SR. EXECUTIVE OFFICER

SUBJECT:

PURPLE (D LINE) EXTENSION TRANSIT PROJECT SECTION 3

MARCH 2024 QUARTERLY PROJECT STATUS REPORT

Enclosed herewith is the Quarterly Project Status Report for the Purple (D Line) Extension Transit Project Section 3. This report contains the Los Angeles County Metropolitan Transportation Authority's (LACMTA) representation of the Purple (D Line) Extension Transit Project Section 3 status for the period ending March 29, 2024.

If you have any questions regarding this report or its supporting information, please contact Marvin Li, Deputy Executive Officer, Program Control at (424) 551-4523.

PROJECT OVERVIEW

Project Background

The Purple (D Line) Extension Transit Project Section 3 (Project) is the third of three sections to be designed and constructed as part of the Los Angeles County Metropolitan Transportation Authority's (Metro) Measure R and Measure M Programs. The Measure R and Measure M Programs were approved by Los Angeles County voters in November 2008 and in November 2016, respectively, and provide in total a one-cent sales tax to finance new transportation projects. In April 2012, the three sections of the Project were environmentally cleared and adopted by Metro Board of Directors.

Section 3 will extend to Westwood from the future Century City Constellation Station that is part of the Westside Purple Line Extension Section 2 Project and currently under construction. The Project is located entirely underground, primarily following Wilshire Boulevard, and includes the design and construction of approximately 2.56 miles of double-track heavy rail, two new stations as well as the purchase of 16 heavy rail vehicles. The Westwood/UCLA Station is within the jurisdiction of the City of Los Angeles, and the Westwood/Veterans Administration (VA) Hospital Station is within the jurisdiction of the unincorporated area of Los Angeles County. The Project also includes train controls, signals, traffic controls, communications, traction power supply and distribution, fare collection systems and equipment, acquisition of right-of-way, and utility relocations.

The Westwood/UCLA Station box will be under Wilshire Boulevard beginning west of Westwood Boulevard and extending to the east of Veteran Avenue. The station will have three entrances, two full entrances on the north side of Wilshire Boulevard and one-half entrance on the south side of Wilshire Boulevard. The two full entrances will be located at Wilshire Boulevard and Gayley Avenue, and at Wilshire and Westwood Boulevards. The half entrance will be located at Wilshire and Westwood Boulevards.

The Westwood/VA Hospital Station box will be under the VA south campus, beginning west of the I-405 Freeway and extending west of Bonsall Avenue. The station will be equipped with double crossovers, one at each end of the station. The station entrance will be south of Wilshire Boulevard and east of Bonsall Avenue.

Major Procurements

<u>Contract C1151 – Tunnels:</u> The procurement of this design/build contract utilized a competitive negotiated procurement process to select a contractor that was determined to have met all the requirements set forth in the Request for Proposals (RFP) with a technically acceptable, "Lowest Evaluated Price" selection process. In June 2018, the Board authorized to award the C1151 Tunnels contract, subject to the FTA approval of the Letter of No Prejudice (LONP). The contract was awarded to Frontier-Kemper/Tutor Perini, (FKTP-JV) on November 30, 2018, after receiving the LONP from the FTA. Notice to Proceed (NTP) was issued on January 15, 2019.

The design/build contract provides for final design and construction of the twin bored tunnels, complete with cross-passages, along the 2.56-mile alignment. Contract scope includes demolition and removal of structures and clearing sites to facilitate construction operations. A tunnel boring machine (TBM) launch shaft was constructed at the westerly end of the Westwood/VA Hospital Station. Upon substantial completion, FKTP-JV will turn over all temporary lighting and ventilation to the follow-on contractor (Contract 1152).

Contract C1152 – Stations, Trackwork, Systems and Systems Integration Testing: The procurement of this design/build contract utilized a two-step approach with the submittal of qualification statements through a Request for Qualification (RFQ) process, prequalification of qualified proposers followed by the release of a Request for Proposals (RFP) soliciting technical and price proposals on a Best Value selection process with an option at Metro's discretion for Best and Final Offers (BAFO). In February 2019, the Board authorized the CEO to award the C1152 Stations, Trackwork, Systems, and Systems Integration Testing contract to Tutor Perini/O&G, JV (TPOG), subject to the FTA approval of a Full Funding Grant Agreement (FFGA). After the February Board action, FTA issued an LONP on April 18, 2019, that allows contract award to occur prior to receipt of an FFGA. The Board approved the award of the C1152 contract at the May 2019 Board Meeting, and the Contract was awarded on May 28, 2019. Notice to Proceed was issued on July 15, 2019, with a commencement date of July 16, 2019.

