ORANGE COUNTY TRANSIT DISTRICT SURVEY - JUNE 1978

This is the first in a series of Surveys on the Orange County Transit District operations and vehicles similar to the SCRTD Survey published each year. OCTD has been operating since August 1972 and in that time has grown from a fleet of 22 buses and eight lines all operated under contract by SANTA ANA TRANSIT CORP and SOUTH COAST TRANSIT CORP to a fleet of 257 large, 67 small buses plus a dozen contractor provided sedans for demand responsive services. At the same time there are now 63 lines in the system including 42 fixed route and 8 Park/Ride operated directly by the district itself and 5 Community Service, 3 Dial A Ride and 5 Dial A Lift operated by four different contractors for the district. The system covers all the populated areas of Orange County and also includes service to the Los Angeles County cities of Long Beach, Hawaiian Gardens, Cerritos, Lakewood and La Mirada. During the next fiscal year 65 Advance Design buses from Flxible will be delivered and new lines established, new Community Services including Dial A Ride will be started in five areas and a full scale evaluation of the existing Park/Ride operation will be undertaken with a look at the BusPool concept of tailoring services to certain major employment centers from various residential areas. The present system has been operating almost two years and represents, to this time, the most stable period in the young agency's growth. This survey presents levels of service and areas of coverage which may be dramatically changed in the next year and which is worthy of historical note. The survey will be divided into Equipment Roster, Equipment Assignments and Service Table.

EQUIPMENT ROSTER

Coach Nos	Builder	Model	Serial Nos	Seats	Year	No.	Notes
1001-1020	GMC	TDH 5303	3023-3055 mixed	51	1965	20	1
