TABLE C:

Cities of 25,000 or More

(For explanation of symbols, see page xvii)

Note:
Table C presents 170 data items for 945 incorporated cities, boroughs, towns, and villages in the United States and 7 census designated places in Hawaii that had 25,000 or more inhabitants in April 1980. Cities, boroughs, etc. are presented in alphabetical order within States, which are also in alphabetical order. Items are numbered from 1 to 170 across the top of the pages. All 170 items of data are provided before the listing is continued (i.e., all data for Anniston, Ala., are presented on pages 650 through 659). Census place codes for cities, with MSA/PMSA and State codes, are shown in the first two columns on the first page within each set of 10 pages.
