"Excellence in Service and Support" PERFORMANCE INCENTIVE PROGRAM

Monthly Calculations - Jan 2020 Metro Bus - Maintenance

Definition: A performance awareness program designed to increase productivity and efficiency.

Calculation: At the start of the fiscal year, each Division is given a unique goal for each Key Performance Indicator (KPI). Every month, the difference between each Division's performance and goal is calculated for each KPI. Divisions are ranked 1 through 11 based on how much better they performed in relation to their own unique goal. If the difference between the performance and the goal is the most favorable variance, the Division is given a score of 11 for that KPI. The lowest performing Division is given a score of 1. For the final ranking, each score is weighted based on the weight of the KPI. The final ranking is calculated by aggregating the weighted scores to give a total score out of a total possible maximum of 11 points.
