OCTA Turns 35

In September 1972, a new agency called the Orange County Transit District (OCTD) began providing public transportation for a growing Orange County. OCTD began with five buses operating the routes that formerly had been part of Santa Ana Transit. Later that year, OCTD took charge of transit operations in other surrounding cities. The routing system took shape over the next 15 years, and was held in place until the public agreed to consolidate seven separate transportation agencies, including the OCTD, into one — the Orange County Transportation Authority (OCTA).

From its inception to today, OCTA has provided transportation to Orange County residents and visitors for 35 years. That vast transit experience comes into play every day as OCTA now operates 81 routes with more than 6,500 bus stops throughout Orange County. Every weekday OCTA buses serve more than 220,000 riders on their way to work, school and play around the county.