Purple (D Line) Extension Transit Project Section 3 Quarterly Project Status Report

The Design/Build contract provides for final design and construction of the infrastructure along the 2.56-mile alignment. Contract scope includes demolition and removal of structures and clearing sites to facilitate construction operations. The twin bore tunnels will be complete with walkways including all mechanical, electrical, and finished work. Two underground stations are to be constructed, with the Westwood/VA Hospital Station having two double crossovers, one at each end of the station. Each station will be equipped with stairs, escalators, and elevators which meet ADA requirements. The scope of work also includes all architectural finishes, mechanical and electrical systems and equipment including train control, traction power, communications, trackwork, system tie-in at the future Century City Constellation Station, testing and commissioning.

Contract C1153 – Advanced Utility Relocations: The work scope of this firm fixed price. contract included the relocation of existing LADWP power and water utilities within the construction limits of the Westwood/UCLA Station. Metro issued Notice of Intent (NOI) to award to Steve Bubalo Construction Company (SBCC) on October 2, 2017, and NTP on January 2, 2018. SBCC was responsible for working in streets, procuring materials, and coordinating with the utility owner. SBCC constructed new facilities in accordance with the utility plans and specifications, provided traffic control, restored streets, and supported utility crews installing cabling and during cut-over of the existing utilities. SBCC achieved contract substantial completion on June 30, 2019, and Contract Final Acceptance was issued by Metro on April 13, 2020.

Contract C1204 - Shuttle and Valet Services During Construction of the Westwood/VA Station: The work scope for this firm fixed price contract includes providing shuttle and valet services to the West Los Angeles Veterans Affairs (VA) Medical Center during the decommission of Parking Lot 42 and buildout of the replacement parking structure. The Request for Proposal (RFP) was issued on January 15, 2021. Contract awarded to Everpark Inc. on December 6, 2021, and NTP issued with shuttle and valet service transferred to Everpark Inc. on January 03, 2022.

<u>Contract C1212 - VA Parking Structure:</u> The Invitation For Bid (IFB) documents for the VA Parking Structure were solicited on October 14, 2022. C1212 consists of a multi-story parking structure and parking lot work at the West Los Angeles Veterans Affairs (VA) Medical Center and parking lot work at the General Services Administration (GSA) in West Los Angeles. Notice of Award issued on August 28, 2023. Notice to Proceed was issued on September 27, 2023.

Metro Furnished Equipment

Metro to procure a contract to provide 16 Heavy Rail Vehicles (HRV) necessary to operate the extension of the Purple Line. The scope of the HRV contract includes design, manufacturing, testing and delivery of the vehicles. An additional contract will be procured for the Universal Fare System (UFS). The scope of the UFS contract will include design, fabrication, and installation of equipment at the two new stations and system testing.

Program Management

The Purple (D Line) Extension Transit Project Section 3 Project is being managed under the direction of an Integrated Project Management Office (IPMO). WSP Global (WSP) provides engineering and design support services, while MPPC Partners, a Joint Venture provides construction management support services. The on-site program management team is also supported by Metro headquarters' resources and includes, but not limited to, engineering, risk management, environmental, quality management, operations, and creative services departments.

<u>Project Schedule and Budget:</u> The Revenue Service Date (RSD) is planned for 2027. In June 2018, the Board authorized to establish the Life of Project (LOP) Budget for the Tunnels portion of the Project. In February 2019, the Board amended the LOP Budget to include the Stations portion of the Project. The LOP Budget for the Westside Purple Line Extension Section 3 Project is \$3.2 billion excluding Finance Charges of \$387.4 million. A detailed LOP Budget forecast is included under the Budget and Cost Forecast section of this report.

Funding is projected from a variety of sources to include:

- Federal Section 5309 New Starts
- Federal Section 5309 New Starts (ARPA-CIG)
- Federal STBG (Surface Transportation Block Grant)
- Federal CMAQ (Congestion Mitigation & Air Quality)
- Federal CIG Section 165
- Local Agency Contributions
- TCRP (Transit Cooperative Research Program)
- Measure R 35%
- Measure M 35%
- State RIP (Regional Improvement Program)

Start Up: The commencement of pre-revenue operations will be determined by Metro. Generally, all systems integration testing will have been completed and passed. All testing will be required to include and pass a "stress test" of maximum operational service levels to be acceptable. Pre-Revenue Operations include train runs, especially those involving multiple trains on the integrated and fully operational extension; rehearsal of expected revenue operations scenarios; abnormal and emergency scenarios in which random combinations of system interactions are tested and equipment "burned-in"; and training of emergency services as well as Metro personnel who will operate and maintain the extension. Activities occurring during Pre-Revenue Operations are carried out by a designated Metro Project Rail Activation Group.

EXECUTIVE SUMMARY

In March 2024, the Project achieved 51.6% completion to-date based on earned value measurements for the overall Project. The current focus of the Project is continuing final design for Contract C1152 (Stations, Trackwork, Systems and Systems Integration Testing), utility relocations at Westwood/UCLA Station, station excavation at the Westwood/UCLA and Westwood/VA Hospital stations, and cross passage excavation.

Contract C1151 has a substantial completion date of May 2025 and scheduled to demobilize by July 2025. Contract C1152 has a substantial completion date of January 2027 and scheduled to demobilize by August 2027 in support of Revenue Service in 2027.

