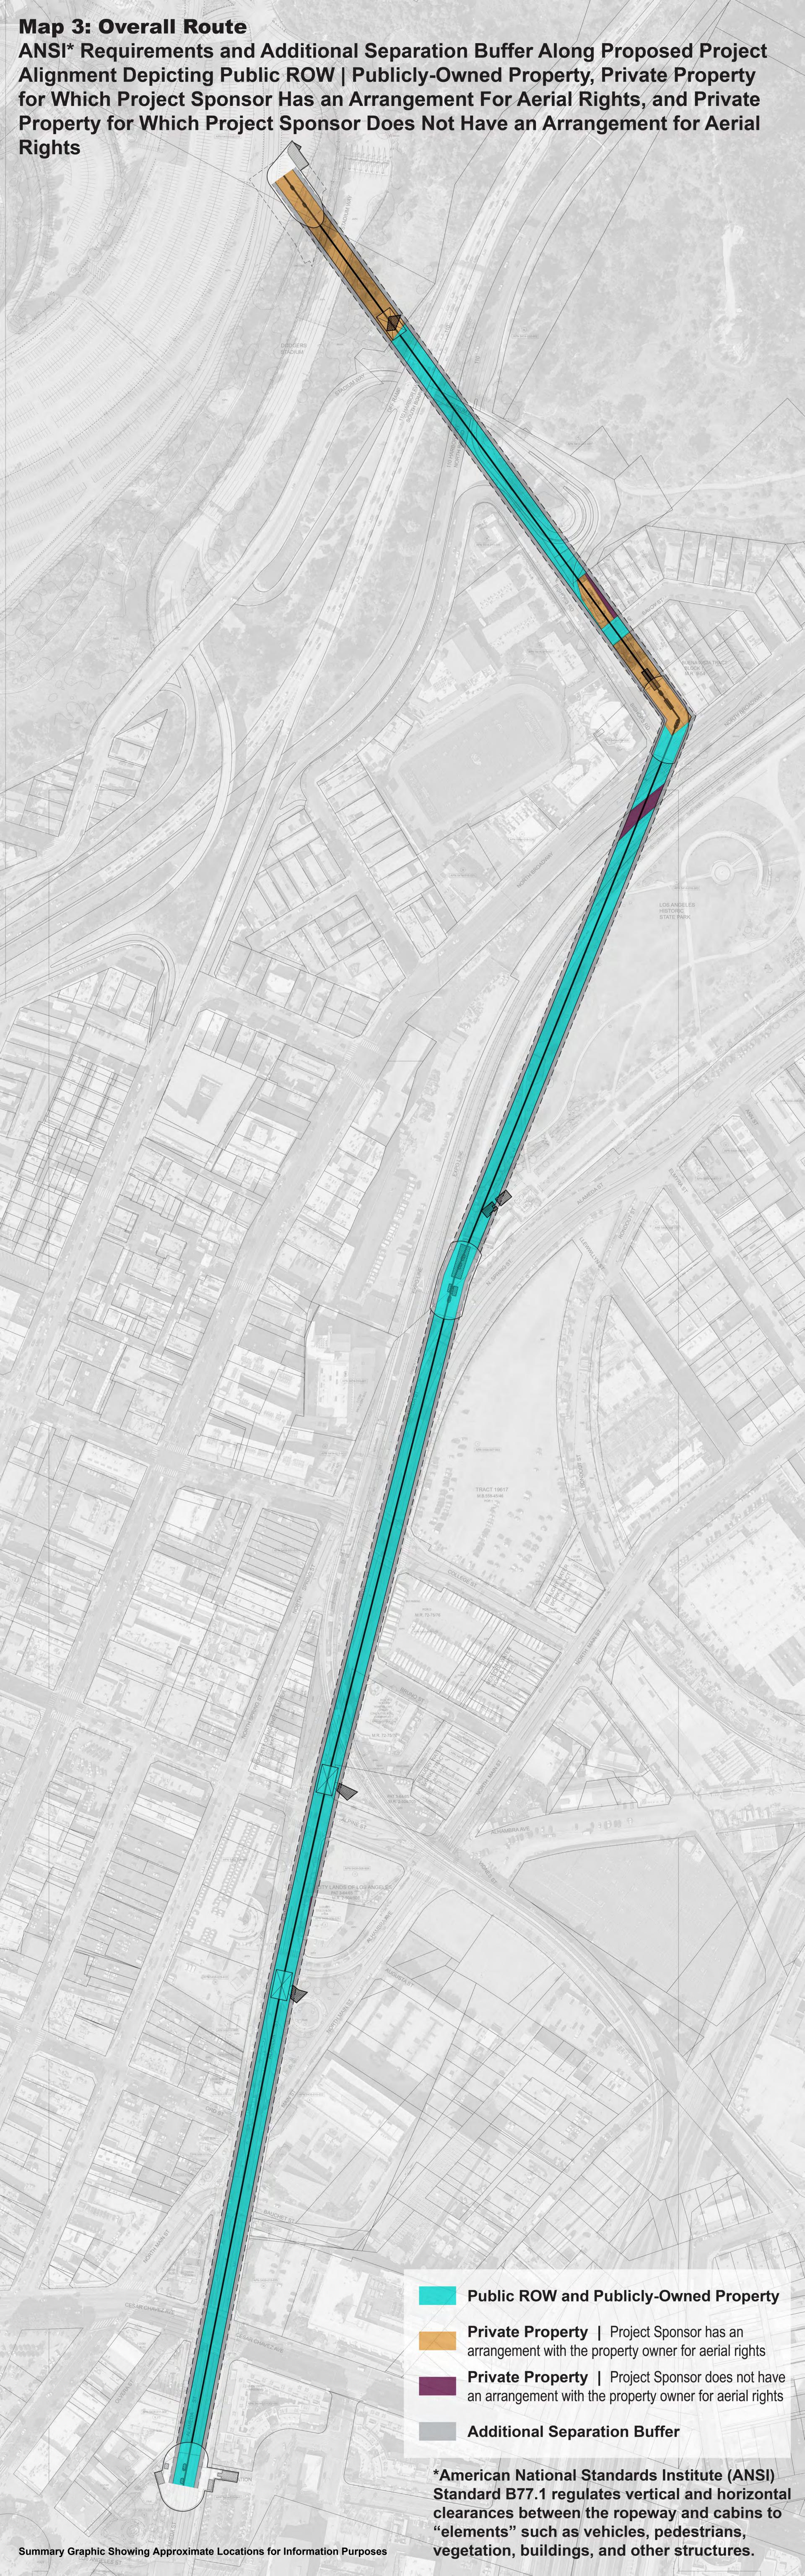

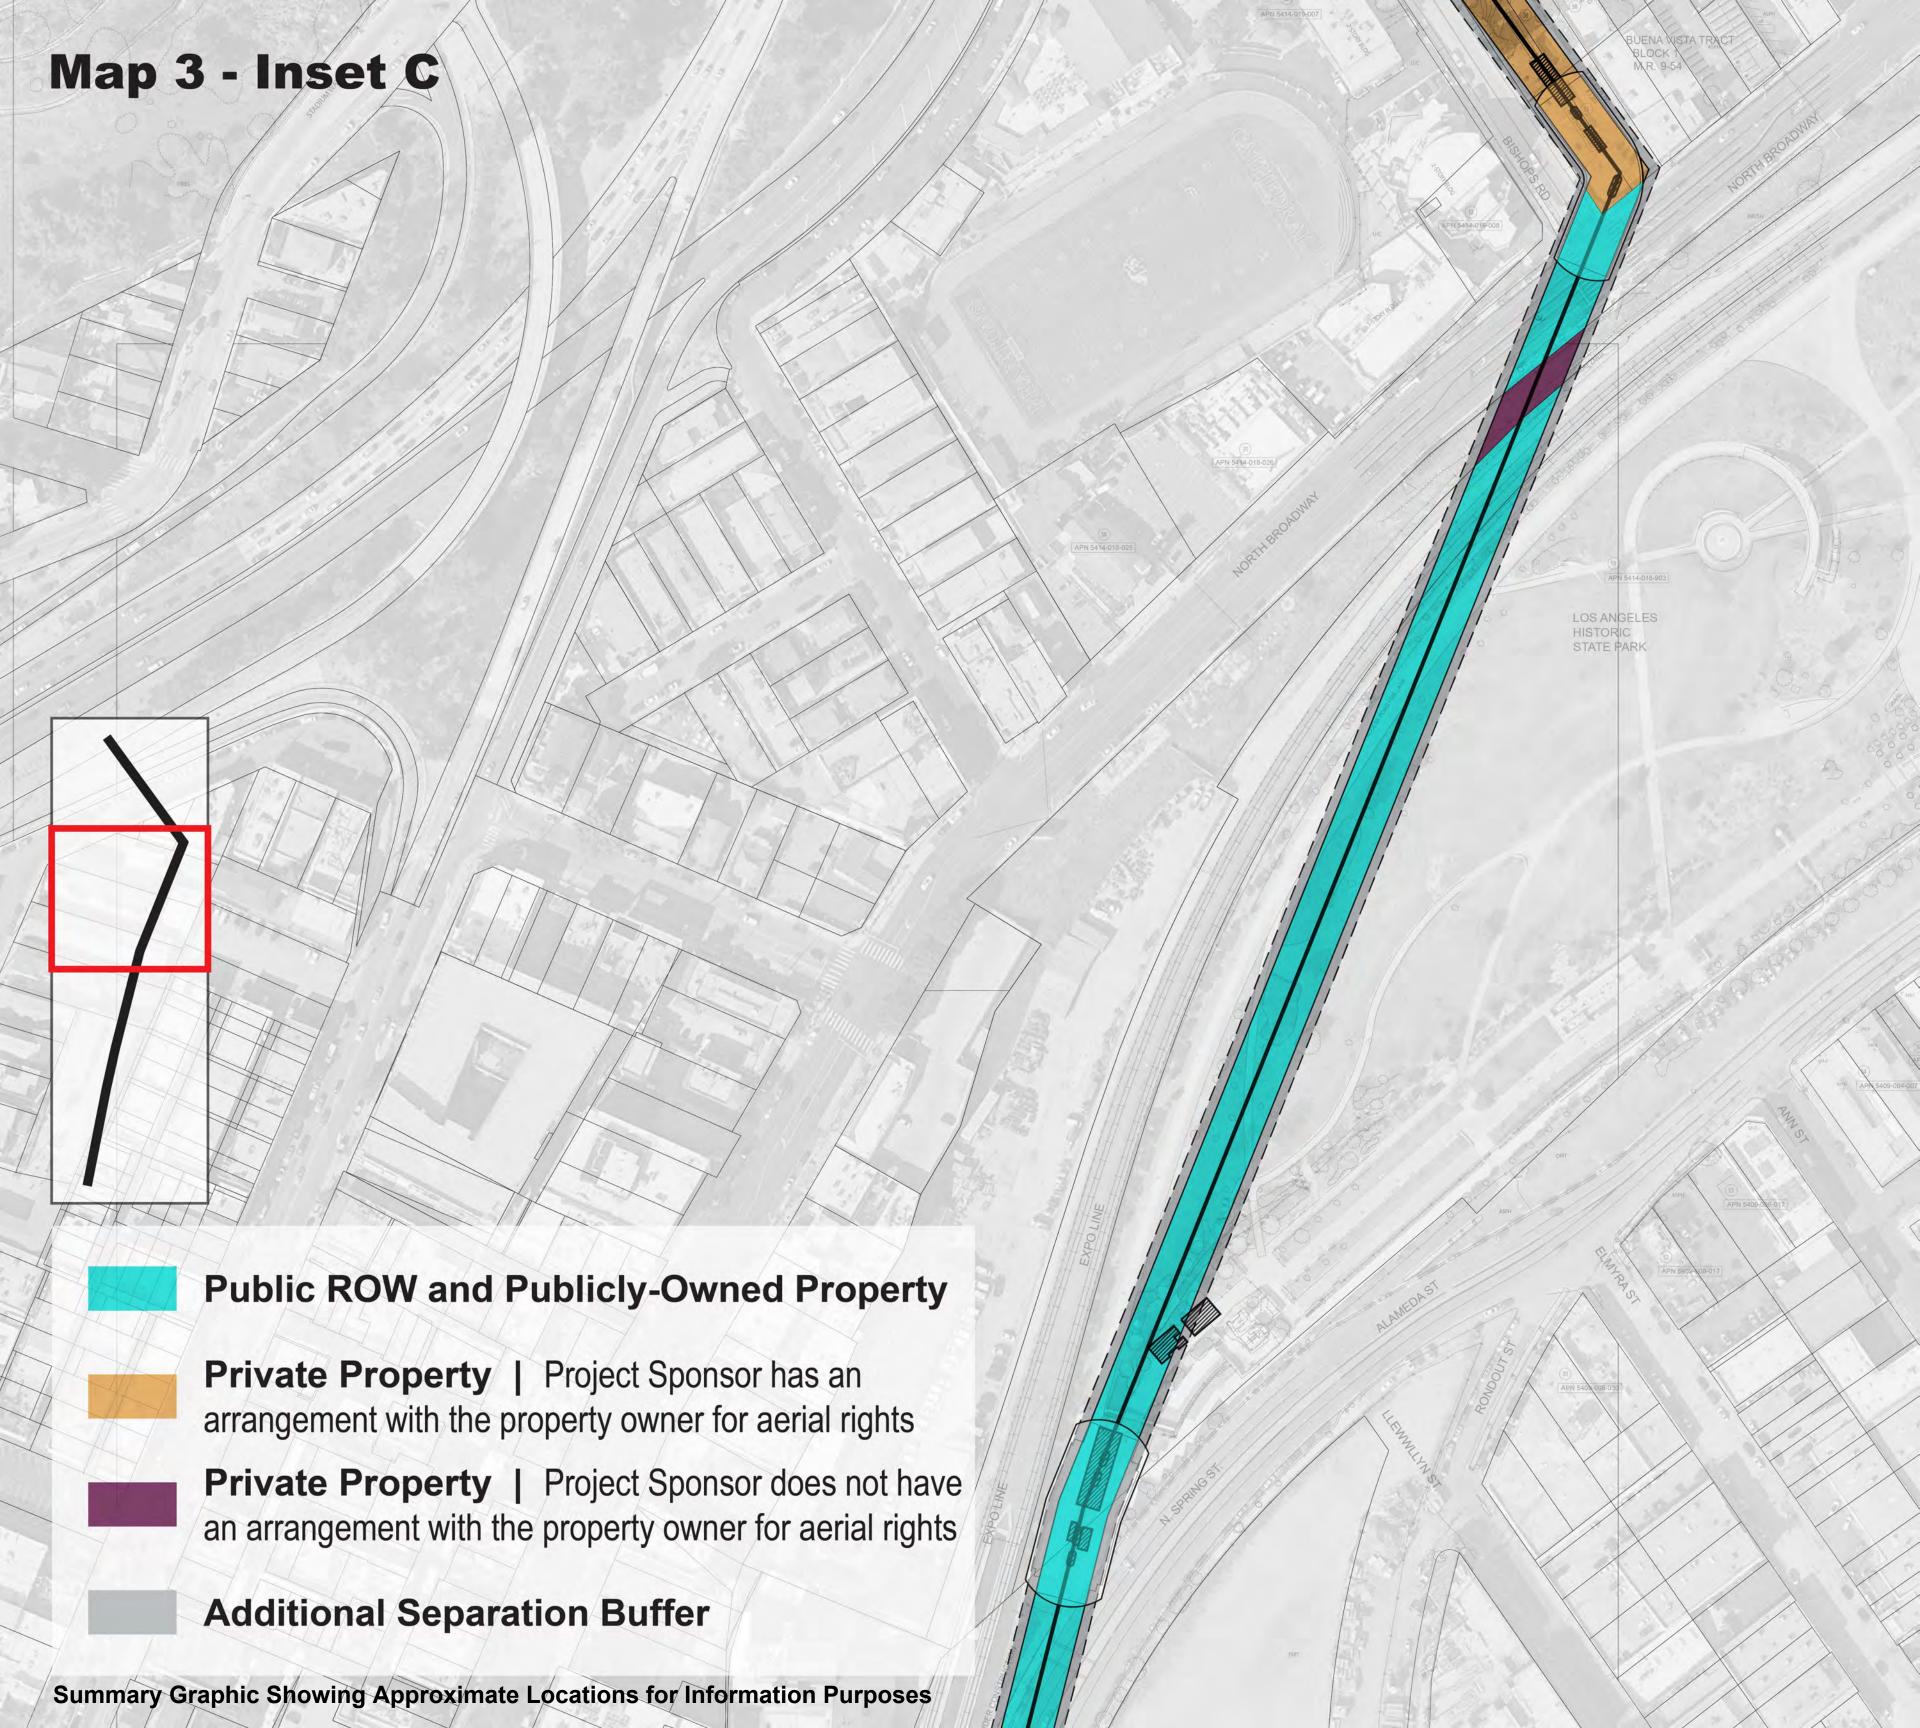

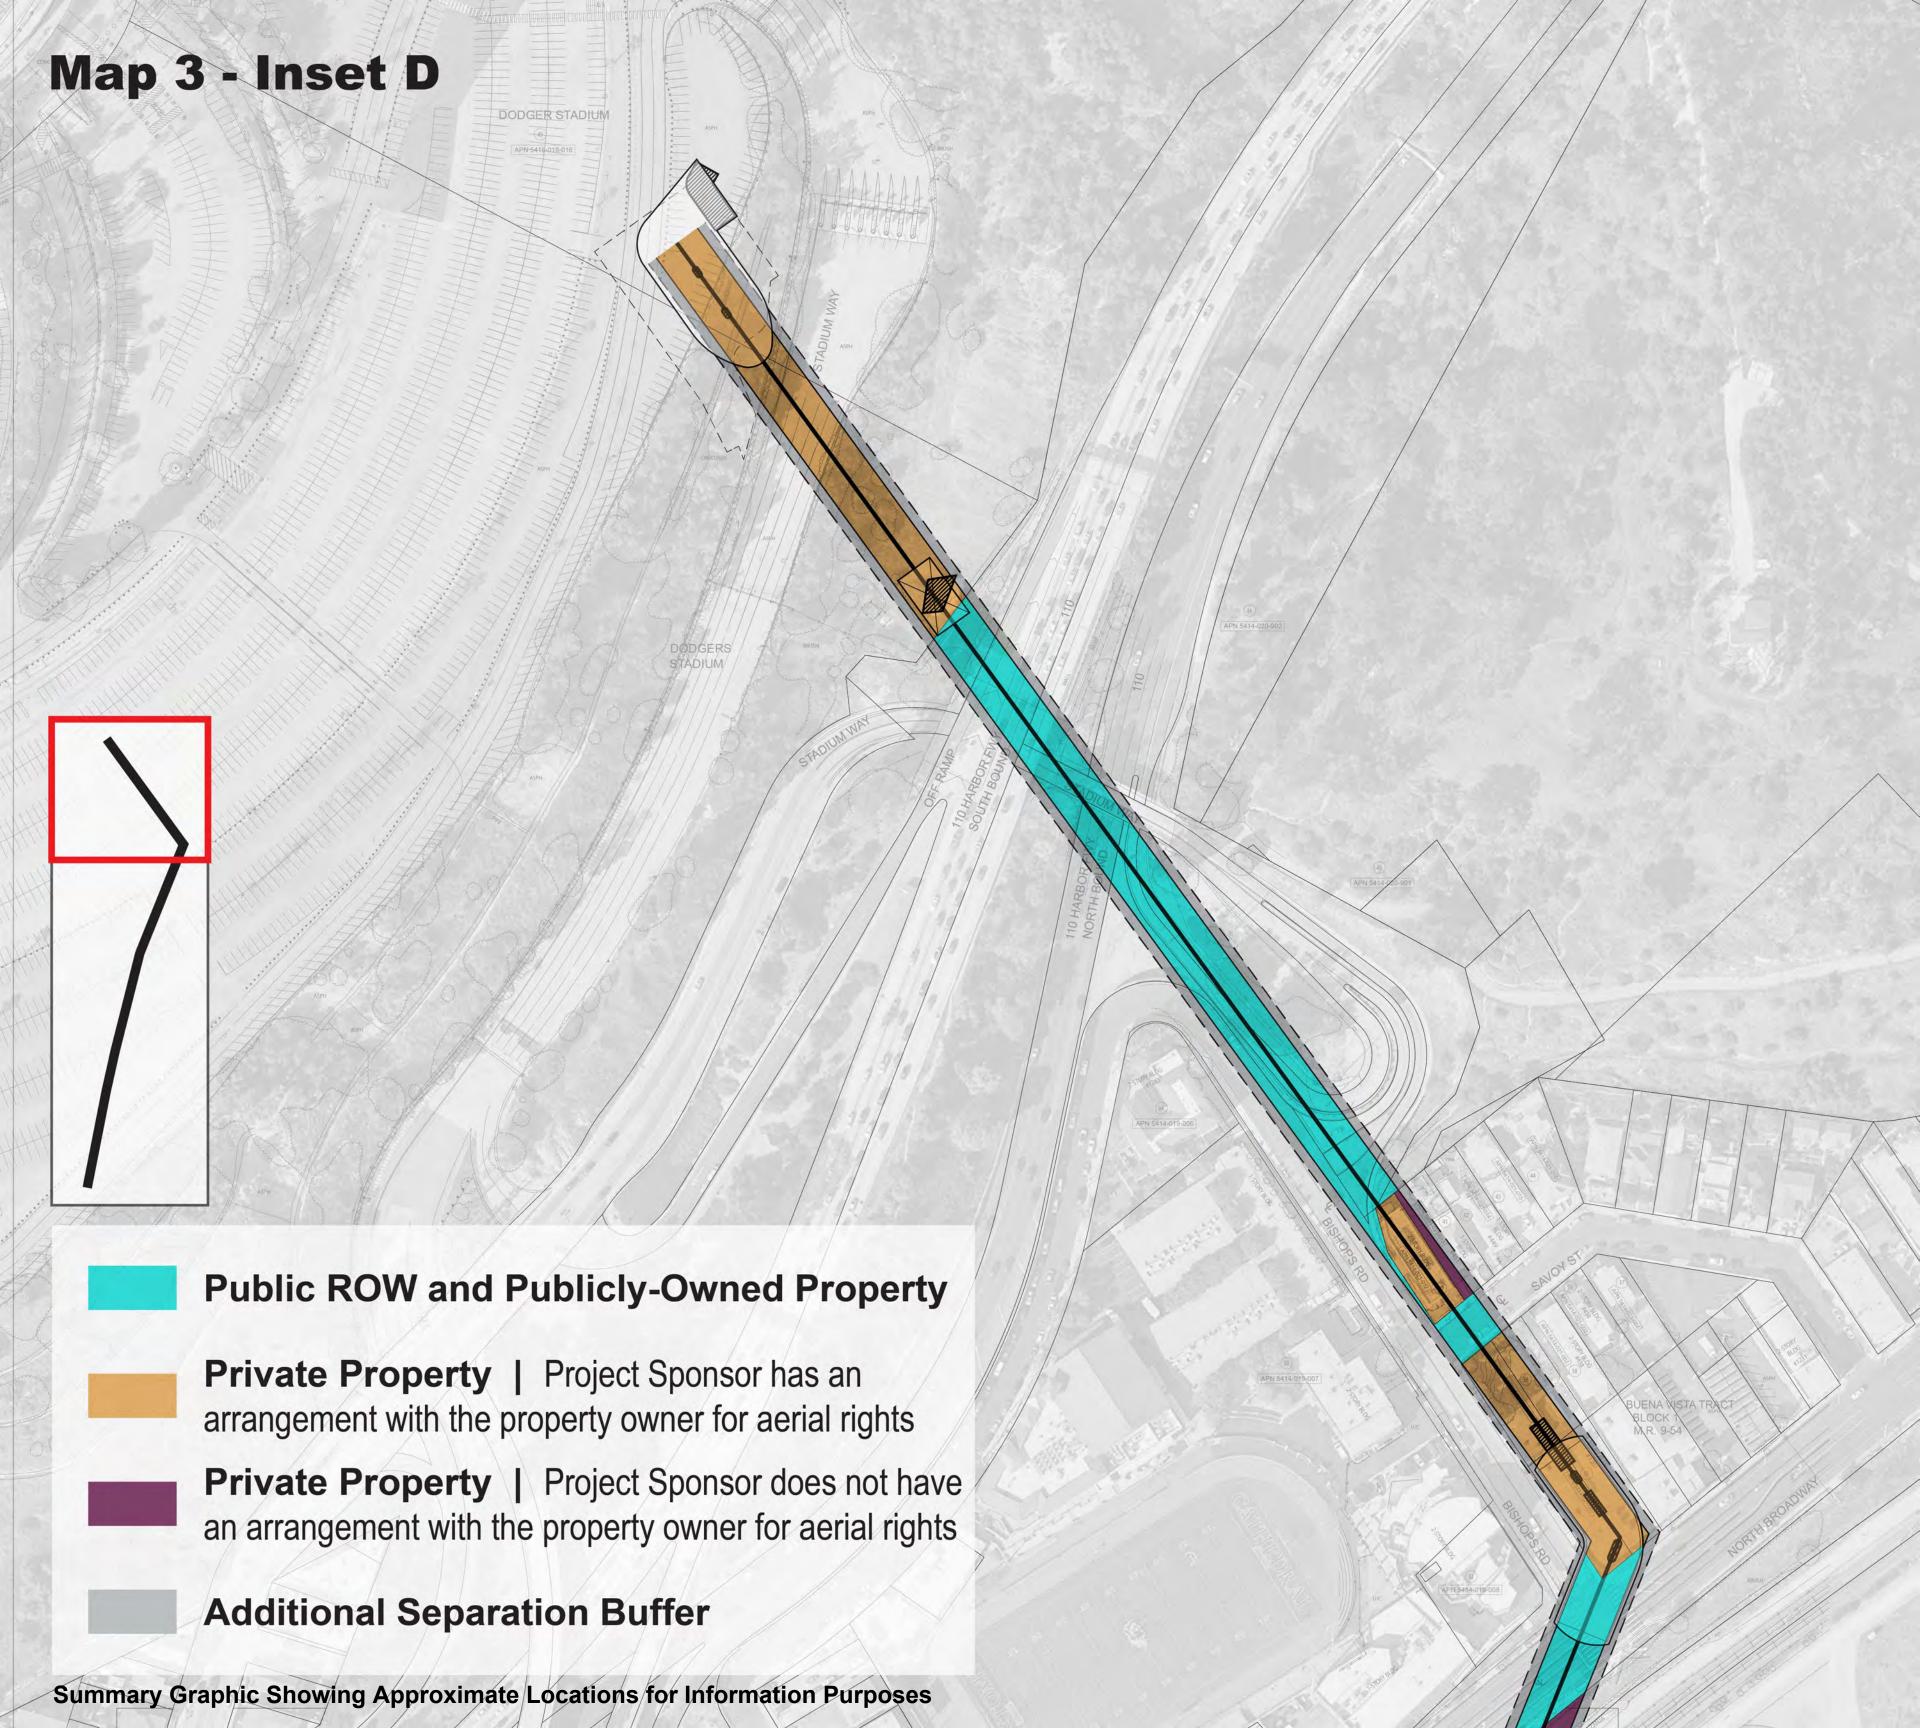

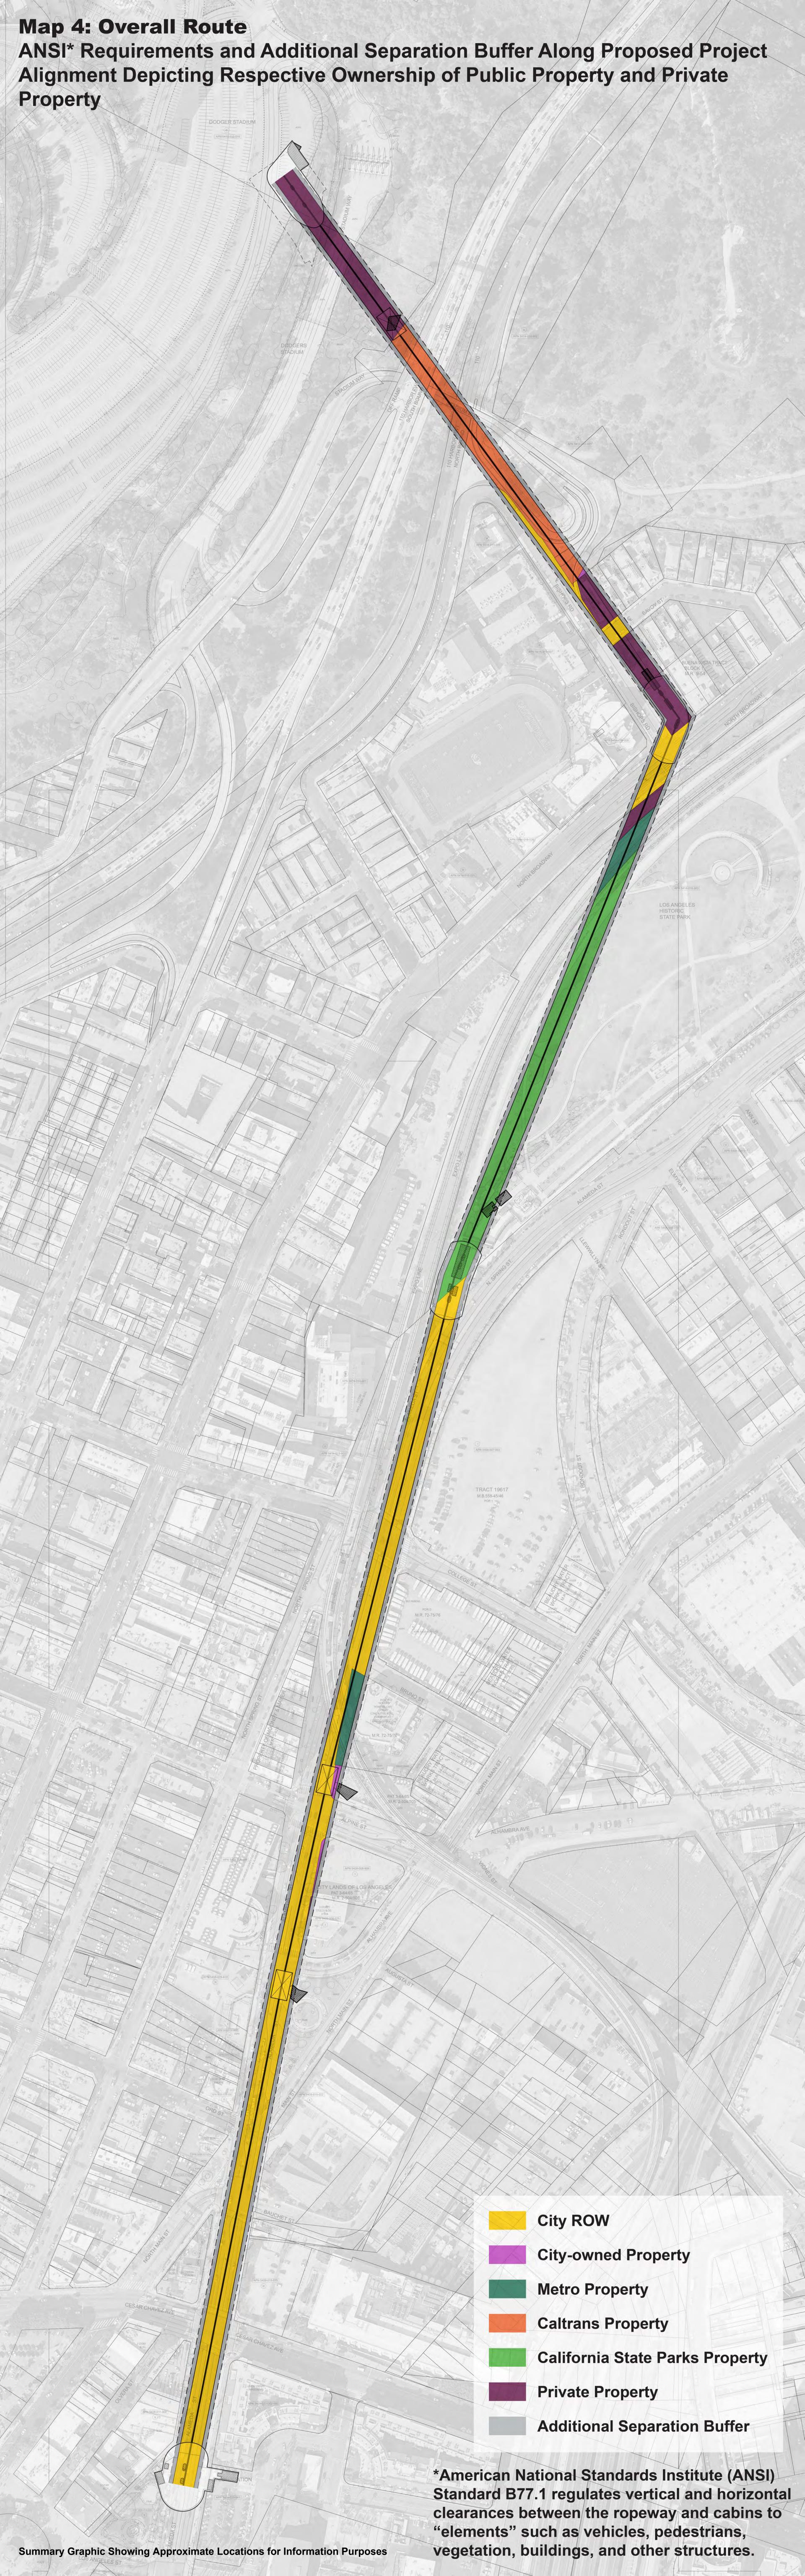

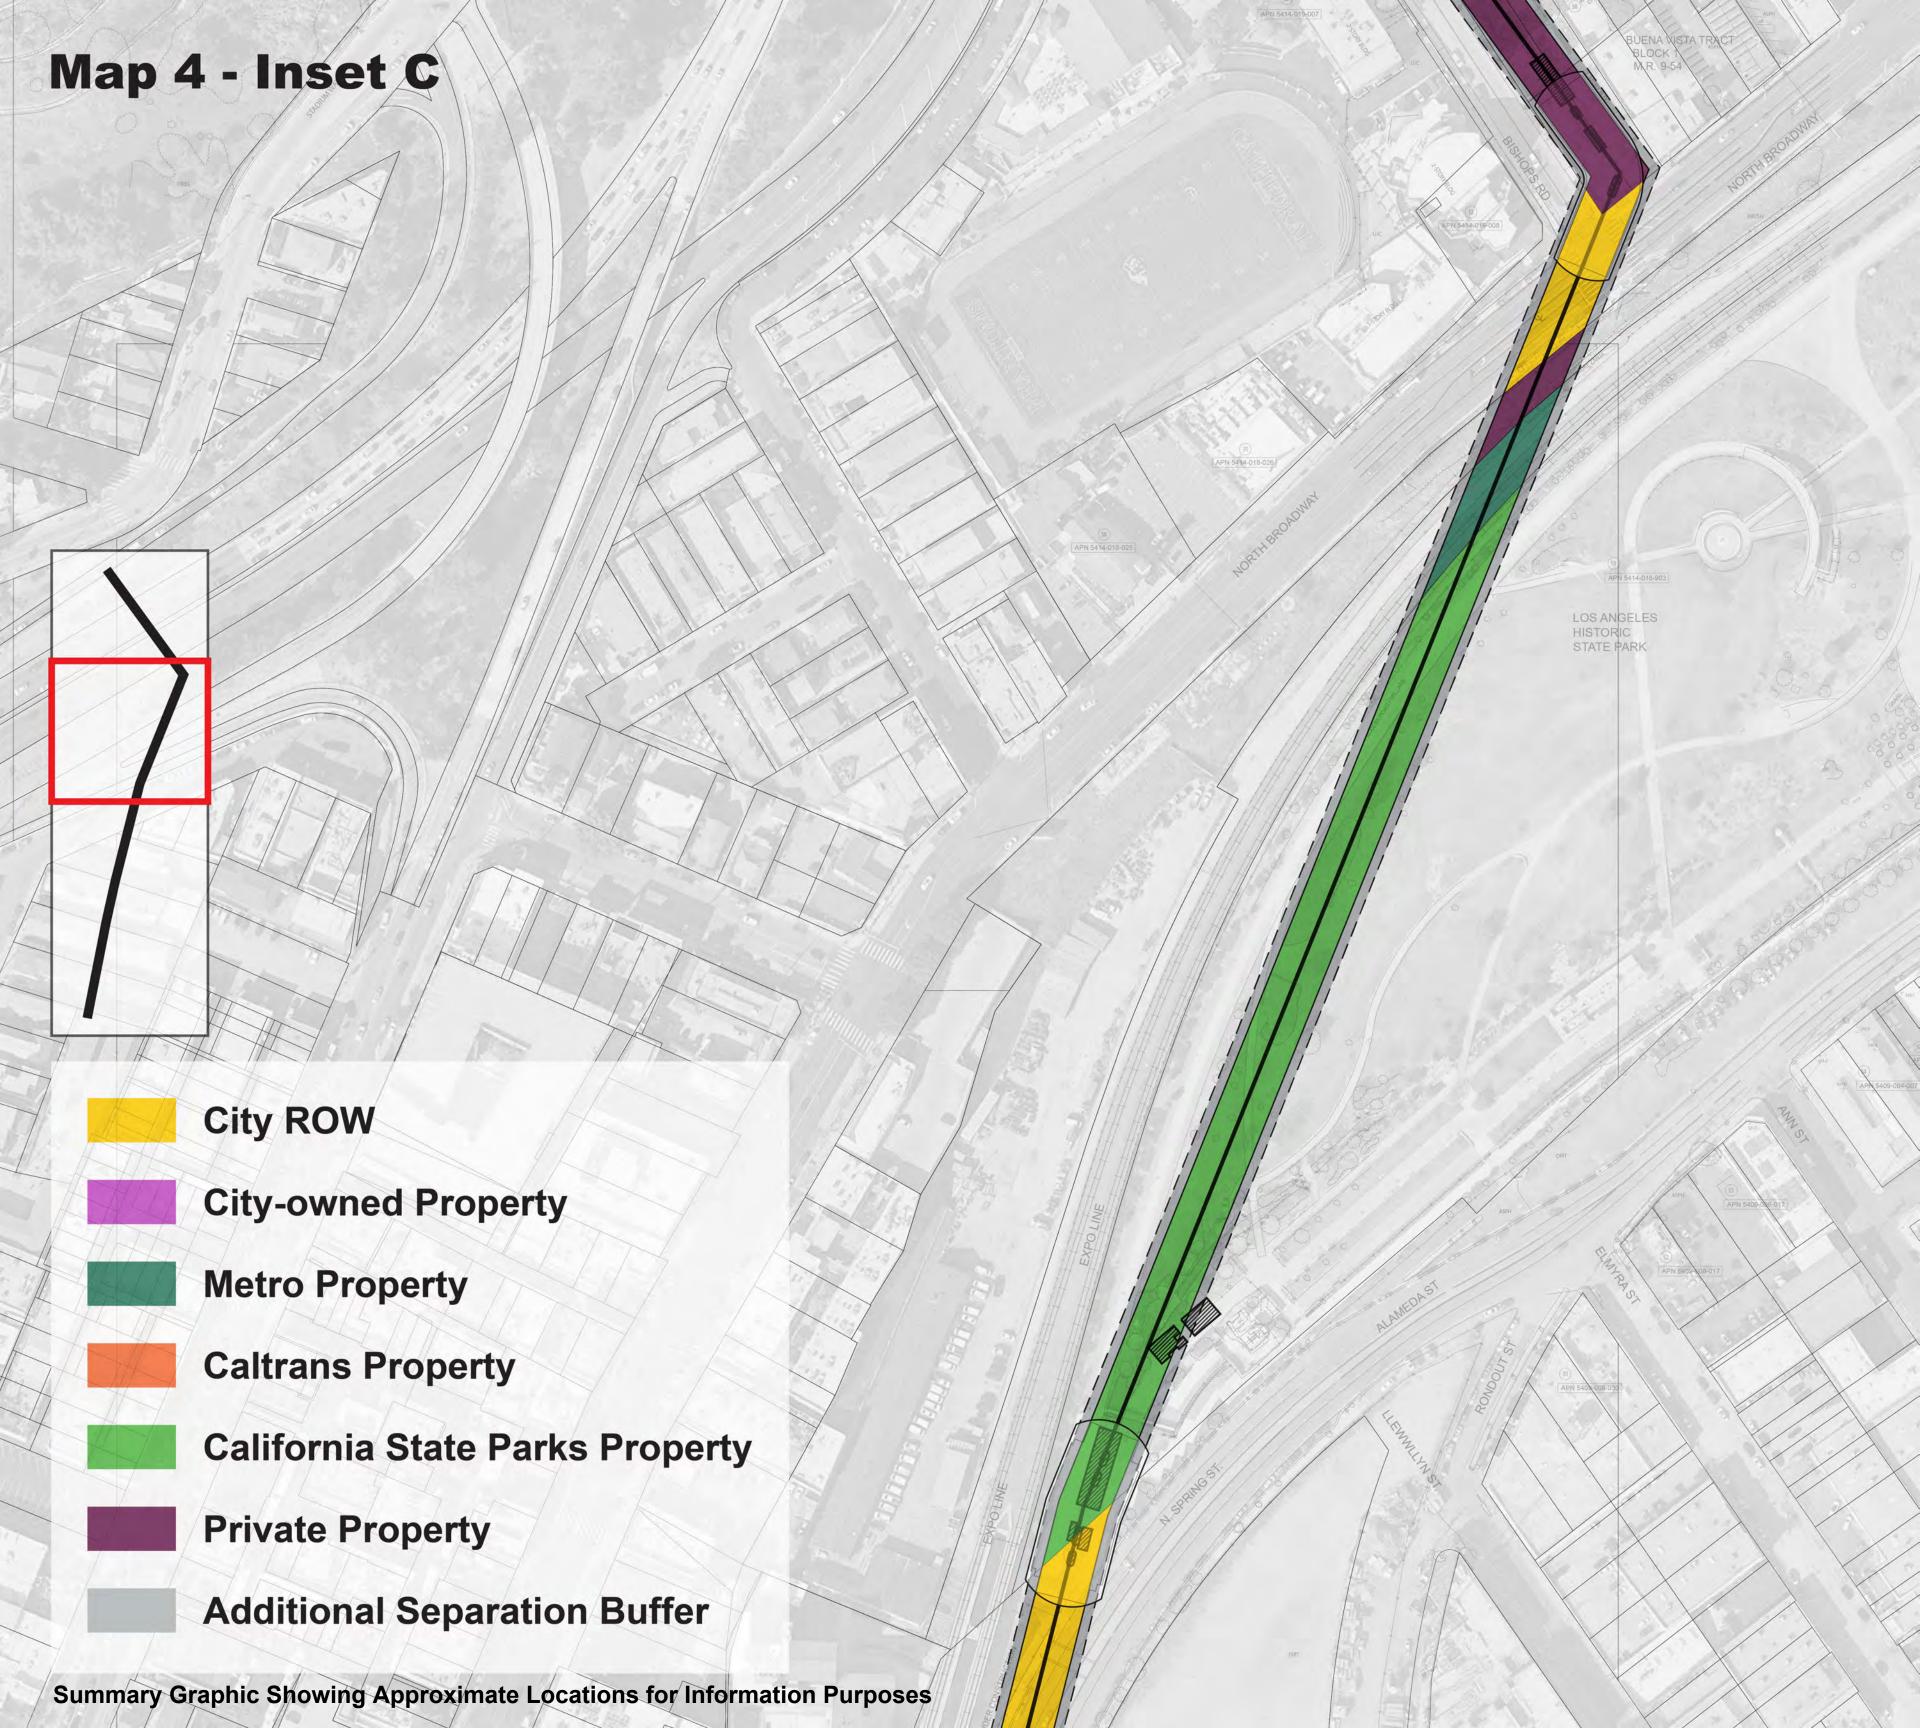

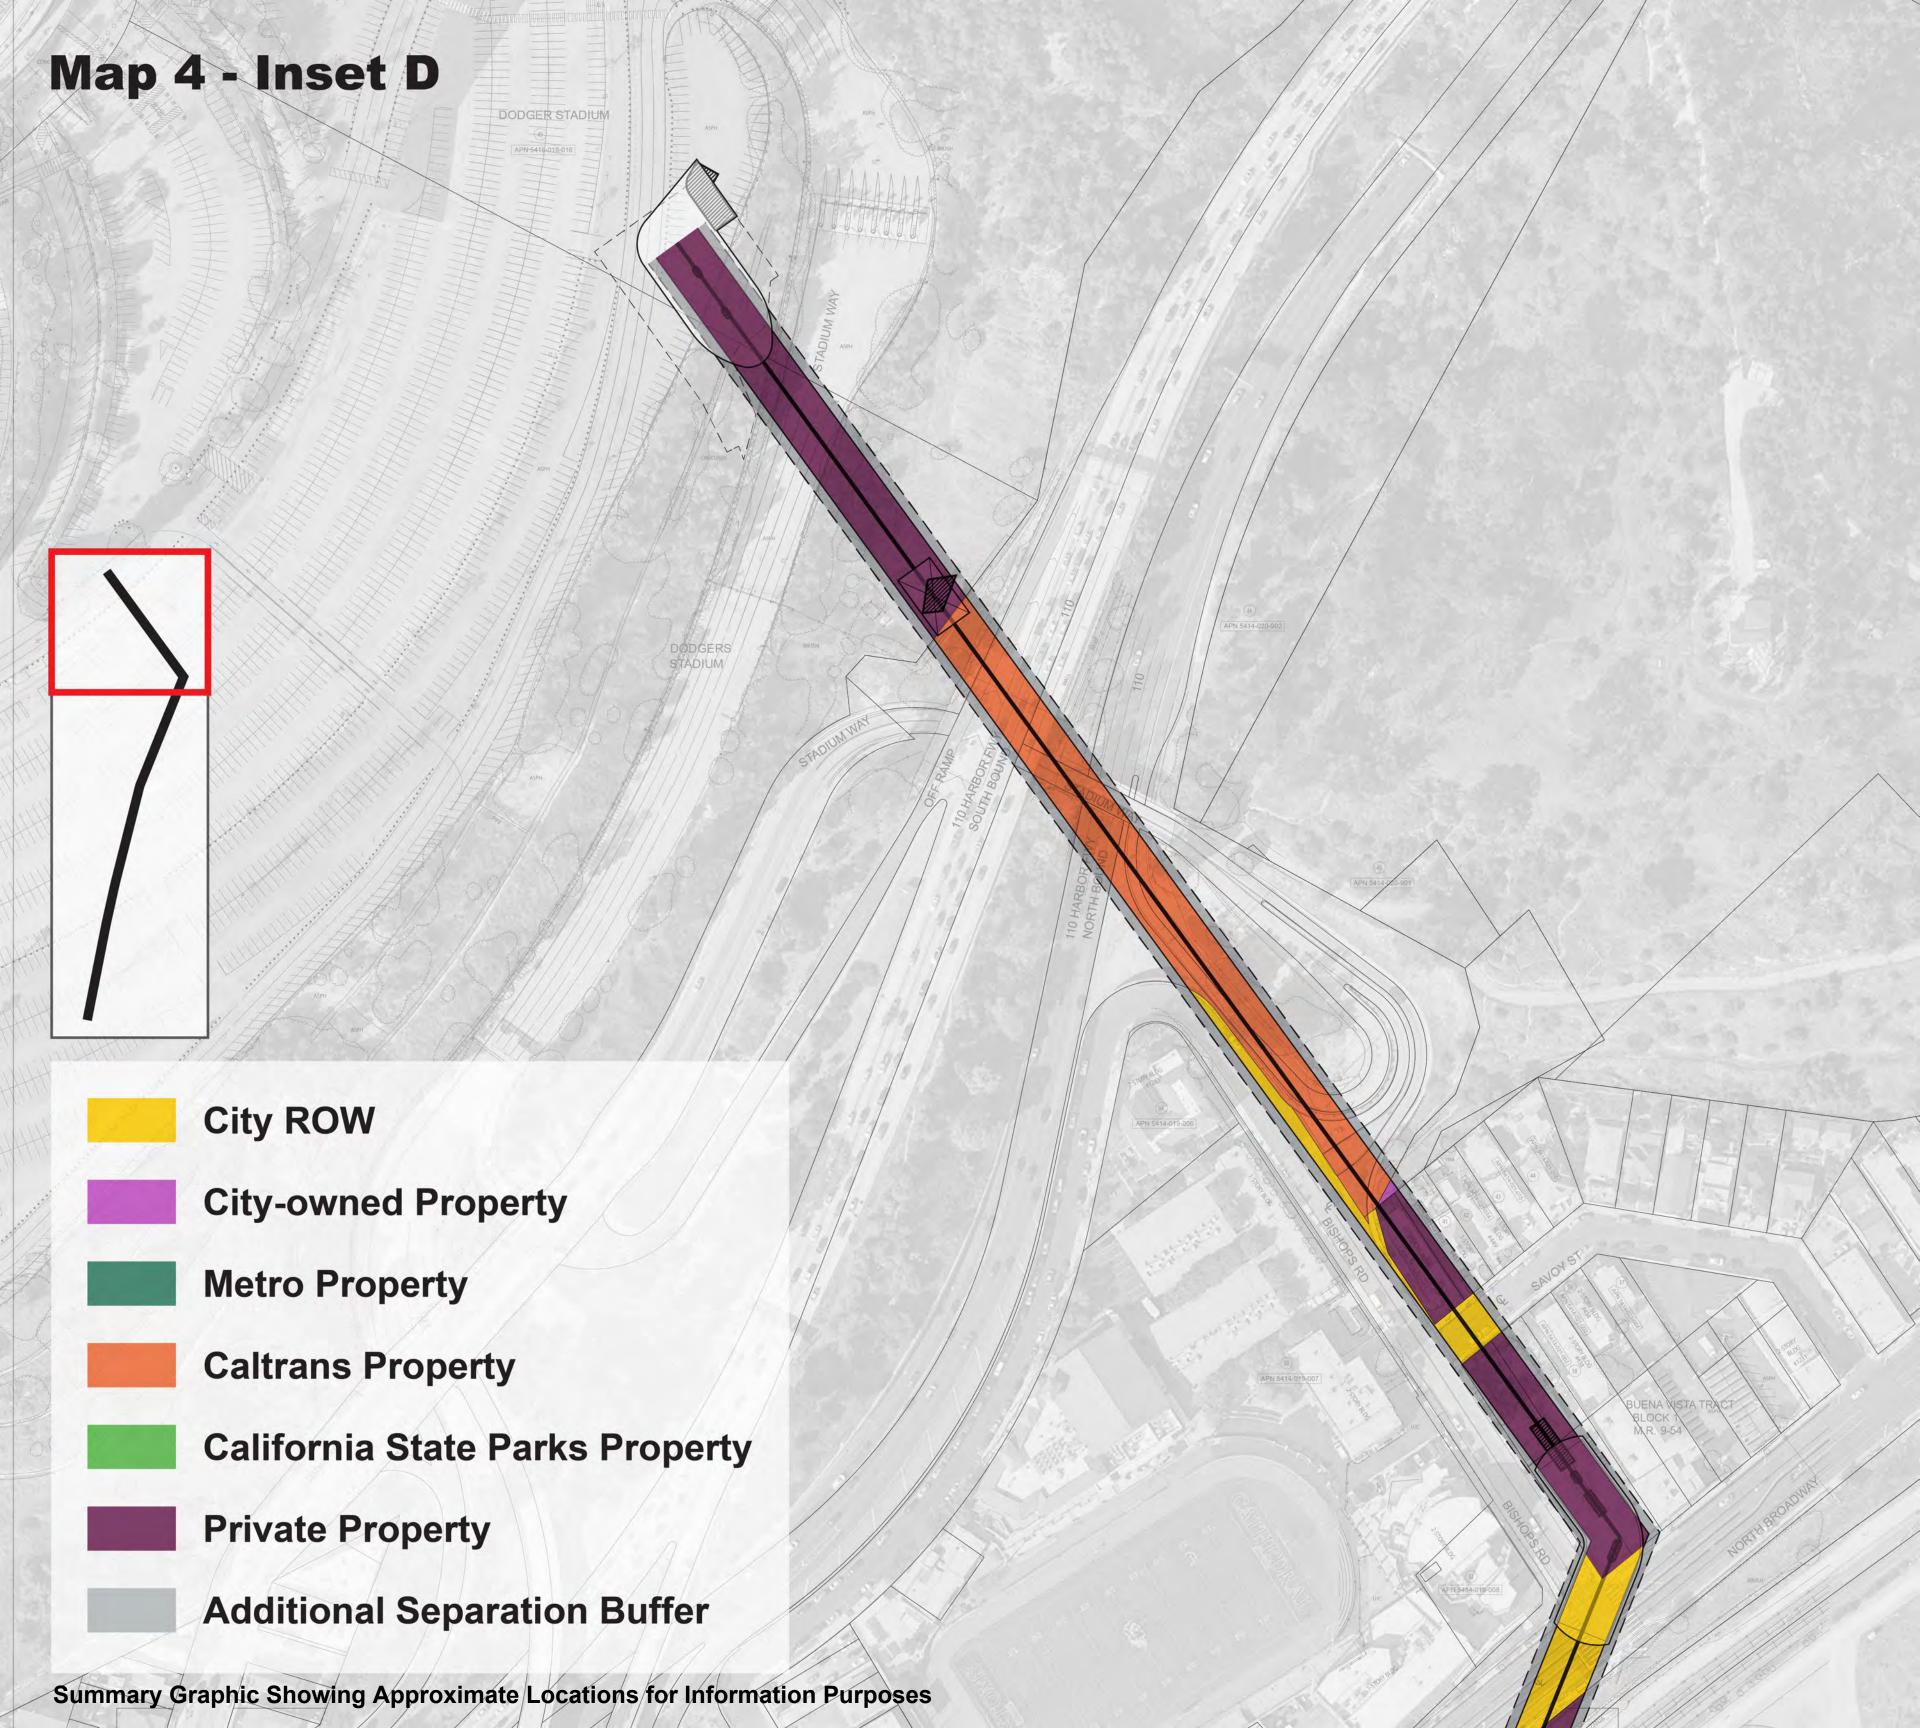

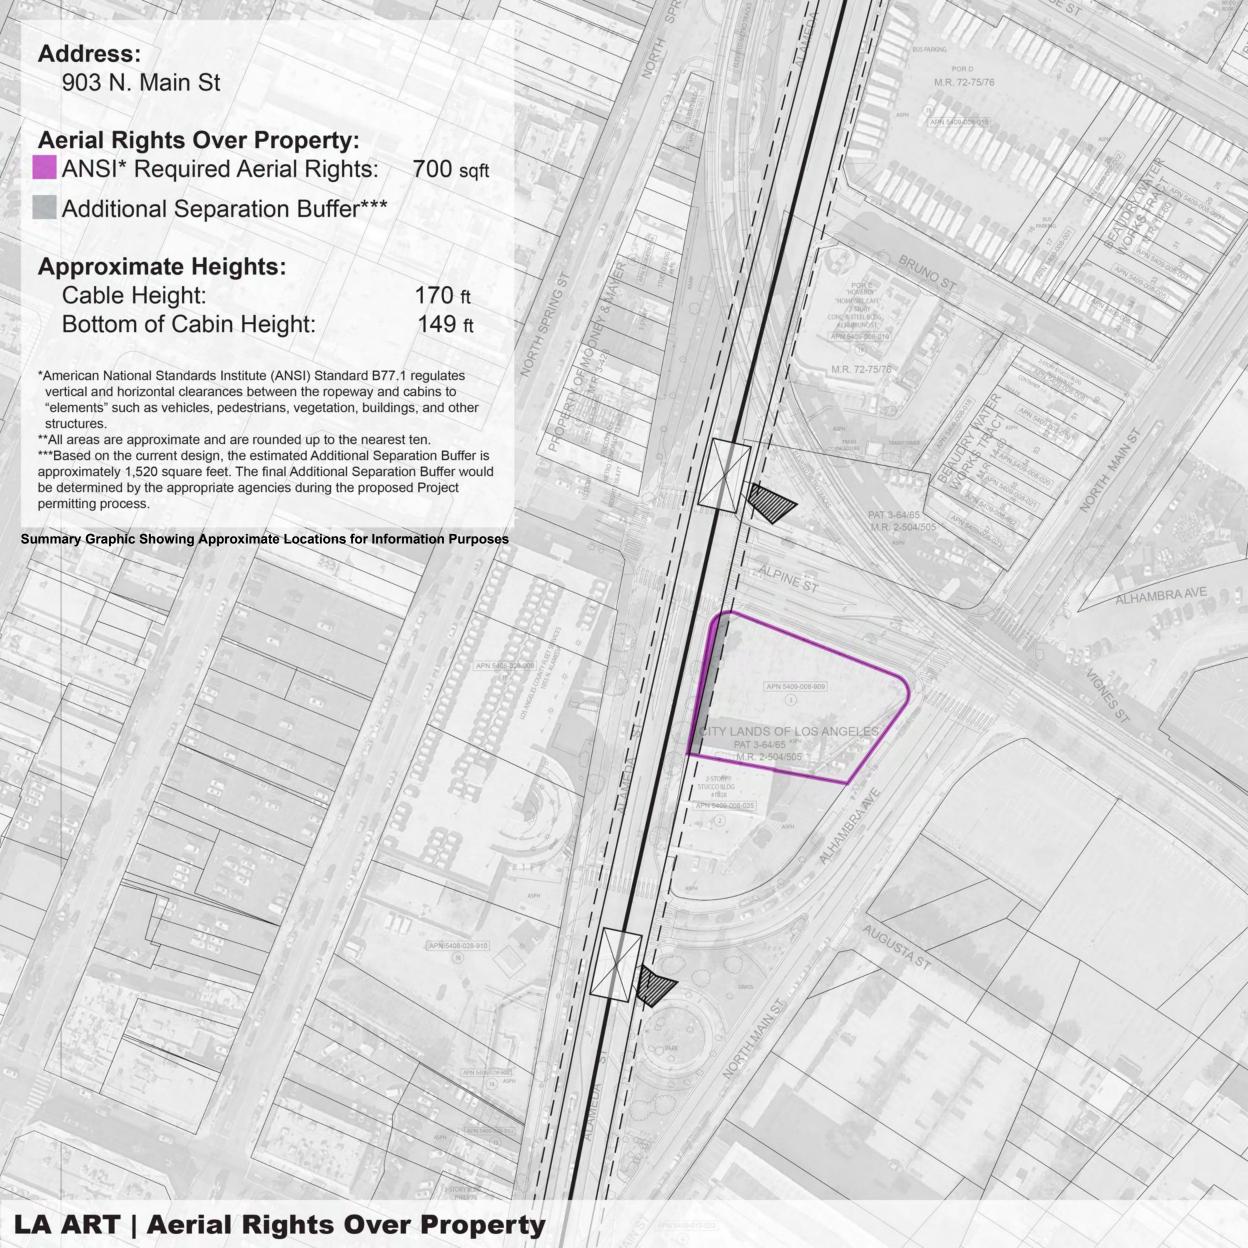

