About Metro

Metro is a multimodal transportation agency that is really three companies in one: a major operator that transports about 1.4 million boarding passengers on an average weekday on a fleet of 2,200 clean air buses and six rail lines, a major construction agency that oversees many bus, rail,

highway and other mobility related building projects, and the lead transportation planning and programming agency for Los Angeles County. Overseeing one of the largest public works programs in America, Metro is changing the urban landscape of the Los Angeles region. Dozens of transit, highway and other mobility projects largely funded by Measure R are under construction or in the planning stages. These include five new rail lines, enhanced bus operations, and numerous highway and local projects.
