[Hot off the Web]

(Feb. 5, 2008) One way to reduce congestion on Los Angeles freeways is to promptly help stranded motorists and remove traffic accidents. The Metro Freeway Service Patrol (FSP) does this without charging motorists.

The FSP tow-truck drivers, who patrol Los Angeles County freeways looking for tie-ups, also reduce the chance of secondary accidents caused by onlookers or impatient drivers. When FSP removes a vehicle, the driver tows it to a safe drop location off the freeway.

Visit the [Metro Freeway Service Patrol](#) pages on *metro.net* and learn how to contact these Good Samaritans of the freeways (hint: dial #399). The commute you save, might be your own.
