I. L. MORHAR, ROAD COMMISSIONER

0193

P R E F A C E

This compilation of traffic count data covers automatic machine counts made by the Los Angeles County Road Department for the period January 1, 1962 through December 31, 1966. The information has been gathered from the unincorporated areas of the County with the exception of those indicated as being in a city by the abbreviated name of the City in the Road Division column. The abbreviations APRCH and EXIT in the Condition Column indicate that the traffic was counted in one direction only, as vehicles were approaching or leaving the intersection of the reference streets.

It is requested that any questions pertaining to the information presented in this book be referred to the Traffic Operations Section of the Traffic and Lighting Division, 1540 Alcazar Street, Los Angeles, California, 225-1677, Extension 75045.