The following is an overview of current design and construction activities.

Design Status

- The Engineering Management Services team continues to provide engineering services during construction, real estate support services, supporting Metro in reviewing the C1152 Stations final design submittals and the C1151 and C1152 review of submittals, responding to RFIs, and assisting in the preparation and review of Changes.
- C1151 Tunnels Contract: The design work for this contract is substantially complete. Metro has Approved for Construction all of the design unit packages.
- C1152 Stations Contract: The list of the various design unit (DU) packages is listed below:
 - DU 40: VA Station Temporary Works
 - APDU 41 (41A, 41B, 41D)
 - APDU 42
 - APDU 43 (43A)
 - APDU 44 (44A, 44B)
 - APDU 45
 - APDU 46
 - o DU 50: UCLA Station Temporary Works
 - APDU 51 (51A, 51B, 51C)
 - APDU 52, 52A, 52B
 - APDU 53
 - APDU 54
 - APDU 55
 - DU 60: VA Station
 - APDU 61 (61A, 61B)
 - DU 60 (60, 60A, 60B)
 - o DU 70: UCLA Station

- DU 70 (70, 70A, 70B, 70C, 70D)
- DU 81: Tunnels/Cross Passages and Track
- o DU 82: Systems
- o DU 90: Tail Track Exit Shaft and Western VA Staging Area (APDU 90A/90B)

Final design for the various design packages is on-going. Design unit packages progress to date:

- o DUs 60, 70, 81, 82:
 - AFC design is on-going for DU 60B, 70, 70A, 70B, 70C, 81, 82
 - IFC is on-going for DU 60, 60A, APDU 61A/61B
- o DU 90:
 - IFC is on-going for APDU 90A, 41D (County Portion)
- o APDUs 41, 42, 43, 44, 45, 51, 52, 53, 54:
 - 100% design is on-going for APDUs 41A, 53
 - AFC design is on-going for APDUs 52A, 52B, 55 (Parts 1, 2, & 4)
 - IFC is on-going for APDUs 41D (LA County portion), 54 (Parts 2 & 4), 55 (Part 3), 44B

Approved for Construction (AFC) design packages:

- o APDUs 41A, 41D (LA County portion)
- o APDU 54 (Part 2)
- o APDU 61A/61B
- o DU 60
- o DU 60B
- o DU 70
- DU 70B
- DU 70C
- o DU 81
- DU 82 (except Radio)
- o APDUs 90A

Issued for Construction (IFC) design packages:

- APDUs 41B, 41D (City of LA Portion), 42, 43, 44, 45, 46
- o APDUs 51A, 51B, 51C, 52, 54 (Part 3), 55 (Part 3)
- o DU 70D
- o APDU 90B IFC
- o DU 60A IFC

DUs and APDUs submitted this reporting period:

- APDU 54 CB#5 and SB#7 Alternate Concrete Mix (ASRM-815-DME-4500P)
- o APDU 61B IFC North Plaza, Bike Hub & Pedestrian Bridge
- DU 81 IFC Tunnels, Cross Passages, & Tack & Specs

Construction Status

• C1153 – Advanced Utility Relocations: (Complete) Substantial completion occurred on June 30, 2019, and the contract is 100% complete. The City of Los Angeles' Bureau of Contract Administration signed-off on all punch list items on July 31, 2019. SBCC completed all punch list items and submitted 100% billing for all remaining items. SBCC submitted a request for Certificate of Final Acceptance and release of retention on April 12, 2020, and Final Acceptance was issued by Metro on April 13, 2020. Metro has issued a contract modification to close the balance of provisional sums and final payment and the release of retention was processed to the contractor. Metro issued the final release of retention check and SBCC issued "Unconditional Waiver and Release on Final Payment" on July 16, 2020.

C1151 – Tunnels Contract:

Cross passage pre-excavation work continued. Grouting and ground pretreatment in advance of excavation is now completed at cross passages CP-42, CP-43, CP-44, and CP-45 and is on-going at CP-46, CP-47, and CP-48. Wall smoothing preparations for waterproof membrane placement at CP-53 is completed. Utility removal, segment repair, and tunnel cleaning is ongoing in the two tunnels between the Westwood/VA Station and Tail Tunnel Exit Shaft (TTES). Dismantling and demobilizing equipment from the TTES site is on-going.

• C1152 – Stations Contract:

The final design continues and is approximately 97% complete. At the Westwood/UCLA station, excavation is 81% complete and 33% of the tunnel segments are removed. Walers and struts continue to be installed at excavation level 4; 77% of walers and struts have been installed. Soil nail wall installation at the west end of the station continues and is at 39% completion. Stormwater line A3 underneath Wilshire Blvd. in progress. At the Westwood/VA Hospital station, excavation is 86% complete, and 87% of the tunnel segments have been removed. Walers and struts continue to be installed at excavation level 4; 79% of walers and struts have been installed. Tiebacks and shotcrete installation at the station entrance remains at 86% complete. The water line connection on Wilshire Blvd between Bonsall Avenue and Federal Avenue is 22% complete.

