Local Hire Initiative

Executive Summary

Local Hire Initiative

Executive Summary

Traditionally, federal procurement regulations do not permit agencies, like Metro, to require bidders to establish local hiring programs or to take such programs and local hiring directly into account in the bid evaluation process. The historical rationale for this prohibition is that the federal gas tax (18.4 cents per gallon) is collected from around the Nation and therefore all individuals and companies in the U.S. should have access to any given project.

Metro believes the current federal procurement regulation does not take into account the new reality of how transportation projects are financed, which today, is often through a majority of funds being derived from local dollars. For example, at present and into the future, over 80% of Metro's budget for operations and capital projects will be funded through tax dollars from Los Angeles County residents.
