**FOR IMMEDIATE RELEASE**

**C Line (Green) to suspend weekend service between Hawthorne/Lennox and Redondo Beach Stations on May 1, 15 and June 19, 2020**

The Los Angeles County Metropolitan Transportation Authority (Metro) will suspend rail service on the C Line (Green) between Hawthorne/Lennox and Redondo Beach Stations for three weekends beginning May 1, May 15 and June 19, 2020 to connect with the future Crenshaw/LAX Line.

Construction work is scheduled to begin at 7 p.m. each Friday night and conclude by 12 a.m. each Monday morning.

Metro will provide a free bus shuttle service to the following rail stations that will be out of service: Hawthorne/Lennox, Aviation/LAX, Mariposa, El Segundo, Douglas, Redondo Beach stations.

Shuttle buses will run every 15 minutes from 10 a.m. until 6 p.m. and every 20 minutes at other times. Metro recommends passengers plan in advance their commute times and allow extra time.

Regular C Line rail service will continue between Norwalk and Hawthorne/Lennox stations, where passengers will transfer to bus shuttles to continue their trip.

The Crenshaw/LAX Transit Project is an 8.5-mile light rail line with eight new stations that will serve the Crenshaw, Inglewood, Westchester and LAX communities.

An additional station is currently under construction at Aviation Boulevard and 96th Street where Crenshaw/LAX Line and C Line (Green) riders will be able to transfer to the LAX Automated People Mover to access airport terminals.

Metro thanks riders for their patience as the agency continues working toward the completion of the Crenshaw/LAX Transit Project.

For those planning to go to Los Angeles International Airport (LAX), the LAX Shuttle G operated by Los Angeles World Airports (LAWA) will continue to run its regular service from its usual stop at Aviation/LAX Station. Other options to LAX include Metro Lines 102, 111, 117 and 232.

**About Metro**

The Los Angeles County Metropolitan Transportation Authority (Metro) is building the most ambitious transportation infrastructure program in the United States and is working to greatly improve mobility through its [Vision 2028 Plan](#). Metro is the lead transportation planning and funding agency for L.A. County and carries about 1.2 million boardings daily on a fleet of 2,200 low-emission buses and six rail lines.