C1212 – VA Parking Structure In VA Lot 527, continued with site grading and Retaining Wall 1 construction. In VA Lot 42 completed site grading and progressed asphalt paving. In GSA Lot, ongoing utility trenching, conduit install/backfill, and AC paving.

Third Party Utility Relocations: Southern California Gas Company cap and removal of conflicting 6" gas main at the station southeast entrance at Wilshire/Westwood is expected to be completed in the Spring of 2024.

Cost and Schedule Summary

Metro issued Contract Modification 2 to the C1151 Tunnels contractor for extending Substantial Completion by 95 calendar days, in October 2022 Metro issued Contract Modification 23 that approved a time extension for 60 calendar days, and in December 2023 Metro issued Contract Modification 28 to grant 758 calendar days extension. The total time extension for C1151 Substantial Completion is 913 calendar days. Metro issued Contract Modification 105 to the C1152 Stations Contractor granting 233 calendar days for late access with mitigation and acceleration efforts to improve the Substantial Completion date and minimize impact to the C1152 Stations contract.

The Critical Path (CP) of the Project includes third party utility relocations, C1152 Contractor required utility relocations, followed by both stations' support of excavation, street decking, station box excavations, and structural concrete for the stations. Next it flows into installation of the interior finishes and electrical equipment, followed by systems, testing and pre-revenue operations. A summary graphic of the critical path is found on Page 18.

Project Schedule Contingency Drawdown Analysis

The project schedule contingency drawdown model provides a dual-axis perspective based upon the FFGA RSD of December 2028 and Metro's Project Master Schedule (PMS) forecast of 2027.

The introduction of the PMS model axis reflects a proportional distribution of available float relative to the FFGA model.

With regards to the FFGA RSD, schedule float is currently Thirteen (13) months with respect to the current forecast project completion.

Original Budget

Original Budget of \$3.6 billion reflects the Life of Project (LOP) budget approved by the Board on February 28, 2019, plus Finance Charges of \$387.4 million.

Current Budget and Current Forecast

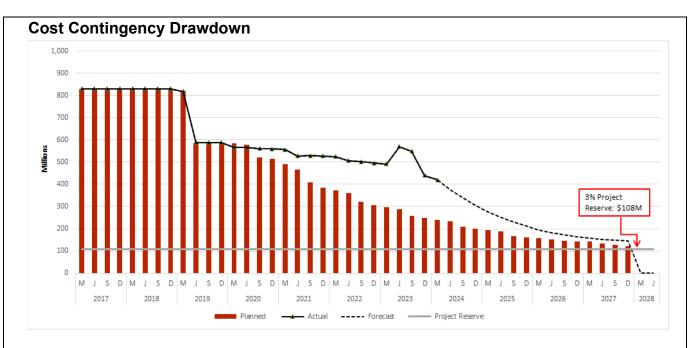

The Current Budget and Current Forecast remain the same this period at \$3.7 billion.

Commitments

The Commitments increased by \$25.8 million primarily due to Change Orders for Stations Contract C1152 and Contract Modifications for Stations Contract C1152 and Project Management Support Services. The \$2.6 billion in Commitments to date represent 71.1% of the Current Budget.

Expenditures

The Expenditures increased by \$15.9 million primarily due to costs associated with the Tunnels Contract C1151, Stations Contract C1152, VA Shuttle and Valet Services Contract 1204, VA Parking Structure C1212, Metro Project Administration, Engineering Management Support Services, Construction Management Support Services, Project Management Support Services, Environmental Support Services, Quality Assurance Support Services, Legal Services, ROW agreement, appraisal and acquisition fees, Engineering Design Services, and Third Party Master Cooperative Agreements. The \$1.5 billion in Expenditures to date represent 41.9% of the Current Budget.

Cost Contingency Drawdown Analysis

The Original Budget of \$3.6 billion includes finance charges of \$387.4 million. It also includes a project cost contingency of \$830.6 million or 23.1% of the total project, which is based on the amended Life of Project (LOP) Budget approved by the Board in February 2019. An allocated contingency amount of \$366.5 million is included in the total cost contingency. The allocated contingency is an amount to cover anticipated but unknown contract modifications issued by Metro [when applicable to specific contracts within each Standard Cost Category (SCC)].

A 3% project reserve threshold is included in the project cost contingency drawdown. Metro's Board is to be notified when it becomes necessary to drawdown contingency below the project reserve threshold to cover project costs. This process was adopted by the Metro Board of Directors in September 2012.

The project cost contingency drawdown curve is based on a 2027 Forecast (RSD).