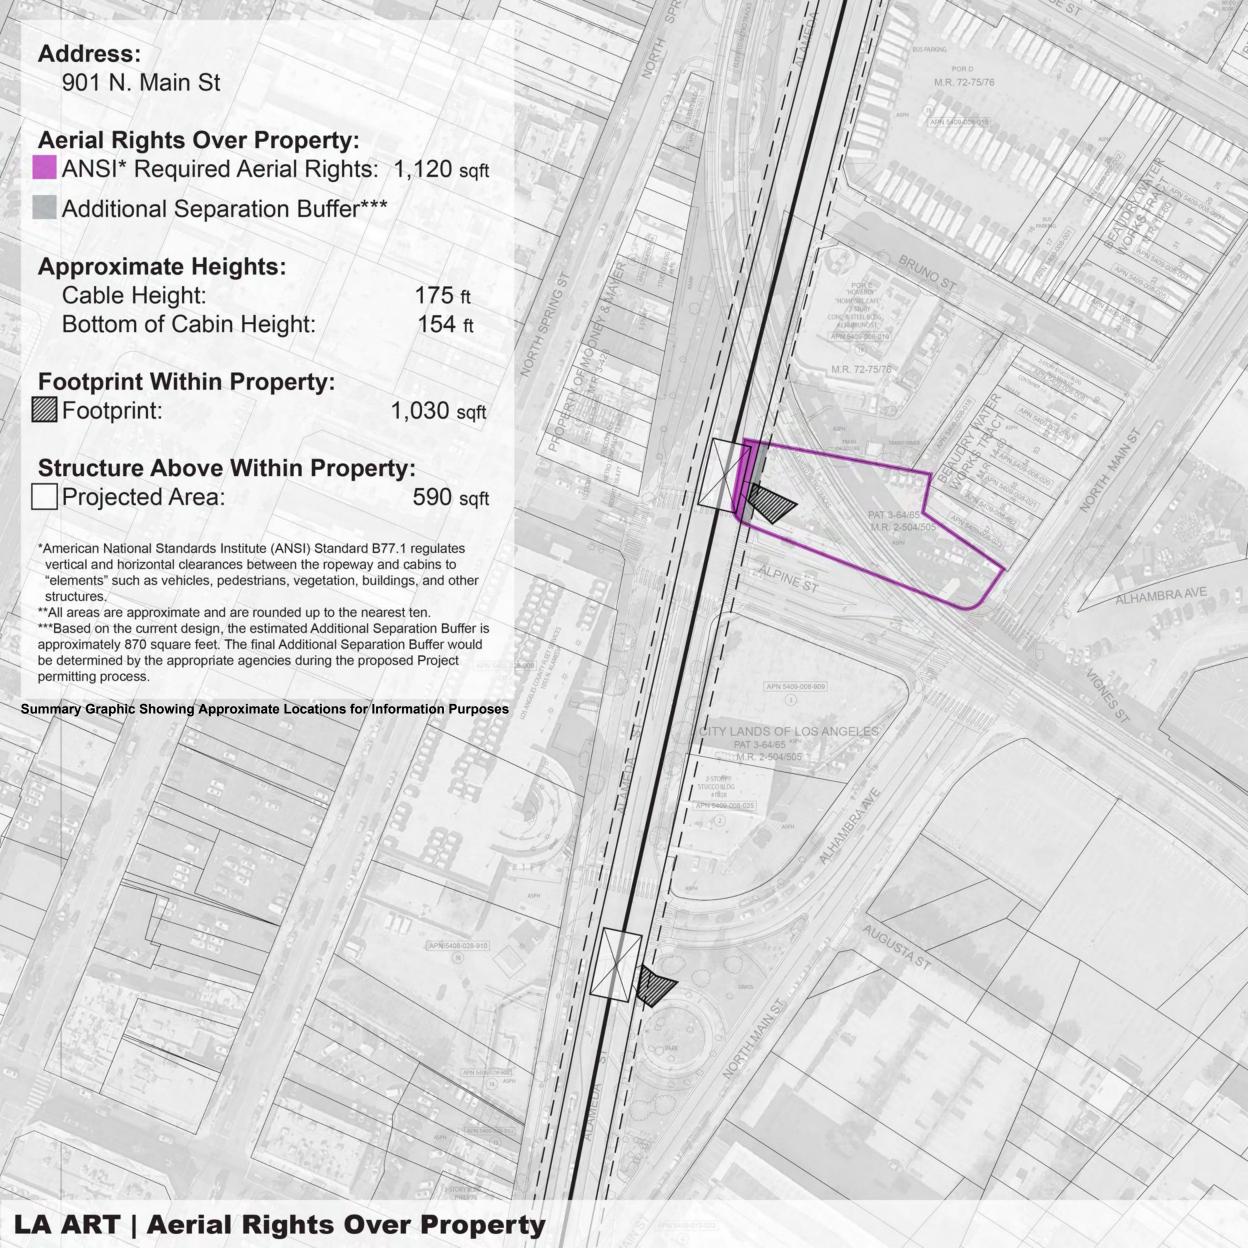

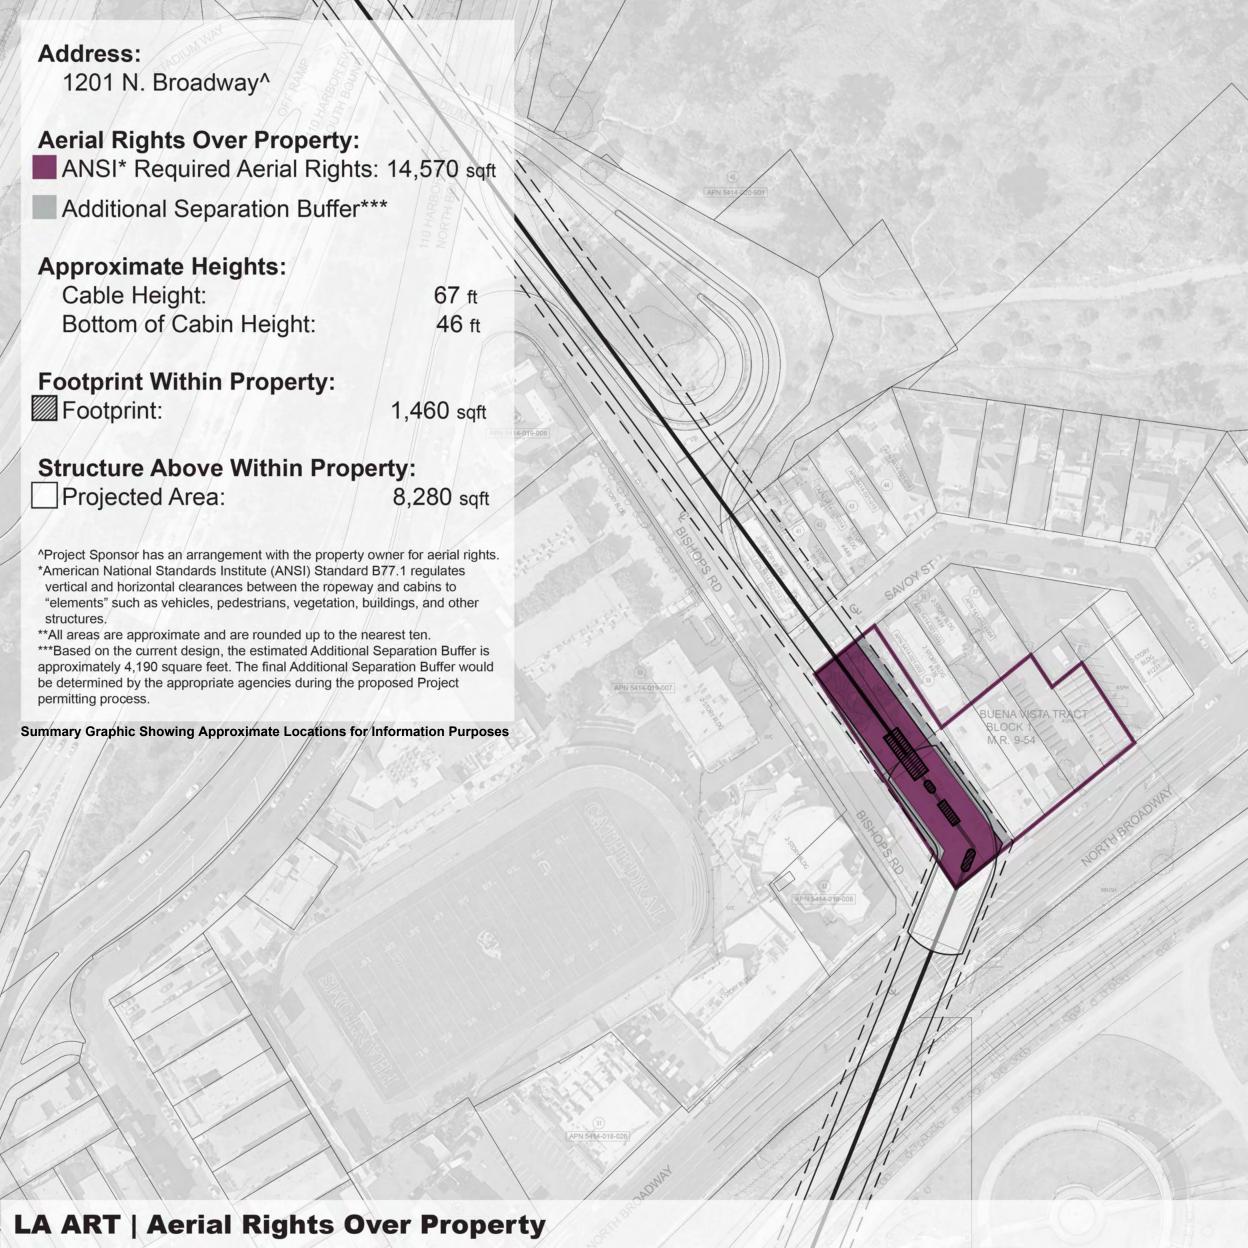

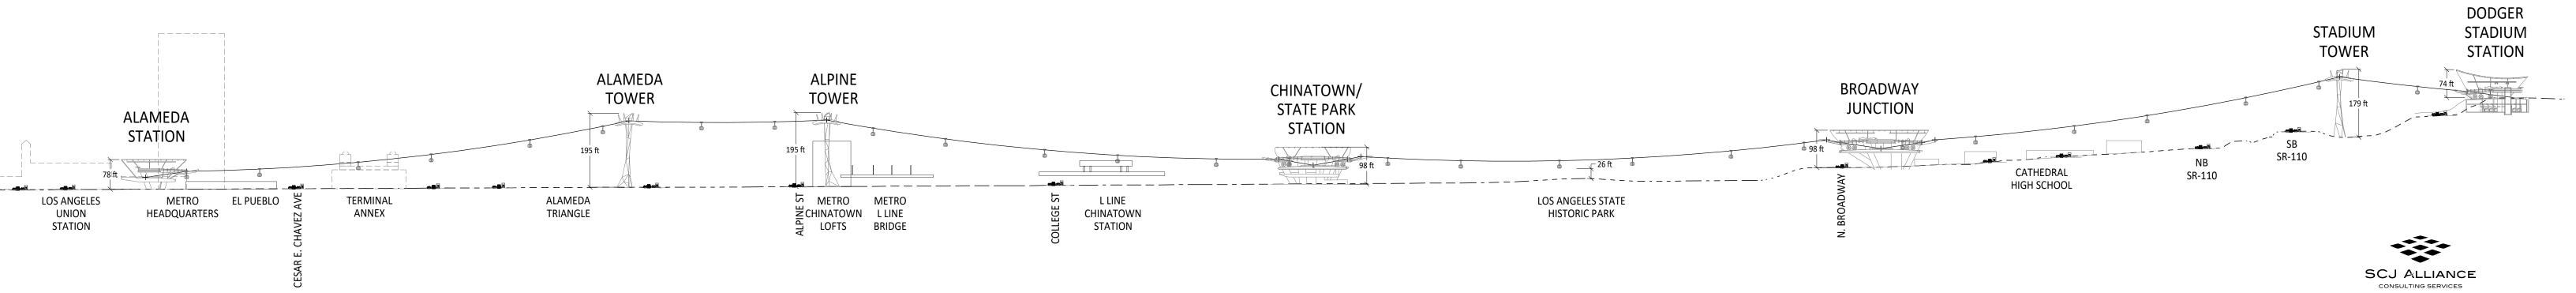

Address: 455 Savoy St^ **Aerial Rights Over Property:** 4,980 sqft ANSI* Required Aerial Rights: Additional Separation Buffer*** **Approximate