

# MTA LEGISLATIVE BRIEF

DATE: July 31, 1996

TO: BOARD OF DIRECTORS  
FROM: RAE JAMES

MTA staff has had the opportunity to review recent amendments to SB 1505 concerning the transition between the current seven-year STIP cycle and the proposed four-year STIP. The amendments satisfactorily address the transition issue for Los Angeles County. Staff believes that these amendments, coupled with an amendment which changes the date on which county entitlement calculations are based so that the basis for the calculation is the 1996 STIP, rather than the 1994 STIP, meet the conditions for support established by the MTA Board at its June meeting. Staff will communicate this to the bill's author, Senator Quentin Kopp, and to the Los Angeles County legislative delegation.

If you would like any further information on this bill, please contact Claudette Moody at (213) 922-2237.