The allocated contingency decreased this period by \$24.2 million due to executed Contract Modifications and approved Change Orders for Stations Contract C1152.

| PROJECT COST CONTINGENCY DOLLARS IN THOUSANDS | | | | | |
|---|-------------------------------------|--------------------|-------------------|-----------|--|
| | Original Contingency (Budget) | Previous Period | Current Period | To-Date | Remaining Contingency (Forecast) |
| Unallocated Contingency | 464,142 | (222,058) | - | (222,058) | 242,085 |
| Allocated Contingency | 366,455 | (164,832) | (24, 186) | (189,018) | 177,436 |
| Total Contingency | 830,597 | (386,890) | (24,186) | (411,076) | 419,521 |

Risk Management

Summary of Risks

During the quarterly risk register meeting, four (4) new risks were identified, two (2) risks were closed, resulting in a total of sixty-six (66) risks to be managed in the next quarter.

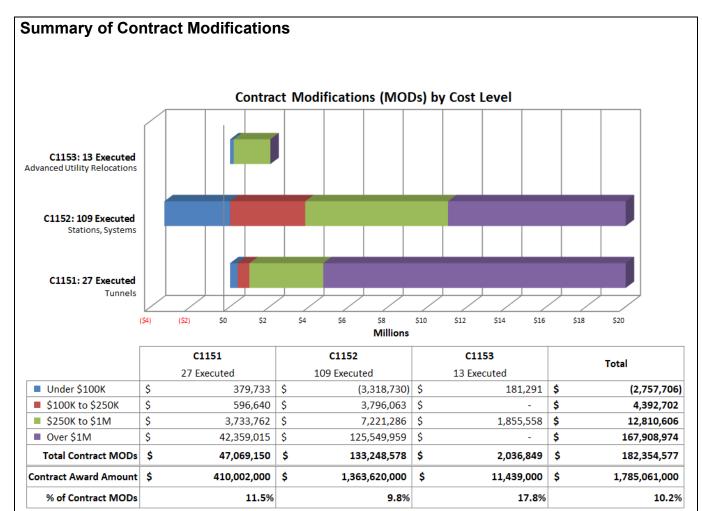

Of the sixty-six (66) risks, eight (8) are scored as high, thirty-two (32) as medium, and twenty-six (26) as low.

The next Purple (D Line) Extension Transit Project Section 3 Risk Register quarterly update is scheduled for March 2024.

Top Risks

The table below shows the top five (5) project risks.

| Risk ID | Risk Description | Risk Score | Action Items |
|----------|---|---------------|--|
| PLE3-512 | Systems testing schedule is too optimistic and will take longer than expected based on previous project experience (including test failures, exceptions, fixes, and retesting). | 20.0 | Project team to manage schedule through monthly progress updates with contractor by requesting more detailed activities and reasonable durations. Contractor to develop Test Plans and Schedule as soon as possible. Contractor shall start the system work at the earliest opportunity. |
| 90.4 | Covid 19 pandemic impact | 15.0 | 1. RFCs for cost to be submitted by the contractors. |
| PLE3-211 | Significant rain impact in 2022/2023 already has delay impact in construction. Similar situation may happen for the remaining construction duration. | 14.0 | Contractor to provide preventive measures to mitigate any potential damage due to inclement weather. |
| 400.3 | Additional measures may be needed if ground improvement does not work as intended or if further investigation by Contractor shows different conditions from baseline requiring a different ground improvement design/method. (cross passages) | 13.5 | Metro's contractor is including probing and grouting for cross passage preparations, and Metro is weekly tracking progress for current cross passage construction. |
| 677.3 | 3rd party approvals of SOE for stations utility supports and utilities conflicts in the field including station excavations, entrances & appendages at UCLA | 12.5 | 1. Follow Section 2 criteria with COLA BOE. |

Percent of Contract MODs equals the Total Contract MODs divided by the Contract Award Amount.

Twenty-seven Contract Modifications (MODS) with a total value of \$47.1 million have been executed since the award of C1151 Contract for Tunnels.

One hundred nine Contract Modifications (MODS) with a total value of \$133.2 million have been executed since the award of C1152 Contract for Stations.

Thirteen Contract Modifications (MODS) with a total value of \$2.0 million have been executed since the award of C1153 Contract for Advanced Utility Relocations.

DISADVANTAGED BUSINESS ENTERPRISE (DBE)

Contract C1151

As of March 2024:

| DBE Goal – Design The percentage of funds apportioned to Design Contracts | 11.19% |
|---|-------------------|
| Current DBE Commitment Design Total DBE Committed Dollars divided by Total Contract Value for Design | \$3.46M 18.16% |
| Current DBE Participation Total amount paid to date to DBEs divided by the amount paid to date to Prime | \$3.21M 17.30% |

Seven (7) Design DBE sub-consultants have been identified for Design.

| DBE Goal – Construction The percentage of funds apportioned to Construction Contracts | 17.10% |
|--|--------------------|
| Current DBE Commitment Construction Contract commitment divided by current contract value for Construction | \$90.83M 21.29% |
| Current DBE Participation Total amount paid to date to DBEs divided by the amount paid to date to Prime | \$83.21M 21.63% |

Eighty (80) Construction DBE sub-contractors have been identified to date.

