SIXTH ANNUAL SURVEY

ON THE OPERATIONS OF

SOUTHERN CALIFORNIA RAPID TRANSIT DISTRICT

Published by the WESTERN TRANSIT SOCIETY as a supplement to WESTERN TRANSIT • Vol. 8, No. 3 Supplement 1

INTRODUCTION

This is the sixth in a series of in-depth surveys, compiled on January 1 of each year, on the operations of the SOUTHERN CALIFORNIA RAPID TRANSIT DISTRICT, which provides local, suburban and interurban transportation in the Los Angeles metropolitan area. In this survey we will cover the equipment roster, coach assignments, a combined line list and service table, and terminal points as in past surveys. As new features this year we include information on the length of each line, and list the radio-equipped buses and the "Bus-O-Rama" advertising sign-equipped coaches.

1 LINE LIST AND SERVICE TABLE

Regularly scheduled service provided by the District as of January 1, 1970, is summarized in the following service table. Service provided is broken down into three periods on Monday through Friday schedules, the morning rush (AM peak), midday (base period) and the afternoon rush (PM peak). Saturday and Sunday schedules are generally constant throughout the day; as a result, only one headway is listed. Also listed are the coach requirements, that is, the number of coaches needed in each of the time periods listed to provide the headways that are recorded. In instances where a line operates out of more than one Division, the number of buses that each contributes to the line is indicated.
