Metro Electric Vehicle Charge Stations are Now Open

Metro Electric Vehicle Charge Stations are Now Open

Twenty electric vehicle (EV) chargers at four Metro Park and Ride locations and Union Station are now fully open. This pilot effort is funded through a grant from the California Energy Commission. The electric vehicle chargers could be found at Union Station, Sierra Madre Villa, Universal City/Studio City, El Segundo, and Willow Street stations. This configuration allows EV owners to strategically plan their trip using a combination of EV and transit, particularly rail, to reach their destinations. Metro is the first transit agency in the nation to introduce and operate EV charge stations at its Park & Ride lots. Use and pricing information can be found at www.metro.net/ev.