Contract C1152

As of March 2024:

| DBE Goal – Design The percentage of funds apportioned to Design Contracts | 19.25% |
|--|-----------------------------|
| Current DBE Commitment Design Total DBE Committed Dollars divided by Total Contract Value for Design | \$16.36M 16.43% |
| Current DBE Participation Total amount paid to date to DBEs divided by the amount paid to date to Prime | \$1 <i>5.16</i> M 16.38% |

Nineteen (19) Design DBE subcontractors have been identified for Design.

| DBE Goal – Construction The percentage of funds apportioned to Construction Contracts | 21.00% |
|--|-------------------|
| Current DBE Commitment Construction Contract commitment divided by current contract value for Construction | \$58.30M 4.71% |
| Current DBE Participation Total amount paid to date to DBEs divided by the amount paid to date to Prime | \$43.95M 7.49% |

Twenty-two (22) Construction DBE sub-contractors have been identified to date.

PROJECT LABOR AGREEMENTS (PLA)

As of February 2024

PROJECT ORGANIZATION AND STAFFING

The design-build contract is being managed by a joint team of Metro and consultant personnel jointly located at the Integrated Project Management Office (IPMO).

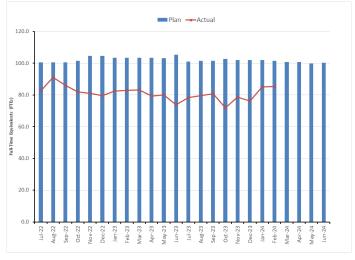

Metro Purple (D Line) Extension Transit Project Section 3 Responsibility and Reporting Matrix

The overall FY24 Total Project Staffing Plan averages 101.40 FTEs per month.

For February 2024, there were a total of 26.5 FTEs for MTA's Project Administration Staff and 58.8* FTEs for Consulting Staff. The total project staffing for February 2024 was 85.3 FTEs.

Total Project Staffing – Metro and Consultants

*Actually include 5.1 FTEs related to Project Management Support Services (PMSS).

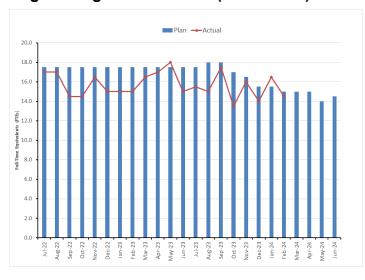

Metro Staff

CM Support Services Staff (Consultant)

Engineering Services Staff (Consultant)

Staffing by Group

The opposing graphs represent planned vs. actual staffing levels by group.

Metro staffing includes full time staff located in the IPMO as well as part-time support located at Gateway Headquarters.

Staffing plans are developed for each fiscal year based on project needs.

QUALITY ASSURANCE

- Attended weekly Metro and construction progress meetings for C1151 FKTP, C1152 TPOG and C1212 Swinerton contracts.
- Held QA/QC meetings with C1151 FKTP, C1152 TPOG and C1212 Swinerton Quality Teams.
- Attended QMO Priority Meeting for both C1151 and C1152 Construction and Process Assessments.
- Attended C1212 VA Parking Structure Swinerton subcontractors' preparatory meetings,
 CWP workshops and Readiness Review Meetings
- Coordinated with Metro Inspections and test lab to perform oversight testing on C1152 stations. Including shotcrete application, welding inspection, NDT testing of SOE onsite/offsite, struts and walers installation/ fabrication, and C1212 retaining wall concrete placement testing.
- Review and provide disposition and comments to C1151, C1152 and C1212 submittals and RFIs.
- Conducted <u>new assessments</u> and issued subsequent conforming or non-conforming items for:
 - C1151 (Tunnels Contract)
 - 01 35 35 Water Pollution Control
 - ➤ C1152 (Stations Contract)
 - UCLA Station Storm Drain Line A-3 Later 5 & 7
 - UCLA Station Soil Nail Installation
 - VA and UCLA Station Shotcrete Operation
 - VA and UCLA Station SOE Mass Excavation/Lagging/Welding (Onsite & Offsite)
 - > C1212 (VA Parking Structure)
 - Light pole and bollards Concrete Placement
 - Earthwork / Backfill Operation
 - Concrete Placement for Retaining Wall
- Conducted <u>on-going monthly assessment</u> and issued subsequent conforming or nonconforming items for following:
 - C1151(Tunnels Contract)
 - Cross Passage Excavation / Shotcrete / Grouting application
 - > C1152 (Stations Contract)
 - VA Station and UCLA Station SOE Shop Fabrication Welding (Struts, Walers, Bracing) At Fontana Yard
 - VA and UCLA Stations Field Welding Inspection on SOE Struts, Walers, And Utility Bracing Installation
 - VA and UCLA Station SOE Mass Excavation / Lagging Installation / Struts Jacking and Strain Gauge Installation
 - UCLA Station Soil Nail Installation

ENVIRONMENTAL

- Conducted field environmental monitoring and inspections for environmental compliance and VA/UCLA MOA's for FKTP and TPOG.
- Paleontological monitoring at Westwood/UCLA and Westwood/VA Stations during excavations.
- Conducted coordination with contractor for storm preparation of work sites.
- Initiated work in GSA for parking lot resurfacing and system installation.
- Conducted coordination with Metro Arts program on VA Wilshire mural for decommissioning.

