CEO Roger Snoble

In this issue:

- [APTA Tunnel Peer Review Panel Briefing Documents](#)
- [Metro Orange Line Pre-Revenue Service](#)
- [Agency-wide Risk Assessment](#)

APTA Tunnel Peer Review Panel Briefing Documents

The Los Angeles Times has requested a copy of a briefing binder that has been compiled and provided to the APTA Tunnel Peer Review Panel. The briefing binder contains various reports on a number of tunneling project throughout the city as well as background information on the Metro Red Line project and tunneling technical reports. The reporter also requested the names of the peer review panel members, when they plan to meet, and when will they complete their report. Board members interested in receiving a copy of the briefing binder given to the peer review panel can contact Rick Thorpe in Metro's Construction Project Management Office at (213) 922-7267.

Metro Orange Line Pre-Revenue Service

Metro Orange Line pre-revenue service will start this coming Sunday with the first Metro Liner leaving eastbound from Warner Center at 3:40 a.m and westbound, leaving the North Hollywood station at 4:43 a.m. The 60-foot articulated coaches will crisscross the San Fernando Valley on a minute-by-minute schedule mirroring the daily commuter service. The headways will be timed to match the arrival and departure of Metro Red Line trains at the North Hollywood Station.

Agency-wide Risk Assessment

When the Board approved the Financial Standards, they required that we conduct an annual risk assessment. At my direction and under the leadership of Management Audit Service (MAS), the agency wide risk assessment project has been initiated. KPMG LLP has been selected to conduct the risk assessment with MAS.

A memo will be going out shortly inviting you to participate in the process. I would like to obtain your input and feedback on key areas of risk.