Heights:** 70 ft Cable Height: Bottom of Cabin Height: 49 ft ^Project Sponsor has an arrangement with the property owner for aerial rights. *American National Standards Institute (ANSI) Standard B77.1 regulates vertical and horizontal clearances between the ropeway and cabins to "elements" such as vehicles, pedestrians, vegetation, buildings, and other structures. **All areas are approximate and are rounded up to the nearest ten. ***Based on the current design, the estimated Additional Separation Buffer is approximately 0 square feet. The final Additional Separation Buffer would be determined by the appropriate agencies during the proposed Project Summary Graphic Showing Approximate Locations for Information Purposes **LA ART | Aerial Rights Over Property**

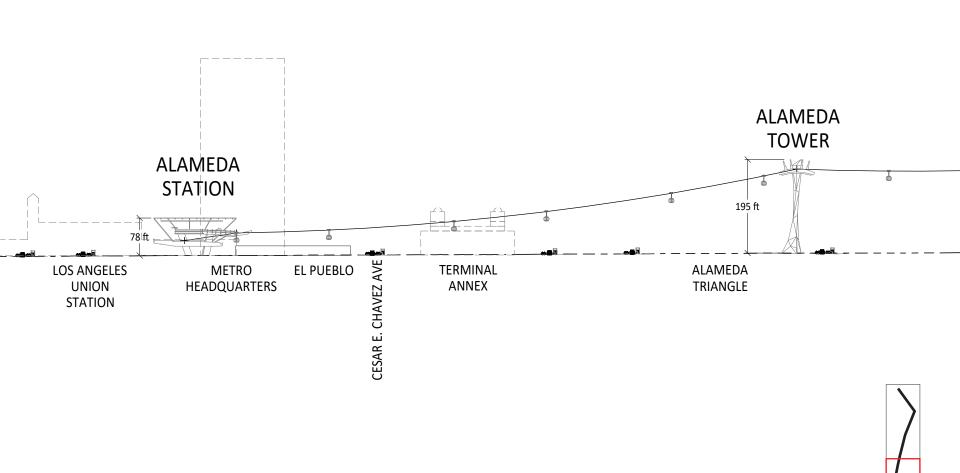

Address: 451 Savoy St **Aerial Rights Over Property:** 1,170 sqft ANSI* Required Aerial Rights: Additional Separation Buffer*** **Approximate Heights:** 70 ft Cable Height: Bottom of Cabin Height: 49 ft *American National Standards Institute (ANSI) Standard B77.1 regulates vertical and horizontal clearances between the ropeway and cabins to "elements" such as vehicles, pedestrians, vegetation, buildings, and other **All areas are approximate and are rounded up to the nearest ten. ***Based on the current design, the estimated Additional Separation Buffer is approximately 1,330 square feet. The final Additional Separation Buffer would be determined by the appropriate agencies during the proposed Project permitting process. Summary Graphic Showing Approximate Locations for Information Purposes **LA ART | Aerial Rights Over Property**