CONSTRUCTION AND COMMUNITY RELATIONS

- Attended/participated in the following meetings: Construction Management meetings for the D Line Tunnels and Stations contracts, Sections 2 and 3 Construction Coordination, LADOT, LABOE, Tishman-Speyer coordination, Westwood Medical Plaza coordination meetings, discussions regarding Art and Mural and two preparatory meetings for the April 2nd End of Tunneling Press Event.
- Produced and distributed 44 construction work notices for work at the Westwood/UCLA station, the Westwood/VA station and for work related to the extraction of Section 3 tunnel boring machines in Century City.
- Hosted quarterly online community outreach meeting for PLE Sections 1, 2 and 3, highlighting the project's construction progress and mitigation activities for community stakeholders.
- Provided site visit/tour of the future Westwood/UCLA station to select property manager stakeholders, showcasing station construction progress and milestones.
- Continued coordination with major stakeholder groups including LA City Council
 Districts 5 and 11, Department of Veterans Affairs, County of Los Angeles, UCLA,
 Westwood Village Business Improvement District, and the Century City Building
 Managers.
- Updated Social Media Platforms Facebook and Twitter and Metro.net, as needed.
- Attended preparatory meetings for April 2nd End-of-Tunneling Celebration event and for planning discussions for a Spring 2024 decommissioning ceremony for the Veteran Legacy mural at the West Los Angeles VA Medical Center.

CREATIVE SERVICES

- Held artwork design feedback meetings for the Westwood/VA Hospital Station artworks in progress with LA Veterans Collaborative, Los Angeles County Department of Military and Veterans Affairs Town Hall in Long Beach and LA County Veterans Advisory Regular Commission.
- Continued management of artwork design development for integrated station artworks.
- Ongoing assessment of Project operating impacts to signage between sections and systemwide.
- Continued coordination with arts and cultural stakeholders.
- Continued coordination with LA County and VA on "Veterans Legacy Art Project."

SAFETY AND SECURITY

Contract C1151 Tunnels

- Metro Project Safety staff attended weekly Toolbox Meetings, Progress Meetings, readiness reviews, and other project meetings to evaluate Contractor's Safety Program compliance with contract requirements.
- Metro / FKTP-JV project safety staff conducted schedule, safety / security and over-theshoulder review meetings.
- Metro Project Safety staff worked regularly with Program Management and Construction Relations staff to monitor issues related to public concerns regarding noise, traffic, and public/construction interfaces as well as public interactions with the construction crews.
- Metro Project Safety staff conducted project Safety Orientation, SCSR and H2S Safety Training for new Metro / Consultants and IPMO project staff.
- Metro Project Safety staff conducted right-of-way (ROW) and safety/security walks, safety/security reviews, and coordination with FKTP-JV staff for oversight and support of all project field work activities.
- Metro Project Safety hosted the *March* Monthly Safety and Security Meeting for Section 3 Westside-Purple Line Extension Contractors on *March* 29, 2024.
- Frontier-Kemper-TutorPerini (FKTP-JV) reported Zero (0) Recordable Injury in *March* 2024.
- FKTP-JV reported 19,488 actual work hours through March 2024.
- FKTP-JV Project to Date through March 2024, Contractor FKTP-JV Work Hours are 1,692,436.
- FKTP-JV Project to Date, there are Twenty-One (21) Recordable Injuries and Five (5) Days Away from Work Injuries. *The Recordable Injury Rate of 2.48.* The Bureau of Labor Statistics reports the National Average Recordable Injury Rate is 2.4.

Contract C1152 Stations, Trackwork, Systems, and Testing

- Metro Project Safety staff attended weekly Toolbox Meetings, Progress Meetings, readiness reviews, and other project meetings to evaluate Contractor's Safety Program compliance with contract requirements.
- Metro/(TPOG-JV) project safety staff conducted schedule, safety/security, and over-theshoulder review meetings.
- Metro Project Safety staff conducted project Safety Orientation, SCSR and H2S Safety Training for new Metro/Consultants and IPMO project staff.
- Metro Project Safety hosted the February Monthly Safety and Security Meeting for Section 3 Westside-Purple Line Extension Contractors on *March 29, 2024*.
- Metro Project Safety staff conducted project Safety Orientation for new Metro/Consultants and IPMO project staff.
- Metro Project Safety conducted right-of-way (ROW) and safety/security walks, safety/security reviews, and coordination with TPOG-JV staff for oversight and support of all project field work activities.

