Ronald Reagan Freeway (SR-118) to Hollywood Freeway (SR-170)

Improvements:

HOV lane in each direction and direct HOV connector at I-5/SR-170 interchange

Schedule:

Construction started late 2010

Completion:

Late 2014

Cost:

\$140 million*

Ronald Reagan Freeway (SR-118) to Hollywood Freeway (SR-170)

View the project map

Caltrans is constructing a high occupancy vehicle (HOV or carpool) lane in each direction for vehicles with two or more passengers along the Golden State Freeway (I-5) between Ronald Reagan Freeway (SR-118) and Hollywood Freeway (SR-170) in Arleta and Pacoima. In addition, a direct HOV connector is being constructed at the I-5/SR-170 interchange so carpoolers can travel from one freeway directly to another without leaving the HOV lane. This project will improve traffic flow, relieve congestion and encourage ride sharing. The project investment is \$140 million and is expected to be completed in late 2014.

Caltrans has a multi-faceted public outreach program in place to inform the public of the construction effort. Notices of community meetings and updated construction advisories will be posted on this website periodically. Thank you for your patience. For more information, please call toll-free (855) 454-6335.
