TRAFFIC ADVISORY

NOTE NEW DATES

The Pasadena Freeway from the Avenue 60 exit north to its northern terminus in Pasadena will be subject to lane closures on May 24 between 6 a.m. and 2 p.m. to allow reconstruction of the Arroyo Seco Bridge.

On the northbound side, the right lane will close at 6 a.m. and reopen at 2 p.m. The southbound side will be unaffected.

The Arroyo Seco Bridge is being reconstructed to make it earthquake safe for the new Pasadena Blue Line. The reconstruction will preserve the historic bridge's original appearance.