- TutorPerini-O&G (TPOG-JV) reported One (1) Recordable Injuries in March 2024.
- TPOG-JV reported *35,681* actual work hours through *March* 2024.
 - TPOG-JV provided and included an updated tabulation correction of 13 Work Hours for previous months of 2024.
- TPOG-JV Project to Date through February 2024 Contractor TPOG-JV Work Hours is 1,529,597.
- TPOG-JV Project to Date, there are *Three (3) Recordable Injuries* and Zero (0) Days Away from Work Injuries. *The Recordable Injury Rate of 0.39*. The Bureau of Labor Statistics reports the National Average Recordable Injury Rate is 2.4.

APPENDIX

CHRONOLOGY OF EVENTS

January 2011 FTA approval to enter Preliminary Engineering

August 2012 FTA Record of Decision

April 2017 Issued RFQ for C1151 Tunnels Design/Build Contract

May 2017 Issued IFB for C1153 AUR Contract

September 2017 Issued RFQ for C1152 Stations, Trackwork, Systems & Testing

Design/Build Contract

January 2018 Issued NTP for C1153 AUR Contract

April 2018 C1153 Contractor commenced work

August 2018 FTA approval to enter New Starts Engineering Phase

September 2018 Received FTA approval for Letter of No Prejudice for C1151 Tunnels

Contract

November 2018 Issued Contract Award for C1151 Tunnels Contract

December 2018 FTA completed environmental review of 23 CFR §771.130 (c)

January 2019 Issued NTP for C1151 Tunnels Contract

April 2019 Received FTA's Letter of No Prejudice for C1152 Stations Contract

May 2019 Issued Contract Award for C1152 Stations Contract

June 2019 C1153 AUR Contract achieved Substantial Completion

July 2019 Issued NTP for C1152 Stations Contract

September 2019 FKTP began SCE Ductbank Construction

December 2019 Partial VA Site Access Given for Tree Removal

January 2020 Access to Tail Track Exit Shaft & Western Staging Area

February 2020 UCLA Lot 36 Access Given to TPOG

March 2020 FTA Executed FFGA

June 2020 FKTP Completed SCE Ductbank Construction

Purple (D Line) Extension Transit Project Section 3 Quarterly Project Status Report

| July 2020 | Began TBM Assembly in the Tail Track Exit Shaft |
|----------------|--|
| October 2020 | TBM #1 Began Initial Tunnel Operations on October 23, 2020 |
| November 2020 | Access to VA Campus Lot 42 |
| December 2020 | Installation of Starter Gantry for TBM #1 (BR) |
| January 2021 | TBM #1 (BR) Bore the first 415 feet. Permeation Grouting at Sepulveda started |
| February 2021 | Removal of Starter Gantry for TBM #1 (BR) |
| March 2021 | Installation of Starter Gantry and Cradle for TBM #2 (BL). Start Utilities Relocation in VA. Westwood/VA Station SOE pile installation started. |
| April 2021 | Commission TBM #2 (BL) Starter Gentry & Start Boring. SOE Piling at VA started |
| May 2021 | Storm Drain and Sanitary Sewer in VA completed |
| June 2021 | West Endwall at VA completed |
| July 2021 | Removal of Starter Gantry for TBM #2 (BL) |
| August 2021 | UCLA Station SOE Pile Installation Started (Install West to East). Westwood/VA SOE pile installation complete. TBM #1 (BR) resumed full-mode mining. |
| September 2021 | East Endwall at Westwood/VA Hospital Station completed. Permeation grouting work underneath Sepulveda Blvd completed. |
| October 2021 | Install Soldier Piles Wilshire North - Stage 1 East - Gayley to Westwood. |
| November 2021 | TBM #1 (BR) completed continuous mining underneath I-405 freeway and 96" MWD feeder. TBM #2 (BL) resumed full-mode mining. |
| December 2021 | Contract C1204 – Shuttle and Valet Services During Construction of the Westwood/VA Station awarded to Everpark Inc. and NTP issued. |
| January 2022 | BL TBM and BR TBM completed mining through the Westwood/VA Station and proceeding to the Westwood/UCLA Station. VA steam tunnel relocation work initiated. |
| February 2022 | Concrete placement for the Construction on VA steam tunnel concrete cradle initiated. BR TBM reached the Westwood/UCLA Station, and the BL TBM completed the I-405/Sepulveda crossing. |

Purple (D Line) Extension Transit Project Section 3 Quarterly Project Status Report

| March 2022 | Installation of reinforced concrete pipes for the VA Steam tunnel commenced and was completed in the month. TBM #2 (BL) reached Westwood/UCLA Station. |
|----------------|--|
| April 2022 | First hyperbaric intervention for tool changes on TBM #2 (BL). |
| May 2022 | TBM #1 (BR) completed 50% of the tunnel drive. TBMs successfully passed through the location of Westwood/UCLA station. Casting of C1151 tunnel linings 75% complete. |
| June 2022 | TBM #2 (BL) completed 50% of the tunnel drive. |
| July 2022 | Current phase of Westwood/UCLA SOE piles complete (87% of piles) - SOE to be completed following pile installation for entrances in 2024. |
