UNITED TRANSIT BOOSTERS

1963 - 1968

Following is a listing of equipment rosters, service tables, and route maps published by U. T. B. during its first 5½ years. This material was included in regular monthly issues of THE BOOSTER and WESTERN TRANSIT, in issues of THE PADDLE (our excursion publication) and in special U. T. B. publications.

In addition to the complete rosters indexed herein, U. T. B. publications have occasionally contained partial equipment rosters (generally of a particular class or model) or descriptive (as opposed to tabular) listings of an operator's vehicles. Similarly, partial or descriptive outlines of operations or copies of a complete time table, are not included in the index of service tables. The route maps indexed herein are all complete system maps, although maps of individual routes or areas have also been published from time to time.
