FOR IMMEDIATE RELEASE

Metro Statements: Regarding Passage of Infrastructure Bonds 1A, 1B, 1C

- Gloria Molina, Los Angeles County Supervisor, Metro Board Chair:

“Metro lauds California voters for passing these ballot measures. Clearly, voters recognized that these critical transportation bonds will have significant, far-reaching benefits for our region. And they’re right. The funding will help us resolve many of the pressing transportation challenges affecting California—and they will help us expedite our goals faster than would normally be possible. As Chair of Metro’s Board of Directors, I look forward to working with the Los Angeles County delegation to ensure that our region receives its fair share of funding from these measures.”

- Metro CEO Roger Snoble:

“The passage of these propositions signals a real mandate by voters to tackle our region’s mobility challenges head on. By their vote, our residents have said they want and need real transportation solutions, and they are willing to pay for these improvements.

These bond funds will enable us to realize many of the objectives in our Long Range Transportation Plan on a much earlier timeline. That will mean faster relief to some the region’s most congested roadways. Working with Caltrans, we have already identified several urgent, ready-to-go transportation improvements that could be eligible for immediate funding. These recommendations will be prioritized by the Metro Board at its next Board meeting in December, and will then be submitted to Sacramento for competitive bid early next year. We have the roadmap for Los Angeles County’s better mobility, and working together, we can make it happen.”
